R. HARDIE,
Secretary and Treasurer

PUBLIC DEBT OFFICE, BANK OF BENGAL.
Calcutta, the 17th July 1883.

(1353—1)

NOTICE.

PUBLIC WORKS DEPARTMENT, IRRIGATION BRANCH.

1. OFFERS are invited from private firms or companies desirous of taking over the steam transport service now kept up by Government on the Sone Canals.

2. Copies of the following documents relating to the service may be had on application to the Under-Secretary in this Department, Writers' Buildings, Calcutta, or to the Superintending Engineer, Sone Circle, Arrah, Shahabad:—

I.—Description of the steamers employed.

II.—General rules under which the service is now conducted, shewing also the fares charged and distances run.

III.—Detailed statement shewing the receipts and working expenses of the service during the year 1882-83.

3. The tolls leviable, under Act V (B.C.) of 1864, on boats or steamers plying in the Sone Canals are shewn in a notice published in the *Calcutta Gazette* for the 18th January 1882, Part I, page 59. They are in amount as follows:—

	Per 100 maunds of displacement. Rs. A. P.
Arrah Canal—	
Dehree to Arrah railway bridge	2 3 0
Buxar Canal—	
Bedadi to railway, Buxar	2 0 0
Patna Canal—	
Baroon to railway, Khagoul	2 15 0

4. The purchase of the steamers now employed on the canals must form an integral part of any tender. The descriptions of the steamers referred to in paragraph 2 of this notice are believed to be correct, but persons proposing to tender should examine the boats for themselves, as no errors of description will be admitted as a reason for cancelling a tender.

5. Reduced rates of tolls may, for a period not exceeding one year, be stipulated for; but in that case the fixed intervals at which the steamers will run must be mentioned in the tender, and the maintenance of an effective service will be required as a condition of the concession.

6. The Government will, so long as a service is regularly carried on, cease from carrying passengers by boat or steamer, or goods not required for Government works.

7. No exclusive concession can be granted, the canals being open to all boats, whatever the motive power, on payment of the tolls prescribed by law.

8. It is proposed to make over the service, should a tender be accepted, from the 1st of October next, but a later date may be named.

9. All tenders must be addressed to the Secretary to the Government of Bengal in the Public Works Department, and must be accompanied by a receipt from the officer in charge of the Third Calcutta Division, or from some Executive Engineer for Rs. 500 earnest-money, to be forfeited if the person tendering fails to carry out the offer made. Tenders will be received up to the 1st of September next.

10. The highest or any tender will not necessarily be accepted.

J. M. HEYWOOD,

Joint-Secy. to the Govt. of Bengal,

PAPER CURRENCY DEPARTMENT, the 24th July 1883.

Tenders for Labour, Northern Bengal State Railway.

TENDERS are invited for loading and unloading at Para Ghat from railway wagons to flats, steamers, or boats, and *vice versa*, all goods specified in the Northern Bengal State Railway Goods Classification, and also parcels and luggage booked through between the Northern Bengal State Railway and Eastern Bengal Railway.

For purposes of this contract all through goods are divided as under, and rates should be quoted for each description—

(1) All through goods, excepting those specified below.

(2) Hides and skins, loose or in bundles.

(3) Railway material and machinery for the public or the railway, when any single article or package exceeds five maunds in weight.

(4) Heavy packages, weighing one ton and over.

(5) Heavy packages, weighing one ton and over, when crane power is supplied by the Railway.

(6) Carriages of all descriptions, per wheel.

(7) Coal for railway purposes from flats or boats, or stacked on shore, into wagons, steamers or bunkers at option of the Railway.

(8) Luggage and parcels booked by passenger trains to be loaded within the time allowed in the Railway Time Bill. The coolies for this work must be registered and dressed in such uniform as may be required by the authorities of the Northern Bengal State Railway at contractor's expense.

The goods to be loaded into vessels from wagons at the rate of 500 maunds per hour per each stage supplied, and from vessels into wagons at the rate of 400 maunds per hour per each stage supplied.

An agreement and bond on the prescribed form must be signed by the person whose tender is accepted one week after its acceptance, and for the due performance of the contract a sum of Rs. 2,000 in cash or Government securities, endorsed to the Manager, must be deposited; a sum of Rs. 500 to be forwarded with tender as earnest money, which sum will be returned to unsuccessful tenderer and forfeited absolutely by the person whose tender is accepted should he fail to deposit the full amount of the security mentioned above one week after its acceptance.

The Manager does not bind himself to accept the lowest or any tender.

Further particulars may be obtained by application to the undersigned.

By order,

G. S. LEONARD, Traffic Superintendent.

Traffic Superintendent's Office, Saidpur, 20th July 1883.

Serampore Municipality.

DEBENTURE LOAN OF Rs. 20,000.

THE Commissioners have obtained the sanction of the Government of India, under section 7 of Act XI of 1879, "The Public Works Loan Act," to raise a loan of the above sum in the open market on the security of the rates, taxes, and fees levied by them under Act V of 1876 (B C), Regulation VI of 1879, Act I of 1871, Act V of 1866, Act V of 1861, Act II of 1867, Act IV of 1873, and Act VI of 1878.

Tenders are hereby invited, and will be received up to 1st October 1883, for the whole or any part of the above-named sum.

Negotiable debentures will issued of Rs. 500 each, and the loan will be repayable by equal half-yearly instalments with interest at 4½ per cent. on the 1st April and 1st October, commencing on the 1st April 1884.

Parties tendering are required to pay into the sub-divisional treasury, to the credit of the Commissioners, 2 per cent. of the amount tendered by way of security

Tenders to be made in prescribed form which may be had on application at the office of the Commissioners, and to be enclosed in sealed covers marked, "Serampore Municipality Market Loan."

The amount of the accepted tender or tenders to be paid in one instalment within one month from date of acceptance of tender.

The time for opening tenders will be duly intimated in writing to the tenderers.

F. R S. COLLIER, Chairman.

(FORM OF TENDER.)

I do hereby tender for rupees of the loan advertised for in the *Calcutta Gazette*, dated the 18th July 1883, and agree to pay for the same subject to the conditions specified at the rate of rupees for every hundred allowed to me.

I enclose a deposit receipt of the Sub-divisional Treasury Officer for Rs. by way of security, and do hereby bind myself, if my tender be accepted, to pay to the credit of the Commissioners at the sub-divisional treasury office the whole sum tendered for by me before the 31st October 1883.

(FORM OF DEBENTURE)

SERAMPORE MUNICIPALITY.

No. , dated 1883.

By virtue of the authority given by the Government of India under section 7 of Act XI of 1879, "The Public Works Loan Act," we, the Commissioners of the Municipality of Serampore, in consideration of the sum of Rs. 500 paid to us by of promise to repay in equal half-yearly instalments to the said or his heirs or assigns the said sum of Rs 500 after the date hereof, together with interest thereon at the rate of 4½ per cent. per annum payable half-yearly on the 1st April and 1st October.

Chairman.
Commissioners.

(1334—6)

Notice.

THE Public are hereby informed that the well-known Kartick Baruni Mela, which is held every year on the banks of the Dhaleshwari, near Munshigunge, in the district of Dacca, will commence on the 15th November 1883 A.D., corresponding to the 29th Kartick 1290 B.S., and continue up to the 25th December 1883. Tradesmen, dealers, and others may buy and sell there during these six weeks.

A. W. PAUL, Magistrate of Dacca.

Calcutta Hydraulic Press Company, "Limited."

THE Share Transfer Books of the Company will be closed from the 25th July to the 7th August next, both days inclusive.

By order of the Board,
EMILE CHARRIOL & Co.,
(1360—1) Agents and Secretaries.

Bishnauth Tea Company, Limited.

NOTICE is hereby given that a dividend, on account of season 1882, at the rate of 6 per cent. on the paid-up capital of the Company, has been declared payable on 5th proximo. Warrants will be issued to registered shareholders on application.

By order of the Board,
WILLIAMSON, MAGOR & Co., Secretaries.
Calcutta, the 29th June 1883. (1310—4)

Destroyed.

THE Government Promissory Note No. 038264 of the four per cent. of 1865 for Rs. 500, originally standing in the name of Gopaul Chunder Sreemany, and last endorsed to Brojo Coomary Dossy, the proprietress, by whom it was never endorsed to any other person. Payment of the above note and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and application is about to be made for the issue of duplicate in favour of the proprietress.

SOSHE BHUSHAN BYSACK.

JOHN ELIOT, M.A., *Meteorological Reporter to the Govt of Bengal.*

Calcutta, the 26th August 1875.

The Indian Law Reports.

Published under Authority of the Governor-General in Council.

THE Reports appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series.

The Parts of each series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set.

Terms of subscription, payable annually in advance.

	Without postage.	With postage.
For the Calcutta Series...	Rs. 35	Rs. 40
„ Madras Series ...	„ 8	„ 9
„ Bombay Series...	„ 8	„ 9
„ Allahabad Series	„ 8	„ 9
Complete set	45	„ 50

The Price of each part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following:—

	Rs.	A.
For a part of the Calcutta Series ...	3	8
„ „ Madras Series ...	1	0
„ „ Bombay Series ...	1	0
„ „ Allahabad Series ...	1	0
Complete set	4	0

Persons desiring to subscribe for or purchase the Reports, should apply to—

Messrs. Thacker, Spink and Co., Calcutta;
„ Thacker, Vining and Co.;
„ Higginbotham and Co., Madras;
The Government Central Book Depôt, Bombay;
The Government Book Depôt, Allahabad.

Notice.

THE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:—

1*st*.—Bay of Bengal Daily Report giving observations taken at 17 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Calcutta Storm Signal Service. The report giving 10 A.M. observations of the day is distributed by peon in Calcutta after 4 P.M. Price to subscribers in Calcutta, Rs. 2 per mensem.

2*nd*.—Bengal Daily Report containing observations taken at 30 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, *i.e.* from May, 15th, to November, 15th. Price Rs. 2-8 per mensem, including postage.

3*rd*.—A Weekly and Monthly Statement of Meteorological Observations taken at 88 observing stations, and of rainfall recorded at 160 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

JOHN ELIOT,
Meteorological Reporter to the Govt. of Bengal.

Meteorological Office, Bengal, the 3rd July 1883.

PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Third publication]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 20th June, 1883, and was referred to a Select Committee on the 27th idem :—

No. 15 OF 1883.

A Bill to amend the Native Passenger Ships Act, 1876.

VIII of 1876.

Preamble.

WHEREAS it is expedient to amend the Native Passenger Ships Act, 1876, with a view to provide for the better regulation of the passenger traffic between British India and ports in the Red Sea; It is hereby enacted as follows :—

Short title.

1. This Act may be called the Native Passenger Ships Act, 1883;

Commencement.

and it shall come into force on such day as the Governor General in Council directs by notification in the *Gazette of India*.

VIII of 1876.

Addition to section 11 of the Native Passenger Ships Act, 1876.

2. After clause (*e*) of section 11 of the Native Passenger Ships Act, 1876, the following clause shall be added :—

"(*ee*) in the case of any ship sailing to any port in the Red Sea, that she is propelled principally by steam, and, if she is carrying more than one hundred passengers being Natives of Asia or Africa, that she has on board a medical officer licensed in accordance with rules to be made under this Act.'

Substitution of new section for section 26 of the same Act.

3. For section twenty-six of the same Act, the following section shall be substituted :—

Bond where ship clears for port in Red Sea.

"26. In the case of every ship sailing from any port in British India to any port in the Red Sea, the officer whose duty it is to grant a port-clearance for any such ship shall not grant the clearance unless and until the owner, agent or master of the ship and two sureties resident in British India have executed in favour of the Secretary of State for India in Council a joint and several bond, for the sum of Rs. 5,000, conditioned—

"(*a*) that the ship shall touch at Aden on the outward voyage and there obtain a clean bill of health, and shall do the same on the homeward voyage if the ship continues to carry more than sixty passengers; and

"(*b*) that the master and medical officer (if any) of the ship shall comply with on the outward voyage, and also on the homeward voyage if the ship continues to carry more than sixty passengers, the provisions of this Act and of such rules relating to ships sailing between ports in British India and ports in the Red Sea as the Governor General in Council may, from time to time, make under section forty-six."

Amendment of section 27 of same Act.

4. In section twenty-seven of the same Act, for the word "thirty" the word "sixty" shall be substituted.

Addition to section 28 of the same Act.

5. To section twenty-eight of the same Act the following words shall be added :—"and the authority empowered to grant the same may refuse to grant a bill of health in the case of any ship on board of which the requirements of the rules made under section 46 are not complied with."

Addition of new sections after section 28 of same Act.

6. After section twenty-eight of the same Act, the following sections shall be added :—

Certain ships to carry medical officer.

"28A. Every ship sailing from or to any port in British India to or from any port in the Red Sea and carrying more than one hundred passengers being Natives of Asia or Africa shall have on board a medical officer licensed in accordance with rules to be made under this Act.

Certain ships to be propelled by steam.

"28B. Every ship sailing from or to any port in British India to or from any port in the Red Sea shall be propelled principally by steam.

"28C. *(1)* The Governor General in Council may, from time to time, by notification in the *Gazette of India*, direct that no passenger of such class as may be specified in the notification shall be received on board any ship sailing from any port in British India to any port in the Red Sea unless and until he has obtained a certificate from a medical officer to be appointed by the Local Government in this behalf, to the effect that he has been examined by that officer and is not suffering from any dangerously infectious or contagious disease, and is in a fit state of health to undertake the voyage to the port in the Red Sea for which he is bound.

Power for Governor General in Council to issue notification requiring medical inspection in case of certain passengers.

(2) The Governor General in Council may cancel or alter, either in whole or in part, any notification which may at any time be issued under this section.

Addition of new sections after section 38 of same Act.

7. After section thirty-eight of the same Act, the following sections shall be added:—

"38A. If the master of any such ship as is referred to in section twenty-seven, or any medical officer in charge of any such ship, wilfully breaks, or omits or neglects to obey, any rule with regard to those ships made under section forty-six, he shall be punished with fine which may extend to five hundred rupees, or with imprisonment for a term which may extend to three months, or with both.

Penalty on master or medical officer of certain ships disobeying rules.

"38B. If any ship sailing from or to any port in British India to or from any port in the Red Sea and carrying more than one hundred passengers has not on board a medical officer as required by section 28A, the master of the ship shall be punished with fine which may extend to five hundred rupees, or with imprisonment for a term which may extend to three months, or with both.

Penalty on master of certain ships sailing without medical officer.

"38C. The owner and master of any ship sailing from or to any port in British India to or from any port in the Red Sea and not principally propelled by steam shall be punished with fine which may extend to five hundred rupees, or with imprisonment which may extend to three months, or with both.

Penalty on owner and master of certain ships not propelled by steam.

"38D. If the master of any ship, while a notification under section 28C is in force, knowingly receives on board his ship any person in contravention of that notification, he shall be punished with imprisonment which may extend to three months, or with fine which may extend to five hundred rupees for each person so received, or with both."

Penalty on master receiving passenger in contravention of a notification under section 28C.

8. After clause (*b*) of section forty-six of the same Act, the following clause shall be added:—

Additions to section 46 of same Act.

"(*bb*) the licensing and appointment of medical officers in cases where they are required, under this Act, to be carried";

and after clause (*e*) of the same section the following clauses shall be added:—

"(*ee*) the functions of the master, medical officer (if any) and other officers of the ship during the voyage;

"(*eee*) the access of intermediate or between decks passengers to the upper deck.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to amend the Native Passenger Ships Act, VIII of 1876, with a view to provide for the better regulation of the pilgrim traffic between British India and Arabia. This traffic has formed the subject of correspondence between the Secretary of State, the Government of India and the various local maritime Governments in India. A careful consideration has brought the Government to the conclusion that the importance of the pilgrim traffic makes its detailed regulation imperative, and that, to secure uniformity of procedure, and thereby avoid the friction which must inevitably follow divergence between rules separately framed by different States, it is desirable that, in all the more important points, a common understanding should be come to among the Governments who are chiefly interested in the proper management of that traffic. The establishment of a practical coincidence between the general provisions of the local Turkish regulations and those of the law of India—the country which at present furnishes the largest number of pilgrims to the Hedjaz—can only be effected by diplomatic correspondence between the British and Turkish Governments. But, since experience has shown that the provisions of the Indian law as it at present stands are insufficient to meet the peculiar exigencies of this traffic, and that in some respects they require revision, it seems desirable, before attempting to bring about an assimilation of the British and Turkish laws, to make such amendments of our own law as are necessary to put it in a satisfactory state.

2. The Indian law on this subject is contained partly in the provisions of the Native Passenger Ships Act, 1876, and partly in those of the rules framed under that Act. With a view to the amendment of the latter, the Government of India has already submitted to the Secretary of State a copy of a draft set of rules, which have been framed on the model of those regulating the transport of emigrants from India to the English and French colonies, and which it proposes to issue under the Native Passenger Ships Act, 1876, as rules regulating the conveyance of Native passengers between the ports of India and of the Hedjaz. With a view to the amendment of the former, the present Bill has been prepared.

3. Section 2 adds to section 11 of the Native Passenger Ships Act, 1876, a provision requiring the certificate given under that section to contain in the case of a ship sailing to the Red Sea a declaration that she is propelled principally by steam, and when the ship carries more than 100 Native passengers a declaration that she has on board a licensed medical

officer. The effect of this will be that such ships will not be able to obtain a port-clearance (see section 9) unless they comply with these requirements.

4. Section 3 amends section 26 of the Act, by requiring the bond given under that section to be conditioned for the observance of the provisions of the Act and of such rules with regard to Native passenger ships sailing to the Red Sea as the Governor General in Council may make under section 46 of the Act. The object of this amendment is to enable the Government of India to enforce the observance of its rules beyond the limits of its jurisdiction.

5. The substitution (by section 4 of the Bill) of 60 for 30 as the number of passengers which must be on board a ship in order that section 27 of the Act may apply follows as a necessary consequence of the provision that all ships are to be propelled by steam (see section 2 of the Act).

6. Section 5 empowers the authorities at Aden to refuse a bill of health to a ship if the requirements of the rules are not complied with.

7. The sections (28A, 28B and 28C) which section 6 adds to the Act require every ship sailing to or from the Red Sea and carrying more than 100 Native passengers to have a licensed medical officer, and every Native passenger ship sailing to or from the Red Sea to be propelled principally by steam, and empower the Governor General in Council to issue a notification directing that no passenger of such description as may be specified in the notification shall be received on board any such ship until he has obtained a certificate from a prescribed medical officer certifying that he is not suffering from any infectious or contagious disease, and is in a fit state of health to proceed to the port to which he intends to proceed.

With regard to section 28A, the Government has no doubt that the presence of a medical officer on board will serve to diminish many of the hardships from which pilgrims now suffer, especially if he is by rule made responsible for seeing that the sanitary and dietary arrangements on board are properly managed, and if he is liable to be disqualified for any breach of duty on his own part. It may not always be possible to secure Muhammadan medical men for this service, but endeavours will be made to supply officers of that persuasion in preference to others. Section 28B speaks for itself. Section 28C may have to be enforced, at the instance of the European powers, as a precaution against the possible introduction of epidemic disease by Indian pilgrims into Arabia.

8. Section 7 imposes penalties for breaches of the requirements of the Bill.

9. Lastly, by section 8, certain words are added to section 46 of the Act to enable the Governor General in Council to make rules to regulate the licensing of medical officers and the functions of those officers and of the officers of the ship generally, and ensure to the passengers free access to the upper deck.

The 20th June, 1883.

C. P. ILBERT.

D. FITZPATRICK,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT

[Third publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 20th June, 1883, and was referred to a Select Committee on the 27th idem :—

No. 17 OF 1883.

A Bill for the protection of Inventions exhibited in the Exhibitions of India.

WHEREAS it is expedient that such protection as is hereinafter mentioned should be afforded to the inventors of new manufactures who are desirous of exhibiting them at Exhibitions to be held in India; It is hereby enacted as follows :—

Preamble.

Short title. 1. This Act may be called the Protection of Inventions Act, 1883;

Commencement. and it shall come into force at once.

Act to be read with Act XV of 1859. 2. It shall be read with and taken as part of Act XV of 1859 (*for granting exclusive privileges to inventors*).

Inventions exhibited when to be deemed new though publicly used or made publicly known. 3. If, within six months from the time of the opening of an International Exhibition, a person, being the inventor and exhibitor of any manufacture exhibited at that Exhibition, petitions the Governor General in Council under Act XV of 1859, for leave to file a specification of his invention, the circumstance that the invention has at any time after the opening of the Exhibition been publicly used or made publicly known shall not prevent the invention being deemed to have been at the time of presenting the petition a new invention for the purposes of the said Act. [cf. 33 & 34 Vic., c. 27, s. 2.]

Meaning of term "International Exhibition." 4. In this Act, "International Exhibition" means the International Exhibition to be held in the year one thousand eight hundred and eighty-four at Calcutta, and any Exhibition to be held in India which the Governor General in Council may, upon the application of any persons desirous of holding the Exhibition, by notification in the *Gazette of India*, declare to be, in the judgment of the Governor General in Council, calculated to promote Indian art or industry, and to prove beneficial to the mercantile, agricultural or industrial classes of Her Majesty's subjects in India. [cf 33 & 34 Vic., c. 27, s. 3.]

STATEMENT OF OBJECTS AND REASONS.

THIS Bill has been prepared in view of the forthcoming International Exhibition which it is proposed to hold in Calcutta next cold weather. It has been brought to the notice of Government that the want of some such protection as the Bill affords might probably deter inventors of unpatented inventions from sending them, and thus prevent the exhibition of some interesting exhibits.

2. It has been found necessary in England, and also, it is believed, in the Australian colonies, to legislate on this subject.

The Bill is drawn on the model of the Protection of Inventions Act, 1870 (33 & 34 Vic., cap. 27), but necessarily differs from it in details, inasmuch as the system of protection to inventions in force in this country differs from that in force in England in many respects, and, among others, in permitting an inventor to use his invention, or allow others to use it, publicly for a year without losing his right to protection. The effect of the Bill, if it becomes law, may be shortly stated to be that, if an inventor exhibiting his invention applies within six months from the opening of the exhibition for leave to file a specification, the circumstance of the invention having been publicly used or publicly made known after the opening of the exhibition will not affect his rights.

3. To prevent the necessity for similar legislation in the case of other exhibitions which may hereafter be held, section 4 of the Bill defines the term "International Exhibition" as meaning, not only the contemplated "International Exhibition" to be held at Calcutta, but any exhibition to be held in India which the Governor General in Council may, upon the application of any persons desirous of holding the exhibition, by notification in the *Gazette of India*, declare to be, in the judgment of the Governor General in Council, calculated to promote Indian art or industry, and to prove beneficial to the mercantile, agricultural or industrial classes of Her Majesty's subjects in India.

The 20th June, 1883.

C. P. ILBERT.

D. FITZPATRICK,
Secretary to the Government of India.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE COMMISSIONERS FOR MAKING IMPROVEMENTS IN THE PORT OF CALCUTTA FOR THE YEAR 1882-83.

GENERAL DEPARTMENT—MARINE—CALCUTTA PORT TRUST.

Calcutta, the 24th July 1883.

RESOLUTION.

READ—

The Administration Report of the Commissioners for making Improvements in the Port of Calcutta for the year 1882-83.

The usual statement of the liabilities and assets of the Trust are furnished at the beginning of the Report, but the total amount of the debt has not been correctly shown. The debt due on account of the debenture loan of 1881 is obviously the full amount of the loan, and not that amount minus the contributions to the sinking fund established for its liquidation, inasmuch as the sinking fund has been credited as an asset of the Trust. The sinking fund rightly appears in the statement of assets, and credit should not be taken for it in the debt statement also. Subject to this correction, the figures of the report show that the Port Trust commenced the year with a total debt of Rs. 79,27,830, consisting of Rs. 51,62,830 due to Government on account of the consolidated repayable debt, of Rs. 17,65,000, the non-payable book-debt, and of Rs. 10,00,000, the debenture loan raised in 1881. During the year the consolidated debt was reduced by the fixed annual payment on account of sinking fund, but another loan of 20 lakhs was contracted for new works, of which

Rs. 12,25,000 were actually received by the Commissioners before the 31st March, and the total debt on that date stood thus—

	Rs.
Consolidated repayable debt due to Government ...	50,67,967
Port book debt not repayable	17,65,000
Debenture loan of 1881	10,00,000
Due on debenture loan of 1883	12,25,000
Total ...	90,57,967

The assets of the Trust, on the other hand, exclusive of the value of the foreshore and Strand Bank lands, which the Commissioners received free of cost from the Government in 1870, amounted on the same date to Rs. 1,47,28,018. This sum represented the value, according to capital expended, of the Jetties, Wharves, Tramway, Moorings, Ships, Boats and other property belonging to the Trust, and the investments of the Jetty Reserve, the Jetty Insurance, the Port Reserve, the Depreciation and the Debenture Loan Sinking Funds. The addition made to the value of all the Trust property during the year amounted to Rs. 12,94,412.

2. After opening with the account of the present financial condition of the Trust summarised in the last paragraph, the Report proceeds to mention the various works in progress during the year, and to describe the working of the several branches into which the management of the Port is divided, but it furnishes no review of the total income and expenditure of the year, either on revenue or capital account, and the general financial results of the twelve months' administration can only be gathered by reference to the figures given in the various sections or in the appendices. A statement of the total income and expenditure of the year, on both revenue and capital accounts, with such explanatory remarks as may be necessary, would, the Lieutenant-Governor thinks, add to the completeness of the report, and he hopes that this will find a place in future reports. For the past year it appears that the total receipts on capital account, inclusive of a balance of Rs. 6,53,199 from the previous year, were Rs. 39,25,042, and that the expenditure amounted to Rs. 29,09,862, leaving a balance of Rs. 10,15,180. The revenue accounts show a total income of Rs. 31,82,162, inclusive of a balance of Rs. 6,71,018 at the commencement of the year, against a total expenditure of Rs. 27,45,523, a sum of Rs. 4,36,639 being thus left in hand at the end of the year.

3. The expenditure on new works during the year amounted to Rs 13,29,626, of which the Jetties absorbed Rs. 5,31,914, the Inland Vessels' Wharves Rs. 43,135, the Tramway Rs. 1,95,942, the Howrah foreshore road Rs. 96,374, the reconstruction of the riverside Press-house, burnt down in February 1882, Rs. 1,41,899, new vessels for the Port approaches Rs. 2,46,292, and miscellaneous works Rs 74,070. Of the outlay on the Jetties, 4¾ lakhs were expended on the extension of the jetty embankment, the building of new warehouses and the provision of additional engines and boilers for working the hydraulic cranes. The expenditure on the Inland Vessels' Wharves was mainly incurred for the construction of timber jetties for two Mills situated on the bank, and that on the Tramway for fresh rolling-stock and extensions of the lines and sidings The new vessels purchased for the Port approaches were a steamer, costing Rs. 2,30,181, required for service at the Sandheads and for the River Survey, and a steam launch. The construction of the Howrah foreshore road is advancing, but progress has been a good deal impeded by the failure of contractors to carry out their engagements, and by the difficulty of getting the occupiers of the lands taken up to remove and allow work to proceed. The section of the road between the Seebpore ghât road and Shalimar point, and an extension of 1,500 feet to Tateepara ghât road, have now been completed, and three out of the four timber depôts which formed part of the design of the former portion have been rented out and occupied by timber merchants. Among other works, the only one calling for notice is the reclamation of a strip of low ground at Kasipore which has been undertaken to provide for an extension of the Tramway. As surplus land which may be rented to private persons will be available after provision for the requirements of the Tramway, the work is likely to prove remunerative.

4. The total Jetty receipts during the year were higher than those of any previous year, except 1877-78, when unusual activity prevailed in the grain traffic on account of the Madras famine. It is satisfactory to notice that the increase has taken place entirely on account of the larger quantity of goods shipped and landed, and in spite of the reduction of the landing charges on piece-goods and twist to 4 annas per bale as compared with 4½ and 5 annas charged before the 1st April 1882. The total income for the year amounted to Rs. 7,74,230 against Rs. 7,68,047 in 1881-82, and the expenditure to Rs. 6,44,032 against Rs. 5,47,861, leaving a net income of Rs. 1,30,198 as compared with Rs. 2,20,186 in 1881-82. The increase of expenditure in the past year was mainly due to the payment of a far larger contribution than in the previous year from this head of revenue to the Port approaches, the contribution being needed to make up for the reduction of port dues from three annas to one anna per ton, which came into operation from the commencement of the year. The extent to which the Jetties have been used in the past three years is shewn in the following statement:—

Period.	Number of jetties.	Number of vessels accommodated.	Registered net tonnage.	Total number of days occupied at all jetties	Total amount contributed by vessels for use of jetties.	Average length of stay at jetties.	Average number of days each jetty was at work throughout the year.	Average amount paid by each vessel for use of jetties.	Total jetty receipts from imports and exports.	Average per vessel.	Average tonnage of vessels.
					Rs	Days		Rs.	Rs	Rs	
1880-81	8	193	324,187	1,982	73,762	10 2	248	382	7,14,180	3,700	1,680
1881-82	8	212	361 696	2,015	78,485	9 9	253	373	7,53,074	3,553	1,706
1882 83	8	199	378,907	2,161	77,672	10 8	270	390	7,58,283	3,810	1,889

Of the total income of the past year Rs. 6,63,162 were contributed by imports and only Rs. 95,121 by exports. The balance consisted of miscellaneous receipts. Notwithstanding the increase in the quantity of goods shipped and landed, the removal and warehousing charges fell off by nearly Rs 20,000, the loss being attributable to the greater promptitude with which goods can now be removed, owing to the abolition of the customs duties. This is a clear gain to the mercantile community.

The floating 30-ton crane was under steam for 155 days of the year and earned Rs. 24,256, or about Rs. 4,000 more than in the previous year. The expenditure amounted to Rs. 12,661, and a net surplus of Rs. 11,595 was obtained.

5. As in the case of the Jetties, the receipts at the Inland Vessels' Wharves, exclusive of the income from the Tramway, were the largest realised in any year except 1877-78, amounting to Rs. 4,07,133 against Rs. 3,81,937 in the previous year. The closing of the Chitpore Lock of the Circular Canals throughout the year, which caused a larger number of boats to resort to the wharves, doubtless contributed a good deal to this result. The expenditure was, however, largely increased, chiefly in consequence of a contribution of Rs 90,000 to the Port approaches as compared with only Rs. 38,507 in 1881-82, and the net revenue accordingly amounted to only Rs 1,11,383 against Rs. 1,58,007.

6. A decline of over Rs. 10,000 in the receipts from the Strand Bank lands is accounted for by the destruction by fire of the Commissioners' riverside press in February 1882, which necessitated the grant of considerable remissions of rent to the tenants while the press was under reconstruction. The total income amounted to Rs. 1,47,089 against Rs 1,57,472 in the previous year, and the net revenue, after payment of all charges, was Rs. 25,192 against Rs. 45,913.

7. An increase in the number of vessels visiting the Port during the year caused a considerable addition to the income of the Harbour Masters' Department, which was further swelled by unusually high receipts under the head of "Wreck and Anchor," and by the realization, for the first time, of fees for the services of the Engineer-Surveyor, who arrived from England in June 1882, and is now attached to the staff of the Port Commissioners. The Wreck and Anchor receipts included payments on account of the wreck *Ellen Stuart* and of the American ship *Valiant*, which caught fire and was stranded, but was subsequently floated and discharged by the assistance of the Harbour Masters'

Department. The total income from all sources was Rs. 5,97,873 against Rs. 4,81,372 in 1881-82; but the expenditure also increased from Rs. 4,61,468 to Rs. 5,87,812, and the net revenue thus amounted to only Rs. 10,061 against Rs. 20,404 in the previous year. Larger payments on account of fees earned by the Harbour Masters, a charge of Rs. 12,484 for the salary and passage money of the Engineer-Surveyor, and a contribution of Rs. 98,000 to the Port approaches, account for the excess in the expenditure of the year.

8. The increase which has taken place in the number and tonnage of vessels frequenting the Port within the past five years is shewn in the following statement. Dhoonies, country craft, inland steamers, flats and boats are not included.

Years.	Arrivals.									Departures.								
	Number.			Gross tonnage.			Net tonnage.			Number.			Gross tonnage.			Net		
	Steamers.	Sailing vessels.	Total.	Steamers.	Sailing vessels.	Total.	Steamers.	Sailing vessels.	Total.	Steamers.	Sailing vessels.	Total.	Steamers.	Sailing vessels.	Total.	Steamers.	Sailing vessels.	Total.
1878-79 ...	489	478	967	806,933	631,857	1,430,790	585,535	531,857	1,116,392	507	493	1,000	926,950	554,029	1,480,086	601,791	554,029	1,155,810
1879-80 ...	452	454	896	848,561	567,418	1,415,979	551,872	551,141	1,103,013	434	461	895	845,016	575,425	1,420,441	548,659	560,058	1,108,770
1880-81 ...	506	478	984	1,009,482	570,617	1,579,868	656,213	554,333	1,220,546	510	505	1,015	1,014,488	616,788	1,631,271	659,850	598,869	1,258,707
1881-82 ...	601	473	1,074	1,243,680	564,325	1,808,005	829,983	547,416	1,377,390	597	461	1,058	1,232,441	541,623	1,774,064	822,07	525,820	1,347,890
1882-83 ..	619	532	1,151	1,342,213	639,974	1,982,187	888,886	621,454	1,510,344	619	522	1,141	1,345,105	634,002	1,979,107	899,14	615,315	1,501 457

It will be observed that, while the number of sailing vessels which arrived in each of these years has remained almost stationary, except in the past year, when there was an unusual increase, the number of steamers shews a considerable and steady rise. Of the steamers arriving in the past year 208, with an average tonnage of 2,862 tons, came from European ports *viâ* the Suez Canal, while in 1870-71 there were only 51 such arrivals with an average tonnage of 1,598 tons.

The development of the shipping trade is further exhibited in the following interesting statement, which goes back to the commencement of the present century:—

Year.	Number.	Tonnage.
1801	224	86,336
1811	240	97,686
1821	271	112,729
1831	256	96,439
1840	612	208,000
1845	688	255,000
1850	876	369,000
1855	1,097	647,581
1859-60	814	590,631
1864-65	1,206	997,756
1869-70	806	757,208
1874-75	927	1,280,604
1879-80	8 6	1,415,979
1880-81	984	1,579,868
1881-82	1,074	1,808,905
1882-83	1,151	1,982,187

9. Ten casualties occurred to ships while in charge of Harbour Masters during the year, fault being found with these officers in three cases, but in no instance was the damage done of a very serious nature. The percentage of accidents was, however, somewhat higher than in the preceding year, being ·86 against ·65.

10. The fire-engine *Hooghly* was fortunately less frequently required than in the previous year, when several large and destructive fires occurred in the Port and along the banks of the river. It was called out ten times, but was actually used in only six cases, in five of which it was able to render useful service. The most serious of the fires broke out at the Campordown Jute Press and the Chitpore Hydraulic Press, causing much loss at both places.

The dredger was employed on 181 days of the year at a net expenditure of Rs. 23,035, the average cost of every 1,000 cubic feet dredged being Rs 18·33. The Lieutenant-Governor observes from Appendix A to the report that all the

moorings in the port have been seen to by the Deputy Conservator and Harbour Master, and from Appendix B that the Port Approaches have been made the subject of careful examination by Lieutenant Petley. The report by this officer shows that a great deal of good work has been turned out in the charts and tracings published and issued to Port Officers and Pilots. To make this portion of the report complete, some information is needed regarding the portion of the river forming the port itself. Many works of importance are being executed on both banks, and it would seem desirable that the effect (if any) which these works have on the river should be recorded and reported for the information of Government. The Lieutenant-Governor would direct the attention of the Commissioners to the subject, and hopes that it may be noticed in future reports.

11. The number of cargo and passenger boats surveyed, registered, and licensed, and of manjees licensed, was as follows:—

	1882-83.	1881-82.
Cargo boats	5,942	5,643
Passenger „	2,148	2,145
Manjees licensed	9,431	8,527

A reduction of one-fourth of the rates of fees charged to these boats was sanctioned by the Government during the year, and has since taken effect.

The work done by the Engineer-Surveyor is stated in an appendix to the report. The substance of this statement, and of the reports of the Harbour Master and of the Deputy Conservator of the Port Approaches, might with advantage be summarised in the report in future. The number of vessels of all kinds surveyed during the year was 131, the total number of visits paid to them by the Surveyor was 398, and the fees realised were Rs. 3,970. In addition to this work, the Surveyor measured 11 vessels for tonnage; surveyed and passed the condensers of 16 emigrant ships; surveyed and measured for certificates 48 native passenger steamers, and held miscellaneous surveys on 16 vessels. His total earnings, however, fell far short of the expenditure incurred by the Port Commissioners in carrying out the surveys. Various questions connected with this branch of their administration have lately been brought to the notice of Government by the Commissioners, in reporting on the two Bills now before the Legislature for regulating surveys of inland steam-vessels and sea-going steam-ships respectively, and their views will be communicated to the Government of India.

12. The working of the Commissioners' Tramway appears to have been entirely satisfactory during the year. The receipts amounted to Rs. 1,60,549, against Rs. 1,35,812 in 1881-82, and the expenditure to Rs. 1,16,091, against Rs. 97,672, and the net revenue thus rose from Rs. 38,140 to Rs. 44,458. The quantity of goods received and despatched through to the Eastern Bengal Railway reached 209,430 tons, and 15,201 wagons were also loaded and despatched on local traffic. The corresponding figures for the previous year were 188,030 tons and 11,448 wagons.

13. The income and expenditure on account of the Port approaches, inclusive of the River Survey, Buoying, and Lighting establishments, were as follow:—

Income.	Rs.	*Expenditure.*	Rs.
Receipts from port dues ...	98,817	Salaries	1,86,939
Contribution from Port Trust revenue.	3,07,500	Working expenses ...	1,38,335
		Repairs	99,102
Other receipts	17,252	Other charges	11,993
Total ...	4,23,569	Total ...	4,36,369

The only direct income available to meet the expenditure for the Port approaches is derived from the port dues, and these, owing to the reduction of the rate from three annas to one anna, now yield less than a lakh of rupees per annum, while the expenditure approaches 4½ lakhs. The balance has accordingly to be supplied by contributions from the receipts of the Port proper.

14. The usual surveys of the river channels were carried out during the year, and a revenue survey party was also employed on the bank, for the purpose of connecting the permanent marks of the river survey with the great trigonometrical stations, and filling in the shore detail between Calcutta and Saugor. Some important changes were noticed in two or three of the channels leading to the Port, but no obstruction was apparently caused to navigation. The depth of water over the James and Mary bar is reported to have been unusually low in February and March last, owing to very weak freshets.

The light-houses at Saugor, Cowcolly, and False Point appear to have been efficiently maintained during the year, and the six light-vessels were all brought up to town and repaired. An extensive encroachment of the Middleton Spit in the Saugor Roads rendered the placing of a light-ship on the spot advisable, and this was promptly done by the Commissioners. Special distinguishing marks for the day have also been introduced for the different light-vessels, and machinery has been ordered from home for the purpose of giving to each of the three outer lights a distinctive feature, which would render its immediate identification possible at night. The present system of burning blue lights and rockets at various intervals causes delay in the identification of the lights, unless they are first sighted shortly before the rockets or blue-lights are used. The whole question of lighting the mouth of the river has recently formed the subject of a special report by the Commissioners.

The refuge houses on the sea face of the Sunderbuns, the duty of maintaining which has been accepted by the Commissioners, were visited three times in the course of the year. On each occasion it was found that the provisions and clothing supplied for the needs of ship-wrecked seamen had been systematically stolen, and the trap-doors even had been taken off or destroyed. Exception appears to be made by the depredators as regards potted and tinned meats, which they do not affect probably from ignorance of their uses and inability to open the tins. It may be as well experimentally to adopt the suggestion of the Deputy Conservator that the food supplies should be limited to these articles. The more frequent inspection of the places of refuge, which the two new steamers to be imported from England will facilitate, may tend to the better security of the goods and possibly to the detection of the offenders.

15. In the last section of the report, the Commissioners notice under the head of "Miscellaneous subjects" various important questions which came under their consideration during the year. The Diamond Harbour dock scheme was referred to them for opinion in communication with the Chamber of Commerce, and a joint Committee, including three members of the Chamber, has been appointed by them, and is now deliberating on the measures practicable for extending the accommodation of the port. The Lieutenant-Governor recognizes that some delay must occur before matured proposals can be submitted on so large a subject, but its great importance in the interests of the export trade of the port and the pressure on the East Indian Railway Company demands early attention. The Lieutenant-Governor notes that the Commissioners recognise the urgent necessity of increased facilities for meeting the rapidly growing traffic "either in Calcutta itself or elsewhere."

16. The opposition with which the Commissioners' proposal to construct additional warehouses within the Jetty enclosure was received by the Calcutta Municipality, the British Indian Association, and other public and private bodies, was noticed in the Resolution on the last report. The warehouses were eventually sanctioned by the Government, and are now in course of construction. It is expected that one will be shortly finished, and the other before the close of the current year.

Objection was similarly taken to the erection of a tea warehouse by the Commissioners, but the Lieutenant-Governor being satisfied that the project would be of great benefit to the tea trade generally, sanctioned the introduction of a short Act in the last session of the Bengal Council to enable the Commissioners to undertake the work, and the measure has since received the assent of His Excellency the Governor-General in Council. The project will now be undertaken.

17. The experiment of opening the Jetty gates between 8 and 10 A.M. to facilitate the removal of goods, which was introduced at the instance of the Chamber of Commerce, having proved a failure, owing to the unwillingness

of the agents of consignees and shippers to commence work before 10 o'clock, the Commissioners have reverted to the latter opening hour. They were quite justified, in the Lieutenant-Governor's opinion, in abandoning an arrangement of which no use was made.

18. An important step taken by the Commissioners during the year, with sanction of the Government, was the purchase of the Calcutta Docking Company's premises situated immediately to the north of the Hooghly Bridge. The possession of a dock for the exclusive use of the Commissioners' vessels and boats had become an urgent necessity, especially since the transfer to the Commissioners' charge of the Port approaches, with the light-ships and the vessels of the River Survey. At the same time, in view of the limited docking accommodation existing in Calcutta, the Lieutenant-Governor approves of the intimation conveyed to the Chamber of Commerce that if at any time hereafter the dock is unoccupied by vessels belonging to the Commissioners, and an outside vessel is in urgent need of docking and cannot find accommodation elsewhere in the Port, the Commissioners would be disposed to assist the shipping of the Port by making their dock available. The opening of the dock to the public under such circumstances could give no reasonable ground for complaint that the Commissioners were entering into a competition with private docks

19. In reply to a reference from the Government, regarding the improvement of the means of conveyance on the river for persons residing on the banks and having business in Calcutta, the Commissioners reported during the year that, in their opinion, the establishment of a service of small steamers, to ply at low fares between Calcutta and places in the neighbourhood, would probably prove a remunerative undertaking. The starting of such a service appeared to the Lieutenant-Governor to be beyond the legitimate sphere of Government enterprise, but he is glad to learn that it has since been undertaken by a private firm, and is likely to be soon established with every prospect of success. If this should result, the extension of the scheme to the reaches of the river above the bridge will probably follow.

20. The Lieutenant-Governor desires to thank the Commissioners for their efficient administration during the year, and he anticipates that they will be able to render valuable co-operation in the large projects under consideration for the extension of the commercial interests of the Port.

By order of the Lieutenant-Governor of Bengal,

A. P. MACDONNELL,

Offg. Secretary to the Government of Bengal.

SPECIAL SCHOLARSHIPS CREATED BY THE GOVERNMENT OF BENGAL AT THE ROYAL AGRICULTURAL COLLEGE, CIRENCESTER.

The following correspondence is published for general information:—

No. 37 (Revenue), dated India Office, London, the 24th May 1883.

TO HIS EXCELLENCY THE MOST HONOURABLE THE GOVERNOR-GENERAL OF INDIA IN COUNCIL.

My Lord Marquis—Referring to your Excellency's Financial letter No. 193 of 22nd July 1881 (Accounts and Finance), I have to inform you that Babu Ambika Charan Sen, M.A., and Syud Sakhawut Hossein, B.A., the first scholars selected for the agricultural scholarships created in 1880 by the Bengal Government, have completed their course at the Cirencester College and have obtained the diploma with very high honours. From the correspondence noted in the margin, it will be observed that their conduct was in every respect exemplary, that they uniformly obtained the highest places in their class examinations, and that, with Mr. Ozanne, Bo. C.S., the newly appointed Director of Agriculture, Bombay, they headed the list in the final examination. I have no doubt an opportunity will soon be found of utilising the qualifications of these gentlemen.

Memorandum by Mr. Fitzgerald, April 27th 1883.
Letter from the Principal, Cirencester College, April 20th 1883.
Testimonial by the Professor of Chemistry, April 20th.

MEMORANDUM.

I have the honour to forward herewith, for submission to the Secretary of State, a report from the Principal of the Royal Agricultural College at Cirencester, upon the two Bengal Government students, Ambica Charan Sen, M.A., and Syud Sakhawut Hossein, B.A., who obtained their diploma at the College during the past week.

I need not refer in detail to the different points mentioned in the report, but it is worthy of remark that, while the two Bengal students passed out 1st and 3rd, Mr. Ozanne, of the Bombay Civil Service, Director of the new Agricultural Department in that Presidency, being second, their qualifications as shewn by the examinations were very different. Mr. Sen proved himself to be a scientific agricultural chemist and analyst of no mean order. Mr. Hossein, on the other hand, obtained his high position on the list from his practical knowledge of farm and stock management. I cannot imagine a happier omen for the success of the experiment so wisely instituted by the Government of Bengal, and for the future of agriculture in India.

I was at Cirencester on the occasion of the diplomas being conferred, and may be permitted to add, on the authority of the Professor of Botany, that Mr. Sen would have obtained distinction in that branch of study also had he taken it up as an extra subject. He was urged to do so, and was only prevented by his natural modesty and diffidence from entering for a subject which he considered too wide for a man of his age and experience. I was also greatly gratified at the relations which I was told had existed between Mr. Ozanne and Mr. Sen. They had worked together in the laboratory throughout, conducting their experiments in common, with the result of a mutual respect for each other's capabilities and enthusiasm in the investigations they were pursuing.

The Secretary of State will further be pleased to learn that, in the opinion of the College authorities, Mr. Sen's and Mr Hossein's success was not due to mere cram for an examination, but that both men have a sound knowledge of the subjects in which they passed. The importance to Government of having available in India highly qualified men for employment in the new Agricultural Departments is shown by the late correspondence with reference to the appointment of Mr. Hill to the Professorship of Agriculture at the proposed College at Cawnpore. In the Government of India despatch of 7th November 1882, it is explained, as the reason for the selection of Mr. Hill, that Mr. Buck, when in England, had made enquiries at Rathamstead and elsewhere for a fit person to be "employed under the Government of India as *Agricultural Chemist* and *Examiner of Soils*, but being satisfied that no person of the required attainments was available, left the selection to Sir James Caird." The reference to Sir James Caird was presumably with a like result, as enquiries were afterwards instituted in India, but "no one was found until Mr. Hill was independently recommended through the Local Department of the North-West Provinces *as an excellent official for the instruction of Natives in science connected with Agriculture.*"

The rate of pay had then to be fixed which, according to the despatch of the 26th of May (there being nobody else available) was done, not upon the value to Government of the work to be performed, but in view of promotion he (Mr. Hill) "might expect to obtain in his present department"

This difficulty need not again arise, as in Mr. Sen and Mr. Hossein Government have available for employment at a much lower rate of salary men as well, or according to their respective certificates and the tests they have gone through, better qualified for the particular work required Nor in the future will the selection be restricted to these two men, as there are already five more Government students at the College, who, according to

the class lists, are likely to prove efficient and highly qualified officers, if not quite as distinguished as Mr. Sen. Should the present policy be pursued, even without extension, two more will be added to the number in each year.

G. S. V. FITZGERALD.

Dated 20th April 1883.

From—JOHN B. MCCLELLAN, ESQ., M.A., Principal, Royal Agricultural College, Cirencester,

To—G. S. V. FITZGERALD, ESQ., India Office.

I HAVE the honour specially to report that the first two Bengal students sent to this College with Bengal Government scholarships, viz. Ambica Charan Sen, M.A., and Syud Sakhawut Hossein, B.A., have now concluded their course at the College, and passed the final examination for the College Diploma, which was conferred upon them on the 18th instant, the last day of spring session.

Both students have throughout their course exhibited exemplary diligence and conduct, and obtained a well-deserved popularity among their English fellow students. The class lists of the College are evidence that they have uniformly obtained the highest places in their class examinations, and they have now obtained the diploma with very high honours. Mr. Sen obtaining 1,670 marks out of a maximum of 1.800, and Mr. Hossein 1,595, the civilian, Mr. E. C. Ozanne (appointed Director of Agriculture for Bombay), coming between with 1,602, notwithstanding that the examination is now more thorough and severe than in former years. Mr. Sen's marks are the highest ever obtained at the College.

The *Final* Examination for the diploma being mainly in all branches of Agriculture and Agricultural Chemistry (embracing the practical department of analysis, soils, manures, feeding stuffs, &c, as well as other matters), the marks above recorded testify to the high qualifications of both students, and the valuable results which have accrued and are likely further to accrue from the project of the Bengal Government.

I enclose a special testimonial from the Professor of Chemistry, and have much pleasure in begging permission to recommend both students to the favourable notice of the Government for Agricultural employment. Mr. Sen, if the Government approve, for educational work, and Mr. Hossein for State management or direction. I have every confidence that they will prove very useful servants.

Chemical Laboratory, Royal Agricultural College, Cirencester, 20th April 1883.

I HAVE much pleasure in testifying that Mr. A Charan Sen and Mr. Syud S. Hossein have, during the last two years, studied practical chemistry in this laboratory. They are both of them exceedingly careful, conscientious and painstaking students, and have acquired considerable manipulatory skill both in qualitative and quantitive analysis, this in conjunction with their knowledge of general and of agricultural chemistry (clear evidence of which is given in the positions they have attained in their several classes in the College curriculum) renders them fully competent to undertake the analysis of soils, manures, and agricultural produce generally, and to draw trustworthy conclusions from such analysis. Mr. Sen is specially competent and has shown much enthusiasm and zeal in his study of chemistry while here. He came with a good grounding in theoretical and inorganic chemistry, and he is now spending his remaining time in England in increasing his experience by a special course of instruction in water and gas analysis at Owen's College.

EDWARD KINCH, F. I. C., F. C. S., &c.,
Professor of Chemistry.

SCHOLARSHIPS AND PRIZES FOR MAHOMEDAN STUDENTS.

GENERAL DEPARTMENT—*Education.*

Calcutta, the 24th July 1883.

IN continuation of the Resolution published in the *Calcutta Gazette* of the 27th June 1883, the following list of subscriptions to the Ripon Scholarship Fund, founded by the National Mahomedan Association, is published for general information :—

	Rs.
Prince Mahomed Furrukh Shah, President, National Mahomedan Association	1,000
Haji Noor Mahomed, Vice-President	1,000
Mr. Mahomed Ali Rogay	500
Nawab Welayet Ali Khan Bahadoor, C.I.E.	400
Haji Abdulla Dugman	250
Haji Syed Sadiq Shustari...	200
Moulvi Syed Amir Hossain Khan Bahadoor, Vice-President ...	100
Mr. Ameer Ali	100
Hon'ble Moonshi Mahomed Yusuf	100
Syed Tajjummul Hossain Khan	100
Yusuf Hossain Khan	100
Other subscriptions	560
Total ..	4,410

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

ANNUAL ADMINISTRATION REPORT OF THE NARAINGUNGE MUNICIPALITY FOR THE YEAR 1882-83.

No. 469L, dated Dacca, the 25th June 1883.

From—N. S. ALEXANDER, Esq, Officiating Commissioner of the Dacca Division,
To—The Secretary to the Government of Bengal, Municipal Department.

I HAVE the honour to submit herewith in original the Annual Administration Reports of the Dacca and Naraingunge first-class municipalities for the year 1882 83, with enclosures, and copies of the Magistrates' letters forwarding them, and to make the following remarks with regard to each. The Naraingunge Municipality has now for the first time been brought under class I.

* * * * *

NARAINGUNGE MUNICIPALITY.

Naraingunge Municipal Report. Heading III, Government Circular No. 26.

11. The explanation as to the increase in taxation given in this paragraph is not very clear. The Magistrate has been requested to state the matter more clearly.

Heading VII.

12. The matter referred to in this paragraph (daily despatch service) seems hardly to be one coming within the scope of a report on the affairs of the municipality. It has been pointed out that it should be made (if at all) the subject of a special reference and report.

Heading VII—Conservancy.

13. Act VI referred to in this section is one of the Bengal Council (the Latrine Act). It has been so recently introduced that the results of its working cannot as yet be reported on.

Heading VII—Transfer of ferries to municipalities.

14. An application was, since the close of the year, made to Government, but, pending the enactment of the new law relating to municipalities, the consideration of the application has been postponed (*vide* Government No. 2661—M, dated 4th May 1883).

15. During the past nine months very great improvements have been effected. I who have known Naraingunge during the past 15 years hardly recognized the place when I visited it last in January 1883; in the place of a small dirty village, buried in dense, matted jungle, full of filthy ponds, with narrow, muddy foot-ways, it is now open in all directions down to the riverside, with broad roads intersecting it in all directions; many fine buildings have been

and are being erected; solid quays and landing-places are being constructed, and the whole place has the air of a thriving trading centre with rapidly increasing business.

Heading VIII. 16. The water of the Lakhya is specially pure and wholesome.

No. 1273, dated Dacca, the 5th June 1883.

From—A. W. PAUL, Esq., Offg. Magistrate of Dacca,
To—The Commissioner of the Dacca Division.

I HAVE the honour to submit herewith a report on the administration of the Naraingunge Municipality for 1882-83, in accordance with the instructions contained in Government Circulars No. 26, dated 26th November 1881, and No. 10 of the 4th April 1882, together with a certificate from the Agent of the Bank about the closing balance of the municipality as required by the Government Circular No. 4494, dated 28th September 1878. The discrepancy between the Bank and the Municipal accounts has been explained in paragraph 2 of the Chairman's letter No. 30, dated 27th ultimo.

2. Forms I and II, showing income and expenditure of the municipality, will follow.

No. 30, dated Naraingunge, the 27th April 1883.

From—F. GRANT, Esq., Chairman of the Municipality, Naraingunge,
To—The Magistrate of Dacca.

I HAVE the honour to submit herewith a report on the administration of the Naraingunge Municipality for the year 1882-83.

2. A certificate of balance, as required by the Government Circular No. 4494 of the 28th September 1878, is herewith submitted. The discrepancy of Rs. 48-12 between the Bank and the Municipal accounts is owing to the amount having been realized on the 31st March and entered in the municipal account, but not remitted into the Bank.

I HEREBY certify that the balance at credit of the Chairman, Municipal Commissioners, Naraingunge, on the 31st March 1883, was rupees ten thousand seven hundred and sixty-nine annas twelve and pies seven (Rs. 10,769-12-7) only.

R. T. HORSFORD,
Acting Agent.

BANK OF BENGAL, DACCA,
The 19th April 1883

Paragraph 3, *Circular No* 10.—The receipts during the year under report amounted to Rs. 17,152-9-5, as per details given below:—

SOURCES OF INCOME.	For the year 1881-82.	For the year 1882-83.	Increase.	Decrease.
	R. A. P.	Rs. A. P.	Rs. A. P.	R. A. P.
1. Tax collection	10,261 0 3	15,837 11 6	5,576 11 3	.....
2. Fines	256 7 0	297 4 0	40 13 0	.....
3. Pound collection	155 9 0	258 11 3	103 2 3	.....
4. Miscellaneous	270 10 0	758 14 8	488 4 8	.....
Total ...	10,943 10 3	17,152 9 5	6,208 15 2	.....

Tax collection.—The tax levied during the year previous to that under review was on persons occupying holdings under clause (*a*), section 77 of the Act. The increase of Rs. 5,576-11-3, as compared with the actual figure of the previous year, was effected by a careful assessment being made, and by the tax being levied under clause (*b*) of the said section, As example, the holding No. 123 used to pay a tax of Rs. 36 per annum under clause (*a*), while under clause (*b*) it has to pay Rs. 120 yearly.

Fines.—The increase under this head is due to higher fines having been imposed during the year.

Pound collection.—The reason of the increase under this head is due to more cattle having been impounded.

Miscellaneous.—The increase under this head is owing to an increase of Rs. 50 in the rent paid by Messrs. Ralli Brothers, Rs. 48 increase in fishing-fees, and Rs. 347 refunds from police, &c.

Expenditure.—The expenditure during the year amounted to Rs. 11,227-6-4 as shown below :—

Items of Expenditure.	For the year 1881-82.	For the year 1882-83.	Increase.	Decrease.
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
Office establishment	1,2'3 2 2	1,351 8 0	138 5 10	... ..
Conservancy	980 5 0	3,'48 5 0	2,888 0 0	. ...
Police	2,025 0 0	211 10 3	.....	2,713 5 9
Lighting	156 13 0	210 4 6	56 7 6	.....
Construction of roads	1,530 0 0	352 0 9	.....	1,177 15 3
Watering roads	148 0 0	48 0 0	.....	100 0 0
Water-supply	288 3 9	...	.....	288 3 9
Drainage works	.....	661 6 6	661 6 6	. ...
Repair of houses	302 14 9	207 0 0	.....	95 14 9
Other public works	.. ..	1,410 0 0	1,410 0 0	.....
Sanitary and charitable	865 11 9	1,315 14 0	450 2 3	.....
Vaccination	41 6 6	27 10 9	.. .	13 11 9
Education	590 0 0	778 0 0	189 0 0	.. ...
Printing charges	.....	101 0 0	100 0 0	.....
Miscellaneous	427 9 10	705 10 7	278 0 9	.....
Total ...	9,446 2 9	11,327 6 4	6,170 7 10	4,289 3 3

Office establishment.—The increase under this head is principally caused by Rs. 100 paid for audit.

Conservancy.—The conservancy establishment was appointed in July, and their pay causes the large increase under this head.

Police.—The amount shown under this head as expenditure appears as a credit under the head of "Miscellaneous," being part of the Rs. 347 referred to as refunds.

Lighting.—The increase under this head is due to the appointment of an extra lamp-lighter at Rs. 3 per month.

Construction of roads.—The amount shown for 1881-82 was spent for the construction of a new road, but this year no new road was made. The roads were repaired only at a cost of Rs. 352-0-9.

Watering roads.—The decrease under this head is owing to the number of bhisties having been less by two than in the previous year.

Water-supply.—The amount shown for 1881-82 was balance due for the construction of a pukka ghât at Lyall's Tank, and no expenditure under this head was incurred this year.

Drainage works.—The amount shown under this head in the year under report was spent for the construction of pukka side drains to the Nitaigunge and Bhugwangunge roads.

Repairs of houses.—The decrease under this head is due to less repairs being necessary this year.

Other public works.—The amount shown under this head was expended for the partial construction of a pukka burning ghât.

Sanitary and charitable.—The increase under this head is due to the establishment of a branch dispensary at Madangunge.

Vaccination.—During the year 1881-82 a vaccinator was employed for three-and-a half months, while during this year he was employed only for two-and-a-half months, and hence the decrease.

Education.—The reason of the increase under this head was owing to the increase of the subscriptions to the schools by Rs. 15 per month.

Printing charges.—Hitherto nothing had been expended under this head, but this year Rs. 100 was expended for printing forms, &c

Miscellaneous.—The gratuity of six months' pay given to a tehsildar was included in this head. The amount of Rs. 200 was spent for fees and other charges of the vakeels to defend the case against the municipality.

Paragraph 4, *Circular* 10.—The Municipal Committee consists of 15 Commissioners, viz, four official, including the Chairman, and nine non-official. Twelve meetings were held during the year, and the following table will show the attendance of the Commissioners at each of the meetings held :—

4th April 1882 ...	Mr. A J. Fraser, *Chairman.* „ H. F. Wilson, *Vice-Chairman.* Baboo Bissesswar Dass. „ Mahim Chunder Ganguli.
26th May 1882 ...	Mr. A. J. Fraser. „ H. F. Wilson. Baboo Bissesswar Dass.

22nd June 1882	Mr. A. J. Fraser. „ G. A. Glascott. Baboo Bissesswar Dass. „ Gobinda Chunder Taluqdar. „ Mathura Nath Ghosal. „ Mahim Chunder Ganguli. „ Ram Krisna Pal.
29th July 1882	Mr. A. J. Fraser. Baboo Ram Krisna Pal. „ Mahim Chunder Ganguli. „ Mathura Nath Ghosal. „ Bissesswar Dass.
17th October 1882	Mr. A. J. Fraser. Baboo Bissesswar Dass. „ Ram Krisna Pal. „ Mathura Nath Ghosal. „ Kali Narain Sen.
2nd November 1882	Mr. A. J. Fraser. Baboo Bissesswar Dass. „ Madhub Lall Chowdhry. „ Ram Krisna Pal. „ Mathura Nath Ghosal.
5th December 1882	Mr A. J. Fraser. „ H F. Wilson. „ G. A. Glascott. „ R Sim. Baboo Ram Krisna Pal. „ Bissesswar Dass „ Kali Narain Sen. „ Mathura Nath Ghosal.
2nd January 1883	Mr G. A. Glascott. Baboo Madhub Lall Chowdhry. „ Bissesswar Dass. „ Ram Krisna Pal. „ Kali Narain Sen. „ Mathura Nath Ghosal.
16th January 1883	Mr. G. A. Glascott. „ H. F. Wilson. „ R. Sim. Baboo Bissesswar Dass. „ Kali Narain Sen. „ Mathura Nath Ghosal. „ Ram Krisna Pal.
23rd January 1883	Mr. G. A. Glascott. „ H. F. Wilson. „ R. Sim Baboo Mahim Chunder Ganguli. „ Bissesswar Dass. „ Mathura Nath Ghosal. „ Gobinda Chunder Taluqdar.
24th February 1883	Mr. A W. Paul. „ G. A. Glascott. „ H. F. Wilson. „ R. Sim. „ J. Geannocopulo. „ W. B. Bestie. *Executive Engineer.* Baboo Madhub Lall Chowdhry. „ Mahim Chunder Ganguli. „ Bissesswar Dass. „ Mathura Nath Ghosal.
20th March 1883	Mr. F. Grant. „ H. F. Wilson. „ R. Sim. „ C. D. Goannocopulo. Baboo Bissesswar Dass.

The elective system is not in force in this municipality.

No Ward Committee here.

Paragraph 6, *Circular* 10.—There are five Honorary Magistrates. These sit in rotation with a Stipendiary Magistrate every first and third Monday for disposal of municipal cases. The number of cases brought to trial was 107; in these cases 191 persons were convicted and 4 acquitted. The amount of fines inflicted and realized was Rs. 296-4.

Paragraph 7, *Circular* 10.—The tax levied during the year was on the annual value of holdings under clause (*b*), section 77 of the Act, instead of clause (*a*) of the section as in the previous years. The assessment was revised in the month of February last. The increase of Rs. 5,576 to the income of the municipality was affected by this alteration or revision made in the mode of assessment.

Paragraph 8, *Circular* 10.—The provisions of the Act regarding the taxing of carriages and of horses and other animals, and the registration of carts, are not in force in this municipality. The Act VI of 1878 was not in force during the year.

Paragraph 9.—No change or alteration of the municipal boundary was made during the year.

Paragraph 10.—No grants from any provincial or local funds were made.

Circular No. 26. I.—The municipality was established on the 8th September 1876.

II.—The population of the municipality taken at the last census was 12,508, but that census was taken in the month of April, when trade is almost at a stand-still. Had the census been taken at any time during the jute season, the figure would have been very different. Further, since the year 1881 a very large increase in the trade of this place has taken place, and a consequent increase in population.

III.—The gross income from all sources, from the date of establishment of the municipality to the end of the year 1882-83, was Rs. 75,928-13-11, including a balance of Rs. 4,157-12-6 from the previous year—

	Rs.	A.	P.
(*a*) Direct taxation	69,225	15	6
(*b*) Indirect ditto	.....		
(*c*) Miscellaneous	2,545	1	11
Total ...	71 771	1	5
Add balance at the end of 1875-76	4,157	12	6
Grand Total ...	75,928	13	11

The incidence of taxation last year was only 11 annas per head as against annas 20·595. This year the great increase is owing to the change in the form of taxation. Formerly the tax on holdings was in force. This form of taxation was most unjust, as it allowed the wealthy inhabitants to escape; and the present system of levying the tax on the annual value of holdings enables the Commissioners to relieve many poor and to collect from the rich their proper share of taxation. As an illustration of this, one European firm here paid under the holdings clause Rs. 221-4 annually, while under the valuation clause they pay Rs. 2,073. On a collection at the rate of 6 per cent., the incidence per head is calculated on the population as shown by last census, which, however, is quite erroneous—*vide* clause 11.

The average population cannot be under 17,000, which would make the incidence of taxation annas 15,141 per head.

IV.—The gross expenditure was Rs. 65,110-5-2 at the end of March 1883—

	Rs.	A.	P.
(*a*) Establishment and contingencies (office, collection, &c.)	10,692	15	10
(*b*) Sanitary establishment (vaccination, &c.) ...	117	1	3
(*c*) Public Works (latrine, market and dispensary) ...	10,373	14	9
(*d*) Public Works (general roads, lighting, watering and burning ghât)	22,334	3	6
(*e*) Repairs—(*a*) roads, (*b*) buildings	2,096	15	3
(*f*) Education	3,398	0	0
(*g*) Police	16,097	2	9
Total ...	65,110	5	4
Balance on the 31st March	10,818	8	7
Grand Total ...	75,928	13	9

This large balance, carried over, is due to the non-completion of works budgetted for the payment on account of which will be made this year.

V.—No loans.

VI.—The municipality possesses two tanks—one at Madangunge, the other at Narainguge. The latter known as Lyall's Tank yields a rent of Rs 250 per annum, the water

being taken by Messrs. Ralli Brothers for the use of the engines working in their press houses. A burning ghât is being constructed at Gog Char, a distance of about half a mile from the town. The income annually derivable therefrom is estimated to be Rs. 100.

VII.—The town a few years ago consisted of about one mile of straggling houses on the western bank of the river Lakhya and a half mile on the eastern bank at Madangunge. It now extends a distance of two to two-and-a-half miles on the eastern bank, and three to three-and-a-half miles on the western bank, the river frontage on both sides being occupied by business premises. There are 13 hydraulic presses employed in baling jute for the English market. These during this last season have turned out 400,000 bales equal to 20 lakhs of maunds. There are two steam-presses and a large number of hand-screws occupied in preparing bales for the Calcutta market, in addition to the trade done in jute in drums.

There is a steam ginning factory and a large trade is done in ginning cotton by the native *churka* in the surrounding districts, this place being the centre of the trade.

Instead of formerly having only a comparatively small steamer weekly, we have this past year had a daily despatch steamer, and an average of three large steamers weekly carrying jute and other produce to Calcutta, in addition to a large trade between this and Chittagong carried on in native craft.

Roughly estimating the trade as compared with that existing in 1872-73, it may be set down as five times both in imports and exports.

The daily despatch service which was only begun this year is most useful to the commercial community, as it saves a day in replying to important letters, and enables them to get quickly anything urgently required, such as small pieces of machinery which, although of seemingly little importance in themselves, may stop the works of hundreds of men for days. I trust therefore the Government will urge on the Railway authorities the necessity for continuing this service to Naraingunge during the rains, as last year the steamer stopped at Dacca to the great loss and inconvenience of the inhabitants of this place.

The most immediate requirement of this place is "conservancy;" the municipality at their own expense in the past year did a little, and sanction has been given to the introduction of Act VI (B.C.) of 1878. But owing to the apathy of the native inhabitants, and the obstructions of the zemindars, great delay is being caused in the introduction of the Act. Rs 8,200 has been budgetted this year for the introduction of this Act. The excavations referred to in last year's report still exist, as they are more or less filled with night-soil which has been accumulating for years, they are simply hot-beds of disease. Immediately after Act VI (B.C.) of 1878 is in proper working order, a scheme for the cleansing and improving of these excavations will be considered by the Commissioners. Next to conservancy, "roads" are required. The large wide road known as the western road now nearing completion will, when carried to its natural termination at Shital Lakhya and joined to the old eastern road by cross-roads, supply the requirements of the town on the western bank of the river Lakhya for some time.

It is impossible, however, to lay out these cross-roads till the alterations caused by the construction of the Dacca and Mymensingh Railway are completed. Roads on the eastern bank of the river do not yet exist, and they are much wanted. Plans and estimates will be prepared this year, and I trust the Government may make over the ferries to the municipality and enable the construction of a good road to be begun soon. During the year under review the Public Works Department have cleared away all the old oil-mills at Tan Bazar, and instead of this place being in a chronic state of disgusting filthiness, the land is being properly laid out. A good dâk bungalow has been erected, and Government offices are being built. A portion of the eastern road has been straightened, widened and improved generally.

Consequent on these alterations, three zemindars are erecting bazars, plans for which have been approved of by the Executive Engineer of the district and the municipality, and when these bazars are completed, they will be a great improvement to the town.

VIII.—Water is not supplied to the inhabitants, nor is it necessary, as the river Lakhya runs through the town and supplies all its present requirements.

IX.—There are 19 *sweepers* under the supervision of a jemadar. At present we have eight night-soil carts and two open carts. The street sweepings are taken away every morning between 5 and 7 o'clock, and are despatched into the ditches far from the main roads and streets. For the year under review, there was no scavenging establishment employed with the exception of two domes, whose duty it was to throw away dead bodies or carcasses that might be washed on shore by the river.

(*b*). There are at present five public latrines. Two sweepers are told off to each, and the jemadar or the head sweeper goes round every morning to see that they have been properly cleaned. They are cleaned twice a day, between 6 and 7 o'clock in the morning and 5 and 6 in the evening, and are maintained solely by the municipality. The night-soils are deposited in trenches, and the ground where these trenches are is quite out of the town, about half a mile away.

(*c*). The registration of births has ceased under the Sanitary Commissioner's No. 1026 of the 6th September 1880. The deaths are registered by the Police. The registration area is divided into three circles. As the statistics are collected by the Police, the cost of registering is nil.

(*d*). A vaccinator on Rs. 12 a month is engaged for four or five months each year, that is from December to March or April.

(*e*). There are no public markets; six private markets exist at present—four at Naraingunge, one at Madangunge, and one at Bandar, and a weekly hât at Sonakanda. The one at

Bhugwangunge in Naraingunge has pukka floor with pukka side drains The owners of the other bazars have been ordered to make pukka floor and pukka side drains into the markets. All are kept clean.

X.—(*a*). The length of the metalled road is two miles, and that of ku'cha ones is 10 miles.

(*b*). There are 35 light-posts—30 at Naraingunge and five at Madangunge. The lights used are common kerosine burners purchased in the bazars and placed in lanterns, the cost for the year under report being Rs. 210-4-6. Provisions have been made in this year's budget for supplying proper lamps to existing lanterns, and also for increasing the number of lamps.

The annual cost of repairs being Rs. 207.

(*d*). Roads are watered during the hot season, the annual cost being Rs. 150.

XI.—*Education.*—There are three schools within the limits of the municipality—one at Naraingunge, one at Madangunge, and the other at Bandar—receiving subscriptions of Rs. 38, Rs. 20, and Rs. 10 a month respectively from the municipal fund. The daily attendances of boys at the schools are—

XII.—

XIII.—The average balance now available after payment of all fixed and recurring charges would be Rs. 4,200.

XIV.—The present taxation is six per cent. on an annual valuation of Rs. 2,83,000 for the coming year, and it would not, I think, be wise to increase this for some time, more especially as the increase in taxation, consequent on the introduction of Act VI of 1878 this year, will at first be considered an extra burden. The great increase last year caused a very great discontent.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 14th July 1883.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL.		
	Western Districts.		
	BURDWAN DIVN.		
1	Burdwan, July 21 '83	13·82	Weather—very rainy. Heavy rain during the week at head-quarters has greatly improved the prospects of the crops; rainfall in Cutwa and Culna satisfactory; the prospects of the *amun* crop are, on the whole, fair; other crops promise well.
	Culna ...	3·8	
	Cutwa ...	5·16	
	Raneegunge ...	11·6	
2	Bankoora, „ 21 „	9·76	Weather—cloudy and rainy. There was good rain during the week throughout the district, which has improved the state and prospects of the crops now growing. Public health good.
	Bishenpore ...	5·39	
	Malliara ...	6·24	
	Khatra ...	3·89	
3	Beerbhoom 21 „	10·37	Heavy and frequent showers Transplanting of rice crop in full progress. Prospects satisfactory. Prices stationary. General health of district good.
	Rampore Haut ..	6·01	
4	Midnapore. „ 21 „	4·10	Weather—cloudy and rainy. Cultivation still going on. Prospects of crops favourable. Public health good.
5	Hooghly, „ 21 „	12·97	Weather seasonable. Prospects of crops good. General health good.
	Howrah „ 23 „	3·40*	Weather—cloudy, with rain. Jute nearly ready to cut. *Aus* rice and sugarcane well up. *Amun* rice growing. Cholera reported in several localities, but probably other bowel-complants reported under this name.
	Colcoberia ...	5·38	
	Central Districts		
	PRESIDENCY DIVN.		
6	24-Pergunnahs, July 24 '83	4·3*	Weather—seasonable and rainy. Early crops doing well. Transplanting of *amun* rice going on briskly in all parts of the district. Prospects good. Public health good
7	Nuddea, „ 21 „	2·48	Weather—cloudy, rainy and cool. Prospects of crops fair. More rain wanted at Kooshtea. One or two cases of small-pox reported from Karimpore. Mortality from fever decreased considerably this week.
	Kooshtea ...	0·9	
	Meherpore .	2·34	
	Chooadanga ...	2·67	
	Ranaghat ..	8·67	
8	Khoolna, „ 21 „	4·43	Weather—cloudy with frequent rain. Ploughing for *amun* rice is still in progress. Prospects favourable. Some fever in Satkhira sub-division, but general health good.
9	Jessore, „ 21 „	6 27	Weather—rainy. Heavy rain during the week has done immense good to the rice crop. More rain wanted. General health good.
	Bongong ..	4 77	
	Jhenida ...	4·73	
	Magura ..	7·49	
	Narail ..	3·62	
10	Moorshedabad, „ 21 „	5·00	Weather—cloudy and showery with occasional sunshine. Transplanting operations are being pushed on vigorously owing to the recent rain. *Aus* has been much benefited by the rain. Public health on the whole good.
	RAJSHAHYE AND COOCH BEHAR DIVN.		
11	Dinagepore, July 20 '83	3·23	Weather—seasonable with high winds at times. Rain much wanted. Cultivation of *amun* at a stand-still in some places for want of sufficient rain. Prospects of *bhadoi* fair. Rice selling at from 17 to 27 seers per rupee.
12	Rajshahye, „ 21 „	3·04	A good fall of rain especially at Nowgong. Crops doing well. Some fever as usual.
	Nattore ..	2·10	
	Nowgong ...	5·20	
13	Rungpore „ 21 „	3·26	Weather—seasonable. *Aus* and jute are being harvested. Prospects of *amun* and sugarcane good. Cholera reported from some parts of the district More rain wanted in Sudder and Kurigram sub-divisions.
	Gaibanda ...	4·25	
	Kurigram ...	1·45	
	Nilphamari ...	5·82	
14	Bogra, „ 21 „	7·05	The week has been very wet, as rain fell daily, Monday (16th) excepted. Transplanting of *amun* paddy is being pushed on. Public health good, but fever is still reported from police station Bogra and outpost Dhunat.
15	Pubna, „ 21 „	3 18	Weather—cloudy, with light showers. Rain has done good to the standing crops; more rain wanted Rivers still very low. Public health good.
16	Darjeeling, „ 22 „	5·81	Weather—seasonable. All native crops doing well. *Murwa* and Indian-corn ripening in the hills. There is still some cholera in the Terai and a few cases in the hills.
17	Jupigoree, „ 21 „	6·87	Weather—seasonable. Rain is falling more continuously. Prospects of crop fair. In some parts of the district jute does not promise well. Public health improving. Cholera abating.
	Cooch Behar. „ 20 „ up to 18th.	9·98	Weather—hot and close at first, rainy towards end of week. The rain has enabled people to carry on transplanting of late rice. Cutting of early rice continues. Prospects of jute good. Cholera disappearing.
	Dinhatta ... up to 15th.	0 85	
	Mathabhanga ... up to 14th.	0 77	
	Meckhgunge ... up to 13th	0·67	
	Eastern Districts.		
	DACCA DIVN.		
18	Dacca July 21 '83	10·54	Weather—rainy with occasional glimpses of sunshine. Sowing of *roachis* and *shail* paddy going on. *Aus* paddy and jute are being cut. Prospects of *aus*, *amun* and *righa* paddy in the Sudder sub-division appear unfavourable owing to the waters having fallen much. A large quantity of jute in the Nawabgunge station has been destroyed by worms. Crops in the low land of Tonghi outpost have been damaged to a certain extent by a sudden rise of water there. *Amun* paddy, sugarcane, *mug* and *til* thriving well.
	Manickgunge ...	11·14	
	Munshigunge ...	9 90	
	Narsingunge ...	12·08	
19	Furreedpore. „ 21 „	5·25	Weather -seasonable. The rains appear to have at length begun. State of crops moderate. Prospects improved during the week. Public health generally good.
	Goalundo ...	6 97	
	Maduripore ...	9 88	
20	Backergunge, „ 19 „	6·10	Weather—rainy. Crops doing well. Public health fair. Cattle-disease prevails in some parts of the Patuakhali sub-division.
21	Mymensingh, „ 20 „	5·79	Almost continous and occasionally heavy rain up to 18th. Sky still heavy. *Aus* and jute crops benefited by the rain but their outturn will not be good. Fever prevalent in south-east. Rivers gone down a couple of feet.
	Jamalpore ...	3·33	
	Kishoregunge ..	3·15	
	Attea ...	12 77	
	Netrokona ...	6·63	

* For week ending 21st instant.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL—*concld.*			
Eastern Districts.—concld.			
Chittagong Divn. 22	Chittagong July 24 '83	13·28	Weather—seasonable. Prospects of crops fair. *Amun* doing well. Cattle-disease still reported. General health good. Prices stationary.
23	Noakholly, „ 19 „	13 24	Frequent and sometimes heavy rain occasionally accompanied with, and preceded by, strong southerly wind. *Aus* paddy ripening. Preparation for transplanting of *amun* paddy continues.
24	Tipperah, „ 19 „	13·18	Weather—seasonable. State and prospects of crops fair. Jute is being gathered.
	Brahmunbaria ..	8·06	
	Chandpore ...	11·10	
25	Chittagong Hill Tracts. „ 17 „	3·42	Weather—excessively close in the first half of week; storms of wind with rain have lowered the temperature. *Jum* paddy doing fairly well. Lands being ploughed for paddy, and seed beds well advanced. Prospects of sugarcane good.
	Hill Tipperah, „ 18 „	8·76	Weather—rainy. *Amun* paddy still being transplanted. Sugarcane doing well. Public health good.
BEHAR			
Patna Divn. 26	Patna, ...	...	Return not received.
27	Gya July 21 „	6·82	Weather—hot and cloudy with frequent showers. *Bhadoi* crops and paddy seedlings thriving under favourable weather. Sugarcane and Indian-corn looking remarkably well. Cholera still prevalent.
28	Shahabad, „ 21 „	1·77	Weather—seasonable. Crops promising. Cholera and fever reported from Bhabhua.
	Buxar ...	4·25	
	Sasseram ...	1·83	
	Bhaboosh ...	1·10	
29	Durbhunga, „ 21 „	2·18	Heavy rain on 18th from the north. Prospects much improved by rain. Transplanting resumed with vigour. Health good. Prices stationary.
30	Muzuffurpore, „ 21 „	4·24	Weather—cloudy and showery. The rain has been very favourable both to the growing *bhadoi* crops and to the transplanting of the *aghani* rice. Public health fair.
	Hajeepore ...	1·58	
	Seetamurhee ...	0·41	
31	Sarun, „ 21 „	2·51	Weather—cloudy and rainy. The rain has done much good to standing crops, and appears to have been general throughout the district. Prospects of *bhadoi* crops excellent. Manufacture of indigo going on. Public health good. Prices easy.
	Sewan ...	4·85	
	Gopalgunge ...	3·89	
32	Chumparun „ 21 „	1·16	Weather—hot and cloudy. *Bhadoi* sowings almost completed. Sowing and transplanting of *aghani* crops in progress. General health fair.
Bhagulpore Divn. 33	Monghyr, July 21 '83	2·84	Weather—hot and showery. *Bhadoi* crops have germinated well. More rain required for rice. Public health good.
	Begusarai ...	2·01	
	Jamui ...	1·39	
34	Bhagulpore, „ 21 „	3·94	Weather—cloudy; cool. Fair rainfall everywhere. Prospects of crops good.
35	Purneah, „ 21 „	2·13	Weather—showery. Prospects of crops fair. Health fair.
	Kissengunge ...	3·41	
	Arrareah ...	4·51	
36	Maldah, „ 21 „	7·5	Weather—cloudy and rainy. Moderate east wind prevailing. The heavy downpour of this week has done much good to the standing crops. Common rice is selling at 16 seers a rupee. General health fair.
37	Sonthal Pergha. „ 21 „	6·04	Weather—rainy. The rain has been most beneficial. The *bhadoi* has improved and transplanting of the *aghani* crop is being pushed on.
	Deoghur ...	3·23	
	Rajmehal ...	4·18	
	Jamtara ...	5·56	
	Pakour ...	4·91	
ORISSA.			
Orissa Divn. 38	Cuttack, July 20 '83	4·4	Weather—cool and cloudy. *Sarad* progressing well. *Beali* being weeded. Sugarcane and cotton doing well. Common rice selling at from 20 to 24 seers per rupee. Public health generally good, with exception of a few cases of cholera in the town.
39	Pooree, „ 19 „	2·90	Weather—cloudy and rainy. Re-sowing going on in some places where the young plants were destroyed by late flood. Prices stationary. Sporadic cases of cholera in town and a few places in the district.
	Khoorda ...	3·53	
40	Balasore, „ 20 „	1·93	Weather—cloudy and rainy. Ploughing and transplanting going on. Standing crops progressing well. Public health generally good.
CHOTA NAGPORE.			
South-West Frontier Agency.			
41	Hazaribagh, July 20 '83	3·03	Weather—cloudy and seasonable. Sowing still continues. General prospects of crops good. Public health good.
42	Lohardugga, „ 21 „	5·64	Weather—rainy. Prospects satisfactory; but crops would benefit by sunshine. *Rahar, marwa, &c,* being sown. Epidemic cholera still prevalent in Hussainabad (Palamow). A few cases reported in Jorpa (head-quarters). Prices steady.
	Palamow ...	0·75	
43	Singbhoom, „ 20 „	2·27	Weather—seasonable. Moderate rain has fallen all over the district. All crops doing well. Prospects everywhere favourable. General health fair.
44	Manbhoom, „ 21 „	4·45	Weather—rainy and cool. Transplanting of paddy going on. All crops most promising. Public health good.
	Govindpore ...	3·24

Explanation of Summary.—The normal means of air pressure and temperature are the arithmetical averages or means of the readings during the same [illegible]. The *humidity* of the atmosphere is expressed as a percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky [illegible]. "Rainfall," the normal means are the numerical means or averages of the rainfall in that district determined from the returns sent in by the sub-divisions from that district, (*i.e.*) the total rainfall a the sub-divisional stations in the district sending in returns divided by the number of stations. A rainy

or the week ending 20th July 1883.

Rainfall of week at observing station.	DISTRICT OBSERVATIONS. RAINFALL. Of week. Average for district.	Of week. Normal mean for district.	Since 1st of month. Mean for district.	Since 1st of month. Normal mean.	Since 1st of month. Variation.	Since 15th May. Mean for district.	Since 15th May. Normal mean.	Since 15th May. Variation.	Average number of rainy days during the week.	Normal number of rainy days of week.	Representative station.	DISTRICT.	Meteorological Division.

Explanation Indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If some of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank.

SUMMARY OF METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, 20TH JULY 1883.

The meteorology of the past week has been different in character to that of the previous weeks of the present south-west monsoon period. Moderate monsoon winds were blowing at the head of the Bay at the end of last week, and were giving light to moderate rain over the greater part of the province. The partial break in the rains which had extended to the whole Province for some days had given way, and was then confined to North Behar and Bengal. The meteorology of the past week illustrates the effect of the combination of a strong monsoon current from the Bombay coast blowing across the Central Provinces, and of a moderate current from the Bay of Bengal.

It was noted in last week's report that the barometer was falling over the Province, and that light to moderate rain was falling except in North Bengal and Behar. The barometer continued to fall steadily, and rainfall became more general and larger in amount on Saturday and Sunday. The Bombay current had been blowing strongly for some days across the Bombay coast into the Central Provinces and Central India. On Monday it began to make itself felt in Bengal. Westerly winds set in at the Chutia Nagpur stations and at the more southerly stations in South Behar. They gradually extended eastwards and increased in strength, so that on Wednesday and Thursday westerly winds obtained over Orissa, Chutia Nagpur, Behar, South-West Bengal, and the north-west angle of the Bay. The effect of the inrush of these two moist currents into Bengal was to produce a large amount of ascensional air motion, and therefore to continue the fall of the barometer, so that on Thursday and Friday pressure was considerably below the normal. Bengal thus became a large area of shallow barometric depression. Skies in consequence of the general condensation accompanying ascensional air motion became overcast over the whole Province, and favourable rain has fallen in every district. The amount has been large and above the average in every district except the Pooree, Manbhoom, and Singbhoom districts. Excessive rain has also fallen over a part of South-West Bengal the centre of which is Raniganj, which has been for some months' past a centre of unusually heavy rainfall. The westerly winds began to weaken on Friday, but still continue in Chutia Nagpur and South-West Bengal, and hence fairly general rain is still being received over the Province. The rain that occurred during this intermingling of the two branches of the monsoon current during the past week has been heavier and more general, and more uniformly distributed, than any that has yet been received up to date during the present south-west monsoon.

The variations of the elements of meteorological observation from their normal values are not very large, but are important. The barometer was very high at the beginning of the week, but gradually fell until it was considerably below the average. The mean barometric values for the week are hence slightly above the average at all stations except at Gya and Purneah. The mean temperature of the week in consequence of the prevalence of overcast skies, and of heavy rainfall than the normal, is below the average at all stations except Durbhunga, where the rainfall was not large. The deficiency of temperature averages 1° over the Province, and is greatest at Dacca and Gya, for which it is 2·4°. Winds increased in force during the early part of the week and were above the normal strength generally during the last three days of the week. The sky has been thickly clouded at all stations except Motihari, for which the average cloud amount of the week is only 2.

The following table gives the usual summary of the temperature and rainfall data for each of the seven meteorological stations of the Province:—

Meteorological District.	Temperature						Rainfall.									
	Highest observed during week.	Lowest observed during week.	Average for week. Of highest of each day.	Of lowest of each day.	Of mean for each day.	Average mean of week above or below normal mean week.	Of week. Average amount.	Normal average.	Variation.	Rainy days. Average number in week.	Normal average number.	Variation.	Since 1st of month. Average.	Normal average.	Since May 15th. Average.	Normal average.
Orissa	91·4	[illegible]	[illegible]	78·9	83·6	—0·8	3·13	3·26	—0·13	5·0	4·0	+1·0	9·77	8·33	26·19	18·32
South-West Bengal ...	92·5	71·4	87·6	77·5	81·7	—1·7	6·84	2·32	+4·52	6·0	4·4	+1·6	9·33	7·11	23·03	20·00
East Bengal	90·8	69·8	84·9	76·7	80·8	—1·8	6·77	3·46	+3·31	7·0	5·1	+1·9	13·07	9·76	31·87	24·32
North Bengal	92·6	74·1	88·3	77·7	83·3	—	5·80	3·33	+2·47	5·5	4·3	+1·2	6·86	6·65	27·49	26·16

Chutia Nagpur	89·8	72·6	82·8	74·9	78·4	—1·6	3·54	2·97	+0·57	6·1	4·8	+1·3	9·13	8·17	18·84	19·30

Very favourable rain has hence fallen throughout the Province during the past week. Orissa has received its normal amount. Elsewhere, except in the more southerly districts of Chutia Nagpur, abundant rain has fallen. In South-West Bengal and East Bengal an average of from two to three times the normal amount has been received, and in North Bengal and North Behar the proportion is somewhat less, but is large.

The general character of the rainfall is also shown by the fact that the number of rainy days exceeds the average by one to two days in all districts.

The abundant rain of the past week, following the partial break of the previous week, has increased considerably the total rainfall of the present month up to date, so that it is considerably above the average in Orissa, South-West Bengal, East Bengal, Chutia Nagpur and South Behar. There is a deficiency over the greater part of North Bengal and North Behar which is most marked in the Rungpore, Dinagepore, Rajshahye, Purneah, North Bhagulpore, Durbhunga and Mozufferpore districts. The districts in North Bengal have received deficient rainfall throughout the whole of the present season. The deficiency has, however, been due rather to lightness of the showers than to absence of cloud, and to a smaller number of rainy days.

Saturday, the 14th July.—Pressure increased at all stations except Gopalpore. The increase was large in amount in North and East Bengal and in North Behar. The cyclonic vortex formed during the previous week at the head of the Bay was at 10 A.M. in the neighbourhood of the Orissa hills. Pressure was above the average in all parts of the Province except Orissa, and was very high in North Behar, where it was more than a tenth of an inch above the normal. Temperature diminished in South-West Bengal. It was 1° below the average in Orissa. It had decreased slightly in Behar, but was still considerably above the average. The mean temperature of the past 24 hours was 3° above the average in Behar and 2° in Chutia Nagpur. Winds were generally normal in direction. South-easterly winds had set in over the whole of the north of the Bay, and were of moderate strength. The westward motion of the cyclonic vortex caused the winds in Orissa and South-West Bengal to draw round to directions between east and south-east. Winds were easterly in North Bengal and Behar, and were slightly stronger than they were on th 13th. Humidity increased in nearly every part of the Province during the preceding 24 hours. The amount of cloud was also larger and sky was overcast at a considerable number of stations. General rain fell in East and South-West Bengal, Orissa, and Chutia Nagpur, and local showers over the remainder of the Province, excepting in South Behar, where the break in the rains continued. The rainfall was generally light to moderate in amount, the only falls exceeding two inches being 3·48 inches at Bogra, and 2·03 inches at Nowkilla (in the Bogra district).

Sunday, the 15th July.—A rapid recovery of pressure took place during the preceding 24 hours. The rise was greatest in Orissa, where it was mainly due to the westward movement of the cyclonic vortex into the Central Provinces. Pressure was now considerably above the normal pressure of the day by amounts which ranged from ·04″ at Durbhunga to ·15″ at Dacca. Temperature continued to fall in Behar, and now varied from the normal temperature by small amounts over the whole Province. In Bengal and Orissa the mean temperature of the past 24 hours was 1° above the average for the day. The highest temperature recorded in the Province was 97·4° at Buxar. Moderately strong monsoon winds prevailed at the head of the Bay, and gave rise to winds of slightly greater intensity than the average over the whole Province. Winds were southerly in South Bengal, south-easterly in Central Bengal, and easterly near the Himalayas in Behar. The sky was overcast at the great majority of stations, more especially in Orissa, South-West and East Bengal. Fairly general rain, light to moderate in amount, fell over Orissa, South-West Bengal, East Bengal and Chutia Nagpur and also in North Bengal. The only fall exceeding two inches was 2·41 inches registered at Noakholly. The rainfall in Behar was, as on the 14th, limited to a few local showers of no importance.

Monday, the 16th July.—The changes of pressure of the preceding 24 hours were large and rather important. The barometer continued to rise in Orissa, South-West Bengal, East Bengal, and Chutia Nagpur, but fell considerably in North Bengal and Behar, so that pressure was lowest in Behar. It was still considerably above the normal of the day by amounts which varied from ·06″ at Purneah to ·16″ at Chittagong. Temperature was slightly above the average in Orissa and North Behar, and was below it elsewhere. The deficiency was greatest at Dacca, where it was 5°. The greatest observed temperature during the day was 91·2° at Gya. Moderately strong monsoon winds were blowing at the head of the Bay, and gave ordinary monsoon winds over the greater part of the Province. Winds ranged from south-west to south-east in South Bengal. South-easterly winds chiefly prevailed in North Bengal and North Behar. In South Behar and Chutia Nagpur winds were from the west or south-west, thus indicating that the Bombay current, which had been blowing strongly for some days, was extending to South Behar, Chutia Nagpur and Orissa. Humidity was high in East Bengal and North Bengal, and was increasing rapidly over the whole of Behar and Chutia Nagpur. Skies were overcast over the whole of the Province, with the exception of the western districts of North Behar. General rain occurred over nearly the whole of the Province. East and North Bengal and South Behar received moderate to heavy general rain. The rainfall was specially heavy in the Cooch Behar district. Cooch Behar received 7·61 inches, Mickligunge 7·3 inches, and Matabhanga 6·93 inches. The rainfall was light in South-West Bengal. Some heavy local showers were received in North Behar.

Tuesday, the 17th July.—Pressure decreased at all stations except Ranegunge and Julpigoree. The fall of the barometer was small, except in South-West Bengal, East Bengal, and the central districts of North Bengal. It was largest at Mymensingh (·13″), and a slight barometric depression had formed in Central Bengal about which the winds were circulating cyclonically. Pressure was above the average of the day by amounts which varied from +·02

at Gya to ·1″ at Cuttack and Saugor Island Temperature continued to diminish with the continuance of overcast skies and rain. The mean temperature of the preceding 24 hours was very slightly above the normal in South-West Bengal and Orissa It was 3½° below it in East Bengal and 2° in Behar. Strong monsoon winds prevailed at the head of the Bay, but had shifted round to the west and were blowing from directions between south and south-west. Winds were south-easterly at Mymensingh and Commillah, easterly at Darjeeling and Julpigoree, north-easterly in North Behar and westerly at Bhagulpore and Hazaribagh. The air was very damp in every part of the Province, and was almost saturated in East and North Bengal. Skies were overcast at all stations, except at the most westerly stations in Behar. General rain fell over the whole Province, with the exception of Orissa, during the preceding 24 hours. The amounts were large in East Bengal. Rainfalls exceeding 5 inches were received at Atia (8·03 inches), Commillah (7·9 inches), Dacca 7·04 inches), Noakhally (6·09 inches), Nowgong (6·06 inches), Fenny, Chandpore, Mumshigunge, and Madaripore. The rainfall was heavy over nearly the whole of North Bengal and South-West Bengal, excepting in the Midnapore, Hooghly and Howrah districts, and 24-Pergunnahs. Raneegunge received 6·8 inches. Amounts slightly exceeding four inches fell at Bogra, Maldah, and Dinhatta in Cooch Behar. Moderate rain fell over the whole of Behar and Chutia Nagpur, and a few light showers in Orissa and the adjacent districts of South-West Bengal.

Wednesday, 18th July—A rapid fall of the barometer occurred during the preceding 24 hours over the whole Province, greatest in amount in East and North Bengal and North Behar, over which it averaged a tenth of an inch. Pressure was now below the average except in Orissa and Chutia Nagpur. The deficiency was greatest at Purneah (·06″). The whole of North Bengal and Behar now formed an area of slight barometric depression. Temperature was unusually low with the continuance of overcast skies and the occurrence of heavy rain. The mean temperature of the past 24 hours was 4° below the normal temperature of the day in South-West Bengal, from 3° to 6° below it in East Bengal, and from 2° to 4° below it in (Behar excluding Durbhanga). The highest day temperatures observed were in North Bengal. The highest maximum temperature (90·8°) was registered at Rungpore. Strong monsoon winds continued to blow at the head of the Bay. There was also a strong indraught to Bengal from the west, which was partly, if not entirely, the extension of the Bombay monsoon current. Winds were westerly to south-westerly at the head of the Bay, southerly in East Bengal and westerly over the whole of Behar and Chutia Nagpur. The air was slightly less damp in East and South-West Bengal than on the 17th. It was very damp and almost saturated with moisture in Behar and the northern districts of North Bengal. The sky was overcast over the whole Province General rain fell over the whole Province. The rainfall was heavy in East Bengal, South-West Bengal, South Behar, Chutia Nagpur, and at a few stations in North Bengal. The rain was more uniformly distributed than on the 17th, and no excessive rainfalls were recorded Rainfalls exceeding three inches were received at Raneegunge (3·4 inches) Beerbhoom Soory (3·12 inches), Lallbagh (3·82 inches), Azimgunge (4·22 inches), Lalgolla (3·52 inches) and Silligori (3·0 inches).

Thursday, the 19th July.—Pressure again gave way over the whole Province. The fall of the barometer was generally large in amount and was greatest in South-West Bengal. Pressure was very low, but was nearly uniform over the whole of Bengal and Behar, so that it formed a large area of shallow barometric depression. Pressure was below the normal of the day by amounts ranging from ·03″ in Orissa to ·12″ at Burdwan. Temperature was everywhere below the mean. The deficiency averaged 4° in Chutia Nagpur and Behar, 3° in South-West Bengal, 2½° in East Bengal, and 2° in Orissa Strong monsoon winds continued at the head of the Bay. In East Bengal winds were south-easterly and in North Bengal easterly. Over the greater part of Behar and in Chutia Nagpur, Orissa, and South-West Bengal they continued to blow from the west, and were the continuation of the westerly winds of the Central Provinces and Central India. The air was slightly damper in Orissa and South-West Bengal. Skies were overcast over the whole Province, excepting the most westerly districts of North Behar. General rain again fell over the whole Province.

The rainfall was excessive over the 24-Pergunnahs, Hooghly and Burdwan districts. Rainfalls exceeding four inches were recorded at Burdwan (10·2 inches), Hooghly (9·15 inches), Buseerhat (5·28 inches), Barrackpore (5·1 inches), and Baraset (5·1 inches). It was heavy over the whole of Chutia Nagpur, the greater part of South Behar, and South-West Bengal. Over the remainder of the province, *i.e.* North Behar, North and East Bengal and Orissa, it was moderate in amount.

Friday, the 20th July.—Pressure was lower than on the 19th over the whole Province, with the exception of a small part of South-West Bengal, represented by Saugor Island and Calcutta, and of North Bengal represented by Julpigoree and Darjeeling. It was very low and differed from the normal by amounts which ranged from ·06″ at Cuttack to ·17″ at Burdwan. There was no definite centre of barometric depression; and pressure, although very low, was remarkably uniform over Behar, Chutia Nagpur, and the greater part of Bengal, where the readings ranged from 29·45″ (at Burdwan and Bhagulpore) to 29·50″ (at Rampore Beauleah and Commillah). Temperature was much below the normal. The deficiency of the mean temperature was greatest in Orissa, where it averaged 5½° and at Gya where it was 5°. It averaged 1½° in South-West and East Bengal, South Behar, and Chutia Nagpur. Very strong south-westerly monsoon winds were now blowing at the head

of the Bay across the Bengal coast. The westerly winds in Behar and Chutia Nagpur, due to the strong current from the Bombay coast across Central India, which had been blowing steadily for three days, now began to diminish in strength and retreat westwards. Winds were south-easterly in East and North Bengal, and in North Behar, and were variable in South Behar. Westerly winds continued at Hazaribagh, Buxar, and Dehree. Humidity was above the average in every part of the Province, except at the northern stations in North Bengal. The sky was less clouded than the 19th. It was overcast in Orissa, South-West Bengal, East Bengal, Chutia Nagpur, and at the southerly and south-westerly stations in South Behar.

General rain fell during the preceding 24 hours in every part of the Province except North Bengal, where the rainfall was limited to a few local showers. The rainfall was less in amount than on the 19th, but was more uniformly distributed. It was heaviest in the Cuttack, Moorshedabad, Chittagong and Backergunge districts. Rainfalls exceeding two inches were received at Kandi (3·55 inches), Cox's Bazar (3·2 inches), Tajpore in the Durbhunga district (2·77 inches), Burrisal (4·52 inches), Jehanabad in the Gya district, Cox's Bazar, Chittagong, and Jamui in the Monghyr district.

MEMORANDA.

THE subjoined table exhibits the vital statistics of the first class Municipalities in Bengal for the week ending 7th July. The figures in this table indicate :—

(1.) That births and deaths were registered in these Municipalities at the rates, respectively, of 16·9 and 26·8 per 1,000 of population, against 15·8 and 25·4 per 1,000, respectively, in the preceding week ending 30th June.

(2.) That the undermentioned Municipalities returned the highest proportions of births and deaths :—

Births.	Ratio per mille.	*Deaths.*	Ratio per mille.
Santipore ..	28·0	Gya ..	91·5
Gya ..	28·0	Uterparah ..	47·2
Poori ..	25·7	Poori ..	47·1
Hughli ..	25·5	Darjiling ..	37·0
Midnapore ..	24·8	Burdwan ..	32·0
		Serampore ..	31·4
		Patna ..	30·2
		Suburbs of Calcutta ..	29·4
		Mozufferpore ..	26·8

(3.) That the mean rates at which the several death-causes proved fatal, in comparison with the rates of the preceding week, were :—

	Ratio per 1,000 during the weeks ending	
	7th July.	30th June.
Cholera	4·3	3·8
Small-pox	·6	·5
Fever	11·4	10·2
Bowel-complaints	3·6	3·6
Injury	·5	·6
Other causes	6·4	6·6

indicating that there was an increase in the death-rates from cholera and fever, equal mortality from bowel-complaints, and no material difference in the fatal results from the other diseases.

(4.) That cholera, small-pox, and fever were conspicuously fatal in the following towns :—

Cholera.	Ratio per mille.	*Small-pox.*	Ratio per mille.	*Fever.*	Ratio per mille.
Gya	38·2	Gya	6·8	Gya	23·2
Poori ..	15·0			Purneah ...	20·8

(5.) That the mortality according to *Class* or *Nationality*, excluding that among Budhists, of whom three died in only the Darjiling Municipality, stood as follows :—

	Ratio per mille.
Christians	47·2
Hindus	28·2
Mahomedans	22·6

(6.) That with regard mortality referable to *Age*, the highest death-rates were returned by :—

	Ratio per mille.
Infants (under 1 year)	204·7
Children (of 1 and under 5 years)	49·1
Old men (60 years and upwards)	55·7

and the lowest by adults, aged 10 and under 15 years, viz at 13·1 per 1,000 of the living.

F. W. A. DEFABECK,
Officiating Sanitary Commissioner for Bengal.

The 23rd July 1883.

Statement showing the Results of the Registration of Births and Deaths in the First Class Municipalities in Bengal during the week ending 7th July 1883.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction of the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, g gloomy, p passing temporary showers, t thunder, d drizzling rain.

JOHN ELIOT,

For Meteorological Reporter to the Government of India.

METEOROLOGICAL OFFICE, INDIA,
The 23rd July 1883.

Results of the Thermometrical Observations taken at the Meteorological Office, Chowringhee, from 15th to 21st July 1883.

The mean temperature and humidity are obtained by applying to the mean of the 10h, 16h, and minimum readings a correction dependent on the range, and derived from the hourly observations at the Surveyor-General's Office, Chowringhee, in past years.

Meteorological Office, India,
The 23rd July 1883.

John Eliot,
For Meteorological Reporter to the Govt. of India.

Report on the Fluctuations in Traffic on the Northern Bengal State Railway for the month of June 1883.

GENERAL REMARKS.

THOUGH the figures given in the comparative statement below represent the traffic lifted during the month of June, the dullest month of the half year, it will be observed that, as compared with the same period last year, an increase of 53,658 maunds has taken place. The principal increases have occurred in Food-grain, Gunny-bags, Piece-goods, Railway material, and Salt, while Tea, Tobacco and *all other goods*, have slightly declined. The remarks below will explain these fluctuations.

INCREASES.

Ale ... ... Mds. 589

Increased despatches under this head may now be looked for to replenish stocks.

Food-grain ... ... Mds. 9,140

This increase is entirely in downward traffic, and is due to slightly better prices offering in Calcutta.

Gunny-bags ... ... Mds. 8,495

This is a large increase for this time of year. It is now believed that this industry is firmly established. The demand for these bags for packing continues.

Jute ... ... Mds. 1,450

Small quantities of the new crop are already being forwarded, and a very early season for the northern districts is anticipated. The market in Calcutta is dull and very little business is doing.

Piece-goods ... ... Mds. 3,434

This increase can only be attributed to two causes—an increased demand, and a desire to stock local markets before the rains fairly set in and render roads in the interior difficult of access.

Railway material ... ... Mds. 29,489

Material for the Dinagepore extension and coal for the consumption of the Locomotive Department make up this increase.

Salt ... ... Mds. 32,175

Very large sales of salt have recently taken place in Calcutta, and despatchers have evidently seized the opportunity of stoc k ing local markets.

DECREASES.

Ginger ... ... Mds. 2,058

The demand for this article has apparently subsided.

Sugar ... ... Mds. 546

During the past two months the upwards traffic in this staple showed signs of improvement, but it would appear from the above decrease that this was only temporary.

The local manufacture of sugar is increasing

Tea ... ... Mds. 725

As already pointed out, comparison with the same period last year is unfair. The total quantity of tea despatched during the month was 14,316 maunds. This is only 725 maunds under last June's deliveries.

Tobacco ... ... Mds. 5,956

There is little or no demand for any description of tobacco.

For Bispat the quotations are so low that business cannot possibly be done.

All other goods ... ... Mds. 21,829

Last year's coal for the Darjeeling Himalayan Railway was included under this head, but since January 1883 it has been entered under "Railway material" which will explain the decreases which have recently been noted under this heading.

Statement shewing Increases and Decreases in Maundage of Staples carried over the Line during the month of June 1883.

TRAFFIC SUPERINTENDENT'S OFFICE; *Saidpur, the 12th July* 1883. G. S. LEONARD, *Traffic Superintendent.*

Report of Fluctuation of Traffic on the Eastern Bengal Railway for the month of April 1883.

EASTERN BENGAL RAILWAY COMPANY, TRAFFIC SUPERINTENDENT'S OFFICE, SEALDAH TERMINUS.

No. W43-264, dated Calcutta, the 4th July 1883.

From—C. F. CHADBURN, ESQ., Acting Traffic Superintendent, Eastern Bengal Railway Company,
To—The Agent, Eastern Bengal Railway Company.

I HAVE the pleasure to forward herewith the usual comparative statement of traffic for the month of April last, as compared with the corresponding month of last year, and from which it will be observed that the gross weight carried over the line was maunds 12,40,471, or an increase of maunds 1,48,801 equal to about 13½ per cent over that of 1882.

The principal fluctuations for the period under report are as follows:—

Increases.

Jute ... ... 1,23,747 Mds.

Although not equal to that of last month, the increase must still be considered as very satisfactory. The area under jute cultiva- tion last year was far in excess of previous years, the yield being reckoned at 25 to 30 per cent greater; and it is gratifying to note that this additional contribution to carriage has been supplied almost entirely from our own stations and agencies, Serajgunge alone shewing maunds 41,000 over that for the same period last year. For loose jute in particular there was a large demand.

Seeds ... ... 30,163 Mds.

Under this heading is comprised principally linseed, mustard, and rape. The first the merchants have been buying in against a rise in the market; while in the latter (rapeseed) a considerable amount of business was done in the way of export.

Sugar ... ... 23,946 Mds.

Exportations of this commodity to the European markets were very large, owing to a partial failure in receipt of the usua supplies from Cuba.

The extra outturn at the factories of Kissengunge, Chooadangah, and Alamdangah accounts for this increased maundage.

Tobacco ... ... 7,946 Mds.

A steady demand for export, with favourable prices, induced up-country holders to reduce their stocks.

Gunny-bags ... ... 12 691 Mds.

The greater activity in grain and other seeds demanded a larger supply of bags for the purposes of carriage, and the increase in this material must be ascribed to that cause. A good jute crop helped to this in no small degree.

Miscellaneous ... ... 4,505 Mds.

Is due entirely to large consignments of railway plant, &c., forwarded for the Dacca and Mymensing State and B. C. Railways.

Grain and pulse ... ... 25,509 Mds.

This improvement on last year is due to the fact of large arrivals of wheat and new rice, the former to meet "time bargains."

Decreases.

Coal and coke ... ... 44,272 Mds.

The same cause mentioned in last report may again be quoted as the reason for the falling off shewn in the carriage of these commodities, viz through the diversion of the traffic from the Railway to the Chitpore canal.

Cotton ... ... 5,834 Mds.

Under this, the decrease is owing in a measure to the displacement of cotton last year by jute, for which there was a greater demand and yielded larger profits to the grower as the markets then stood; the markets at same time were very dull with but little enquiry for the month under report.

Salt ... ... 24,178 Mds.

The up-country stocks were so largely replenished after the reduction in duty last year, that the effect is still apparent by the decreased demand on the supplying depôt of Calcutta.

EASTERN BENGAL RAILWAY.

Statement shewing Increases and Decreases in Maundage of Staples carried over this Line for the month of April 1883, *as compared with that of the corresponding period of* 1882.

TOUR OF THE LIEUTENANT-GOVERNOR.

The 23rd July 1883.—The following programme of the tour of His Honor the Lieutenant-Governor is published for general information. The dates given are as nearly correct as it is possible to make them.

Monday, August	6th	...	Leave Calcutta, arrive at Hooghly, visiting Utterpara and Serampore.
Tuesday ,,	7th	...	Remain at Hooghly.
Wednesday ,,	8th	...	Leave Hooghly, arrive at Culna, visiting Santipore.
Thursday ,,	9th	...	Leave Culna, arrive at Cutwa.
Friday ,,	10th	...	Leave Cutwa.
Monday ,,	13th	...	Rajmehal.
Tuesday ,,	14th	...	Bhagulpore.
Wednesday ,,	15th	...	
Thursday ,,	16th	...	Leave Bhagulpore, arrive at Monghyr.
Friday ,,	17th	...	Monghyr.
Saturday ,,	18th	...	
Monday ,,	20th	...	Arrive at Bankipore.
Tuesday ,,	21st	...	Leave Bankipore, arrive at Revelgunge, visiting Hajeepore *en route*.
Wednesday ,,	22nd	...	Remain at Revelgunge.
Thursday ,,	23rd	...	
Friday ,,	24th	...	Leave Revelgunge.
Tuesday ,,	28th	...	Arrive at Maldah.
Wednesday ,,	29th	...	Remain at Maldah.
Thursday ,,	30th	...	Leave Maldah.
Friday ,,	31st	...	Arrive at Dacca.
Saturday, September	1st	...	Remain at Dacca, and visit Naraingunge.
Sunday ,,	2nd	...	Leave Naraingunge, visit Chandpore, and arrive at Daoodkandy.
Monday ,,	3rd	...	Remain at Comilla.
Tuesday ,,	4th	...

No. 39.—Mr. J. C. Arbuthnot, Assistant Commissioner, on transfer to North Lakimpur, made over charge of office at Dibrugarh in the afternoon of the 4th July 1883.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 21st July 1883.—Whereas a notification was published in the *Calcutta Gazette* of the 9th May 1883, declaring the Lieutenant-Governor's intention to sanction the levy by the Commissioners of the Kandi Municipality, in the district of Moorshedabad, under section 134 of the Bengal Municipal Act, V (B C.) of 1876, of a fee on the registration, under section 133 of the Act, of all carts kept or habitually used within the municipality, and whereas no objection has been raised to the proposal within one month from the publication of the above notification within the municipality, it is hereby notified for general information that, in the exercise of the powers conferred upon him by section 78 of the Act, the Lieutenant-Governor sanctions the levy of the fees with effect from the 15th August 1883.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 23rd July 1883.—It is hereby notified that the gentlemen named below have been elected Commissioners of the Serampore Municipalty, in the district of Hooghly :—

For the Mohesh and Rishra Ward.

Baboo Nitye Churn Adhecarie. | Baboo Khettro Mohun Mookerjee.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 24th July 1883.—It is hereby notified that the notification dated the 7th February 1881, published at page 186, Part I of the *Calcutta Gazette* of the 9th idem, declaring that the Commissioners of the Purneah Municipality will maintain an establishment, under Act VI (B.C) of 1878, for the cleansing of latrines within that municipality, is hereby cancelled on the recommendation of the Commissioners of the said municipality.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 24th July 1883.—In the exercise of the powers conferred on him by section 78 of Act V (B. C.) of 1876, and in compliance with the recommendation of the Commissioners of the Hazaribagh Municipality, the Lieutenant-Governor intends to sanction the imposition by the Commissioners, under section 122 of the Act, of a tax on horses and other animals mentioned in the third schedule annexed to the Act at rates not exceeding those specified in the said schedule.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 27th July 1883.—It is hereby notified for general information that, in modification of the notification of Government dated the 18th February 1879, published at page 157, Part I of the *Calcutta Gazette* of the 19th idem, the Lieutenant-Governor, on the recommendation of the Commissioners of the Hooghly and Chinsurah Municipality, intends to revise the western boundary of the said municipality. The revised boundary will be as follows :—

On the west by the Grand Trunk Road, from Taldongah entrance and boundary-stone pillar No. 42, as far as the Hooghly railway station feeder road ; thence along the southern border of the feeder road to the railway station, as far as the water-pump on the south ; thence along the western fencing of the railroad northwards to the godown ; then turning to the east of the coal depôts along the eastern bank of the tank and the north border of the feeder road to the Grand Trunk Road ; thence to Naldongah road up to the bridge over Ross Poora or Bali Khal, by the Ross Poora or Bali Khal through the masonry bridge on the Kajeedangah metalled road, as far as it goes to the north (*i.e.*, to where it turns off sharp to the east) ; thence due north by the old water-course to Bana Pukoor and the bridge close to that tank on the Balagur Road ; thence by the edge of the low paddy lands to the east of the East Indian Railway, as far as the two arched bridges at the junction of the Burtollah and Grand Trunk Roads.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 24th July 1883.—It is hereby notified that, under the powers vested in him by section 32 of Act V (B.C.) of 1876, the Lieutenant-Governor excludes from the operation of the said Act so much of the Durbhunga Kumtowl road (8,800 feet in length) as lies within the Durbhunga Municipality, and authorizes its transfer to the charge of the Road Cess Committee of the district.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 24th July 1883.—It is hereby notified for general information that the Lieutenant-Governor intends, in accordance with the recommendation of the Commissioners of the Hazaribagh Municipality, made at a meeting, to extend the provisions of sections 285 to 294 of the Bengal Municipal Act, V (B.C.) of 1876, to that municipality, unless good reasons be shown to the contrary within one month from the date of publication of this notification within the above municipality.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 27th July 1883.—It is hereby notified for general information that the Lieutenant-Governor intends, if no valid objections shall have been raised within one month from the date of this publication, to submit to the Government of India for approval the following revised rules framed under the provisions of sections 130 and 133 of Act VIII of 1878 (the Sea Customs Act), to regulate the transhipment of goods. These rules will, when confirmed, take effect from the 1st October 1883, and will supersede those published in the *Calcutta Gazette* of the 30th March 1881 and the 26th October 1881.

1. Applications for the transhipment of free goods should be presented to the proper officer of Customs before 3 P. M., and such goods will be allowed transhipment under the pass issued, without any charge.

2. Applications for the transhipment of dutiable goods should be presented to the proper officer of Customs before 3 P. M. on the day prior to that on which the transhipment is required, accompanied by the fees payable, under section 133 of the Act, on the following scale for the port of Calcutta :—

For each transhipment between the hours of 8 A. M. and 5 P. M.—

	Rs.	A.	P.
On packages not exceeding 50 in number, each ...	0	4	0
On every ten or less than ten packages in excess of 50 ...	1	0	0

3. When transhipments of dutiable goods are not completed before 5 P. M., an additional fee of Rs. 4 will be charged.

4. *Chittagong.*—The transhipment fees payable on dutiable goods are as follow :—

	Rs.	A.	P.	
For single packages ...	0	8	0	per package.
For goods in bulk ...	6	4	0	per 100 maunds.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 30th July 1883.—The Lieutenant-Governor is pleased to order that, on and after the 1st September 1883, the following shall be the rates for forest produce in the Sunderbuns protected forests, in supersession of those published in Rule I of the Rules of the 17th August 1880, and of the notification dated 12th September 1880 :—

(1) Pussur and Amoor timber in pieces measuring 10 feet and upwards in length *or* 3′ 9″ and upwards in girth at the thick end, for every maund, one anna.

(2) Sundri, Pussur, and Amoor timber in pieces measuring 6 feet and under 10 feet in length *or* 2′ 3″ and under 3′ 9″ in girth at the thick end, for every maund, one-half anna.

(3) Keora timber in pieces measuring 6 feet and upwards in length *and* 2′ 3″ and over in girth at the thick end, for every maund, one-quarter anna.

(4) Any other forest produce, except honey and wax, for every maund, one-quarter anna.

(5) The right to collect honey and wax, for each man per month, one rupee eight annas.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 31st July 1883.—The Lieutenant-Governor sanctions the transfer of village Kayapat (No. 8410), of pergunnah Bogri, from the criminal and revenue jurisdiction of the district of Midnapore to that of Hooghly, with effect from the 1st April 1883.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

[Second Publication.]

NOTIFICATION.

The 19th July 1883.—The following Notice to Mariners is published for general information.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

GOVERNMENT OF BENGAL, GENERAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 32).

BAY OF BENGAL—BRITISH BURMA.

TENASSERIM COAST—TAVOY RIVER.

New Reef Island light.

THE Superintendent of Lighthouses in British Burma has notified that, on or about the 1st August 1883, a fixed white light will be exhibited on Reef island, at the entrance to Tavoy river, as a guide to vessels approching the port of Tavoy.

The illuminating apparatus will be dioptric, or by lenses of the fifth order, and will be shown from a temporary wooden tripod during the time the lighthouse is in course of construction. The building will be a circular masonry tower, and is intended to be 28 feet high.

Further particulars will be published hereafter.

By direction of the Government of Bengal,

J. MENTEITH BRENNER,
Offg. Port Officer of Calcutta.

PORT OFFICE, *Calcutta, the 17th July* 1883.

[Second Publication.]

NOTIFICATION.

The 19th June 1883.—It is hereby notified, under section 4 of Act VII of 1878 (the Indian Forest Act), that it is proposed to constitute the following areas, in the district of Pooree, lying within the boundaries described below, reserved forests under the provisions of the said Act.—

District.	Pergunnah or other sub-division.	Name of forest.	Boundaries.
Pooree ...	Khorda ...	Dandimal range, Churang block.	*North.*—Demarcated boundary line between Khorda and Dompara, Khorda and Motri, Khorda and Ratagarh, Khorda and Chandi, and Khorda and Sarangarh. *East.*—Demarcated boundary line between Jujgarh and Churang following the Trunk Road. *South.*—From a point on the Trunk Road to the Barimul hill, then along the base of the hill to the Churang fort wall; thence along the base of the Angar hill along the southern boundary of mouzah Bhalunka to the triple junction of mouzahs Bhalunka, Krushnanagar, and Bhuasuni; thence to the southern corner of the Rangamati hill; then west to the boundary line between mouzahs Talsadei and Chandka. *West.*—Along a demarcated boundary line running to the Nodha hill, which is the starting point.
Ditto ...	Ditto ...	Dandimal range, Chandika block.	*East.*—The boundary of the Churang block. *South.*—A demarcated line passing to the north of the cultivated land of mouzah Chandka, running first west, then north-west to the Kendujhar nala; thence almost due south to the boundary of mouzahs Chandka and Simlipatana; then along that boundary to a feeder of the Kendujhar nala; then south to the Mahalimba hill, passing to the east of it in a southerly direction to the Bhalumundia; then westward to the boundary between Kantabar and Bhagabatipore at the base of the Raikhala hill. *West.*—The demarcated boundary between Kantabar and Bhagabatipore. *North.*—The demarcated boundary line between Khorda and Dompara.
Ditto ...	Ditto ...	Dandimal range, Barapita block.	*East.*—The demarcated boundary line between Kantabar and Bhagabatipore to the Raikhala hill. *South.*—A demarcated line running westward along the base of the Raikhala hill, crossing the Haldigundi nala to the Basang hill in mouzah Kadamjhar, to the triple junction point between Koduamunda, Kadamjhar, and Krushna Mohanpore, following the southern demarcated boundary of Krushna Mohanpore, then following the eastern demarcated boundary of Fakirpara to the tri-junction with Koduamunda, Fakirpara, and Minchinpatna; thence along the southern boundary of Fakirpara to the triple junction of Bantal, Majana, and Fakirpara; thence a demarcated line passing to the south of the Deolia hill to the south-east spur of the Kansari hill, then along the southern base of the Kansari hill to the base of the Baghaitangi Mundia. *West.*—Along the demarcated boundary between Tarkai and Baghaitangi, and Tarki and zillah Haldia, to the Maruaband triple junction of zillah Dompara and zillahs Dandimal and Haldia. *North.*—The demarcated boundary between Dompara and Khorda.
Ditto ...	Ditto ...	Dandimal range, Panchgarh block.	*North.*—Cultivated lands of mouzahs Mardabari Pankal-Sahi, Kuspala, Kothpala, Palidighiri, Mandal Singh, and Kautara. *East.*—Demarcated boundary line between Khorda and Killah Ranpore. *South.*—Demarcated boundary line between Khorda and Killah Nayagarh. *West.*—Demarcated boundary line between Khorda and Nayagarh.
Ditto ...	Ditto ...	Dandimal range, Barunai block.	*North.*—From a point on the boundary between Palatotapara and Khorda, running along the base of the hills on the north to the triple junction of jemader Makundprasad, and Khorda; thence to the triple junction of Makundprasad, Kholaduar, and Khorda, skirting along the base of the Barunai hills. *East.*—The base of the Barunai hills along a demarcated line to the triple junction of Kholaduar, Porapara, and Khorda.

District.	Pergunnah or other sub-division.	Name of forest.	Boundaries.
			South.—Thence along a demarcated line along the base of the hills to the triple junction of Scaliapatna, Palatotapara, and Khorda. *West.*—Along a demarcated line to the starting point.
Pooree ...	Khorda ...	Banpore range, Arang block.	*North.*—From the Salia river at the boundary between Khorda and Killah Ranpore, following the demarcated boundary on Ranpore of mouzahs Kunda Khai and Dhuanali. *East.*—Thence along the eastern boundary of Dhuanali to the triple junction of the Sandha Mal, Bara Mal, and Dhuanali. *South.*—Thence along the south-eastern demarcated boundaries of Dhuanali and Arang to the northern limit of Beruanbari; thence along the southern boundary of Arang to the triple junction of Beruanbari, Arang and Jualiambo; thence along the south-eastern boundary of the last named village to the junction of San Seraipore, Bankarpali, Bankargarh, and Jualiambo; thence along the Bankar nadi, and on along the southern demarcated boundary of Bankargarh to the triple junction of Nilapali, Bamdebpore, and Bankargarh. *West.*—Thence along the south-western demarcated boundary of Bankargarh to the triple junction of Nilapali in Rigirisimah and Bankargarh; thence along the southern base of the Rigirisimah hills to the Salia river, then north following the Salia river to the road between Niladriprasad and Arang; thence along the north base of the hills to the triple junction of Bhaliapara, Raipara, and Bankargarh; thence along the base of the hills to the triple junction of Bhaliapara, Jualiambo, and Bankargarh, skirting round the cultivated lands of Jualiambo to the road from Jualiambo to Beruanbari; then north along the demarcated boundary between Jualiambo and Arang, and Kiagorara and Arang, skirting the cultivated lands of Arang Dhuanali, and Nathpore to the Salia river, and along that river to the starting point.
Ditto ...	Ditto ...	Banpore range, Tamna hill block.	*West and North.*—From the triple junction of Ankula, Baldiabhiri, and Baharaput along the demarcated boundary line between the Bara Mal and Duriama Mal to the triple junction of Barikata, Kushnatara, and Killah Nayagarh; thence along the demarcated boundary between the Bara Mal and Killah Nayagarh to the Tamna great trigonometrical survey station; thence along the same demarcated boundary to the triple junction between the Bara Mal and Killahs Nayagarh and Ranpore, and on to the Salia river. *East and South.*—The Salia river, where it forms the boundary between Kundakhai and Nathpore; thence along the demarcated southern boundary of Kundakhai and Silingpara; thence along the demarcated eastern boundary of Dumdumi to the Salia river; thence along the demarcated southern and south-western boundaries of the same village; thence along the demarcated southern boundaries of Krushnatara and Barikata; thence along the demarcated south-eastern boundary of Barikata; thence along the eastern boundary of Baharaput to the Pathura nadi, and on to the triple junction of Ankula, Baldiabhiri, and Baharaput, which is the starting point.
Ditto ...	Ditto ...	Banpore range, Katual block.	*North.*—From the triple junction of Baldiabhiri, Nuaguna, and Katual along the demarcated line of Katual to the Pathara nala. *East.*—Following the Pathara nala to the cultivated lands of the Birijai Thakurani; thence along the limits of those lands to the northern corner of the demarcated boundary between Katual and Kariapali; thence along the demarcated eastern boundary of Katual to the junction of the four villages Bighniput, Bankiapala, Talbarohi, and Katual. *South.*—The southern demarcated boundary of Katual to the triple junction of Bhatpara, Bhujiabarbara, and Katual. *West.*—Thence along the western demarcated boundary of Katual to the starting point.
Ditto ...	Ditto ...	Banpore range, Bamdebpore block.	*North.*—The Arang block. *East.*—The demarcated western boundary of Bankarpali, Raghunathpore, Gangadaipore, Champajharpali, Baharahkola, and Bhuskapara.

District.	Pergunnah or other sub-division.	Name of forest.	Boundaries.
			South.—The demarcated northern boundary of Bengrajpali skirting the base of the Guhiapahar, Solia Parbat to the Salia river, on the northern boundary of Nosgan, to the triple junction of that village with Porakhai and Kosurara. *West.*—The demarcated eastern boundary of Porakhai, Nakulpali, and Kuranjpali, Panbaraj, and Nilapali to the starting point.
Pooree ...	Khorda ...	Banpore range, Kuhuri block.	*North.*—From the junction of a nala in mouzah Goripara with the Kusmi river to the east, following that river to the triple-junction of Kandgaria, Goripara and Killah Ranpore; thence south along the demarcated boundary between Kandgaria and Goripara to a permanently marked survey station; thence eastward through Kandgaria passing to the north of the Boita hill, and skirting the cultivated lands of Kandgaria to a survey station on the boundary between Jaritap and Kandgaria; thence eastward passing to the north of a little hill to another survey station on the boundary between Tutambarpali and Jaritap. *East.*—Thence southward along the demarcated boundary of the last-named village to the triple junction with Talgarh-Kuhuri; thence turning west along the demarcated boundary to the junction of the villages Kandgaria, Jaritap, Talgarh-Kuhuri, and Mahujhar; thence south along the demarcated western boundary of Talgarh-Kuhuri, and mouzah Dighitpara. *South.*—Thence along the demarcated boundary westward to a survey station on the boundary between Ariapara and Mahujhar; then west to a survey station on the boundary between Ariapara and Kunjuri; thence south along the western demarcated boundary of Ariapara to the triple junction of Ariapara, Akaspali, and Kunjuri; thence westward to the triple junction of Akaspali, Malakaria, and Kunjuri. *West.*—Turning north through Kunjuri to the triple-junction of Kunjuri, Goripara, and Mahujhar; thence along a demarcated line skirting the cultivation of Mahujhar and Goripara to the starting point.
Ditto ...	Ditto ...	Banpore range, Sulia block.	*North.*—Commencing from the triple junction of Banpore, Kuhuri, and Ranpore, and running north along the demarcated boundary of Mundilo to a survey station; thence north-east to a survey station on the Kusmi river; thence south-east, following that river to the cart track from Ranpore to Mundilo, first south-west to a tank, then due south to a survey station on the boundary between Mundilo and Salapdihi; thence along the demarcated boundary to the triple junction with Dhoba Dhobani, Salapdihi, and Mundilo; thence east through Dhoba Dhobani to the triple junction of Amabil, Harandihi, and Dhoba Dhobani, then along the demarcated boundary of Harandihi and Dhoba Dhobani, then south through Harandihi to the triple junction of Khairpali, Harandihi, and Salapdihi, then eastward through Khairpali to a survey station on the boundary between Khairpali and Kunjuri; thence along the demarcated southern boundary of Kunjuri to a survey station. *East.*—Turning southward skirting east of the hills in Malakaria to the triple junction of that village with Akaspali and Belpara; thence eastward along the northern demarcated boundary of Belpara to a tank, leaving out the cultivated lands of Belpara to the Kochila Mundia in Joymangalpore; thence skirting and enclosing the Kochila Mundia and back to the triple junction of Belpara, Jariput, and Joymungulpore; thence south to a survey station on the boundary between Jariput and Joymungulpore; thence westward to a survey station on the boundary between Jariput and Gorarajhari, then northward along the demarcated boundary of Jariput to the triple junction of Belpara, Jariput, and Gorarajhari. *South.*—Thence a demarcated line passing to the north and west, skirting the cultivated lands of Gorarajhari, Kundoambojhar, Moramoripatna, and Salapdihi, to a survey station on the boundary between Salapdihi and Gamai. *West.*—Thence along the western demarcated boundary of Salapdihi to the triple junction of Salapdihi, Gamai, and the Kumla Mal; thence along the demarcated boundary of Salapdihi to the starting point.

The Lieutenant-Governor is pleased to appoint Mr. W. C. Taylor, Settlement Officer, and Sub-Divisional Officer of Khorda, to perform the duties of Forest Settlement Officer under the provisions of Chapter II of Act VII of 1878; to enquire into and determine the boundaries to be finally laid down; and to ascertain and determine the existence, nature, and extent of any rights alleged to exist in favour of any person over any lands comprised within the boundaries specified above, or in or over any forest produce to be found therein, and to deal with the same as by law provided.

The Lieutenant-Governor is also pleased, under section 16 of the Indian Forest Act, 1878, to appoint the Commissioner of the Orissa Division to hear appeals from the decision of the Forest Settlement Officer as above appointed.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

NOTIFICATION.

The 14th July 1883.—The following notice is published for general information.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

GOVERNMENT OF BENGAL, GENERAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 29.)

RED SEA.

Shoal off St. John's Island.

THE Political Resident of Aden has notified, that information has been received from the master of the S. S. *Gulf of St. Vincent* relative to a shoal lying near the fairway in the Red Sea.

The *Gulf of St. Vincent*, when proceeding down the Red Sea on the 24th June 1883, passed a reef (which, it is stated, is not shown on the Admiralty Chart) lying 45 miles S. E. of St. John's islands.

The reef, which has very little water upon it, is about a mile long in a S E ½ S and N W ½ N (Magnetic) direction, and $\frac{1}{8}$th of a mile in width.

The bearings place the reef in latitude 23° 9′ 30″ N, longitude 36° 55′ 30″ E.

Mariners passing through the Red Sea are hereby cautioned to give this reef a wide berth.

By direction of the Government of Bengal,

J. MENTEITH BREBNER,
Offg. Port Officer of Calcutta.

PORT OFFICE, *Calcutta, the 11th July* 1883.

DECLARATION.

The 30th July 1883.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for constructing a seventh class post office building in the village of Naldi, pergunnah Naldi, zillah Jessore, it is hereby declared that for the above purpose a piece of land measuring, more or less, 15 cottahs of standard measurement, bounded on the north by the ryoti land of Shuripara; on the east by that of Rajani Kanto Ghosh; on the south by the river Nabaganga; and on the west by the Naldi Bazar, is required within the aforesaid village of Naldi.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

A. P. MacDonnell,
Offg. Secretary to the Govt. of Bengal.

JUDICIAL DEPARTMENT.

No. 1938A.

The 20th July 1883.—The undermentioned gentlemen are appointed to be Honorary Magistrates for the Sudder Bench at Midnapore, and are vested with the powers of a Magistrate of the third class:—

Dr. J. L. Phillips. | Baboo Rajaram Kundu.

Shaik Bahadoor Hossain and Moulvie Nasiruddin Ahmed are appointed to be Honorary Magistrates for the Bench at Mozufferpore, and are vested with the powers of a Magistrate of the third class.

The 23rd July 1883.—The following gentlemen are appointed to be Honorary Magistrates for the Sudder Municipal Bench of Chittagong, and are vested with the powers of a Magistrate of the third class:—

Dr. E. Sanders.	Baboo Durga Das Dass.
The Revd. J. DeCruze.	„ Komola Kant Sein.
Mr. T. F. Mill.	„ Nittyanundo Roy.
„ W. Halliday.	Hazee Nasu Malum.
„ H. Percival.	„ Abdool Maloom.

Chowdhry Zakir Ali.

Baboo Sitanath Mookerjee, Temporary Sub-Deputy Collector, Dinagepore, is re-invested with the powers of a Magistrate of the third class.

The 24th July 1883.—Mr. E. F. Growse, Assistant Magistrate and Collector, Burdwan, is vested with the powers of a Magistrate of the first class.

Baboo Pran Kissen Roy, Deputy Magistrate and Deputy Collector, Pooree, is vested with the powers of a Magistrate of the first class.

Lieutenant W. Hastings, Officiating Cantonment Magistrate, Dinapore, is vested with the power to try summarily the offences mentioned in section 260 of the Code of Criminal Procedure.

The 25th July 1883.—Under the provisions of section 20 of Act VI (B.C.) of 1862, the Lieutenant-Governor authorizes the Munsif (Deputy Collector) of Burrabazar, Manbhoom, Chota Nagpore, to receive direct all rent suits arising within the local jurisdiction of that munsifi.

The 27th July 1883.—Baboo Denesh Chandra Roy, Additional Subordinate Judge, Tirhoot, is appointed to be Additional Subordinate Judge of Gya.

The 30th July 1883.—It is hereby notified that, under the powers vested in him by section 3 of Regulation I of 1872, the Lieutenant-Governor directs that Act X of 1882 (the Code of Criminal Procedure) shall have force and effect in the whole of the Sonthal Pergunnahs.

The undermentioned officers of the Purneah district are vested with powers under section 110 of Act X of 1882:—

Mr. C. G. M. Shircore, Deputy Magistrate.
Baboo Dina Nath Ghose, Deputy Magistrate.

The 31st July 1883.—Mr. A. J. Fraser, Deputy Magistrate and Deputy Collector, Cuttack, is vested with the powers of a Cantonment Magistrate, under section 3, Act III of 1880, within the cantonment of Cuttack.

Syed Moazzim Hossein, Officiating Judge of the Principal Courts of Small Causes in Nuddea and Jessore, and Officiating Judge of the Courts of Small Causes at Kishnaghur, Ranaghat, and Bongong, is confirmed in those appointments, with effect from the 10th February last, *vice* Mr. C. B. Garrett.

Syed Moazzim Hossein will, however, continue to act, until further orders, as Judge of the Courts of Small Causes at Magoora, Jhenida, and Narail, in addition to his duties as Judge of the Principal Courts.

Baboo Gopal Krishna Ghose, L.L., is appointed to act as a Munsif in the district of Tipperah, and to be ordinarily stationed at Commillah as Second Munsif, during the absence, on leave, of Baboo Janoki Nath Dutt, or until further orders.

Baboo Lall Gopal Sen, First Munsif of Commillah, Tipperah, is appointed temporarily to be Rent Suit Munsif of that chowkey, and is vested with the powers of a Judge of a Court of Small Causes for the trial of suits cognizable by such a Court up to the amount of Rs. 50.

LEAVE OF ABSENCE TO MUNSIFS.—*The 26th July* 1883.—Baboo Karunamoy Banerjee, Second Munsif of Arrarea, in the district of Purneah, on deputation to Kissengunge, having returned to duty on the forenoon of the 2nd May 1883, the unexpired portion (one day) of the leave, for seven days, granted to him on the 8th May last is cancelled at his own request.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 5th July 1883.—It is hereby notified that Bholanath Adhikari, Rural Sub-Registrar of Dulai, in the Pubna district, who has been sentenced to 14 months' rigorous imprisonment on conviction of offences under sections 457, 354, and 323 of the Indian Penal Code, is dismissed from the Registration Department, and is further declared incapable of serving Government again in any capacity.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 11th July 1883.—It is hereby notified for general information that, under the provisions of section 269 of the Code of Civil Procedure (Act XIV of 1882), the Lieutenant-Governor has made the following rule for the maintenance and custody of live-stock while under attachment under a decree or order of the Court of Small Causes, Calcutta.

Rule.—Live-stock attached under a decree or order of the Court of Small Causes, Calcutta, may, while under attachment, be sent for maintenance and safe custody, at the decree-holder's expense, to such place as the Chief Judge may from time to time direct.

N.B.—Notwithstanding the extension of section 269 of the Code of Civil Procedure to the Court of Small Causes, Calcutta, the rules for the maintenance and custody, while under attachment, of live-stock and other moveable property, which were published in the *Calcutta Gazette* of the 16th April 1879, do not apply to it, but apply exclusively to Courts in the mofussil.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 12th July 1883.—Under the provisions of section 5 of the Indian Registration Act, III of 1877, the Lieutenant-Governor sanctions the transfer of the outpost of Kendua, at present included in the sub-district of Mymensingh, to the sub-district of Netrokona, which will henceforth be conterminous with the sub-division of Netrokona, having thanas Netrokona and Durgapur under it. The sudder sub-district will thus be restricted to thanas Mymensingh, Madargunge, Gafergaon, and Phulpur.

This notification will take effect on and from the 1st of September 1883.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

[Third Publication.]

DECLARATION.

The 7th July 1883.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz. for a police station at Nawabgunge, in the villages of Muralkandi and Akkelpore, *alias* Jahangirpore, pergunnah Fatehjangpore, zillah Bogra, it is hereby declared that for the above purpose a piece of land measuring, more or less, 4 bigahs and 12 cottahs of standard measurement, bounded on the north by Mamud Sirdar's jote, on the east by the Tulsiganga river, on the south by the Peerpal land of Makdum Saheb, and on the west by the land of Choto Taraf, is required within the aforesaid villages of Muralkandi and Akkelpore, *alias* Jahangirpore.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT,—BENGAL.

ESTABLISHMENT.

The 31st July 1883.

(5) The river *Matabhanga*, from the Ganges to its junction with the Hooghly. (6) Such portions of the river Ganges as may be within five miles of the entrance for the time being of the Bhagiruthee, the Bhoyrub, the Jelinghee, and the Matabhanga rivers, respectively.

IRRIGATION.

The 31st July 1883.

No. 273.—Whereas a notice, No. 244, dated the 2nd July 1883, was published in the *Calcutta Gazette* of the 4th, 11th, 18th, and 25th instant, declaring the intention of the Lieutenant-Governor of Bengal to declare that clause *b* of section 76 of Act II (B.C.)

of 1882 shall take effect over a tract of country extending for one mile from each bank of the rivers or portions of rivers specified therein, and whereas no objection has been raised to the proposed measure since the first publication of the notice, the Lieutenant-Governor, in the exercise of the power conferred on him by section 6 of the aforesaid Act, directs that the provisions of clause *b*, section 76, shall take effect on and from the 1st September 1883.

The erection of any new embankment, or any addition to an existing embankment, or the obstruction or diversion of any water-course within the tract of country extending for one mile from each bank of the rivers or portions of rivers specified below, without the previous permission of the Superintendent of Embankments, is prohibited.

By order of the Lieutenant-Governor of Bengal,

H. C. LEVINGE,

Secretary to the Government of Bengal.

No. 274.—*Notification.*—The services of Baboo Sant Prosad, Deputy Magistrate and Deputy Collector, employed on special duty in the Irrigation Branch of this department, are replaced at the disposal of the Appointment Department of this Government.

Notification under Act II (B.C.) of 1882 (*The Bengal Embankment Act*).

No. 275.—The Board of Revenue, L. P., having submitted for the consideration of the Lieutenant-Governor of Bengal a report and proposal made by the Collector of Hooghly, under section 11 of Act II (B.C.) of 1882, for the construction of a sluice at the village of Kumrool, in the 51st mile of the Government embankment on the left bank of the river Damoodah, at an estimated cost of Rs. 5,451 (five thousand four hundred and fifty-one), His Honor is pleased, under the provisions of section 14 of the said Act, to order that the proposed sluice shall be constructed in accordance with plans and estimates which have been approved by the Chief Engineer.

H. C. LEVINGE,

Secy. to the Govt. of Bengal, P. W. D.

CIVIL BUILDINGS.

The 31st July 1883.

Declaration.—No. 276.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz. for the enlargement of the compound of the Sub-Divisional Officer's residence, in the village of Bhabdebpur, pergunnah Mohila, zillah Mozufferpore, it is hereby declared that for the above purpose a piece of land measuring, more or less, 3 bigahs 15 cottahs 15 dhurs of local measurement, bounded on the north by the fields of Jagrup Kandu and Jhallu Dhunia; on the south by the Seetamurhee road; on the east by the road to Bhabdebpur; and on the west by the compound of the Sub-Divisional Officer's residence, is required within the aforesaid village of Bhabdebpur.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

G. F. E. S. NEILL, *Major*, M.S.C.,
Under-Secy. to the Govt. of Bengal, P. W. Dept.

HIGH COURT NOTICE.

Circular Order issued by authority of the High Court of Judicature at Fort William in Bengal.

CIVIL.

No. 5, *dated the 18th July* 1883.

29B. [*Notification of Government of India, No.* 3681 *of 20th October* 1881. *C. O. No.* 31 *of 13th December* 1881.] In exercise of the powers conferred by section 35 of the Court Fees Act, 1870, the Governor-General in Council remits, in the whole of British India, the fees payable under Article I, clause (*b*), paragraph 2 of Schedule II annexed to the said Act on applications for orders for the payment of civil deposits in cases in which the deposits do not exceed Rs. 25 in amount.

For Rule 29B, Chapter V, page 277, Civil Rules and Orders, substitute the following:—

29B. [*Notification*[1] *of Government of India, No.* 849 (*Financial*) *of 16th February* 1883. *C. O. No.* 5 *of 18th July* 1883.]—In exercise of the powers conferred by Section 35 of the Court Fees Act, 1870, and in supersession of notification in this department, No. 3681, dated 20th October 1881, the Governor-General in Council has remitted, in the whole of British India, the fees payable under clause *(a)*, paragraph 4, and clause (*b*), paragraph 2 of Article 1, Schedule II, annexed to the said Act, on applications for orders for the payment of deposits in cases in which the deposit does not exceed Rs 25 in amount: provided that the application is made within three months of the date on which the deposit first became payable to the party making the application.

2. C. O. No. 31 of 13th December 1881 is cancelled.

[1] See *Gazette of India*, 17th February 1881, Part I, page 122.

Sheriff's Office, the 1st August 1883.

NOTICE is hereby given that the Fifth Criminal Sessions of the year 1883 of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William, and the places subordinate thereto, will be holden at the Court House, in the Town of Calcutta, on Monday, the Third day of September next, at 11 o'clock in the forenoon, and so on from day to day until the said Sessions be over. And it is hereby proclaimed that all persons who will prosecute any of the prisoners to be brought up for trial at the said Sessions be present then and there to prosecute.

G. F. E. S. NEILL, *Major*, M.S.C.,
Under-Secretary to the Government of Bengal, in the P.W.D.

Abstract of a Report by the Chairman of the District Road Cess Committee, Dinagepore, on the Committee's operations for the cess year 1881-82.

THE Road Cess Act worked smoothly in this district during the year, and the collections were very satisfactory.

There were 13 meetings held during the year, and the attendance of the non-official members was irregular. The business laid before those present at the several meetings was discussed, however, with interest and attention.

Applications for village roads were received from persons interested, and grants allotted to those roads for improvement; the work being done by the villagers under the supervision of their zemindars, and in some cases under that of the District Engineer.

Considerable attention was paid to the matter of tree-planting. New trees have been planted on the Bogra road for two miles, and on the Purneah and Maldah roads for six miles. The trees that were planted in previous years on various other roads have also been taken care of.

The different establishments under the Committee have, on the whole, worked well during the year under report.

No. 6.—Part I.

DINAGEPORE DISTRICT ROAD FUND.

UMACHURN BANERJEE,
Vice-Chairman.

Abstract of a report by the Chairman of the District Road Cess Committee, Rajshahye, on the Committee's operations for the cess year 1881-82.

THE road cess was levied at the full rate in this district during the year under report.

The attendance of the members of the Road Cess Committee, at the several meetings held, was very good, and shows considerable improvement on last year. They displayed great interest in the business of the Committee, and several of them rendered much assistance by undertaking the supervision of road work in the neighbourhood of their homes.

The village roads received more attention than in the previous year; Rs. 4,888 having been expended on them during the year, against Rs. 3,768 in 1880-81.

The general condition of the roads of the district is fair, and they are kept in as good a condition as is possible, considering the numerous calls upon the very limited funds of the Committee.

The maintenance of the existing roadside trees and the planting of new trees have continued to receive attention, and a sum of Rs. 543 was spent on this object during the year.

The several establishments under the Road Cess Committee have worked satisfactorily

L. HARE,
Vice-Chairman

Abstract of a Report by the Chairman of the District Road Cess Committee, Rungpore, on the Committee's operations for the cess year 1881-82.

THE cess collections in this district were 96 per cent of the total demand of the year, being 4 per cent less than the result of the previous year. This is said to be due to the 15 days' grace allowed under section 45, being more generally known among cess-payers. Advantage is taken of it, and most of the cess due at the September *kist* is not paid until the beginning of October following. The people have begun to look upon the levying of the road cess as a legitimate tax; but more is expected of the department than the funds will permit.

The attendance of members of the District Road Committee during the year was more satisfactory than in the previous years. Fourteen meetings were called during the year, and only one had to be adjourned from want of a quorum. As a rule, the members took a fair interest in the deliberations at the Committee meetings.

There is only one Branch Committee at the head-quarters of the Gyebanda sub-division. Fourteen meetings of this Committee were held during the year, and it devoted itself almost exclusively to the apportionment of funds for village roads within the sub-division, and to the superintendence of their construction and repairs.

In the three other sub-divisions funds were placed at the disposal of the sub-divisional officers in view that allotments might be made to suitable persons for the construction and repairs of village roads in those sub-divisions.

Seven thousand one hundred and twenty-eight trees have been planted on 18 roads in the district, but their actual condition and the annual outlay on them have not encouraged the Committee to go on extending the length of road for planting. It has been decided upon that only a few of the roads are to be planted, and that under a system of contract, the contractor making over trees when they are beyond the reach of cattle.

The different establishments under the Road Committee have worked very satisfactorily, and the returns and accounts have all been correctly prepared and punctually submitted.

No. 6.—Part I.

RUNGPORE DISTRICT ROAD FUND.

K. D. GHOSE, M D., *Vice-Chairman.*

Abstract of a report by the Chairman of the District Road Cess Committee, Bogra, on the Committee's operations for the cess year 1881-82.

THE Cess Act has worked smoothly in this district, and the total cess collections were 94·56 per cent on the total demand for the year. The average attendance of members of the District Road Committee is 5·85.

Rupees 1,695 were spent on village roads by official and non-official agency, and a number of fruit trees were planted on the sides of the Sultanpore, Rungpore, and Dinagepore roads. The gabions for the protection of young trees planted on roadsides were also renewed.

The different establishments under the Committee worked, on the whole, fairly well; but the results of want of attention to timely minor and petty repairs of the important roads were not as satisfactoy as might reasonably have been expected.

No. 6.—Part I.

MOHENDRO NATH BHUTTACHARJEE,
Vice-Chairman, District Road Cess Committee, Bogra.

Abstract of a Report by the Chairman of the District Road Cess Committee, Pubna, on the Committee's operations for the cess year 1881-82.

THE realizations of the year were quite up to the average. The work, however, is undoubtedly retarded by the cumbersomeness of the certificate procedure, and much time is consumed in preparing process and notices; so that the year always closes with an arrear of Rs. 10,000 or Rs. 11,000.

The members of the Road Committee are sincerely anxious to take an interest in the work entrusted to them, but their desire has been somewhat damped by the direction the expenditure of the income has taken. The members of the Branch Committee shewed very little interest in their work on account of the smallness of funds placed at their disposal. Many of them having important business, cannot spare time to discuss matters affecting the expenditure of a trifling sum.

Rupees 4,060 were spent on village roads during the year. The money was either given over to respectable residents of the neighbourhood, or it was spent through the District Engineer and his subordinates. A sum of Rs. 1,226 was spent on planting and rearing trees on various roads in the district.

The whole district has nine miles of first class and 115 miles of second class roads, and they are all in good repairs.

The several establishments under the Road Committee have performed their work satisfactorily, with the exception of the engineering staff, who having very little to do during the year, on account of the inefficiency of the Committee's funds, did not shew their energy to full extent.

No. 6.—Part I.

F. TAYLOR,
Vice-Chairman.

DARJEELING,
The 26th May 1883.

Abstract of a Report by the Chairman of the District Road Cess Committee, Julpigoree, on the Committee's operations for the cess year 1881-82.

THERE was much dissatisfaction with the revaluation as at first made. It has since been revised, and, excepting in individual cases, there is no reason to suppose that dissatisfaction with the cess now exists.

The average attendance of members of the District Road Committee was 7·90. There are no Branch Committees in the district.

All the main roads in the district were kept open throughout the whole year, so far as the funds admitted, and improvements of some of the important feeder roads were carried out during the year.

A sum of Rs. 1,280 was allotted for repairs of the village roads. Of this allotment, Rs. 1,010 were expended during the year. These repairs were chiefly carried out through tea-planters, tehsildars, and other persons of local influence.

For tree-planting, Rs. 148 were allotted in the budget, but the expenditure under this head amounted to Rs. 152.

The different establishments under the Committee have, on the whole, worked satisfactorily.

No. 6.—Part I.

PREO NATH BANERJEE,
Vice-Chairman.

No. 83PWCt., dated Darjeeling, the 26th May 1883.

From—LORD H. ULICK BROWNE, Commissioner of the Rajshahye and Cooch Behar Division,

To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honour to submit in original the District Road Fund annual reports and accounts of the seven districts as per margin of this division for the cess year 1881-82.

1. Dinagepore district.
2. Rajshahye "
3. Pubna "
4. Bogra "
5. Rungpore "
6. Julpigoree "
7. Darjeeling "

2. The reports and accounts for six districts were received in my office within the prescribed date, but the submission of this report has been delayed by a mistake in the accounts of the Darjeeling district, which necessitated their return several times, and eventually had to be checked, and the error found out in the office of the Divisional Superintendent. The correct accounts for that district were not received in my office till

3. The Chairmen have all prepared their reports in a satisfactory manner, and in accordance with circular No. 973A of the 4th September 1880.

4. *Working of the Road Cess Act.*—The working of the Act may be said to have been satisfactory on the whole during the past cess year. In Rungpore the people have begun to look upon the levying of the road cess as a legitimate tax, but more is expected of the department than the funds will allow of being done. In Julpigoree dissatisfaction was expressed at first with the revaluation, but since it has been revised the Chairman remarks that, except in individual cases, there is no reason to suppose that dissatisfaction with the cess now exists. The Chairman of the Darjeeling Committee does not specially notice the working of the Act, but it may be inferred from the amount of the collections that there was no friction.

5. *Collection and assessments.*—The collections in the Dinagepore district were very satisfactory. In Rajshahye the full cess was easily levied. In Pubna the realizations were quite up to the average of former years. In Bogra the collections were 94·56 per cent. on the current demand. In Rungpore they were 96 per cent., being 4 per cent. less than in previous years, which is said to be due to the 15 days' grace under section 45 becoming to be better known by the cess payers, and advantage being taken of it. Most of the cess payers in this district pay direct into the treasury. In Julpigoree Rs. 3,620 were realized in advance for the current year's demand. The collections in Darjeeling contrast favourably with the result of the preceding year, and were nearly 95 per cent. of the demand.

6. *Working of the District Committees.*—The Chairmen generally report favourably of the attendance at the Sudder Committees, and the business laid before them at meetings seems to have been discussed with interest and attention. The Chairman of the Rajshahye Committee says that the members took very great interest in road cess business, and some rendered valuable assistance by undertaking the supervision of road works in the neighbourhood of their homes or residences. In Dinagepore 13 meetings were held, and as five non-official members did not attend six consecutive meetings they were ceased to be members under section 115 of the Act, and were replaced by new members residing in the interior of the district. Two members died in the course of the year. In the Darjeeling district considerable interest was shewn by the planters in the proceedings, and also in supervision of works. There were six meetings, and Mr. L. Daniell was the only one absent from all the meetings.

7. *Working of Branch Committees.*—These exist in Rajshahye, Pubna, Rungpore, and Darjeeling. In the first named district the Nattore Branch Committee have worked well, and held four meetings with a fair attendance of members. The Chairman of Pubna states that the amount placed at the disposal of the Serajgunge Branch Committee was only Rs. 3,750, and was too small to elicit much interest in a representative body dealing with such a vast area, and although the members are ready to come forward when real work is before them, many who have important business cannot spare the time to discuss matters affecting the expenditure of such a trifling sum. A large portion of the district income goes in the construction of the Pubna to Sara road, in which of course the Serajgunge sub-division has little or no interest. In the Gyabanda sub-division of the Rungpore district the principal work of the Branch Committee was the apportionment of funds for village roads. The Terai Branch Committee of the Darjeeling district exercised independent powers to the end of 1880-81, but is now working under the District Committee, which is found to be better, both as regards accounts and the supervision of Terai works.

8. *Establishments.*—The establishments in all the districts are reported to have worked well during the cess year. The Chairman of the Julpigoree district thinks there is not enough work for an energetic District Engineer, and considers it would be a good plan to club the district with an adjoining one. In this I am unable to concur.

9. *Village roads.*—In the Dinagepore district grants were allotted to roads for which applications were received from persons interested in them, the work being done under the supervision of the zemindars, and in some instances under that of the District Engineer. In the Rajshahye district village roads received more attention than in previous years, Rs. 4,888 having been expended on them against Rs. 3,768 in 1880-81. In the Pubna district Rs. 4,060 were spent under this head, money being given to respectable zemindars who very often contributed to works in addition to spending what they received from the Committee, and some of the expenditure was also under the agency of the District Engineer. In the Bogra district Rs. 1,695 was devoted to this purpose, and the work carried out by official and non-official

agency. In Rungpore Rs. 6,086 was expended through the different sub-divisions in order that no part of the district should be overlooked or neglected. In Julpigoree out of a sum of Rs. 1,230 allotted, Rs. 1,010 were expended under the agency of persons of local experience, such as tea planters, Government tehsildars, the manager of the Chulujat estates and his naib, In Darjeeling and the Terai Rs. 1,043-9-6 were spent during the year on village roads.

10. *Arboriculture.*—In the districts of Dinagepore, Rajshahye, Pubna, and Bogra, tree-planting on the road sides received considerable attention during the year. In Rungpore the late District Engineer attempted to plant out too many roads at one time with young trees; and when the existing trees were lately counted they were found to be considerably less than the number of trees planted and entered in the register, owing to the young trees having either died or been destroyed by cattle. The Committee are going to curtail their operations in this line, and an attempt will be made to plant them by contract through the chowkidars and headmen of villages, who will take care of them until sufficiently grown to be beyond the fear of injury from cattle, &c. In the Julpigoree district very little has been done under this head, Rs. 152 only having been expended during the year, and in the Darjeeling district the expenditure was only Rs. 96.

11. *Original works.*—In the Dinagepore district the bridge over the Gogra nullah, near the sudder station, with three spans of 20 feet each, with masonry piers and abutments, was finished. On the Bogra road the Echamutty bridge of 80 running feet waterway was also completed, as also a bridge over the Toolye nullah on the Purneah road. The most important work in this district was the feeder road to the railway station of Hillee from Pateeram, 16½ miles in length, of which 14½ are in Dinagepore and two in Bogra. The timber bridges, 20 in number, and aggregating 765 running feet of waterway, with all the earthwork, was begun and completed in the cess year under report. A total length of 31 miles of embankment were raised on the Moorshedabad and Maldah roads. In Rajshahye the Belpookree bridge on the Nattore road, and the Esabpore bridge on the Surdah or Pubna road, each of 96 feet waterway, were constructed. The Nowgong and Hapanea road, for which Government gave a grant of Rs. 10,000, was commenced, and the entire length of embankment finished, with the exception of approaches to bridges, which have not been built owing to want of funds; but either ramps or temporary bamboo bridges have been provided. One more mile of the Nattore road has been metalled, and two miles of the Bya road, leaving one mile to complete the metalling to the Nowhata thana station. All the money spent on original works in the Pubna district was devoted to the Sara road in the manufacture of bricks, the purchase of building materials, and in construction of new or addition to existing bridges. Government are to contribute Rs 30,000 in two years, and the Chairman states it will require all the available income of the Committee for about 2½ years to complete it. The other original works were confined to small culverts in different places. In the Bogra district the most important works were the two miles of the Hillee and Pateeram road, and the erection of the timber bridges between Adumdighee and Sooltanpore; also the entire construction of the bridges and earthwork of the feeder road from Khetlal thana to Jaipore railway station. In the Rungpore district the road from Chelai to Domer and Ghoramara was finished, leaving a gap only at the 16th mile over the Tanganmaree nullah. This road is losing its importance owing to the merchants of Ghoramara on the Teesta leaving the place, though it always feeds the railway. The rest of the original works consists of the renewal of timber bridges on the different lines of road, and as detailed in the report on this district they are 70 in number, varying from 10 feet to 100 feet of waterway, and numerous earthenware glazed pipes all over the district. In Julpigoree the important works were the improvement of the roads from Boda towards Domer hat, *viâ* Debigunge, and from Silligoree to Phoolbaree ghat. There is still a good deal of work to be done on both lines of communication. In Darjeeling the amount spent in the hills was Rs. 2,445-11-9, and Rs. 2,804-14-6 were spent in the Terai. As there is no District Engineer the Committee are entirely dependent on the planters for the execution of works, and Messrs. Brown and Curtis have rendered valuable assistance, the former by constructing a bridge over the Rungbung, and the latter a wire rope bridge over the little Rungeet.

12. *Repairs.*—All necessary repairs to roads and bridges in the Dinagepore district have been repaired as far as funds would allow, considering the large number of miles on the printed list that the Committee have to provide for. In Rajshahye the general condition of the roads has been maintained, but those in the northern part of the district are far from perfect, owing in a great measure to the friable nature of the soil, and partly to want of funds—a disadvantage under which all the Committees labour. The Beauleah and Nattore road is in fair order. About six miles of this road from Beauleah are metalled, and about 3½ more in pieces at the approaches of iron screw-pile and masonry bridges. In the report for this district allusion is made to a canal cutting, and as this may be misleading, it should be explained that the work consisted in clearing weeds and silt out of a defined route from Singrah on the Atrai to Chowgong, which is of use to small boat traffic, as the country is generally under water in this part of the district. The work at the mouth of the Narud was merely the removal of a little silt. In the Pubna district, including Serajgunge, Rs. 12,480 were expended during the year, and all roads received attention. In Bogra all roads were duly maintained, and for the future, owing to the completion of the important feeder roads, there will be a large amount available for repairs. In the Rungpore district the repairs consisted of surface dressing, cutting away jungle from slopes, and maintenance of bridges and inspection bungalows. In Julpigoree much attention was given to the Dam Dim road in

order to keep it open for tea carts during the rains. The floods were not so high this year, but temporary bamboo bridges were thrown over the breaches made in the 10th mile the year before, and huts were erected for the protection of tea and other goods in case of fresh breaches occurring. The remaining roads were repaired, and great attention was given to the Phoolbaree ghat road on the Teesta. The repairs of the Darjeeling hill roads were carried out by the planters, and the Chairman expresses a wish that the same agency could be obtained for roads in the Terai, as great difficulty is experienced in obtaining the services of an overseer, notwithstanding that the pay has been raised from Rs. 60 to 80, with Rs. 20 horse allowance. In three months there have been two changes, one from death and the other from resignation.

13. *Expenditure.*—The expenditure has been good in all the districts. The cash balances at the end of the year in Dinagepore, Bogra, and Julpigoree were moderate; in the other districts the balances were larger, but it is owing to funds having to be kept in hand to carry on work during the months of October and November before the cess can be collected for the next year.

14. Mr. Heyman has continued to give efficient service as Divisional Superintendent and Secretary, and the appointment is a great advantage to the cess payers.

LAND SALE NOTICES.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate situate in the district of the Sonthal Pergunnahs will be put up to sale at the Dumka Collectorate on Friday, the 28th September 1883, corresponding with 13th Assin 1290 B.S.

The purchaser will be subject to the following conditions of sale :—

Conditions of Sale.

1*st.*—The estate to be sold revenue-free to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him.

2*nd.*—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3*rd.*—If the amount of the purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th.*—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Calcutta, the 28th July 1883. (1370—1) H. G. SIMMONS, for Vice-Chairman.

Notification.

THE owners of Lands in Calcutta or their Agents, Trustees, Executors, Administrators, &c., are hereby informed that for purposes of more speedy and convenient collection of land revenue in Calcutta, the town has been divided into eleven parts, each embracing a certain number of survey blocks, and that the revenue payable on account of all holdings for the current official year (1883-84), which became due on the 1st day of April 1883, must be paid into this Collectorate within the time mentioned against each survey block within which such holdings are situated.

Part I embracing—

Survey blocks 1 and 2 North Division
Ditto 1 and 2 South Division
} The land revenue due on account of holdings situated within these blocks must be paid on or before the 30th April 1883.

Part II embracing—

Survey blocks 3 and 4 North Division
Ditto 3 and 4 South Division
} Ditto ditto on or before 31st May 1883.

Part III embracing—

Survey blocks 5 and 6 North Division
Ditto 5 and 6 South Division
} Ditto ditto on or before 30th June 1883.

Part IV embracing—

Survey blocks 7 and 8 North Division
Ditto 7 and 8 South Division
} Ditto ditto on or before 31st July 1883.

Part V embracing—

Survey blocks 9 and 10 North Division
Ditto 9 and 10 South Division
} Ditto ditto on or before 31st August 1883.

Part VI embracing—

Survey blocks 11 and 12 North Division
Ditto 11 and 12 South Division
And Talook Sootanooty.
} Ditto ditto on or before 30th September 1883.

Part VII embracing—

Survey blocks 13 and 14 North Division
Ditto 13 and 14 South Division
} Ditto ditto on or before 31st October 1883.

Part VIII embracing—

Survey blocks 15 and 16 North Division
Ditto 15 and 16 South Division
} Ditto ditto on or before 30th November 1883.

Part IX embracing—

Survey blocks 17 and 18 North Division
Ditto 17 and 18 South Division
} Ditto ditto on or before 31st December 1883.

Part X embracing—

Survey blocks 19 and 23 North Division
Ditto 19 and 20 South Division
} Ditto ditto on or before 31st January 1884.

DARJEELING, the 22nd May 1883.

Notice.

Oudh Forest Department.

BYRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHUND RAILWAY.

FROM this date the prices of all beams and scantlings supplied from this depôt will be as follows:—

BEAMS.—21 feet in length, at Rs. 2-10 per cubic foot.
22 „ „ 2-12 „
23 „ „ 2-14 „
24 „ „ 3 „

Above the lengths given two annas per foot run will be charged.

Any inches over the foot will be charged as a foot

SCANTLINGS.—From 12 to 20 feet, at Rs. 2-8 per c ft.
Under 12 and over 7, at „ 2-4 „
Under 7 feet, at „ 2 „

The above prices are for ordinary building purposes.

For *Planking, Sleepers*, &c., special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion

Second and Third Class Timber will be sold and price fixed by agreement

Auction Sales will be held from time to time to clear off stock

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, Oudh Circle.

KANHYA LAL, in charge Byramghat Depôt.

The 22nd May 1879.

Government Cinchona Febrifuge.

THIS preparation is an efficient substitute for Quinine and can be purchased by Government officers for public and charitable purposes, and by any one taking *twenty pounds* at a time, from the Superintendent, Botanical Garden, Calcutta, *for cash only*, at the following rates:—per four ounce tin, *Rs.* 4 *ans.* 8; per eight ounce tin, *Rs.* 8 *ans.* 8; per pound tin, *Rs.* 16 *ans.* 8. The general public can be supplied by the Superintendent, Botanical Garden, *for cash only*, at the undernoted rates:—per four ounce tin, *Rs.* 5 *ans.* 8; per eight ounce tin, *Rs.* 10 *ans.* 8; per pound tin, *Rs.* 20. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage eight annas per 4 and 8 oz. tins, and twelve annas per pound tin, in addition to the foregoing rates.

Tenders for Labour, Northern Bengal State Railway.

TENDERS are invited for loading and unloading at Para Ghat from railway wagons to flats, steamers, or boats, and *vice versa*, all goods specified in the Northern Bengal State Railway Goods Classification, and also parcels and luggage booked through between the Northern Bengal State Railway and Eastern Bengal Railway.

For purposes of this contract all through goods are divided as under, and rates should be quoted for each description—

(1) All through goods, excepting those specified below.

(2) Hides and skins, loose or in bundles.

(3) Railway material and machinery for the public or the railway, when any single article or package exceeds five maunds in weight.

(4) Heavy packages, weighing one ton and over.

(5) Heavy packages, weighing one ton and over, when crane power is supplied by the Railway.

(6) Carriages of all descriptions, per wheel.

(7) Coal for railway purposes from flats or boats, or stacked on shore, into wagons, steamers or bunkers at option of the Railway.

(8) Luggage and parcels booked by passenger trains to be loaded within the time allowed in the Railway Time Bill. The coolies for this work must be registered and dressed in such uniform as may be required by the authorities of the Northern Bengal State Railway at contractor's expense.

The goods to be loaded into vessels from wagons at the rate of 500 maunds per hour per each stage supplied, and from vessels into wagons at the rate of 400 maunds per hour per each stage supplied.

An agreement and bond on the prescribed form must be signed by the person whose tender is accepted one week after its acceptance, and for the due performance of the contract a sum of Rs. 2,000 in cash or Government securities, endorsed to the Manager, must be deposited; a sum of Rs. 500 to be forwarded with tender as earnest money, which sum will be returned to unsuccessful tenderer and forfeited absolutely by the person whose tender is accepted should he fail to deposit the full amount of the security mentioned above one week after its acceptance.

The Manager does not bind himself to accept the lowest or any tender.

Further particulars may be obtained by application to the undersigned.

Tenders will be received up to 4th August.

By order,
G. S. LEONARD, Traffic Superintendent.

Traffic Superintendent's Office, Saidpur, 20th July 1883.

Notice.

GOVERNMENT ESTATE SAHEBAN BAGICHA.

NOTICE is hereby given that the system of sub-division of holdings prevailing in the Punchanogram and Barnagore estates has been extended to Saheban Bagicha. No sub-division shall, however, be allowed unless the tenant of each holding, having an area of 5 cottas or less on sub-division, reduces the rent at 30 years' purchase.

C. C. STEVENS, Collector.

24-Pergunnahs Collectorate, Alipore, the 30th July 1883.

Netrokona, 1st Munsif's Court, 25th July 1883.

Notice.

THE Public are hereby informed that the well-known Kartick Baruni Mêla, which is held every year on the banks of the Dhaleshwari, near Munshigunge, in the district of Dacca, will commence on the 14th November 1883 A.D., corresponding to the 29th Kartick 1290 B.S., and continue up to the 25th December 1883. Tradesmen, dealers, and others may buy and sell there during these six weeks.

A. W. PAUL, Magistrate of Dacca.

Serampore Municipality.

DEBENTURE LOAN OF Rs. 20,000.

THE Commissioners have obtained the sanction of the Government of India, under section 7 of Act XI of 1879, "The Public Works Loan Act," to raise a loan of the above sum in the open market on the security of the rates taxes, and fees levied by them under Act V of 1876 (B.C), Regulation VI of 1879, Act I of 1871, Act V of 1866, Act V of 1861, Act II of 1867, Act IV of 1873, and Act VI of 1878.

Tenders are hereby invited and will be received up to 1st October 1883, for the whole or any part of the above-named sum.

Negotiable debentures will issued of Rs 500 each, and the loan will be repayable by equal half-yearly instalments with interest at 4½ per cent. on the 1st April and 1st October, commencing on the 1st April 1884.

Parties tendering are required to pay into the sub-divisional treasury, to the credit of the Commissioners, 2 per cent. of the amount tendered by way of security.

Tenders to be made in prescribed form which may be had on application at the office of the Commissioners, and to be enclosed in sealed covers marked, "Serampore Municipality Market Loan."

The amount of the accepted tender or tenders to be paid in one instalment within one month from date of acceptance of tender.

The time for opening tenders will be duly intimated in writing to the tenderers.

F. R S. COLLIER, Chairman.

(FORM OF TENDER.)

I do hereby tender for rupees of the loan advertised for in the *Calcutta Gazette*, dated the 18th July 1883, and agree to pay for the same, subject to the conditions specified at the rate of rupees for-every hundred allowed to me.

I enclose a deposit receipt of the Sub-divisional Treasury Officer for Rs. by way of security, and do hereby bind myself, if my tender be accepted, to pay to the credit of the Commissioners at the sub-divisional treasury office the whole sum tendered for by me before the 31st October 1883.

(FORM OF DEBENTURE.)

SERAMPORE MUNICIPALITY.

No. , dated 1883.

By virtue of the authority given by the Government of India under section 7 of Act XI of 1879, "The Public Works Loan Act," we, the Commissioners of the Municipality of Serampore, in consideration of the sum of Rs. 500 paid to us by of promise to repay in equal half-yearly instalments to the said or his heirs or assigns the said sum of Rs 500 after the date hereof, together with interest thereon at the rate of 4½ per cent. per annum payable half-yearly on the 1st April and 1st October.

Chairman.
Commissioners.

JOHN ELIOT, M.A., *Meteorological Reporter to the Govt. of Bengal.*

Calcutta, the 26th August 1875.

The Indian Law Reports.

Published under Authority of the Governor-General in Council.

THE Reports appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series.

The Parts of each series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set.

Terms of subscription, payable annually in advance.

	Without postage.	With postage.
For the Calcutta Series...	Rs. 35	Rs. 40
„ Madras Series ...	„ 8	„ 9
„ Bombay Series...	„ 8	„ 9
„ Allahabad Series	„ 8	„ 9
Complete set	45	„ 50

The Price of each part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following:—

	Rs.	A.
For a part of the Calcutta Series ...	3	8
„ „ Madras Series ...	1	0
„ „ Bombay Series ...	1	0
„ „ Allahabad Series ...	1	0
Complete set	4	0

Persons desiring to subscribe for or purchase the Reports, should apply to—

Messrs. Thacker, Spink and Co., Calcutta;
„ Thacker, Vining and Co.;
„ Higginbotham and Co., Madras;
The Government Central Book Depôt, Bombay;
The Government Book Depôt, Allahabad.

Notice.

THE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:—

1st.—Bay of Bengal Daily Report giving observations taken at 17 stations on or near the coast of the Bay, with a chart and summary This is published in connection with the Calcutta Storm Signal Service. The report giving 10 A.M. observations of the day is distributed by peon in Calcutta after 4 P.M. Price to subscribers in Calcutta, Rs. 2 per mensem.

2nd. Bengal Daily Report containing observations taken at 30 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, i.e. from May, 15th, to November, 15th. Price Rs. 2-8 per mensem, including postage.

3rd.—A Weekly and Monthly Statement of Meteorological Observations taken at 38 observing stations, and of rainfall recorded at 160 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

JOHN ELIOT,
Meteorological Reporter to the Govt. of Bengal.

Meteorological Office, Bengal, the 3rd July 1883.

ERRATA.

RETURNS OF JOINT-STOCK COMPANIES FOR 1882-83.

At page 1062 of the Supplement to the *Calcutta Gazette* of the 18th July 1883, the Hong-Kong and Shanghai Banking Corporation "Limited" was erroneously shewn in the Returns of the Registrar of Joint-Stock Companies as having sustained a loss instead of as having cleared a profit of $7,64,707·33 during the year 1882-83.

The entry in Statement No. VI should therefore run as follows :—

No. VI.

Statement showing, in order of registration, the numbers and names of Joint-Stock Companies on the Register on the 31st March 1883, with their nominal and paid up capital, and their profit or loss as per Balance Sheets received, and date of such Balance Sheets.

Number on this list.	Number of Register borne by each Company.	NAMES OF COMPANIES.	Date of registration.	Nominal capital.	Paid up capital.	PROFIT OR LOSS AS PER LAST BALANCE SHEET FILED.		Date of last Balance Sheet.	REMARKS.
						Profit.	Loss.

LIBERALITY OF BABOO RUP LALL DAS AND BABOO RUGHUNATH DAS OF DACCA.

No. 1003, dated Calcutta, the 31st July 1883.

From—COLMAN MACAULAY, Esq., Secretary to the Government of Bengal, Municipal Department,

To—The Commissioner of the Dacca Division.

I AM directed to acknowledge the receipt of your letter No. 506L, dated the 16th instant, stating, for the information of Government, that Baboo Rup Lall Das and Babu Raghunath Das of Dacca have made a donation of Rs. 10,000 (ten thousand) for the purpose of extending the embankments along the river, known as the Buckland Bund.

2. In reply, I am desired to request that you will be good enough to convey to these gentlemen an expression of the Lieutenant-Governor's appreciation of their liberality and public spirit. The correspondence will be published in the *Calcutta Gazette*.

No. 506L, dated Dacca, the 16th July 1883.

From—N. S. ALEXANDER, Esq, Officiating Commissioner of the Dacca Division,

To—The Secretary to the Government of Bengal, Municipal Department.

I HAVE the honour to report, for the information of His Honour the Lieutenant-Governor of Bengal, that Baboos Rup Lall Das and Raghunath Das, residents of this town, Dacca, have very liberally made a donation of Rs. 10,000 for the purpose of extending the embankments along the river facing which is known as the Buckland Bund. As this will be a work of real utility and for the public good, I would recommend that the thanks of Government be given to the donors, and the matter of the gift published in the Gazette for general information.

Rainfall, Weather, and State and Prospects of the Crops

2	Bankoora, „ 28 „	2·86	Weather—hot and cloudy, with rain at intervals. Transplanting of the paddy crop still going on briskly. Other crops doing well. Public health good.
	Bishenpore ...	1·44	
	Maliara ...	1·53	
	Khatra ...	3·46	
3	Beerbhoom, „ 28 „	1·97	Weather—seasonable. Transplanting of rice crop well advanced. Prospects good. Prices of food-grains moderate. General health good. Some cases of cholera in south of district.
	Rampore Haut ..	1·79	
4	Midnapore, „ 28 „	1·14	Weather—seasonable. Paddy crop has suffered slightly from excessive rain in the Contai sub-division. Prospects favourable. Public health fair.
5	Hooghly, „ 28 „	1·68	Weather—seasonable. More rain is wanted both in Serampore and Jehanabad sub-divisions. Prospects of crops fair. Public health good.
	Howrah „ 30 „	2·31*	Weather—cloudy and sometimes heavy rain. Crops flourishing. Sugarcane, *aus* rice and jute growing fast ; *amun* rice being planted out.
	Onlooberia ...	3·35	
	Central Districts		
	Presidency Divn.		
6	24-Pergunnahs, July 30 '83	3·35*	Weather—hot with occasional rain. Early crops doing well. Transplanting of *amun* going on briskly. Public health good.
7	Nuddea, „ 28 „	1·74	Weather—cloudy, rainy, and cool. State of crops fair. Mortality from fever increased. A few cases of small-pox reported from the Meherpore sub-division
	Kooshtea ...	2·27	
	Meherpore ...	2 23	
	Chooadanga ...	2·68	
	Ranaghat ...	1·97	
8	Khoolna, „ 28 „	1·55	Weather—showery and cloudy. Ploughing for *amun* rice still going on. *Aus* rice has come up. Prospects favourable. Public health good.
9	Jessore, „ 28 „	4·29	Weather—hot, with occasional heavy showers. Harvesting of *aus* crop will soon begin. A fair outturn is expected. Prospects of *amun* continue good. Fever reported from Sudder and Bongong sub-divisions.
	Jhenida ...	3·00	
	Magura ...	2 21	
	Narail ...	1·71	
	Bongong ..	4·70	
10	Moorshedabad, „ 28 „	1 64	Weather—close, with occasional showers. The rain has done good to the standing crops. Transplanting of *amun* continues. Public health generally good.
11	Dinagepore, „ 27 '83	1·4	Weather—hot with occasional clouds and rain. Rain is very much wanted. *Bhadoi* is to a certain extent suffering from, and transplanting of *amun* impeded by, want of rain. Rice selling at from 12 to 26 seers per rupee.
	Rajshahye and Cooch Behar Divs.		
12	Rajshahye, July 28 „	0·48	Rain very uneven through the district, most on the north. Crops generally
	Nattore ...	2·75	doing well, but heavy rain necessary.
13	Rungpore „ 28 „	0·92	Weather—hot and cloudy, with slight showers of rain. More rain generally
	Nilphamari ...	0·92	wanted for the transplanting of *amun* rice. *Aus* and jute are still being cut.
	Gaibanda ...	1·62	*Maskalai* is being sown. Cholera still somewhat prevalent in certain parts
	Kurigram ...	0·63	of the district.
14	Bogra, „ 28 „	2·32	Less rain has fallen this week, and the weather has been rather close in consequence. Transplanting of *amun* paddy going on. Jute and sugarcane doing well. More rain wanted. General health good, except a few cases of fever reported from Dhunat outpost.
15	Pubna, „ 28 „	1 97	Weather—hot and close with light showers and southerly breeze occasionally. Prospects of crops good, and also health.
16	Darjeeling, „ 28 „	5·35	Weather—seasonable. Harvesting of Indian-corn has commenced with average outturn. Transplanting of paddy commenced. Tea outturn to date below last year's Cholera still hanging about.
17	Julpigoree, „ 28 „	7·31	Weather—seasonable. *Bhadoi* paddy and jute backward in places. Other crops promising. Cholera still lingering in Julpigoree town and district.
	Cooch Behar, „ 28 „ up to 25th.	4·68	Weather—generally cloudy and rainy. Transplanting of late rice going on. Cutting of early rice not yet finished. Prospects of jute continue good. Only a few cases of cholera heard of.
	Dinhatta ... up to 22nd.	9·47	
	Mathabhanga ... up to 21st.	11·11	
	Meckligunge ... up to 21st	9·93	
	Eastern Districts		
	Dacca Divn.		
18	Dacca July 28 '83	2·54	Weather—seasonable. *Aus* paddy and jute are being cut. Sowing of *khail* and *roachia* paddy going on. Sugarcane, jute, *mug*, *maskalai*, *til*, *amun*, and *bhadoi* crops promising.
	Manickgunge ...	2·40	
	Munshigunge ...	2·73	
	Narsingunge ...	2·11	
19	Furreedpore, „ 28 „	2·12	Weather—cool and generally fair. *Aus* and jute being cut. Prospects of late rice crop are still fair ; but it will suffer much if the rivers do not rise, or if heavier rain does not soon fall. Rivers are unusually low, and rainfall is still very scanty. Sugarcane doing well. Public health generally good.
	Goalundo ...	5·01	
	Madaripore ...	1·75	
20	Backergunge, „ 26 „	4·11	Weather—seasonable. Prospects of *aus* crop good. Cultivation of *amun* going on. General health good. Cattle-disease continues in parts of the sub-division of Patuakhali.
21	Mymensingh, „ 27 „	2·77	Weather—air warm and moist, with cloudy sky. More rain wanted in Jamalpore
	Jamalpore ...	3·97	and Tangail. The week's rain has brightened the prospects of the crops else-
	Kishoregunge ...	8·48	where. General health fair, but fever prevalent in south-east.
	Attea ...	3·02	
	Netrokona ...	2·48	

* For week ending 26th July.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL—*concld.*			
***Eastern Districts.*—concld.**			
Chittagong Divn. 22	Chittagong July 31 '83	4·84	Weather—rainy and hot. Prospects of crops fair. Transplanting of *aman* commenced. Cholera and cattle-disease not yet ceased. Prices steady.
23	Noakholly, „ 26 „	2·03	Weather—generally cloudy. Moderate rain at times. Wind southerly. Maximum temperature 84·1°. *Aus* paddy is being reaped. Transplanting of *aman* paddy continued.
24	Tipperah, „ 26 „	1·54	Weather—seasonable. Prospects of crops favourable. Jute and early rice are being reaped. Public health generally good.
	Brahmunbaria ..	1·34	
	Chandpore ..	4·40	
25	Chittagong Hill Tracts. „ 24 „	3·95	Continued showers of rain throughout the week; strong winds south-west and south-east. *Jum* paddy doing well. Transplanting of *aus* begun in ploughlands.
	Hill Tipprah „ 25 „	0·83	Weather—rather too dry for the season. *Aman* paddy is still being transplanted. Prospects of *satya* paddy and *til* fair. Public health good.
BEHAR.			
Patna Divn. 26	Patna. July 28 „	3·64	Weather—seasonable. Sowing of *bhadoi* crops continues. Transplanting of rice seedlings commenced. Public health generally good.
	Behar ..	5·91	
	Dinapore ...	4·65	
	Barh ..	5·02	
27	Gya, „ 28 „	6·04	Heavy and almost continuous rainfall. Transplanting of paddy has commenced, but, in common with other agricultural operations, is interfered with by the excessive rainfall. Cholera is still causing a considerable mortality.
28	Shahabad, „ 28 „	3·17	Weather—cloudy and fair at intervals. Rainfall plentiful. Prospects of crops on the ground favourable.
	Buxar ..	5·10	
	Bhabooah ..	6·85	
	Sasseram ...	1·71	
29	Durbhunga, „ 28 „	1·57	Weather—cloudy and showery, not very hot. All prospects good. Transplanting going on well, in some places very forward. Prices rising slightly. Health good.
30	Mozufferpore, „ 28 „	1·88	Weather—cool and showery. Prospects of crops much improved by the rain.
	Hajeepore ...	1·99	Transplanting of *aghani* rice going on everywhere. Public health generally
	Seetamurhee ...	1·82	good
31	Saran, „ 28 „	7·00	Weather—cloudy, with constant showers. Sufficient rain general throughout
	Sewan ..	1·38	district Prospects of *bhadoi* crops excellent. A spell of sunny weather desirable for weeding purposes. Transplanting of paddy in low lands going on. *Makai* in progress. General health good. Prices easy.
32	Chumparun „ 28 „	2·05	Weather—cloudy and rainy. The rain has done good to the standing crops, and appears to have been general throughout the district. Prospects of *bhadoi* crops excellent. Public health good.
Bhagulpore Divn. 33	Monghyr July 28 '83	... ..	Weather—hot and occasionally cloudy. Prospects of *bhadoi* and *aghani* crops
	Begusarai ...	5·44	good. Some cases of fever and cholera have appeared in Monghyr town and
	Jamui ..	4·77	parts of the district. Public health generally good.
34	Bhagulpore, „ 28 „	2·17	Weather—seasonable Prospects of crops good.
35	Purneah. „ 28 „	2·03	Weather—showery; not sufficient rain. Rain much wanted for transplanting;
	Kissengunge ...	1·27	crops otherwise good. Health fair.
	Arrareah ...	1·18	
36	Maldah, „ 28 „	1·44	Weather—hot and cloudy, with occasional moderate showers; south-east wind prevailing. Prospects of crops continue fair, but more rain is wanted for their growth. Prices of food-grains stationary. Public health good.
37	Sonthal Perghs. „ 28 „	3·16	A good deal of rain everywhere; a break would be welcome. Everything promises
	Deoghur ...	5·27	well; but a little dry weather is needed for late Indian-corn.
	Godda ...	2·97	
	Rajmehal ...	1·61	
	Jamtara ...	3·12	
	Pakour ...	2·89	
ORISSA.			
Orissa Divn. 38	Cuttack, July 27 '83	2·60	Weather—cool and cloudy. *Sarad* rice being transplanted. *Beali* rice being weeded and harvested. State of crops reported favourably Common rice selling at from 20 to 24 seers per rupee. Public health generally good.
39	Pooree, „ 26 „	0·69	Weather—rainy. Re-sowing and transplanting going on in some places. Weed-
	Khoorda ...	1·55	ing has commenced in the Khoorda sub-division. Prices stationary. Cholera reported from Khoorda, abating in town.
40	Balasore, „ 27 „	1·34	Weather—hot and cloudy with frequent showers Cultivation going on. Prospects of crops favourable. Public health good.
CHOTA NAGPORE.			
South-West Frontier Agency.			
41	Hazaribagh, July 27 '83	2·02	Weather—cloudy and seasonable. Prospects of *bhadoi* crops favourable. A few cases of cholera reported. General health good.
42	Lohardugga, „ 28 „	4·05	Weather—seasonable. Prospects of all crops on ground good. Cholera in-
	Palamow	1·73	creasing in Husainabad; fresh outbreaks reported from Chatterpur (Palamow) and Torpa and Balumath thanas (head-quarters.) Prices as before. No cattle-disease.
43	Singbhoom, „ 27 „	0·71	Weather—very little rain during the week; unusually dry for the season of the year. Agricultural operations in places somewhat retarded for want of rain. Prospects otherwise promising, and all crops doing well. General health good.
44	Manbhoom, „ 29 „	1·96	Weather—rainy and fairly cool. The rainfall of the week has been well distributed. Prospects of crops most promising. Public health good.

The total fall from 1st January to 28th July 1883		31·31
The average fall of the corresponding period for 24 years, S. G. Office		33·06

The mean pressure, temperature &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 86 formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III. IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction of the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground

o overcast, g gloomy, p passing temporary showers, d drizzling rain, t thunder, lr lightning reflection.

Explanation Indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If some of the returns are missing, the corresponding spaces in the total rainfall columns are left blank.

SUMMARY OF METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, 27TH JULY 1883.

THE meteorology of the past week has been in some respects singular At the end o the previous week (20th July), as was pointed out in last week's report, the continuance o westerly winds at the more westerly stations in South Behar and in Chutia Nagpur indi cated that the influence of the Bombay branch of the monsoon current still extended over a considerable portion of the Province, and that the rainfall at that time was due to the combined action of the two currents. At the beginning of the week under review neither current was strong, and the Bombay current appears to have steadily decreased in intensity during the week The combination of the two weakish currents gave fairly general rain, moderate in amount, at the commencement of the week. It decreased in amount and became less general on Sunday and Monday. Light unsteady winds prevailed over the whole Province on Tuesday. Skies also became much clearer. The barometer, which had risen for some days, began to fall on Monday. Pressure decreased slowly on that and the next day. Tuesday was comparatively a dry day over the Province, the rainfall consisting of a few light local showers.

At that time strong monsoon winds were almost certainly blowing over a large part of the Bay. This was indicated by the wind returns of the Ceylon stations and Diamond Island, and confirmed by the experience of vessels entering the river at the end of the week. The changes of wind direction at the head of the Bay also indicated that heavy rain was falling there, but that it was diffused over too large an area to give rise to a strong cyclonic whirl. The barometer, probably in consequence of this rainfall, fell rapidly on Wednesday and Thursday over the whole Province, and was nearly two-tenths of an inch below the average in South Bengal on Thursday morning. The result of this rapid fall of the barometer was to produce an area of shallow barometric depression over the Sunderbuns, which was stationary on Friday, and then moved westward passing into the southern districts of Chutia Nagpur, where it apparently disappeared, after filling up on Sunday (the 29th)

The formation and establishment of this area of shallow barometric depression in South Bengal gave westerly winds on Wednesday over Chutia Nagpur, South Behar, and the western districts of South-West Bengal. These winds, combined with southerly winds in East Bengal and easterly and northerly winds in North Bengal and North Behar, gave moderate cyclonic circulation of the air over a large part of the Province on Thursday and Friday. Light to moderate rain hence fell over the whole Province on Wednesday, and continued during the remaining days of the week, increasing slightly in amount With the westward passage of the depression into Chutia Nagpur on Saturday, southerly winds set in again over the whole of Bengal, and brought up rain chiefly in short squalls. They are now giving fairly general rain over Bengal.

The barometer has been below the average during the week. The variations are large, ranging from an average for the week of ·07″ at Cuttack to ·14″ at Calcutta and ·15″ at Gya. Pressure has been for the past fortnight relatively high in Orissa and Chutia Nagpur. The temperature variations are not large, and depend mainly on the amount and distribution of the rainfall. Temperature was slightly above the average in North-East and North Bengal, and also in North Behar over which the rainfall of the week was below the average Elsewhere it was slightly below the mean, except at Gya, where the average deficiency is 1½°. The highest temperatures during the week were recorded at Raneegunge, Burdwan, and Rampore Beauleah. Winds have been slightly irregular during the week. The mean feature during the past as during the previous week was the unusual predominance of westerly winds in Chutia Nagpur, South Behar, North Orissa, and the adjacent districts of South-West Bengal. The winds were normal in direction in other parts of the Province.

Abstract for the week ending 27th July 1883

The rainfall of the past week was considerably smaller in amount than during the previous week. The western half of the Province, including South-West Bengal, Behar, and

Chutia Nagpur, received amounts giving an average slightly in excess of the normal, except in South Behar, where the excess was over 60 per cent. The Gya, Bankipur, Chupra, and Hazaribagh districts received the most abundant rain.

The rainfall was in defect over East and North Bengal, and also in Orissa. The deficiency was on the whole greatest in East Bengal, but was also very considerable in some districts in North Bengal. It was most marked in the Barrisal, Noakholly Comillah, Dinagepore, Rungpore, and Purneah districts over which the rainfall during the week was from 30 to 50 per cent. of its normal amount. The deficiency in the rainfall was, however, not due to diminished cloud amount, or to a smaller number of rainy days, but was almost entirely owing to the lightness of the rain showers. Normal or abundant rain has been received during the present monsoon up to date in every part of the Province except the central districts of North Bengal and the northern districts of East Bengal.

Saturday, 21st July.—Pressure increased during the previous 24 hours at the great majority of stations. The rise was small, except in East Bengal and at Burdwan. Pressure was below the normal of the day by amounts which ranged from ·04″ at Chittagong to ·14″ at Gya. Temperature was increasing, but was below the average except at False Point and in North Behar. The mean temperature of the past 24 hours was 1½° in defect in South Bengal, and 2½° in South Behar and Chutia Nagpur. Winds were much lighter at the head of the Bay. They were south-easterly in East Bengal, south-westerly to westerly in South-West Bengal, easterly in North Bengal and North Behar, and variable in South Behar. Westerly winds continued at Dehree and Hazaribagh. The humidity of the air differed very slightly from normal, but was somewhat in defect in Orissa. The sky was overcast in East Bengal, South Behar, and Chutia Nagpur, and over the greater part of South-West Bengal. Elsewhere it was more or less clouded, except at Motiharee, where it was clear. General rain fell over the whole Province except in Orissa and the western districts of North Behar, where local showers were received. The rainfall was moderate in amount and fairly uniformly distributed. The largest rainfall recorded was 3·5 inches at Fenny.

Sunday, 22nd July.—Pressure increased slightly during the previous day at the majority of stations. The changes of pressure were unimportant, except at Chittagong and along the east coast of the Bay, where the barometer was falling rapidly. Pressure was below the normal over the Province by amounts ranging from ·02″ at False Point to ·12″ at Gya. Temperature was generally below the average at all stations. The mean temperature of the past 24 hours was 3½° in defect at Gya, 2° in Eastern Bengal, and 1° in South-West Bengal and Orissa. Temperature was highest in North Bengal, more especially at Rampore Beauleah, where the highest maximum temperature (91·6°) was recorded. Winds were feebler than on the 21st, more especially at the head of the Bay, but were unchanged in direction. The air was damper again in Orissa. Humidity was unusually high over the greater part of Behar The sky was overcast in Orissa and South Behar, but less clouded in South-West Bengal than on the 21st. Rain fell over the whole province during the previous 24 hours. The rain fell in showers, which gave amounts generally less than half an inch. They were on the whole lightest in North Bengal and Behar. Gya and Patna were the only districts which received moderately heavy rain. At Barrh 3·25 inches were registered, at Dinapore 2·85 inches, and at Patna 1·75 inches.

Monday, 23rd July.—Pressure began to decrease at the majority of stations. The changes of the previous 24 hours were otherwise not important, and pressure was considerably below the normal by amounts which ranged from ·01″ at False Point to ·12″ at Gya. Pressure was very uniform over North Bengal, Behar, and Chutia Nagpur. Temperature was below the average, except at Dacca and Purneah. The mean temperature of the past 24 hours was 3° below the normal in South Behar, 1½° in Orissa, and 1° in South-West Bengal and Chutia Nagpur. Winds diminished considerably in strength during the past 24 hours. Southerly winds prevailed generally in South-West Bengal, south-easterly in East and North Bengal, and easterly in Behar. The sky was overcast in South-West Bengal, Orissa, and in South Behar. It was lightly clouded in the central districts of North Bengal, and clear at Motiharee and Hazaribagh. Showers fell in nearly every part of the Province. They were light in East and North Bengal, North Behar, and the Sonthal Pergunnahs, and gave moderate rain to the greater part of South-West Bengal and South Behar. Heavy rain fell in the south of the 24-Pergunnahs and the Midnapore district, (where falls exceeding two inches were received at Saugor Island (3·48 inches), and Contai (3·24 inches). A few light unimportant local showers occurred in Orissa.

Tuesday, 24th July.—Pressure had fallen except in Orissa and East Bengal. The changes were again small, except in North Bengal, where a moderate fall of the barometer had taken place. Pressure was below the normal in all parts of the Province. The deficiency was small in Orissa and was largest in Behar. It ranged in amount from ·02″ at Cuttack to ·16″ at Purneah. The mean temperature of the previous 24 hours was 2½° below the average in Orissa, 2° in South Behar and Chutia Nagpur, 1° in South-West Bengal, and was normal in East Bengal and North Behar. Rampore Beauleah and Julpigoree registered the highest maximum temperatures (91·6° and 91·0°) respectively. Winds were generally slightly stronger than on the 23rd, but were unaltered in direction. The air was drier, more especially in South-West Bengal and Orissa, where the humidity was below the average. Skies were also less clouded, and were overcast at a few stations, chiefly in South Behar and Chutia Nagpur. Rainfall was much less general than for some days previous. A few local showers of no importance were received in Orissa and South-West

Bengal. Light to moderate showers fell in East Bengal, the southern districts of North Bengal and the Sonthal Pergunnahs and the Gya district. Falls exceeding two inches were recorded at Goalundo (2·72 inches), Nowadah (2·63 inches), and Gya (2·16 inches).

Wednesday, 25th July.—The barometer fell rapidly over the whole province, and more especially in East Bengal and South-West Bengal Pressure was considerably below the normal by amounts which ranged from ·08″ at Cuttack to ·2″ at Purneah. Temperature increased during the previous 24 hours, and was generally above the average. The mean temperature of the past 24 hours was 1° in excess in South-West Bengal and ½° in North Behar. High maximum temperatures were recorded in South-West and North Bengal. The highest were 99·5° at Raneegunge, and 91·6° at Rampore Beauleah. Winds were moderate in force at the head of the Bay, although the gradients over the Bay were unusually high. Westerly winds were again extending and were established on this day over South Behar, Chutia Nagpur, Orissa, and the western districts of South-West Bengal. Humidity was slightly below the average in Orissa and South-West Bengal, and the greater part of East Bengal, and above it elsewhere, especially in South Behar. The cloud amount was somewhat greater than on the 24th, and sky was overcast at the majority of stations, except those in Orissa and East Bengal. Showers giving fairly general rain, moderate in amount, fell during the previous 24 hours in East and North Bengal and Behar. Raintalls exceeding two inches were recorded at the following stations:—Madhubani (in the Durbhanga district) 2·92 inches, Julpigoree 2·78 inches, and Behar 2·23 inches. A few, local showers of little importance were received in South-West Bengal and Orissa.

Thursday, 26th July.—Pressure again gave way at the great majority of stations. The fall of the barometer was large over the east coast of the Bay of Bengal and in South-East Bengal. Pressure was below the normal of the day by amounts which ranged from ·13″ at Hazaribagh to ·23″ at Calcutta and ·21″ at Chittagong. An area of very slight barometric depression was now formed in South Bengal near the coast of the Sunderbunds. Temperature was high and above the average in South-West Bengal, Central, East Bengal and probably North Bengal. The mean temperature of the past 24 hours was 2° above the average in South-West Bengal. It was below it by amounts ranging from 1° to 5° in South and Central Behar. Light to moderate winds were blowing at the head of the Bay. Further south in the Bay strong monsoon winds were established. Westerly winds prevailed over Chutia Nagpur, South Behar, Orissa, and South-West Bengal. The combination of north-westerly winds in South-West Bengal and south-easterly winds in East Bengal gave a feeble cyclonic circulation in the southerly districts of Bengal towards and round the area of barometric depression. The air was generally slightly damper in South-West Bengal and was very moist at many of the Behar stations. The cloud amount was also greater. Westerly winds now gave overcast skies in Behar and Chutia Nagpur. Sky was least clouded in East Bengal. Fairly general rain fell in Orissa, South-West Bengal, Behar, and Chutia Nagpur.

The rainfall was generally light in South-West Bengal, but was moderately heavy in the Burdwan, Beerbhoom, and Nuddea districts A few light local showers of little importance fell in East and North Bengal. The Julpigoree and Cooch Behar stations received heavy rainfalls varying between two and three inches in amount. General rain occurred over the whole of Behar and Chutia Nagpur, and was very heavy in the Chumparun, Patna, and Monghyr districts. The following were the largest amounts recorded:—Behar 6·45 inches, Jamui (in the Monghyr district) 3·9 inches, Sewan 3·72 inches, Chuprah 3·33 inches, and Bettiah 3·2 inches. Light to moderate rain fell in Orissa

Friday, 27th July.—Pressure increased during the previous 24 hours at all stations except at Saugor Island, Cuttack, and Balasore. The rise was large in East and North Bengal and in North and Central Behar over which it averaged nearly a tenth of an inch. Pressure was below the normal of the day by amounts which ranged from ·07″ at Patna, Hazaribagh and Durbhanga to ·18″ at Calcutta. Pressure was lowest at Calcutta, which was the centre of the area of slight barometric depression that had moved westwards since the 26th. Temperature varied considerably from the normal. The mean temperature of the past 24 hours was 4° below the average for the day in Orissa, and from 4° to 7° below it in Chutia Nagpur and South Behar. It was from 1° to 3° above it in North and Central Behar and over the greater part of Bengal. Winds shifted considerably during the past 24 hours. They were of moderate force at the head of the Bay. They were south-easterly at the great majority of the Bengal stations, easterly in North Behar, north-easterly at Bhagulpore and Raneegunge, northerly at Gya, north-north-westerly at Hazaribagh, and westerly to south-westerly in Orissa, thus giving cyclonic circulation of air around and towards the area of barometric depression in South-West Bengal. The circulation was, however, feeble. The air was unusually dry in East Bengal and the central districts of North Bengal. The sky was overcast in Orissa and also generally in Behar and Chutia Nagpur, and was partly clouded in Bengal.

General rain fell over the same districts as on the 26th. The amounts recorded were generally smaller, and the rainfall more uniformly distributed. It was most general and heaviest in South Behar and Chutia Nagpur; and was light to moderate in Orissa and South-West Bengal. Rainfalls exceeding two inches were recorded at Bhubooah (3·1 inches) and Pooree (2·02 inches), and rainfalls varying between one and two inches at Mohesraka, Chyebassa, Ranchee, Culna, Gobindpore, Narail, and Contai. Light showers fell at the great majority of stations in East Bengal, and a few local showers of no importance in North Bengal.

MEMORANDA.

THE principal features in the vital statistics of the first class Municipalities in Bengal for the week ending 14th July 1883, as gathered from the subjoined table, are the following:—

(1.) That births were recorded in these Municipalities at the rate of 17·3 per 1,000 of population, against 16·9 per 1,000 in the preceding week ending 7th July, and deaths at 28·9 against 26·8 per 1,000, indicating an advance in the registration of both births and deaths.

(2.) That the highest proportions of births and deaths were returned by the undermentioned Municipalities:—

Births.	Ratio per mille.	*Deaths.*	Ratio per mille.
Burdwan ...	... 35·1	Poori ..	.. 117·7
Uterparah ...	... 28 3	Gya ..	.. 102·5
Gya ...	... 28·0	Darjiling ..	.. 44·4
Comillah ...	... 27·0	Patna ..	.. 35·7
		Comillah ..	... 34·7
		Jessore ...	... 30·6
		Bhagulpore ..	... 26·0
		Burdwan ..	.. 27·5
		Hughli ..	.. 26 8
		Suburbs of Calcutta	.. 26·3

(3.) That the mean mortality from the various death-causes, in comparison with the mortality in the preceding week, stood as follows:—

	Ratio per 1,000 during the weeks ending	
	14th July.	7th July.
Cholera	6·3	4·3
Small-pox	·4	·6
Fever	10·3	11·4
Bowel-complaints	4·4	3 6
Injury	·7	·5
Other causes	6·8	6·4

the noticeable points revealed by these figures are an increase in the mortality from cholera and bowel-complaints, markedly from cholera, and a decrease in the death-rates from fever and small-pox.

(4.) That while small-pox proved most fatal in only the Gya Municipality (3·4 per 1,000) and fever in Jessore (24·5 per 1,000), cholera and bowel-complaints exhibited the greatest activity in the following towns:—

Cholera.	Ratio per mille.	*Bowel-complaints.*	Ratio per mille.
Poori	.. 79·2	Poori	.. 19·3
Gya	.. 58·1	Patna	.. 10·1
Comillah	.. 15·4	Midnapore	9·3
Mozufferpore ..	4·9		
Monghyr	4·5		
Hughli	4·0		

(5.) That excluding the death of one Budhist, which occurred in the Darjiling Municipality, the death-rates among the other denominations composing the population of these Municipalities were:—

	Ratio per mille.
Christians	33·0
Hindus	30·9
Mahomedans	24·1

(6.) That with regard to mortality referable to *Age*, the highest death-rates were registered among:—

	Ratio per mille.
Infants (under 1 year)	245·9
Children (of 1 and under 5 years)	53·4
Old men (60 years and upwards)	49 9

and the lowest among adults of 10 and under 15 years, viz. 14 per 1,000 of the living.

F. W. A. DEFABECK,
Officiating Sanitary Commissioner for Bengal.

The 30th July 1883.

Statement showing the Results of the Registration of Births and Deaths in the First Class Municipalities in Bengal during the week ending 14th July 1883.

		°
The mean temperature of the seven days ...	...	82·8
The extreme variation of temperature during the seven days ...	...	13·1
The maximum temperature during the seven days ...	...	91·3
		%
The mean relative humidity during the seven days ...	...	89
		Inches.
The total fall of rain from 22nd to 28th July 1883 ..	...	1·79

The mean temperature and humidity are obtained by applying to the mean of the 10h, 16h, and minimum readings a correction dependent on the range, and derived from the hourly observations at the Surveyor-General's Office, Chowringhee, in past years.

Meteorological Office, India,
The 30th July 1883.

John Eliot,
For Meteorological Reporter to the Govt. of India.

Secretary to the Govt. of Bengal.

No. 2008A.

GENERAL.—*The 31st July* 1883.—The order of the 23rd December last, transferring Mr. W. Grindlay, Assistant Magistrate and Collector, to Durbhunga is cancelled.

The 1st August 1883.—Mr. A. Borooah, Temporary Joint Magistrate and Deputy Collector of the second grade, on leave, is confirmed in that grade.

The 3rd August 1883.—Mr. W. M. Clay, Magistrate and Collector, Khoolna, acted in the first grade of Magistrates and Collectors from the 28th May to the 5th June 1883, both days inclusive.

Mr. A. W. Paul, Officiating Magistrate and Collector, Dacca, acted in the second grade of Magistrates and Collectors from the 28th May to the 5th June 1883, both days inclusive.

Baboo Purna Chunder Bysack, Temporary Sub-Deputy Collector, Narail, Jessore, is allowed leave for one month and twenty days, under section 136, rule 2, chapter X of the Civil Leave Code, with effect from such date as he may avail himself of it.

The 7th August 1883.—Mr. Stephen Ulfat Hossein, Officiating Deputy Magistrate and Deputy Collector, Bhagulpore, is transferred to Monghyr, and is posted to the sudder station of that district.

Mr. F. E. Pargiter, Commissioner of the Sunderbuns, is allowed leave for two months, under section 71, chapter V of the Civil Leave Code, with effect from the 8th instant, or such subsequent date as he may avail himself of it.

Mr. J. Ellison, Deputy Collector, Sunderbuns, is appointed temporarily to have charge of the Sunderbuns Commissioner's office in addition to his other duties.

Mr. N. S. Alexander, Officiating Commissioner of the Dacca Division, is allowed leave for two months and eight days, under section 71, chapter V of the Civil Leave Code, with effect from the 3rd proximo.

POLICE.—*The 30th July* 1883.—Mr. A. H. Giles, District Superintendent of Police, has been granted by the Right Hon'ble the Secretary of State for India an extension of furlough for two months.

The 7th August 1883.—Mr. I. H. W. D. Clark, Officiating District Superintendent of Police, Bogra, is appointed to act, until further orders, as District Superintendent of Police, Rungpore.

This cancels the order, dated the 21st ultimo, appointing Baboo Mohendro Nath Hazra to act as District Superintendent of Police, Rungpore.

Baboo Mohendro Nath Hazra, Assistant Superintendent of Police, Serampore, Hooghly, is appointed to act, until further orders, as District Superintendent of Police, Bogra.

Mr. W. D. Pratt, District Superintendent of Police, 24-Pergunnahs, is allowed leave for twelve days, under section 71, chapter V of the Civil Leave Code, with effect from the 23rd instant, or such subsequent date as he may avail himself of it.

EDUCATION.—*The 4th August* 1883.—Baboo Piyari Mohan Mookerjee, Deputy Inspector of Schools, Beerbhoom, is confirmed in the third class of the Bengal Subordinate Educational Service, with effect from the 16th April 1883, *vice* Baboo Bishnu Chunder Mookerjee, deceased.

Mrs. M. Wheeler, Inspectress of Schools, is appointed to act, until further orders, in the third class of the Bengal Subordinate Educational Service, with effect from the 1st June 1883, *vice* Baboo Gunga Dhur Acharjee.

Mr. F. St. Clair Grimwood, Officiating Assistant Commissioner, second grade, to act in the fourth grade of Deputy Commissioners, *vice* Mr. Heath.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 3rd August 1883.—In the resolution recorded by the Lieutenant-Governor, in the Appointment Department, under date the 30th April last, and published in the *Calcutta Gazette* of the 9th May 1883, "elementary surveying and drawing" have been prescribed among the subjects of the examination for admission into the Subordinate Executive Service to be held in January 1884.

The standard of the examination that will be adopted as regards these two subjects will be the following:—

Drawing.

Scales, and geometrical drawing.

Surveying.

Surveying with the chain only, and with prismatic compass and chain.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 24th July 1883.—It is hereby notified for general information that the Lieutenant-Governor intends to confirm, after one month from this date, the following bye-laws, which have been framed by the District Road Cess Committee of Khulna under section 180 of the Cess Act, IX (B. C.) of 1880:—

1. No person shall damage or encroach on any part of a district road or its side ditches by taking earth from, cultivating crops, or placing a fence on it or them.

2. No person shall tether any cattle on any district road, and the owner of any cattle found tethered on any district road shall be held to have allowed his cattle to be tethered there.

3. No person shall, without the special permission of the Chairman or Vice-Chairman, cut any part of any district road for purposes of irrigation or drainage, or for any other purpose.

4. No person shall wilfully destroy or damage any tree on any district road, or any fence erected for the protection of such tree, and no person shall remove or damage any post or fence erected on any district road.

5. The Chairman or the Vice-Chairman may require any owner or occupier of any land, within seven days, to trim or prune any hedge bordering on any district road, and to cut and trim any trees or bamboos overhanging any such road and obstructing the same, or causing damage thereto. Provided that this rule shall apply only to roads in classes I and II, and to the Khulna and Bagirhat road in class III.

6. While any district road is under repair it shall be lawful for the person in charge of the repairs of such road to stop all traffic or passage over any portion of the roadway which is under repairs: provided that such portion of the roadway, or an alternative road, be left for passage and traffic.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 1st August 1883.—In the exercise of the powers conferred on him by section 78, Act V (B.C.) of 1876, and in compliance with the recommendation of the Commissioners of the Bali Municipality, made at a meeting, the Lieutenant-Governor sanctions the imposition by the Commissioners, under section 122 of the Act, of a tax on carriages, horses, and other animals mentioned in the third schedule annexed to the Act, at rates not exceeding those specified in the said schedule.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 2nd August 1883.—It is hereby notified for general information that, in the exercise of the power conferred on him by section 234 of the Bengal Municipal Act, 1876, the Lieutenant-Governor is pleased, on the recommendation of the Commissioners of the Municipality of Cuttack, at a meeting, to extend the provisions of sections 271 to 277 of the said Act to the said municipality.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

ERRATUM.

The 1st August 1883.—In the notification dated the 3rd January 1883, published at page 20, Part I of the *Calcutta Gazette* of the 10th idem, directing the registration of births and deaths, under Act IV (B.C.) of 1873, in the 13 tolahs comprising the Hazareebagh Municipality, *for* "Shurby" *read* "Sarleh."

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 3rd August 1883.—The following notice is published for general information.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

GOVERNMENT OF BENGAL, GENERAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 34.)

AUSTRALIA—SOUTH COAST.

SPENCER GULF.

APPROACHES TO PORT AUGUSTA.

Change in the Channel to the Port.

THE President, Marine Board, Port Adelaide, has given notice that a channel, one mile in length, having a width of 150 feet, and a depth of 18 feet at low water ordinary spring tides, has been cut through the reach leading from Brown's Point towards Port Augusta.

About two cables length of the southern portion of the reach it has been widened to 300 feet.

Also, that small *cask* buoys, painted *black*, have been placed to mark the port side of the channel.

Masters of vessels bound for Port Augusta should leave the *red* beacons on the starboard hand at a distance of from 75 feet to 100 feet.

By direction of the Government of Bengal,

J. MENTEITH BREBNER,
Offg. Port Officer, Calcutta.

PORT OFFICE, *Calcutta, the 30th July* 1883.

[First Publication.]

NOTIFICATION.

The 3rd August 1883.—The following notice is published for general information.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

GOVERNMENT OF BENGAL, GENERAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 35.)

MALAY PENINSULA—WEST COAST.

MALACCA STRAIT.

FORMOSA BANK.

Temporary alteration of light during repairs to the Formosa lightship.

THE Government of the Straits Settlements has given notice that, owing to the light-ship *Formosa's* removal from her station off the Formosa Shoal or Bank, the revolving white light hitherto shown from that vessel will be discontinued, on and after the 15th day of August 1883.

While the *Formosa* is undergoing repairs the Government schooner *Horsburgh* will exhibit a *fixed* white light from her main masthead, and the light should be visible in clear weather at a distance of 7 to 8 miles.

The schooner, which has two masts, will be painted *black*. By day she will carry a *blue* ensign at the maintopmast head, and a ball painted *red* at her foremast head.

A gong will be sounded during thick or squally weather.

By direction of the Government of Bengal,

J. MENTEITH BREBNER,
Offg. Port Officer of Calcutta.

PORT OFFICE, *Calcutta, the 30th July* 1883.

[Second Publication.]

NOTIFICATION.

The 27th July 1883.—It is hereby notified for general information that the Lieutenant-Governor intends, if no valid objections shall have been raised within one month from the date of this publication, to submit to the Government of India for approval the following revised rules framed under the provisions of sections 130 and 133 of Act VIII of 1878 (the Sea Customs Act), to regulate the transhipment of goods. These rules will, when confirmed, take effect from the 1st October 1883, and will supersede those published in the *Calcutta Gazette* of the 30th March 1881 and the 26th October 1881.

1. Applications for the transhipment of free goods should be presented to the proper officer of Customs before 3 P. M., and such goods will be allowed transhipment under the pass issued, without any charge.

2. Applications for the transhipment of dutiable goods should be presented to the proper officer of Customs before 3 P. M. on the day prior to that on which the transhipment is required, accompanied by the fees payable, under section 133 of the Act, on the following scale for the port of Calcutta :—

For each transhipment between the hours of 8 A. M. and 5 P. M.—

	Rs.	A.	P.
On packages not exceeding 50 in number, each ...	0	4	0
On every ten or less than ten packages in excess of 50 ...	1	0	0

3. When transhipments of dutiable goods are not completed before 5 P. M., an additional fee of Rs. 4 will be charged.

4. *Chittagong.*—The transhipment fees payable on dutiable goods are as follow :—

	Rs.	A.	P.	
For single packages ...	0	8	0	per package.
For goods in bulk ...	6	4	0	per 100 maunds.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 30th July 1883.—The Lieutenant-Governor is pleased to order that, on and after the 1st September 1883, the following shall be the rates for forest produce in the Sunderbuns protected forests, in supersession of those published in Rule I of the Rules of the 17th August 1880, and of the notification dated 12th September 1880 :—

(1) Pussur and Amoor timber in pieces measuring 10 feet and upwards in length *or* 3′ 9″ and upwards in girth at the thick end, for every maund, one anna.

(2) Sundri, Pussur, and Amoor timber in pieces measuring 6 feet and under 10 feet in length *or* 2′ 3″ and under 3′ 9″ in girth at the thick end, for every maund, one-half anna.

(3) Keora timber in pieces measuring 6 feet and upwards in length *and* 2′ 3″ and over in girth at the thick end, for every maund, one-quarter anna.

(4) Any other forest produce, except honey and wax, for every maund, one-quarter anna.

(5) The right to collect honey and wax, for each man per month, one rupee eight annas.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 31st July 1883.—The Lieutenant-Governor sanctions the transfer of village Kayapat (No. 8410), of pergunnah Bogri, from the criminal and revenue jurisdiction of the district of Midnapore to that of Hooghly, with effect from the 1st April 1883.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 30th July 1883.—The following Notice to Mariners is published for general information.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

GOVERNMENT OF BENGAL, GENERAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 33).

BAY OF BENGAL—CHITTAGONG COAST.

KUTUBDEA BANKS.

Buoy off Dolphin Shoal.

TELEGRAPHIC information has been received from the Port Officer of Chittagong, that the *Black* buoy, with *staff and black ball*, which was placed on the western edge of the Dolphin Shoal, has broken adrift.

Caution.—Navigators are therefore warned to be careful when passing the Shoal Patches in this vicinity.

By direction of the Government of Bengal,

J. MENTEITH BREBNER,
Offg. Port Officer of Calcutta.

PORT OFFICE, *Calcutta, the 27th July* 1883.

[Third Publication.]

NOTIFICATION.

The 19th June 1883.—It is hereby notified, under section 4 of Act VII of 1878 (the Indian Forest Act), that it is proposed to constitute the following areas, in the district of Pooree, lying within the boundaries described below, reserved forests under the provisions of the said Act —

District.	Pergunnah or other sub-division.	Name of forest.	Boundaries.
Pooree ...	Khorda ...	Dandimal range, Churang block.	*North.*—Demarcated boundary line between Khorda and Dompara, Khorda and Motri, Khorda and Ratagarh, Khorda and Chandi, and Khorda and Sarangarh. *East.*—Demarcated boundary line between Jujgarh and Churang following the Trunk Road. *South.*—From a point on the Trunk Road to the Barimul hill, then along the base of the hill to the Churang fort wall; thence along the base of the Angar hill along the southern boundary of mouzah Bhalunka to the triple junction of mouzahs Bhalunka, Krushnanagar, and Bhuasuni; thence to the southern corner of the Rangamati hill; then west to the boundary line between mouzahs Talsadei and Chandka. *West.*—Along a demarcated boundary line running to the Nodha hill, which is the starting point.
Ditto ...	Ditto ...	Dandimal range, Chandika block.	*East.*—The boundary of the Churang block. *South.*—A demarcated line passing to the north of the cultivated land of mouzah Chandka, running first west, then north-west to the Kendujhar nala; thence almost due south to the boundary of mouzahs Chandka and Simlipatana; then along that boundary to a feeder of the Kendujhar nala; then south to the Mahalimba hill, passing to the east of it in a southerly direction to the Bhalumundia; then westward to the boundary between Kantabar and Bhagabatipore at the base of the Raikhala hill. *West.*—The demarcated boundary between Kantabar and Bhagabatipore. *North.*—The demarcated boundary line between Khorda and Dompara.
Ditto ...	Ditto ..	Dandimal range, Barapita block.	*East.*—The demarcated boundary line between Kantabar and Bhagabatipore to the Raikhala hill. *South.*—A demarcated line running westward along the base of the Raikhala hill, crossing the Haldigundi nala to the Basang hill in mouzah Kadamjhar, to the triple junction point between Koduamunda, Kadamjhar, and Krushna Mohanpore, following the southern demarcated boundary of Krushna Mohanpore, then following the eastern demarcated boundary of Fakirpara to the tri-junction with Koduamunda, Fakirpara, and Minchinpatna; thence along the southern boundary of Fakirpara to the triple junction of Bantal, Majana, and Fakirpara; thence a demarcated line passing to the south of the Deolia hill to the south-east spur of the Kansari hill, then along the southern base of the Kansari hill to the base of the Baghaitangi Mundia. *West.*—Along the demarcated boundary between Tarkai and Baghaitangi, and Tarki and zillah Haldia, to the Maruaband triple junction of zillah Dompara and zillahs Dandimal and Haldia. *North.*—The demarcated boundary between Dompara and Khorda.
Ditto ...	Ditto ...	Dandimal range, Panchgarh block.	*North.*—Cultivated lands of mouzahs Mardabari Pankal-Sahi, Kuspala, Kothpala, Palidighiri, Mandal Singh, and Kautara. *East*—Demarcated boundary line between Khorda and Killah Ranpore. *South.*—Demarcated boundary line between Khorda and Killah Nayagarh. *West.*—Demarcated boundary line between Khorda and Nayagarh.
Ditto ...	Ditto ...	Dandimal range, Barunai block.	*North*—From a point on the boundary between Palatotapara and Khorda, running along the base of the hills on the north to the triple junction of jemader Makundprasad, and Khorda; thence to the triple junction of Makundprasad, Kholaduar, and Khorda, skirting along the base of the Barunai hills. *East.*—The base of the Barunai hills along a demarcated line to the triple junction of Kholaduar, Porapara, and Khorda.

District.	Pergunnah or other sub-division.	Name of forest.	Boundaries.
			South.—Thence along a demarcated line along the base of the hills to the triple junction of Scaliapatna, Palatotapara, and Khorda. *West.*—Along a demarcated line to the starting point.
Pooree ,...	Khorda ... NOTIFICATION.

The 19th July 1883.—The following Notice to Mariners is published for general information.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

GOVERNMENT OF BENGAL, GENERAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 32).

BAY OF BENGAL—BRITISH BURMA.

TENASSERIM COAST—TAVOY RIVER.

New Reef Island light.

THE Superintendent of Lighthouses in British Burma has notified that, on or about the 1st August 1883, a fixed white light will be exhibited on Reef island, at the entrance to Tavoy river, as a guide to vessels approching the port of Tavoy.

The illuminating apparatus will be dioptric, or by lenses of the fifth order, and will be shown from a temporary wooden tripod during the time the lighthouse is in course of construction. The building will be a circular masonry tower, and is intended to be 28 feet high.

Further particulars will be published hereafter.

By direction of the Government of Bengal,

J. MENTEITH BREBNER,
Offg. Port Officer of Calcutta.

PORT OFFICE, *Calcutta, the 17th July* 1883.

DECLARATION.

The 28th July 1883.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Dacca Municipality for a public purpose, viz., for the purpose of widening the Nawabpore road, in the town of Dacca, pergunnah Jehangirnagar, it is hereby declared that for the above purpose a piece of land measuring, more or less, 110·5 square feet is required. It is bounded on the north, south, and east by the municipal public road, and on the west by the land of Sookmoy Chander, and Bhim Chandra, and Nanda Kumar Basack.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

[Second Publication.]

DECLARATION.

The 30th July 1883.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for constructing a seventh class post office building in the village of Naldi, pergunnah Naldi, zillah Jessore, it is hereby declared that for the above purpose a piece of land measuring, more or less, 15 cottahs of standard measurement, bounded on the north by the ryoti land of Shuripara; on the east by that of Rajani Kanto Ghosh; on the south by the river Nabaganga; and on the west by the Naldi Bazar, is required within the aforesaid village of Naldi.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

A. P. MACDONNELL,

STAMPS.
H. A. Cockerell, Esq., C.S.I.

THE following Resolution of the Government of India, No. 2153, dated 20th July 1883, in the Department of Finance and Commerce, is republished for general information.

RESOLUTION.

Simla, the 20th July 1883.—"The attention of the Board of Revenue, Lower Provinces, was recently directed to a case in which a bank had granted a duplicate receipt to another bank on unstamped paper, although the original receipt was stamped with a duty of 1 anna, and the money for which the original receipt was granted was required to be accounted for to a party other than the depositor. The case was referred to the Advocate-General for opinion as to whether the duplicate receipt was liable to stamp duty, and the following opinion was given by him":—

"A receipt for money is an instrument within the meaning of the Stamp Act (Act I of 1879). It follows that a duplicate receipt mentioned in this case is liable to a stamp of 1 anna under Article 23(*a*) of Schedule I."

2. "The Governor-General in Council is pleased to direct that steps may be taken to make the opinion of the Advocate-General known to the public."

By order of the Board of Revenue, L.P.,

C. E. BUCKLAND, *Offg. Secretary.*

LAND SALE NOTICES

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate situate in the district of the Sonthal Pergunnahs will be put up to sale at the Dumka Collectorate on Friday, the 28th September 1883, corresponding with 13th Assin 1290 B.S.

The purchaser will be subject to the following conditions of sale :—

Conditions of Sale.

1*st*.—The estate to be sold revenue-free to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him.

2*nd*.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3*rd*.—If the amount of the purchase-money do not exceed Rs 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

JAS. TAYLOR,
Asst. Comptr.-Genl., in charge, Paper Currency.

PAPER CURRENCY DEPARTMENT, the 7th August 1883.

Notice.

MR. R. L. BISS, Cashier, has been authorized to sign for the Bank until further orders.

By order of the Directors,
R. HARDIE, Secretary and Treasurer.

Bank of Bengal, Calcutta, 2nd August 1883.
(1384—1)

Notice.

THE Directors have made the following change in the Bank's establishment:—

Mr. W. D. McKewan has been appointed to act as Agent at Delhi, *vice* Mr. J. W. Russell, who has been granted three months' leave.

R. HARDIE, Secretary and Treasurer.

Bank of Bengal, Calcutta, 1st August 1883. (1385—1)

Serampore Municipality.

DEBENTURE LOAN OF Rs. 20,000.

THE Commissioners have obtained the sanction of the Government of India, under section 7 of Act XI of 1879, "The Public Works Loan Act," to raise a loan of the above sum in the open market on the security of the rates, taxes, and fees levied by them under Act V of 1876 (B.C), Regulation VI of 1879, Act I of 1871, Act V of 1866, Act V of 1861, Act II of 1867, Act IV of 1873, and Act VI of 1878.

Tenders are hereby invited, and will be received up to 1st October 1883, for the whole or any part of the above-named sum.

Negotiable debentures will issued of Rs 500 each, and the loan will be repayable by equal half-yearly instalments with interest at 4½ per cent. on the 1st April and 1st October, commencing on the 1st April 1884.

Parties tendering are required to pay into the sub-divisional treasury, to the credit of the Commissioners, 2 per cent. of the amount tendered by way of security.

Tenders to be made in prescribed form which may be had on application at the office of the Commissioners, and to be enclosed in sealed covers marked, "Serampore Municipality Market Loan."

The amount of the accepted tender or tenders to be paid in one instalment within one month from date of acceptance of tender.

The time for opening tenders will be duly intimated in writing to the tenderers.

F. R. S. COLLIER, Chairman.

(FORM OF TENDER.)

I do hereby tender for rupees of the loan advertised for in the *Calcutta Gazette*, dated the 18th July 1883, and agree to pay for the same subject to the conditions specified at the rate of rupees for every hundred allowed to me.

I enclose a deposit receipt of the Sub-divisional Treasury Officer for Rs. by way of security, and do hereby bind myself, if my tender be accepted, to pay to the credit of the Commissioners at the sub-divisional treasury office the whole sum tendered for by me before the 31st October 1883.

(FORM OF DEBENTURE.)

SERAMPORE MUNICIPALITY.

No. , dated 1883.

By virtue of the authority given by the Government of India under section 7 of Act XI of 1879, "The Public Works Loan Act," we, the Commissioners of the Municipality of Serampore, in consideration of the sum of Rs. 500 paid to us by of promise to repay in equal half-yearly instalments to the said or his heirs or assigns the said sum of Rs 500 after the date hereof, together with interest thereon at the rate of 4½ per cent. per annum payable half-yearly on the 1st April and 1st October.

Chairman.
(1334—6) Commissioners.

Notice.

This medicine is also sold by the principal European and Native druggists in Calcutta. Postage eight annas per 4 and 8 oz. tins, and twelve annas per pound tin, in addition to the foregoing rates.

Tenders for Labour, Northern Bengal State Railway.

TENDERS are invited for loading and unloading at Para Ghat from railway wagons to flats, steamers, or boats, and *vice versa*, all goods specified in the Northern Bengal State Railway Goods Classification, and also parcels and luggage booked through between the Northern Bengal State Railway and Eastern Bengal Railway.

For purposes of this contract all through goods are divided as under, and rates should be quoted for each description—

(1) All through goods, excepting those specified below.

(2) Hides and skins, loose or in bundles.

(3) Railway material and machinery for the public or the railway, when any single article or package exceeds five maunds in weight.

(4) Heavy packages, weighing one ton and over.

(5) Heavy packages, weighing one ton and over, when crane power is supplied by the Railway.

(6) Carriages of all descriptions, per wheel.

(7) Coal for railway purposes from flats or boats, or stacked on shore, into wagons, steamers or bunkers at option of the Railway.

(8) Luggage and parcels booked by passenger trains to be loaded within the time allowed in the Railway Time Bill. The coolies for this work must be registered and dressed in such uniform as may be required by the authorities of the Northern Bengal State Railway at contractor's expense.

The goods to be loaded into vessels from wagons at the rate of 500 maunds per hour per each stage supplied, and from vessels into wagons at the rate of 400 maunds per hour per each stage supplied.

An agreement and bond on the prescribed form must be signed by the person whose tender is accepted one week after its acceptance, and for the due performance of the contract a sum of Rs. 2,000 in cash or Government securities, endorsed to the Manager, must be deposited; a sum of Rs. 500 to be forwarded with tender as earnest money, which sum will be returned to unsuccessful tenderer and forfeited absolutely by the person whose tender is accepted should he fail to deposit the full amount of the security mentioned above one week after its acceptance.

The Manager does not bind himself to accept the lowest or any tender.

Further particulars may be obtained by application to the undersigned.

Tenders will be received up to 4th August.

By order,
G. S. LEONARD, Traffic Superintendent.

Traffic Superintendent's Office, Saidpur, 20th July 1883.

Notice.

GOVERNMENT ESTATE SAHEBAN BAGICHA.

NOTICE is hereby given that the system of sub-division of holdings prevailing in the Punchanogram and Baranagore estates has been extended to Saheban Bagicha No sub-division shall, however, be allowed unless the tenant of each holding, having an area of 5 cottas or less on sub-division, reduces the rent at 30 years' purchase.

C. C. STEVENS, Collector.

24-Pergunnahs Collectorate, Alipore, the 30th July 1883.

In the Court of the First Subordinate Judge of 24-Pergunnahs.

EXECUTION CASE No. 39 OF 1883.

Doorgamoni Debi, decree-holder, *versus* Myabati Debi, judgment-debtor.

RIGHT, title, and interest of the judgment-debtor in the zemindaries and potutabady mourasi ijarahs, &c., described below, will be sold on the 8th August 1883, in the Court of the District Judge of 24-Pergunnahs, for realization of Rs. 7,921-14-3.

RESOLUTION ON THE REPORT OF THE PORT OFFICER, CALCUTTA, FOR THE YEAR 1882-83.

GENERAL DEPARTMENT—MARINE.

Calcutta, the 7th August 1883.

RESOLUTION.

READ—

The Annual Report of the Port Officer, Calcutta, for 1882-83.

THE report is submitted by Lieutenant Brebner, who assumed charge of the department at the close of the year, on the departure of Lieutenant Stiffe on furlough. Mr. Yates, Deputy Conservator of the Port, officiated as Port Officer for three months of the year.

2. The total strength of the Pilot Service at the end of the year, inclusive of 27 leadsmen apprentices, four of whom arrived during the year, was 89. Two casualties occurred among the pilots during the year; but as three leadsmen apprentices passed the pilot's examination the number of qualified pilots was raised from 61 to 62. It was proposed by the Port Officer that the rules for the promotion of leadsmen apprentices should be so relaxed as to admit of first-mate leadsmen appearing at the pilot's examination after holding their first mate's certificates for one year, without their having actually served in that capacity on board the pilot brigs; but the Lieutenant-Governor was unable to sanction the proposal. No public inconvenience was shown to have as yet arisen from the strict enforcement of the rule requiring leadsmen apprentices to do duty as first mates on board the pilot brigs

for at least one year before their admission to the rank of pilots; and it was, therefore, deemed inexpedient to remit any portion of the training on board the brigs which has hitherto been insisted on. The system of obtaining the leadsmen apprentices from the training ships at home continues to work well; but the Port Officer rightly draws attention to the necessity for a very stringent medical examination of the candidates in England and for carefully testing their powers of vision.

3. The number of arrivals during the year was 1,157 vessels, with a gross tonnage of 1,982,187 tons, and of departures 1,141 vessels, with a gross tonnage of 1,979,107 tons, showing an increase of 160 vessels and of 379,205 tons, inwards and outwards, over the previous year. The year under review therefore shews the largest number of ships that has ever been recorded for any year, except 1877-78, when the Madras famine caused an unusual development of the export trade in grain. Of the total number of arrivals and departures (2,292), 1,238 were steamers and 1,054 sailing ships, and of the latter 1,006, or 95·4, made use of tugs in proceeding up and down the river under pilotage charge. There was a further increase in the number of vessels of heavy draught, which has risen so greatly in recent years, as shown by the following statement of vessels which drew 21 feet and upwards on their way up and down the river:—

	Above 21 to 22 feet.		22 to 23 feet.		23 to 24 feet.		24 to 25 feet.		25 to 26 feet.		26 to 27 feet.		Total 1882-83.		Total 1881-82.	
	In.	Out.	In.	Out.	In.	Out.	In.	Out.	In.	Out.	In.	Out.	In.	Out.	In.	Out.
Steamers	33	84	34	105	14	89	5	43	1	3	...	2	86	326	63	306
Sailing vessels	64	134	29	60	4	19	1	...	...	...	...	...	98	213	89	184
Total ...	98	218	63	165	18	108	6	43	1	3	...	2	184	538	152	490

The increase not only in the number but also in the draught of vessels has obviously added to the difficulty of pilotage in the Hooghly, as well as increased the work of the Pilot Service; and the Lieutenant-Governor is, therefore, glad to learn that the conduct of the Service generally continued very satisfactory during the year.

4. The earnings of the pilots have necessarily grown with the increase in the shipping of the port. During the year the Branch Pilots piloted on an average 5·23 vessels a month, the masters 4, and the mates 3, these averages being such as to afford ample remuneration to each grade, and to leave no room whatever for complaint. Forty-three vessels were also placed in charge of leadsmen apprentices, in the temporary absence of pilots in each case. While, however, the earnings of the Pilot Service have been larger, the mercantile community has also benefited considerably from the reduction of pilotage by 15 per cent. carried out on the 1st August 1881. The amount thus remitted in the past year was Rs. 1,53,878.

5. The year was unfortunately marked by a large increase in the number of casualties to vessels in charge of pilots, 51 cases of grounding and 25 collisions having occurred against 33 cases of grounding and 12 collisions in the previous year. The groundings resulted, in one case, in the total loss of the vessel, and in another in considerable damage; but in most of the remaining cases no damage was done. In five cases the pilot was warned, and in one case he was placed on half-earnings for three months. Of the collisions eighteen were either unimportant or accidental, and of the remaining seven cases one was due to the mismanagement of the pilot, three to country boats, and one to the unskilfulness of the steam-tug pilot. Seven were attended with no damage, thirteen with damage, and one with serious damage. In one case an inland steamer, in another a steam-tug, and in two cases boats were sunk. The total casualties of the year gave a percentage of 3·31 on the number of ships, as compared with 2·106 in the previous year.

6. Two Marine Courts and seven departmental enquiries were held during the year to investigate the conduct of pilots in connection with casualties which had occurred to vessels in their charge. In one case, already referred to, the pilot was severely censured and reduced to half-earnings for three months for grounding his ship on the edge of the Gasper Sands, and in another

a steam-tug pilot was suspended for 12 months for unskilfulness in causing a collision between the vessel in tow of his steamer and another vessel riding at anchor in Diamond Harbour. The other cases resulted in the acquittal of the pilots. Besides these enquiries into the conduct of pilots, five Special Courts were convened under Act IV of 1875, to enquire into casualties to ships, and two investigations were held to ascertain the cause of the loss of the inland steamers *Oude* and *Goalpara*, in Garden Reach and the Sunderbuns respectively. The most important of the cases which came before the Special Courts were the wreck of the barque *Mohusser*, on Saugor Sand on the 1st May 1882, with the loss of 36 lives, including 25 native passengers, and the stranding and abandonment of the barque *Aberdeenshire*, on Subtermookee shoal, in the Sunderbuns, on the 6th October 1882. The Court, in the former case, blamed both the master and the pilot; but the latter on being subsequently tried under Act XII of 1859, was acquitted. In the case of the *Aberdeenshire* the loss of the vessel was proved to have been caused by the unskilfulness of the commander; and it is to be regretted that he was not placed on his trial by the Court. The inland steamer *Oude* was sunk in consequence of collisions with two vessels in Garden Reach; and the inland steamer *Goalpara* by grounding on a mud lump at the junction of two rivers in the Sunderbuns. In both cases the masters were exonerated from blame.

7. The S. S. *Undaunted*, besides making the usual trips to the pilot and light-vessels at the Sandheads and visiting the Mutlah and the Orissa ports, was used during the year to tow a hulk laden with mooring tackle and an anchor boat to Chittagong, and to lay a whistling buoy on the South Patch Shoal lying beyond that port. One of the pilot brigs having been condemned, only two were available for service at the Sandheads during the year. The Lieutenant-Governor regrets the inconvenience which was, in consequence, occasionally caused to the shipping. A new brig is expected to reach the Port from home shortly.

8. Ninety-one candidates appeared for examination for colonial and local certificates of competency of the various grades, of whom 65 passed. The colonial certificates granted comprised 6 master's, 11 first mate's, 2 second mate's, 2 first class engineer's, and 6 second class engineer's; and the local certificates, one master's, 1 first mate's, 4 second mate's, 2 first class engineer's, 4 second class engineers's, 23 engine-drivers', and 1 first class engineer's, and 2 second class engineer's, for inland service. There were seven candidates for certificates as commanders of inland vessels, of whom six were successful. Five vessels were registered under the Merchant Shipping Act of 1854; and the registry of 16 was cancelled. One vessel only was registered under the Indian Act, X of 1841. A and B certificates, under the Native Passengers Act, VIII of 1876, were issued by the Port-Officer during the year; while the surveys were carried out by the Port Commissioners' Engineer-Surveyor. This arrangement appears open to improvement, and the Lieutenant-Governor is now considering whether it would not be more convenient to place the granting of the certificates, as well as the surveys, in the hands of the Port Commissioners. The matter will be separately dealt with.

9. Lieutenant Stiffe's management of his department during the year was entirely satisfactory.

By order of the Lieutenant-Governor of Bengal,

A. P. MACDONNELL,

Offg. Secretary to the Govt. of Bengal.

RESOLUTION ON THE REPORT ON THE CALCUTTA MEDICAL INSTITUTIONS FOR 1883.

MUNICIPAL DEPARTMENT—MEDICAL.

Calcutta, the 2nd August 1883.

RESOLUTION.

READ—

The Report on the Calcutta Medical Institutions for 1882.

Read also—

The Report for 1881, and the Resolution recorded upon it.

The year 1882 was marked by a large increase of cholera in the town of Calcutta. The previous year had shewn a considerably larger number of deaths than 1880, and this increase was more than maintained during the year under review. The following statement shews the mortality from the most important diseases in each year since 1873 :—

YEARS.	Cholera.	Diarrhœa and dysentery.	Fevers.	Small-pox.	Other causes.	Total.	Ratio per 1,000 of population, census 1881.
1873	1,105	1,551	4,634	33	3,225	10,356	23·8
1874	1,365	1,358	4,461	120	4,343	11,527	26·6
1875	1,674	1,579	5,328	720	4,785	14,086	32·5
1876	1,851	1,864	4,361	71	4,817	12,964	29·9
1877	1,418	1,983	5,151	67	5,385	13,704	31·6
1878	1,338	2,010	6,086	1,495	6,467	16,396	37·8
1879	1,196	1,816	4,796	773	4,774	13,044	30·1
1880	805	1,267	3,797	114	5,698	11,681	25·9
1881	1,693	1,491	3,765	133	5,948	13,030	30
Mean number ...	1,341	1,648	4,727	354	4,742	12,714	29·3
1882	2,240	1,454	3,618	17	5,848	13,177	30·4
1883, first quarter	560	487	921	38	1,428	3,434	31·7
1873-82, first quarter	440	430	1,107	146	1,206	3,330	30·8

The figures for cholera shew that the mortality from this cause steadily increased from 1873, the first year of the series, to 1876. From that year the wave of disease began to recede, and the number of deaths continued to fall till it reached a minimum of 805 in 1880. During 1881 there was a large and sudden rise to 1,693, and this number has further increased during 1882 to 2,240, which is considerably the highest recorded during the past decade. There was, on the other hand, a remarkable decrease in the number of deaths from small-pox, and a slight, though sensible, diminution of fevers, diarrhœa, and dysentery. The total death-rate of the town from all causes was 30·4 per mille against 30 in 1881 and 29·3, the average of the previous 10 years. After allowance made for the inevitable disturbing elements, these figures are reflected with tolerable accuracy in the hospital returns. The following statement shews the number of deaths from the principal diseases in each of the Calcutta hospitals during the year, together with the number of cases treated :—

	Cholera.		Diarrhœa and dysentery.		Fevers.		Small-pox.		Other causes.		Total.	
	Cases.	Died.	Cases.	Died.	Cases.	Died.	Cases.	Died.	Cases.	Died.	Cases.	Died.
Medical College Hospital ...	122	77	330	63	541	41	... ...	.....	3,894	420	4,947	601
General ditto ...	62	34	575	19	459	14	.....	.....	2,119	81	3,295	148
Mayo ditto ...	279	143	238	28	377	43	.....	.....	1,231	152	2,125	369
Campbell ditto ...	186	134	1,141	386	1,231	239	25	3	3,036	444	5,619	1,405
Police ditto ...	18	7	460	7	1,099	5	5	.....	948	14	2,438	33
Howrah ditto ...	132	73	379	158	299	25	.....	.....	804	64	1,604	320
Total ...	859	468	2,923	864	4,156	366	28	3	12,113	1,175	20,078	2,876

The number of cholera cases treated during the year rose from 589, with 304 deaths in 1881, to 859 cases, with 468 deaths during the year under review, the death-rate per mille rising at the same time from 516 to 544. The fluctuations in the mortality from fever in the town and in the hospitals were slight. The record of the town is, for reasons that have been stated on previous

occasions, fallacious, and no comparison can be instituted. Generally described, the year was unhealthy, and the mortality from all causes was above the average.

2. The following table shews the number of patients treated in each of the Calcutta hospitals during the year:—

Medical Institutions.	1882.				1881.			
	Total treated.			Died per mille of treated.	Total treated.			Died per mille of treated.
	In-door.	Out-door.	Total.		In door.	Out-door.	Total.	
Medical College Hospital	5,448	39,329	44,777	121·5	5,331	59,065	64,466	129·89
General Hospital	3,295	.....	3,295	44·91	2,863	.....	2,863	47·85
Mayo Hospital and Dispensaries ...	2,125	1,82,163	1,84,288	173·04	2,125	1,83,354	1,85,479	153·87
Campbell Hospital	5,669	.....	5,669	247·83	6,074	.....	6,074	257·6
Municipal Police Hospital	2,438	.....	2,438	13·53	2,681	.....	2,681	13·06
Total Calcutta Hospitals ...	18,975	2,21,492	2,40,467	138·89*	19,124	2,42,419	2,61,543	138·31
Howrah General Hospital	1,604	11,012	12,616	199·5	1,640	12,511	14,151	193·07
Grand Total ...	20,579	2,32,504	2,53,083	143·75	20,764	2,54,930	2,75,714	142·68

* Reckoned on the cases treated, exclusive of those of the Eye Infirmary.

For the second year in succession there was a falling off in the number of in-patients, the number being 20,579 against 20,764 in 1881, and 21,548 in 1880. The decrease was confined to the Campbell, Police, and Howrah hospitals, in the first-named of which it was most considerable. This is the more remarkable, because in the previous year a large part of the building was for some months closed for repairs, and the accommodation was thus much reduced. The Superintendent and the Surgeon-General ascribe the reduction in the number of admissions to a diminution in the prevalence of fever and dysentery, and an increase in severity among such cases as did occur. No figures are given of the average detention in hospital of patients suffering from these diseases, but a decided increase is observable in the fatality from the first-named. In 1881 there were in the Campbell Hospital 1,548 cases of fever with 250 deaths, giving a death-rate per mille of 168·5. In 1882 there were 1,281 cases with 239 deaths, and the death-rate rose to 186·5. There was no sensible change in the fatality from diarrhœa and dysentery combined, the rates per thousand in the two years being 512·9 and 512·8 respectively. The Surgeon-General remarks that in this hospital, of late years, mean daily numbers have borne a larger proportion than they formerly bore to numbers admitted, and that this circumstance points in the same direction. The Lieutenant-Governor observes, however, that this proportion was less in the past year than in 1881, the figures being 1 : 15·2 and 1 : 17·3 respectively. There is scarcely sufficient evid[illegible] following as far as appears from the report, to shew that the decrease in the [illegible]eated at each [illegible]tted during 1882 is attributable to greater severity of disease. The falling off is not very considerable in itself.

3. There was a large decrease in the number of out-door patients treated in 1882, the numbers falling from 2,54,950 to 2,32,504, or by 22,446. The decrease was most considerable at the Medical College Hospital, where it amounted to 19,756. It appears, however, that this fall is for the most part only apparent. "An erroneous method of entering cases as new, which were not new, was corrected in 1881. The correction reduced the figure of 1882 by upwards of 15,000. Further, up to September 1881 there had been an objectionable practice of treating in private rooms as out-patients persons who had no right to hospital treatment. This was stopped, but not until it had added 4,198 cases to the records of 1881." It is stated that the total number of new cases, properly so considered, amongst the out-patients of 1882, was 31,537. The following table shews the daily average number of patients under treatment in 1882:—

	1881.		1882.	
	In-door.	Out-door.	In-door.	Out-door.
Medical College ...	276·7	385·4	282·3	295·4
General Hospital ...	136·4	.....	151·0	.....
Mayo Hospital ...	97·3	1,349·4	82·7	1,214·7
Campbell Hospital ...	372·3	.....	350·6	.....
Police Hospital ...	98·7	.....	83·3	.....
Howrah General Hospital ...	63·2	110·4	65·7	96·2

The three hospitals which treat out-door patients—the Medical College, Mayo, and Howrah Hospitals—all shew a decrease in the average daily attendance, which indicates sickness of less severity among out-patients generally during 1882. This is somewhat remarkable, as being at variance with the mortality record of the in-patients treated at the hospitals, and also with the death returns of the town at large.

4. The following statement shews the mortality in each of the Calcutta hospitals during the last eight years :—

Years.	All diseases except cases treated in Eye Infirmary.			Cholera.			Death-rate, excluding cholera.	Number of deaths registered by the municipality.	Rate per mille of population.
	Treated.	Died.	Died per mille.	Treated.	Died.	Died per mille.			
1875	22,042	3,641	165	728	371	509	153	14,046	32·7
1876	21,087	3,054	145	695	369	530	132	12,964	30·1
1877	23,477	3,172	132	545	284	521	123	13,704	31·9
1878	27,908	4,518	161	579	323	557	153	16,396	38·1
1879	22,197	3,602	162	634	351	553	150	13,044	30·3
1880	21,032	2,900	138	356	183	514	131	11,681	27·1
1881	20,156	2,876	142	589	304	516	131	13,030	30·0
1882	20,078	2,836	143	859	466	544	125	13,177	30·4

The death-rate, excluding cholera, was remarkably low, being only 125 per 1,000, against 131 in each of the two previous years. Even if deaths from cholera are included, the rate was only ·1 per cent. higher than that of 1881. As already pointed out, the death-rate of the town, as distinguished from that of the hospitals, was high, though the rate of increase above the figure of 1881 was less. The following table shews the true death-rate among natives, when deaths from cholera and moribund cases are excluded :—

	Campbell Hospital.	Medical College Hospital.	Howrah Hospital.	Mayo Hospital.	Police Hospital.	Total.
True native deaths, excluding cholera	1,269	409	227	226	26	2,151
Moribund persons	191	120	54	38	3	406
Difference ...	1,078	289	173	188	23	1,751
True death-rate per mille, excluding cholera and moribunds	204·32	120·87	225·3	103·98	9·81	138·26

This shews that, except in the Mayo Hospital, where there seems to have been a considerable and unexplained accession of fatal disease, the true death-rate was in every case slightly below that of the previous year.

5. The Surgeon-General makes the following remarks regarding the prevalence of particular diseases during the year :—

The town was exceptionally free from small-pox in 1882, only 17 deaths appearing on the municipal register. As 28 cases were treated in hospital with only three deaths, the disease must have been mild as well as scarce. If it were fatal in the same ratio in town, the recorded deaths would represent 158 cases, shewing that less than one-fifth of the cases appeared in hospital. The proportion was probably larger than this, as it may be presumed that fatality was greater outside the hospitals. The quantity of fever treated in hospital was less by 693 cases than in 1881. In all the hospitals, except the Police, fever was much more fatal in 1882 among natives than in the previous year, and less so among Europeans in all but Howrah. Cholera increased, and its death-rate was higher than in 1881. There were 589 cases treated in 1881 and 859 in 1882. Dysentery fell both in quantity and severity. Diarrhœa shewed an increase in quantity and in fatality. The distribution of these affections in the several hospitals shews that the figures largely represent final stages of general exhaustion rather than distinct diseases.

6. In the Report for last year, and the Resolution recorded upon it, the Listerian method of treatment, and the alleged prevalence of hospitalism in the Medical College Hopital, were treated at some length. It was then stated that "the evidence hitherto available affords no means of determining how far the successful results obtained in the different hospitals are attributable to the strict observance of Lister's system, how far to the use of simple antiseptics and to the general improvement in cleanliness and care which has resulted since attention was directed to the subject, and how far to independent circumstances." So far as the abstract value of Listerism is concerned, there is nothing of importance to add to the above. The Surgeon-General is, however,

of opinion that the events of the past year have finally set at rest the controversy as to the fitness of the Medical College Hospital for the treatment of surgical disease. The surgeons of both wards continued to use the systems employed by them in the previous year. Dr. MacLeod, in the first ward, carried out the Listerian method in its entirety; while Dr. Raye confined this method to severe cases, using less elaborate dressings in his less important cases

7. In the two wards together, there were, apart from ophthalmic cases, 279 important surgical operations, which were followed by death in 29 instances. In 1881 there had been 252 operations with 54 deaths. There was thus a very marked improvement in the degree of mortality after operative surgery in all cases taken together, and this is stated to have been accompanied by increased strictness in the application of antiseptic dressings. On the other hand, it does not appear that there was any improvement on the results of the previous year in cases of exceptional severity which were employed as "tests." In 1882 there were 16 operations for excision of bones and joints, with 3 deaths. In 1881 there had been 11 such operations with one death. In 1882 there were 24 major amputations with 8 deaths. In 1881 there had been 17 with 6 deaths. The Surgeon-General points out that in both years Listerism was most strictly used in this class of cases, and that the fluctuations are probably due to other causes. At the same time a greater degree of strictness in the application of antiseptic treatment (as distinguished from strict Listerism) in ordinary cases has been followed by a large reduction of mortality. A comparison of the relative results obtained during 1881 and 1882, respectively, in the General, Mayo, Campbell, and Howrah Hospitals, where no change of system was introduced, shews some improvement in the first and last named, and some slight retrogression in the other two. The Surgeon-General sums up the discussion with the following remarks, in which the Lieutenant-Governor generally concurs:—"It must be admitted, I think, that the year was, from some unknown cause, favourable to surgical work; but it cannot be said that the other hospitals have given evidence which refutes the opinion of the College Surgeons on the greatly reduced mortality after operation in their wards. If, on the other hand, this opinion be adopted, it will not explain increased fatality in test cases in 1882, nor the fact that, in these cases, results as good, if not better, are obtained elsewhere with less elaborate and costly appliances. The antiseptic method is apparently the best that has yet been invented, but the measure of its superiority has yet to be taken, and the advantage of strict Listerism seems doubtful in hospital practice; while, as a system to be taught exclusively to pupils, it is not desirable."

8. The following table shews the number of cases of enteric and remittent fever treated at each of the hospitals during the year:—

	Enteric fever.										Remittent fever.									
	1873.	1874.	1875.	1876.	1877.	1878.	1879.	1880.	1881.	1882.	1873.	1874.	1875.	1876.	1877.	1878.	1879.	1880.	1881.	1882.
Medical College Hospital ...	9	5	6	6	1	...	2	..	...	..	86	58	125	93	124	142	164	180	196	180
Presidency General Hospital ..	6	11	12	17	18	9	11	6	11	12	22	10	48	27	39	38	34	40	38	40
Howrah Hospital	...	...	...	...	4	2	4	2	3	3	88	146	172	210	339	303	238	107	77	73
Mayo Hospital	3	1	5	6	...	...	...	...	1	...	13	22	33	36	174	224	130	208	221	143
Campbell Hospital	28	3	...	..	...	...	...	...	...	...	212	405	460	438	432	400	331	324	309	301
Police Hospital	8	11	...	14	11	2	1	...	...	..	...	..	1	..	...	11	29	23	53	41
Total ...	53	30	23	43	34	13	18	8	15	15	421	731	841	806	1,128	1,284	918	926	893	748

The 15 cases of typhoid all occurred among Europeans, and were confined to the General and Howrah Hospitals. The decrease of remittent fever was shared by all the institutions except the Presidency General Hospital.

9. In the Ophthalmic Hospital 501 in-door and 7,792 out-door patients were treated, against 608 and 6,606, respectively, in the previous year. The number of operations performed was 275 against 352. In 200 cases the patient was discharged cured, and in 28 relieved. Thirty-three cases remained under treatment at the end of the year.

10. The Eden Hospital for women was opened in July 1882, and the public took full advantage of the excellent accommodation it affords. The daily average of house-patients, which, during the first half of the year, when

the old obstetric ward was in use, had been 30·9, immediately rose to 43·3. The establishment of the new hospital was reorganized, and has now been placed on a satisfactory footing. Pupil nurses are still employed, but they are no longer relied on to do the main part of the work. For this a sufficient staff of trained nurses from the Canning Home has now been permanently entertained. The Surgeon General considers it satisfactory "that the Eden Hospital, with imperfect nursing and other disadvantages inseparable from a commencement, should have already given evidence of having met a public want." The total number of cases treated by the obstetric physician during the year was 1,323, of whom 802 were European and 521 native patients. The number of deaths was 75 against 76 in the previous year, out of a total of 1,008 patients.

11. In the Medical College Hospital the number of in-door patients treated was 4,947, exclusive of ophthalmic cases, against 4,773 in the previous year. The number of deaths was 611, or at the rate of 123 per 1,000, against 129 in 1881. This rate is the lowest on record since 1875, except that of 1877. Of the patients treated, 2,287 were Christians and 2,660 natives, the death-rates of the two races being 59 and 178 per 1,000 respectively. The death-rates from fevers of Christians and natives were 37·4 and 139·5 respectively; from dysentery and diarrhœa, 127·1 and 226·4; from cholera, 363·6 and 436·2; and from chest-affections, 55·1 and 314·6.

12. In the Presidency General Hospital the total number of patients treated rose from 2,863 in 1881 to 3,295. Of these, 1,735 were sailors, and, of the remainder, 444 were paying and 1,116 non-paying patients. The number of paying patients was considerably in excess of that of the previous year, when it had been only 239. The number of deaths was 148 against 137 in 1881, and the rate of mortality per 1,000 treated was 44 against 47, 32, and 45 in the three preceding years. There were 62 cases of cholera with 34 deaths, and 195 cases of dysentery with 8 deaths. Typhoid fever, remittent fever, and phthisis accounted for 6, 4, and 9 deaths respectively.

Quadrennial repairs were carried out during the year to the eastern building; but it is reported that the western block is generally in a bad state of repair, and that the floors in particular require renewing. On a recent personal inspection of the Hospital, the Lieutenant-Governor noticed the bad condition of the flooring. The attention of the Public Works Department will be drawn to this. Much, too, may be done for the improved appearance, if not for the sanitation of the place, by clearance of the trees and vegetation to the south of the spacious grounds in which the Hospital stands. The nursing arrangements are under the supervision of the Clewer Sisterhood, and are said to have been carried out with energy and efficiency. Not a single complaint was received during the year concerning the dieting of the patients, and Dr. Birch writes that, "comparing our diet-scale with that of London and Australian hospitals, I find no scale so liberal as ours." Since the close of the year a scheme has been submitted to Government for the supply of filtered water to the wards direct from the mains. The Lieutenant-Governor would be glad to see this carried out without delay, and a reference has been made to the Calcutta Corporation on the subject.

13. The number of admissions into the Campbell Hospital during 1882 was 5,290 against 5,675 in 1881, being a falling off of 385 patients. The Surgeon-General's explanation of this, which appears to be in some degree conjectural, has been alluded to in paragraph 2 above. The largest number of admissions was, as usual, on account of malarious fevers, being 1,247 against 1,491 in 1881. Next in order were dysentery, diarrhœa, ulcers, and splenic affections. Cholera cases rose from 78 in 1880 and 132 in 1881, to 186 in the year under review. Small-pox and phthisis, on the other hand, showed a large falling off. The total number of deaths was 1,405 against 1,442 in 1881, and the death-rate per mille was 247 against 237. The increase is said to be due to the larger number of cholera cases treated during the year, and of moribund persons admitted. The true death-rate of the hospital per 1,000, excluding cholera and moribund cases, was 204 against 206 and 204 in 1881 and 1880. Certain minor improvements were effected in the interior arrangements of the hospital, and others have been projected. The plans and estimates should be submitted to Government without delay for consideration in the Public Works Department.

14. The number of admissions into the Police Hospital indicates some improvement in the health of the force during the year. They amounted to 2,394 against 2,589 in 1881 and 2,625 in 1880, out of a total strength of 2,806. The daily average number of sick was 83 against 98 and 107 in the two previous years. Malarious fevers shewed a decrease from 1,061 to 860, and there was also a slight decrease under dysentery, diarrhœa, and remittent fever. There were three cases of modified small-pox, and 18 of cholera, of which 7 proved fatal. The total number of deaths was 33 against 35, 30, and 36 in the three preceding years, and the death-rate per mille was 13·4, as compared with 13·5 in 1881.

15. The aggregate numbers of patients treated in the Mayo Hospital and dispensaries were as follows:—

			1882.	1881.
In-patients	Total treated ...	...	2,125	2,125
	Daily average ...	...	82	97
Out-patients	Total treated ...	...	182,163	183,354
	Daily average	...	1,214	1,349

In-patients are treated only at the Mayo and Chandney Hospitals, where they numbered 1,885 and 240 respectively. In both cases there was a decrease in the daily average compared with the previous year, the numbers being 77 and 5·3 in 1882, against 91 and 5·8 in 1881. This falling off has not been explained. In the Mayo Hospital there were 133 deaths from cholera out of 261 persons treated, or at the rate of 50·9 per cent. In the previous year the corresponding figures had been 83, 160, and 51·8 respectively. In the Chandney Dispensary there were only 18 cases of cholera against 36 in 1882. These figures do not correspond with the known increased prevalence of cholera in the town and suburbs, which caused more admissions and mortality in all the Calcutta hospitals in 1882 than in the preceding year. The general rates of mortality in the two institutions were 18 5 and 8·3 per cent. respectively.

In the Mayo Hospital the number of out-patients fell from 48,059 in 1881 to 43,012 in the year under review, the average daily attendance being 310 against 386. The explanation offered by the Superintendent is that the system of giving more than one day's supply of medicines was more extensively carried out during the year. The Surgeon-General, however, correctly points out that this will not explain the decrease in total numbers, and that it does not go far towards explaining reduced average, as the average number of times that each patient attended was less by only a small fraction than the corresponding number of 1881. In the Chandney Dispensary the total number of out-patients rose from 68,592 to 70,525, but the daily average attendance is said to have been only 405 against 460. No explanation is offered of this discrepancy. Dr. Simpson makes the following remarks concerning the recorded figures of the practice of the Mayo Hospital and associated dispensaries:—

> The composition of these large figures shews that further enquiry is necessary before they can be accepted. The proportional numbers of the several kinds of cases entered are very unlike those which obtain elsewhere. The scarcity of cholera cases in the past year has been noted; of fever an enormous quantity is recorded, viz. 13,325 cases among out-patients; but of spleen diseases, allied to fever as its result, only 1,227 cases. At the Mayo Hospital the corresponding figures are 4,993 and 2,454, at Sookea's Street 3,057 and 1,479, at Chitpore 2,638 and 549, at the Medical College 6,065 and 1,187. In a total number of 70,525 patients, there are at the Chandney Hospital no less than 7,126 cases of "worms" returned, or 10·1 per cent. of the total. At the Mayo Hospital there were in all 43,012 out-patients with 404 cases of worms or 0·9 per cent. At Sookea's Street we have 15,688 patients with 571 cases of worms, at Chitpore 21,135 with 133, at the Medical College 31,537 with 361 cases, and at Howrah 11,012 cases include only 80 cases of worms. In the provincial dispensaries the proportion of cases of worms to total number was 2·8 per cent.

These facts are certainly remarkable, and appear to throw some doubt on the accuracy of the returns. The Surgeon-General's remarks will be brought to the notice of the Governors of the Mayo Hospital, who will be requested to institute an enquiry into the method of recording patients.

16. In the Howrah General Hospital the total number of patients treated was 12,616 against 14,151 in the previous year. Of these, 3,970 were Europeans and 8,646 natives. In-patients numbered 1,604, of whom 669

were Europeans and 935 natives. The out-door patients numbered 11,012, viz.—

	1882.	1881.
Europeans	3,301	3,761
Natives	7,711	8,750
Total ...	11,012	12,511

The large decrease in the number of native out-patients is attributed to the greater healthiness of the season; 351 European seamen were treated in hospital against 276 in 1881. There were 32 deaths among European and East-Indian patients, and 288 of natives, giving death-rates per mille of 47·83 and 305·02 respectively. The death-rates in 1881 were 44·77 and 293·81. There were 132 cases of cholera with 73 deaths, against 69 and 36 in the previous year. The mortality from fevers and dysentery was greater, and that from diarrhœa less than in 1881. It is stated that a very large proportion of deaths which occurred among native in-patients was due to the hopelessly advanced stage in which municipal paupers were sent to the hospital. This will be brought to the notice of the Municipal Commissioners of Howrah.

17. The invested capital of the Calcutta hospitals, which on the 31st December 1881 amounted to Rs 5,34,700, was increased by Rs. 9,000 during the year, of which Rs. 5,000 belongs to the Mayo and the balance to the Howrah Hospital. The total expenditure from all sources amounted to Rs. 3,69,304, not including investments, against Rs. 4,03,250 in 1881. There was a reduction under every head of expenditure except miscellaneous charges, which increased from Rs. 35,914 to Rs. 43,989. The chief reduction was under the head of buildings and repairs, the expenditure on which fell from Rs. 74,309 to Rs 43,174. This was principally due to the heavy expenditure incurred in 1881 on the renovation and repairs of the Campbell Hospital. The net cost to Government of all the hospitals was Rs. 2,32,224, against Rs. 2,68,388 in the previous year. The total income from local sources of all kinds was Rs. 1,49,655 against Rs. 1,39,739.

18. The income of the Medical College Hospital from local sources was Rs. 11,997, of which Rs. 8,846 represents receipts from paying patients. The corresponding receipts in 1881 were Rs. 4,351. The increase in receipts from this source is highly satisfactory, as indicating that the hospital is beginning to be accepted as supplying a long felt public want. The net cost to Government, after deduction of the amount remitted to the treasury, was Rs. 80,170 against Rs 83,714 in 1881. The total expenditure of the hospital rose slightly from Rs. 89,184 in 1881 to Rs. 89,631, the increase being under the heads of diet and establishment. There was a reduction in the cost of Europe medicines from Rs. 9,204 to Rs. 8,268, including both the College and the Associated Choonee Lal Seal's dispensary, and in bazar medicines from Rs. 1,227 to Rs. 816. This, however, is partly due to the fact that in 1881 expenditure which should have been charged to miscellaneous was debited against this head in the dispensary. The total cost of diet and stimulants was Rs. 26,293 against Rs. 25,787 in 1881, the increase being mainly due to the larger number of patients treated. The average cost of diets was 6 annas for Europeans and 2 annas 7 pies for natives, against 6 annas and 2 annas 6 pies respectively.

19. At the Presidency General Hospital the total receipts from all sources rose from Rs. 39,235 to Rs. 41,661. The amount received from paying patients was Rs. 13,089 against Rs. 7,914 in the previous year, being an increase of Rs. 5,175. This large and satisfactory increase is ascribed by the Superintendent to improvements in the comfort and accommodation of paying patients. The receipts from the Port Fund on account of sailors, however, shew a decrease of Rs. 2,787. The Superintendent has again represented that the fee charged for treatment of sailors is insufficient to cover the expenditure incurred in the hospital. The Lieutenant-Governor's orders on this question were notified in the Resolution recorded last year. No increase in the rate of fee can at present be sanctioned.

The total expenditure on the hospital was Rs. 1,00,900 against Rs. 1,05,894 in 1881. The outlay on the sick was Rs. 90,778. There was a reduction in the cost of establishment from Rs. 53,854 to Rs. 48,678, and an

increase under bazar medicines, diet, and miscellaneous. The cost of diet and stimulants rose from Rs. 24,163 to Rs. 26,423, the increase being due to the larger number of patients treated in 1882. The average cost of each diet was 7 annas 7 pies against 7 annas 9 pies in 1881. The expenditure on buildings amounted to Rs. 10,122, including a sum of Rs. 6,317 spent on quadrennial repairs to the hospital.

20. The total receipts of the Campbell Hospital amounted to Rs. 31,443, including the donation of Rs. 30,000 from the Calcutta Municipality. The total expenditure was Rs. 78,498, against Rs 1,02,773 in the previous year. In 1881, however, there was exceptionally heavy expenditure on buildings. The amount spent on the ordinary requirements of the hospital in 1882 was Rs. 58,404 against Rs. 53,299 in 1881. The cost of establishment was Rs. 24,697, shewing an increase of Rs 684, which is not fully explained. The outlay on diet and stimulants amounted to Rs. 17,530 against Rs. 20,281. This fall is due partly to the reduction in the number of patients treated, and partly to the greater cheapness of the year under review, the cost of each diet having been reduced from 2 annas 4 pies to 2 annas 2 pies. The expenditure under the head of "Miscellaneous" was Rs. 12,245 against Rs. 4,224. This large increase, amounting to Rs. 8,021, is not sufficiently explained.

21. The total expenditure at the Police Hospital was Rs. 16,124, being almost exactly the same as in the previous year. One-sixth of this amount was borne by Government, the remainder being contributed by the Calcutta and Suburban Municipalities. The cost of dieting fell from Rs. 5,435 in 1881 to Rs. 4,449 in the year under review, and the average cost of each diet was 2 annas 4 pies against 2 annas 6 pies. None of the other items of expenditure call for remark.

22. The invested funds of the Mayo Hospital were increased by Rs. 5,000 during the year. In the Resolution of last year, it was stated that, in view of the large sums invested from annual income, the question of revising the Government grants would be considered in the Financial Department. A report on this subject has since been received from the Governors of the Mayo Hospital, and is now under the consideration of Government. The matter will be separately dealt with. The total expenditure of the hospital and its associated dispensaries amounted to Rs. 58,281, including the outlay on buildings, against Rs. 59,413 in 1881. Of this amount Government contributed Rs 37,366, or 64 per cent. of the whole. The expenditure on establishment was Rs. 31,455, or Rs. 250 in excess of that of 1881. There was a small reduction under the heads of bazar medicines and diet, and a large one under that of Europe medicines and miscellaneous. The Lieutenant-Governor regrets that he is again compelled to notice the high cost of dieting patients in this hospital, which amounted to 3 annas 2 pies, the same as in 1881. Not only is this rate much higher than in any other of the Calcutta Hospitals, but it shews no reduction on the figure of the previous year, although prices were decidedly lower in 1882 than in 1881. Attention was drawn to this point in the Resolution recorded last year.

23. The income of the Howrah Hospital from private sources amounted to Rs. 22,885, of which Rs. 6,904 was paid by the Port Fund for diet of sick seamen, Rs. 2,400 contributed by the municipality, Rs. 1,446 represented interest on investments, and Rs. 12,129 payments by the East Indian Railway Company, British India Steam Navigation Company and others. It is not encouraging to notice that native subscriptions to this important charity amounted to Rs. 6 only. Government contributed Rs. 5,168 in cash, and part of the salary of the Assistant Surgeon. The total expenditure amounted to Rs. 23,634 against Rs. 28,032 in 1881. Deducting building charges, it appears that the actual amount spent on the sick was Rs. 22,723. The average cost of each diet among Europeans was 9 annas against 9 annas and 2 pies, and among natives it was 1 anna 10 pies against 1 anna and 7 pies in 1882. The percentage of total cost borne by Government was 21·8.

24. The Surgeon-General bears grateful testimony to the value of the reforms effected in the work of the nurses in the Medical College and General Hospitals by the ladies of the Clewer Sisterhood. Early in 1882, under arrangements made by the Committee of the Nurses' Institution, the control of the nursing arrangements passed into the hands of these ladies; and from the

date of their arrival, improvement has made rapid progress. Not only have the administrative arrangements of the hopitals benefitted by their trained skill and experience in the practical details of nursing, but the patients have testified in no uncertain manner to the advantages resulting from their constant presence and patient attention. The Lieutenant-Governor's cordial thanks are due to these ladies for the unflagging care and devotion which they have brought to the performance of their self-imposed task.

By order of the Lieutenant-Governor of Bengal,

COLMAN MACAULAY,

Secretary to the Government of Bengal.

AGRICULTURAL PRIZES.

The following despatch is published for general information.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

No. 45, dated India Office, London, the 28th June 1883.

From—The RIGHT HON'BLE THE EARL OF KIMBERLEY, Her Majesty's Secretary of State for India,

To—His Excellency the Most Hon'ble the Governor-General of India in Council.

REFERRING to the letter of your Excellency's Government, No. 14 of the 26th December 1881, I have to acquaint you that in the recent examination for the prizes and certificates offered by the Royal Agricultural Society, the highest honours were gained by Babu Grish Chandra Basu, who holds one of the Agricultural scholarships created by the Government of Bengal.

2. At a meeting of the Society lately held under the presidency of the Duke of Richmond and Gordon, it was announced that twenty gentlemen entered their names for the examination, six of whom obtained first class certificates and the life membership of the Society. Four of these gentlemen qualified for prizes, and the highest prize of £25 was awarded to Babu Grish Chandra Basu.

Rainfall, Weather, and State and Prospects of the Crops

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 4th August 1883.

No	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.			
	Western Districts.		
Burdwan Div. 1	Burdwan Aug 4 '83	6·63	Weather—cool, cloudy. Owing to heavy rainfall transplanting of paddy temporarily retarded, but the planted crop has received no injury.
	Culna ...	8·38	
	Cutwa ...	7·5	
	Raneegunge ...	5·5	
2	Bankoora, „ 4 „	4·50	Weather—rainy and cloudy. Transplanting of late rice continues to be attended to, but about to be brought to a close. Some more rain is wanted in the interior of the Bishenpore sub-division. Public health good.
	Bishenpore ...	2·64	
	Malsura ...	3·39	
	Khatra ..	4·80	
3	Beerbhoom, „ 4 „	10 62	Weather—cloudy. Heavy rain. Transplanting of *aman* crop far advanced. Partial damage from floods in some places. Prospects of crops otherwise good. General health of district satisfactory.
	Rampore Haut ..	5·85	
4	Midnapore, „ 4 „	6·99	Weather—cloudy and rainy. Excessive rainfall impeding agricultural operations. Public health fair.
5	Hooghly, „ 4 „	6·25	Weather—hot and rainy. Prospects of crops good. Public health good.
	Howrah „ 6 „	6 56	Weather—cloudy; heavy rain at times; perfectly fair at others. Transplanting of rice in progress. Heavy rain is said to have submerged the *aman* in some lands in thana Bagnan. *Aus* crop, sugarcane, and jute looking well.
	Oolooberia ...	8·07	
	Central Districts.		
Presidency Div. 6	24-Pergunnahs, „ 6 '83	5·04	Weather—seasonable. Prospects of early crops good. Transplanting of *aman* is going on briskly all over the district Public health good.
7	Nuddea, „ 4 „	2·60	Weather—rainy, cloudy, and cool. Prospects of standing crops fair. Manufacture of indigo continues. Fever much the same as before.
	Kooshtea ...	1·12	
	Meherpore ...	0 73	
	Choondanga ...	2 07	
	Ranaghat ..	6·78	
8	Khoolna, „ 4 „	3·08	Frequent rain. Prospects favourable. Transplanting of rice still going on. Public health good.
9	Jessore, „ 4 „	3·07	Weather—hot and rainy. Harvesting of *aus* crop has commenced. Prospects fair. *Aman* is also doing well. General health good except in Bongong sub-division, where fever is reported to prevail in some places.
	Jhenida ...	1·21	
	Magura ...	4 66	
	Narail ..	4·94	
	Bongong ..	5·35	
10	Moorshedabad, „ 4 „	2 14	Weather—hot and cloudy with occasional showers. Transplanting operations are still in progress. *Aus* and other crops are doing well, Public health generally good.
Rajshahye and Cooch Behar Divs. 11	Dinajpore ...	.....	Report not received.
12	Rajshahye, Aug 4 „	1·49	Moderate rain. Weather cloudier, and east and south-east wind steadier. Crop doing well on the whole; but more rain is wanted soon for the *aman*, or the crop will be a short one.
	Nattore ..	1·95	
	Nowgong ...	1·08	
13	Rungpore „ 4 „	1·06	Weather—hot and cloudy with occasional slight fall of rain accompanied by east wind. Harvesting of *aus* and transplanting of *aman* going on. Prospects of other crops good. Cholera still prevalent in Kaligunge station.
	Nilphamari ..	3·19	
	Kurigram ...	1 25	
	Gaibanda ...	2·69	
14	Bogra „ 4 „	2 17	Moderate rain daily except on 29th, so that the weather has been comparatively cool. Transplanting of *aman* crop going on well. Jute and *aus* are being cut. General health good.
15	Pabna, „ 4 „	0·56	Weather—cool with light showers. Crops progressing favourably. Rivers rising.
16	Darjeeling, „ 4 „	6 55	Weather—seasonable. Transplanting of native crops progressing favourably. Indian-corn and *koormi* outturn to date below last year's. Cholera abated a little. Four cases of small-pox reported from Nakessurbari.
17	Jalpigoree, „ 4 „	7·71	Weather—seasonable. *Bhadoi* paddy and jute backward. Public health still bad. Cholera still lingers. Mortality in jail has been very great this season.
	Cooch Behar ..	....	Report not received.
	Eastern Districts.		
Dacca Div. 18	Dacca Aug. 4 '83	4·70	Weather—seasonable. *Aus* paddy and jute are being cut. Sowing of *shail* and *roashia* paddy going on. Prospects of crops good. In Nawabgunge prospects of *aus* in the low lands not so favourable.
	Munickgunge ...	1·52	
	Munshigunge ...	5·37	
	Narringunge ...	6·00	
19	Furreedpore, „ 4 „	5·81	Weather—seasonable. State and prospects of winter rice and sugarcane very fair. *Aus* and jute being cut, with fair outturn. Public health fair.
	Goalundo ...	3 76	
	Madaripore ...	3·83	
20	Backergunge, „ 2 „	3·69	Weather—sultry, with occasional showers. A good outturn of *aus* crop is expected Cultivation of *aman* going on. Public health good. Cattle-disease still continues in some parts of the Patuakhali sub-division.
21	Mymensingh, „ 3 „	1·19	Weather—cloudy sky; daily showers. Air cooler than last week. Rivers have risen considerably. Prospects improved owing to rain which has facilitated transplanting. Harvesting of jute has begun Outturn of this, as also of *aus*, not expected to be large. Outturn of the *boro* crop was about 10 annas. General health fair.
	Jamalpore ...	0·53	
	Kishoregunge ...	3·65	
	Attea ...	1·16	
	Netrokona ...	2·72	

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL—*concld.*		
	Eastern Districts.—concld.		
22	Chittagong, Aug. 7 '83	8·04	Weather—seasonable. Prospects of crops fair. Transplanting of *amun* continues. Prices steady. Cholera and small-pox still reported.
23	Noakholly, „ 2 „	5·80	Weather—cloudy and rainy; it rains very frequently. Minimum temperature 79° and maximum 84°. *Aus* paddy is being reaped generally. Transplanting of *amun* paddy continues.
24	Tipperah, „ 2 „	6·84	Weather—seasonable. State and prospects of crops favourable. Public health generally good.
	Brahmunbaria ..	1·31	
	Chandpore ...	4·95	
25	Chittagong Hill Tracts. July 31 „	2·45	Continued drizzling rain throughout the week. *Jum* paddy doing well. Cotton crop will be very short Transplanting of *aus* paddy progressing. Sugarcane doing well.
	Hill Tipperah Aug. 1 „	1·14	Weather—last portion of the week rainy. More rain wanted. *Amun* paddy still being transplanted. *Satya* paddy, *til* and sugarcane doing well. Public health good.
	BEHAR.		
26	Patna, „ 4 „	3·06	Weather—hot Constant rain has affected the *bhadoi* crops to some extent. Rice seedlings have also suffered on this account. Cholera prevailing in Barh, Behar and Sudder.
	Barh ...	7·61	
	Behar ...	11·75	
27	Gya, „ 4 „	7·72	Weather—cool and cloudy with frequent showers. Transplanting of rice crop is being pushed forward. All crops on the ground are looking well. Cholera less prevalent, but cattle-pox reported from several villages.
28	Shahabad, „ 4 „	5·46	Weather—seasonable. Rainfall frequent and in plentiful torrents. Transplanting of rice commenced. Cholera in Bhabooah abating.
	Buxar ...	3·34	
	Sasseram ...	4·88	
	Bhabooah ..	4·81	
29	Durbhunga, „ 4 „	2·62	Weather—cloudy, showery and cool. All prospects good. Prices stationary. Health good.
30	Mozufferpore, „ 4 „	4·07	Weather—seasonable. Copious rainfall of the week has brought forward the *bhadoi* crop, and has facilitated transplanting of the *aghani* crop. Cholera cases are frequent in the interior of the district
	Hajeepore ...	6·01	
	Seetamurhee ...	3·70	
31	Sarun, „ 4 „	4·69	Weather—cloudy with frequent showers. Sufficient rain general throughout district. Prospects of *bhadoi* crops excellent. A spell of fair weather will do immense good. Transplanting of paddy in low lands going on. Manufacture of indigo in progress. A few cases of cholera and small-pox reported from Sewan and Gopalgunge sub-divisions, otherwise public health good.
	Sewan ...	3·24	
	Gopalgunge ...	7·87	
32	Chumparun ...	.....	Report not received,
33	Monghyr Aug. 4 '83	4·76	Weather—cool and rainy. Heavy rain reported to have done some injury to *bhadoi* crops, but it is favourable for the transplanting of rice. Public health generally good.
	Begusarai ...	4·35	
	Jamui ...	9·28	
34	Bhagulpore, „ 4 „	4·05	Weather—rainy throughout district. Prospects of autumn crops very good. Transplanting of *aghani* paddy going on.
35	Purneah, „ 4 „	2·33	Weather—normal. *Bhadoi* crops good. More rain wanted for transplanting rice.
	Kissengunge ...	3·33	
	Arrareah ...	1·60	
36	Maldah, „ 4 „	1·81	Weather—cloudy, with light showers of rain. Paddy and other standing crop are doing well. Common rice selling at from 16 to 18 seers per rupee. General health good.
37	Sonthal Pergha. „ 4 „	4·20	Weather—rainy The rain of the past week will suffice for almost all the transplanting that remains to be done. The Indian-corn may suffer a little, but the loss will be fully made up by the improved prospects of the rice harvest.
	Deoghur ...	6·37	
	Rajmehal ...	1·69	
	Jamtara ...	3·06	
	Pakour ...	2·45	
	Godda ...	4·1	
	ORISSA.		
38	Cuttack ...	.....	Report not received.
39	Pooree, „ 2 „	4·46	Weather—cloudy, with moderate rain. Transplanting and weeding going on. In some places *bidi* is in ear. Miscellaneous crops doing well. Prices of food-grains stationary. Public health good.
	Khoorda ...	2·25	
40	Balasore, „ 3 „	1·76	Weather—seasonable. Transplanting of paddy going on vigorously. Standing crops doing well. Public health good.
	CHOTA NAGPORE.		
	South-West Frontier Agency.		
41	Hazaribagh, Aug. 3 '83	4·96	Weather—cloudy and rainy. Sufficient rain throughout the district. Transplanting operations commenced. Prospects of crops favourable. General health good.
42	Lohardugga, „ 4 „	6·23	Weather—rainy. A break would do good to standing crops. Transplanting of paddy progressing actively. Cholera still prevalent in Palamow. Prices stiffer in Ranchi and Silli.
43	Singbhoom, „ 3 „	12·46	Very heavy rain during the week. All crops doing well. General health fairly good.
44	Manbhoom, „ 4 „	8·86	Weather—rainy and close. Prospects of all crops excellent. Public health generally good. Outbreak of small-pox at Topchanchi abating.
	Govindpore ...	3·51	

Published for general information.

CALCUTTA, STATISTICAL DEPT.,
The 7th August 1883.

COLMAN MACAULAY,
Secy. to the Govt. of Bengal.

The following Statement shows the Quantities of the Principal Staples of Traffic imported into Calcutta from the Interior during the month of May 1883.

period for the past 12 years. The variations are *negative* when the mean for the week is less than the corresponding normal mean and *positive* when greater by 10. The number denoting cloud amount represents the part of the sky covered, the whole sky being denoted by 10. Under the head "district observations" the "means for the district" are the numerical averages of the rainfall returns received from the meteorological stations for the period in question during the past 12 years. The day is one on which at least an hundredth of an inch fell.

Statement of Rainfall in Bengal for the week ending Friday (6 p.m.), the 3rd of August 1883.

Meteorological division.	District.	Station.	Rainfall. Saturday, 28th July.	Sunday, 29th July.	Monday, 30th July.	Tuesday, 31st July.	Wednesday, 1st August.	Thursday, 2nd August.	Friday, August.	Total. Number of rainy days.	Total. Rainfall of week.	Total rainfall from 1st July to 3rd August.	Average total rainfall from 1st July to 3rd August.	Total rainfall since 15th May.	Average rainfall from 15th May to date.

Explanation Indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If some of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank.

SUMMARY OF METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, 3RD AUGUST 1883.

THE principal points of interest in the meteorology of the past week have been the westerly advance of the slight barometric depression noticed in the summary for the previous week, and the formation of another barometric depression in Eastern Bengal, its subsequent advance in a north-westerly direction, and final disappearance. The formation of this first barometric depression was explained in the summary of July 27th, and its course was traced from the Sunderbuns, where it took its origin, into Midnapore and the adjacent districts, where it was on the morning of the 27th instant. During the following day the depression advanced into the southern districts of Chutia Nagpur, and on Sunday, the 29th instant, it apparently filled up and disappeared. This depression was of slight intensity only, but it brought general rain to the districts through which it passed, and its advance into the interior was of course accompanied by increased indraught of moist southerly winds into Bengal. The rainfall was not heavy on the 27th and 28th, but on the 29th, in the districts of Eastern Bengal, heavy rain commenced to fall; the heavy rain continued over this area on Monday, 30th instant, and the rainfall was accompanied by a gradually falling barometer, and thus the nucleus of a barometric depression was formed; a continuation of the same conditions on the 31st intensified the barometric depression, which was, however, never more than a shallow one, and had no very clearly defined centre of disturbance; the depression was on that date in the immediate neighbourhood of Dacca. It was now giving rise to moderately strong winds of convergence, with overcast skies and general rain, moderate to heavy in amount, over the whole province, the heaviest rainfalls being in Eastern Bengal and in South-West Bengal.

On Wednesday, 1st August, the depression commenced to move in a north-westerly direction, and on the Thursday had almost entirely passed away. The advance of this depression caused a further inrush of damp monsoon winds over the whole province, producing overcast skies and moderate to heavy rain, especially in the southern and south-eastern districts. The rainfall in the North Bengal divison was not so heavy as in others, and in the Rungpore district in particular, rainfall has been comparatively scanty. After the disappearance of the second depression, normal monsoon winds continued to blow on the 2nd and 3rd of August, but they were perceptibly becoming weaker, especially on Friday, the 3rd instant.

Pressure has been generally below the normal for the week; on the 28th instant it was below the average by small amounts, but it gradually recovered itself until the 30th instant, when it began to give way again. With the development of the second barometric depression pressure fell rapidly until it was 0·12″ below the normal at Dacca; the line of low pressure varied with the advance of the depression, and, as it filled up, pressure returned nearly to the normal state. On the whole, the barometric pressure has been below the average for the week, ranging from 0·059″ in defect at Gya to 0·011″ in defect at Saugor Island. Temperature commenced to rise somewhat at the commencement of the week, and was, especially in Behar, above the average, but with the heavy rainfall, it afterwards fell considerably below the normal; on the whole, the temperature has been rather lower than the average by amounts varying from 1° to 2°, except at Dacca and at Bankipore. Patna continued to register the highest maximum temperature steadily throughout the week. Winds have been slightly irregular during the week, due to the formation and advance of the two barometric depressions above referred to. Westerly winds have still been a prominent feature in Behar, and this is one of the more important abnormal features of the present monsoon. At the close of the week winds were almost normal.

Abstract of Meteorological Report for the week ending 3rd August 1883.

Meteorological District.	Temperature						Rainfall.								
	Highest observed during week.	Lowest observed during week.	Average for week.			Average mean of week above or below normal mean week.	Of week.			Rainy days.			Since 1st of month.		Since May 15th.	
			Of highest of each day.	Of lowest of each day.	Of mean for each day.		Average.	Normal average.	Variation.	Average number in week.	Normal average number.	Variation.	Average.	Normal average.	Average.	Normal average.

The rainfall of the past week has been considerably in excess of that of the week ending the 27th July; this excess has been most marked in Chutia Nagpur, North Behar and South-West Bengal. Over the whole Province the rainfall has been on the average up to the normal amount for the week, for while four of the meteorological divisions received amounts considerably in excess of the average, only three divisions received a slightly deficient rainfall.

In the Chutia Nagpur division the excess rainfall amounted to 50 per cent. of the normal, and the excess appeared to be general in most districts. In North Behar on the average the excess was nearly 60 per cent. of the normal, but it was decidedly unequally distributed, for the Purneah district received rather less rain than the average amount. South-West Bengal on the average received about 40 per cent. in excess of the normal, but in this division some of the stations in the Nuddea district are behind the average. In South Behar the excess rainfall averaged about 24 per cent. of the normal, but the excess was well distributed. Of the three divisions which received less than the normal rainfall, North Bengal showed a deficit of about 13 per cent, and this deficiency was specially marked in the Rungpore district, for the two stations, Rungpore and Kurigram, registered only about three-fourths of the normal amount, while the Pubna district also had a decidedly diminished rainfall. In East Bengal the deficiency amounted to about 12 per cent, but it was fairly equally distributed, while in Orissa the heaviest deficit of about 35 per cent. occurred. The above table, however, shows that in all divisions the number of rainy days during the week was fully up to the average, so that the deficiency of rain in these three divisions was probably due to the lightness of the rain showers themselves, and not to want of seasonable weather. The last two columns of the same table also show that the rainfall over the whole province, since the 15th of May, is fairly well up to date, for in only two divisions (the North and East Bengal is the amount of rain recorded at all below the average for this period.

Saturday, 28th July.—Pressure increased over the whole Province during the previous 24 hours. The increase was large in Bengal (more especially in South Bengal) and Orissa, and moderate in Chutia Nagpur and Behar. Pressure was still below the average by small amounts, ranging from ·02″ at Saugor Island to ·09″ at False Point. The slight depression which was on the 27th instant in the Midnapore and adjacent districts passed westward into the Central Provinces or the southerly districts of Chutia Nagpur. Temperature had changed very slightly. The mean temperature of the past 24 hours was 4° below the average in Orissa, 1° above it in East and South-West Bengal, 2½° above it in North Behar, and nearly 4° in excess at Patna. Winds were lighter again at the head of the Bay. They had shifted round with the westerly advance of the depression into east and south-east in Behar and Chutia Nagpur, excepting in Orissa, where winds were from the south-west. Winds were from directions between south and east throughout the Province. Humidity was again greater in East Bengal. It was lowest in North Bengal and Behar, where the rainfall was scanty. The cloud amount was less, more especially in South Behar, at several stations of which the sky was almost free from cloud. Light, but general rain fell over the greater part of the Province, except in Orissa and North Bengal, where it was somewhat irregularly distributed. The amounts in most cases did not exceed half an inch, though falls of over 2 inches occurred at Chupra, Gya, and Chyebassa. The divisions which received least rainfall were Orissa, North Bengal, and some parts of South-West Bengal.

Sunday, 29th July.—Pressure again increased over the whole Province, the increase being greatest in Orissa and in South-West Bengal. Pressure was slightly above the average of the day at several stations, but was still below it in South-West Bengal, Behar, and Chutia Nagpur. The baric gradients over the Bay were in consequence of these changes smaller than they had been for some days. Temperature had not altered much since the previous day. It was, however, slightly higher in Orissa and in Behar, where Patna to-day registered a maximum temperature of 94·4° Winds had altered little in direction, but were generally weaker, more especially at the head of the Bay and in South Bengal. They were drawing round again to south-west in South-West Bengal. Humidity had decreased in Orissa and at Saugor Island The sky was overcast, or thickly clouded in all parts of the Province except North Behar, the western districts of which, as represented by Motihari, were almost free from cloud. Rain was less general than on the previous day. In Orissa, in South-West Bengal, and North Behar local showers only were reported; in North Bengal, South Behar, and Chutia Nagpur rain was more general; and in East Bengal rain fell at almost every reporting station, and in many cases in considerable quantity. Chittagong reported 3·21 inches, Hazaribagh 3·4 inches and Jehanabad in the Gya district 4·99 inches.

Monday, 30th July.—Pressure decreased over the Province, except in Chutia Nagpur, South Behar, and locally at two or three stations in Bengal and Orissa. The changes were small and generally unimportant. Pressure was, however, relatively low in East Bengal and North Behar. It varied from the normal of the day by small amounts only. Temperature had increased and was above the normal, except at Chittagong and in Orissa. The mean temperature of the past 24 hours was from 1° to 3° above the average in Bengal, Behar, and Chutia Nagpur. Winds were slightly stronger again at the head of the Bay. There was a strong westerly element in the wind direction in South Behar, Chutia Nagpur, and

South-West Bengal. Winds were south-easterly to southerly in East Bengal, south-westerly in South-West Bengal, easterly in North Bengal and North Behar, and north-westerly to westerly in South Behar and Chutia Nagpur. This change accompanied a slight depression of the barometer in Bengal at Dacca. Humidity increased in East Bengal. The air was unusually dry in Orissa. The sky was clouded over in South-West and East Bengal, and also at several stations in South Behar and in Chutia Nagpur. The general and somewhat heavy rainfall which had commenced on the 29th in Eastern Bengal, to-day extended over the whole Province, except in Orissa and some parts of North Bengal. The rainfall was very heavy in Eastern Bengal, in the Darjeeling district and in the southern districts of South-West Bengal; Buxar reported 4·18 inches, and Siliguri 3·65 inches, while several stations received between two and three inches of rain.

Tuesday, 31st July.—Pressure decreased briskly over the Province. The fall of the barometer was greatest in East and North Bengal, and was least in Orissa, where pressure was still slightly above the average. It was again below the normal of the day by amounts ranging from ·01″ at Saugor Island to ·12″ at Dacca. Pressure was low over the greater part of Central Bengal, but was apparently lowest in the immediate neighbourhood of Dacca. Temperature again fell with the increased rainfall at most stations, but the mean temperature of the previous 24 hours was slightly above the average in Orissa and North Behar, and also at Patna. Winds were mainly determined by the barometric depression in East and Central Bengal. They were of moderate intensity at the head of the Bay, and were slightly stronger in South Bengal. They were south-westerly in North Orissa and South-West Bengal, south-easterly in East Bengal, easterly to north-easterly in North Behar, and westerly over the greater part of Behar. They thus gave cyclonic circulation of the air over the Province. The air was much damper in every part of the Province, and was almost saturated at the majority of the stations. The sky was overcast over the whole of the Province with the exception of a small part of Central Bengal represented by Rampore Beauleah. The heavy rainfall noticed in the report of the 30th instant continued over the Province. It was particularly heavy in Eastern and in South-West Bengal, in the latter district the average fall at each station was nearly two inches. Busseerhaut to-day reported the large amount of 5·68 inches, Satkhira (Khoolna district) 4·38 inches, and Moonshegunge and Naraingunge each 4·62 inches.

Wednesday, 1st August.—Pressure decreased in Orissa, South-West Bengal, and Chutia Nagpur, and increased over the rest of the Province. The changes were generally small, the largest occurring at Dacca and Chupra, where the barometer had risen rather rapidly. Pressure was lowest in Central Bengal as was indicated by the barometric readings at Calcutta, Burdwan, Rampore Beauleah, and Bhagulpore. There was, however, no definite centre of minimum pressure. Pressure was below the normal at all stations, except Cuttack, by amounts ranging from ·01″ at False Point to ·07″ at Burdwan. Temperature again decreased with the continued rainfall, and was below the average at all stations except Durbhanga. The mean temperature of the past 24 hours was 4½° in defect in Orissa, 3½° in Central Bengal, and from 1° to 5° over the greater part of Behar and Chutia Nagpur. Moderately strong monsoon winds charged with moisture were blowing across the Bengal coast. The winds in Bengal indicated general cyclonic circulation round the area of depression in Central Bengal. Winds were north-westerly in South Behar and Chutia Nagpur, westerly in Orissa, south-westerly in South-West Bengal, southerly to south-westerly in East Bengal, and easterly to north-easterly in North Bengal and North Behar. They were generally in excess of their normal strength. The air was very humid throughout the Province, and was almost saturated in South-West and East Bengal, Chutia Nagpur, and near the hills in North Bengal. The sky was overcast at the great majority of stations. The cloud amount was less in the central districts of North Bengal than elsewhere. Very general rain again fell over the whole Province. It was very heavy over the greater part of the area, and large amounts fell in Eastern and South-West Bengal, especially in the Midnapore, Beerbhoom and Nuddea districts. The largest amounts reported were Beerbhoom Soory 8·17 inches, Tumlook 5·5 inches, and Ranaghat 5·45 inches.

Thursday, 2nd August.—Pressure increased in Bengal and Orissa, but decreased in Behar and Chutia Nagpur. The rise of the barometer was moderately large in South Bengal. The fall was greatest at Hazaribagh, where the barometer was lowest. The depression of the past three days had again travelled westwards, and now apparently extended over the southern districts of Chutia Nagpur. Temperature was below the average at all stations except Patna. The mean temperature of the past 24 hours was 2° in defect in Orissa, 5° in Central Bengal, 2½° in East Bengal, 1° in North Behar, and 4° in Chutia Nagpur. Winds altered considerably over the western half of the Province in consequence of the westward movement of the large, but shallow, barometric depression. Southerly to south-westerly winds prevailed to-day in Orissa and South-West Bengal, south-easterly winds in East and North Bengal, and easterly winds in Behar and Chutia Nagpur. Winds were somewhat stronger at the head of the Bay, and the directions throughout the Province were such as usually prevail when the Bay of Bengal branch of the monsoon current is fully established over the whole Province. Humidity had increased in Orissa, and to a less extent over the remainder of the Province except Chutia Nagpur and the Darjeeling hills, where the air was almost saturated. Sky was much less clouded to-day, and was overcast at only a few of the reporting stations.

The heavy rainfall of the previous days began to diminish, and it became to-day less general, and smaller in quantity. The heaviest rainfall occurred in the South Behar division, where it was very general; the Shahabad and Gya districts in particular received an average from an inch to one and-a-half inches. Chutia Nagpur also received general rain, moderate to heavy in amount. In South-West and East Bengal rain was also general, though it did not average more than half an inch over the whole area, while in Northern Bengal the rainfall was less general, though heavy at two or three centres. In Orissa (with the exception of one station) the rainfall was scanty, but the North Behar division was almost rainless. The following were the heaviest amounts recorded:—Baloorghat, (Dinagepore district) 4·77 inches, Dehree 3·00 inches, Sasseram 2·08 inches, Darjeeling 2·11 inches, Palamow 2 32 inches, and Baripodah, in the Balasore district, 2·38 inches.

Friday, 3rd August.—Pressure increased slightly at all stations. The relative distribution of pressure was thus unaltered. The variations from the average pressure for the day were small and of little importance, except in South Behar and Chutia Nagpur, where pressure was deficient by amounts which averaged ·04″. Temperature increased during the previous 24 hours, and was generally slightly above the average, except in Central Bengal and at Gya, where it was 3° below it. Winds were similar to those of the 2nd instant, except that they were lighter and less steady. They were southerly to south-westerly in Orissa and South-West Bengal, south-easterly in East and North Bengal, and easterly to north-easterly in Behar. The air was drier in South Behar and was unusually dry in North Bengal, The sky became somewhat more clouded, especially in South Behar and Chutia Nagpur.

Rain was again less general and in smaller quantity than on the 2nd instant. The Eastern Bengal division was the only one in which the fall was general, though in all cases the amounts were small; in South-West Bengal and in North Behar the rainfall was somewhat less general, light local showers only being reported in most instances. In Northern Bengal there was light general rain except in the Rungpore and Cooch Behar districts, while in South Behar there was also light general rain, which did not, however, extend to the Patna, Monghyr and South Bhagulpore districts. In Orissa the returns which have been received show that the rainfall was confined to a few local showers, while in Chutia Nagpur rain fell at almost every station, the amounts, however, being in most cases somewhat small.

The only heavy falls reported to-day were Jehanabad, in the Hooghly district, 2·48 inches and Buxa 1·50 inches.

MEMORANDA.

THE subjoined table shows—

1. That during the week ending 21st July 1883, the mean birth and death-rates in the first class Municipalities in Bengal amounted to 18·3 and 28·4 per 1,000 of population, respectively, as opposed to 17·3 and 28·9 per 1,000, respectively, in the preceding week ending 14th July.

2. That the under-mentioned Municipalities registered the highest proportions of births and deaths :—

Births.	Ratio per mille.	*Deaths.*	Ratio per mille.
Gya	66·9	Gya	91·5
Bhagulpore	29 9	Poori	68 5
Burdwan	25·9	Ranaghat	53 9
Durbhanga	25·2	Mozufferpore	41 4
		Patna	36 7
		Burdwan	33 6
		Monghyr .. .	30·7
		Bhagulpore	27 1

3. That the mean mortality from the different causes, mentioned in the table, stood as follows :—

	Ratio per mille during the weeks ending—	
	21st July.	14th July.
Cholera	5·6	6·3
Small-pox	·3	·4
Fever	11·4	10·3
Bowel-complaints	4 3	4·4
Injury	·4	·7
Other causes	6·4	6 8

indicating that, in comparison with the preceding week, there was an abatement of mortality from cholera with a rise in fatality from fever, the death-rates from the other diseases exhibiting only fractional differences.

4. That while small-pox and fever prevailed with normal severity in all the Municipalities (excepting in Bhagulpore, where 2·7 per 1,000 of the population died from the former disease, and in Ranaghat, in Nuddea, where the mortality from the latter disease stood so high as 47 9 per 1,000), cholera and bowel-complaints proved conspicuously fatal in the following Municipalities :—

Cholera.	Ratio per mille	*Bowel-complaints.*	Ratio per mille.
Gya	51 2	Poori	12 8
Poori	47·1	Chuprah	10·7
Mozufferpore ..	13·4		
Monghyr	7·2		
Midnapore	6·2		

5. That eliminating Buddhists, of whom only one died in the Darjiling Municipality, the death-rates returned by the other *Classes* or *Nationalities* were 33 per 1,000 by Christians, 30 6 by Hindus, and 22·9 by Mahomedans.

6. That the mortality bearing reference to *Age* ranged as follows :—

Ages.	Ratio per mille.	*Ages.*	Ratio per mille.
Under 1 year ..	278·6	50 and under 60 years ..	18 9
1 and under 5 years ..	52·4	30 and under 40 „ ..	18·3
60 years and upwards ..	39·1	15 and under 20 „ ..	17 2
5 and under 10 years ..	24·1	40 and under 50 „ ..	16·1
20 and under 30 „	18·0	10 and under 15 „ ..	14·4

F. W. A. DEFABECK,

The 6th August 1883. *Officiating Sanitary Commissioner for Bengal.*

...ing the week ending 21st July 1883.

The mean presnre, temperature &c . are deducted from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers All the thermometers are varified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 86 formerly at the Surveyor-General's Office

The hpgrometic elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnnaults modifications of August's formula.

The direction of the movement of the wind are taken from the trace of a Beckley's anemograph.

Tha mouth of the rain-gauge is one foot above the ground.

o overcast, p passing temporary showers, t thunder, d drizzling rain, lr lightning reflection, ≤ lighting, g gloomy.

ALEXANDER PEDLER,
For Meteorological Reporter to the Government of India.

METEOROLOGICAL OFFICE, INDIA,
The 6th August 1883.

		°
The mean temperature of the seven days		81·7
The extreme variation of temperature during the seven days		14·8
The maximum temperature during the seven days		89·8
		%
The mean relative humidity during the seven days		88
		Inches
The total fall of rain from 29th July to 4th August 1883		5·60

The mean temperature and humidity are obtained by applying to the mean of the 10h, 16h, and minimum readings a correction dependent on the range, and derived from the hourly observations at the Surveyor-General's Office, Chowringhee, in past years.

Meteorological Office, India,
The 6th August 1883.

Alexander Pedler,
For Meteorological Reporter to the Govt. of India.

PUBLIC WORKS DEPARTMENT, IRRIGATION BRANCH, BENGAL.

Statements showing the total amount of traffic and tolls on the Circular and Eastern Canals and Nuddea Rivers for the month of April 1883.

(CIRCULAR CANAL.)

Saturday, September	1st	...	Remain at Dacca and visit Naraingunge.
Sunday	2nd	...	Leave Naraingunge, visit Chandpore, and arrive at Daoodkandy.
Monday	3rd	...	Remain at Comilla.
Tuesday	4th	...	
Friday	7th	...	Arrive at Sara.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

No. 2025A.

GENERAL.—*The 7th August* 1883.—Mr. C. N. Banerjee, Deputy Magistrate and Deputy Collector, Midnapore, is transferred to Howrah.

The 8th August 1883.—Mr. H. L. Dampier, C.I.E., Member of the Board of Revenue, reported his departure from India, on leave, on the 24th July 1883.

The 9th August 1883.—Mr. J. Ware Edgar, C.S.I., is appointed to act temporarily as Magistrate and Collector of Dacca, during the absence, on deputation, of Mr. E. V. Westmacott, or until further orders

The 10th August 1883.—The special leave, for six months, granted to Mr. T. E. Coxhead, Magistrate and Collector, Dinagepore, under the order of the 10th February 1883, has been commuted by the Right Hon'ble the Secretary of State for India into furlough for eight months and four days.

In modification of the order of the 23rd ultimo, published in the *Calcutta Gazette* of the 25th idem, Mr. C. S. Bayley, Officiating Under-Secretary to the Government of Bengal, is appointed to be a member of the Executive Committee of the Calcutta International Exhibition of 1883-84.

The 11th August 1883.—Moulvie Husmut Hossein, Temporary Sub-Deputy Collector, Sarun, was on leave from the 21st May to the 3rd June 1883, inclusive, under section 127, rule 1, chapter X of the Civil Leave Code.

The orders of the 7th instant, granting two months' privilege leave to Mr. F. E. Pargiter, Commissioner of the Sunderbuns, and appointing Mr. J. Ellison, Deputy Collector, to have temporary charge of the Sunderbuns Commissioner's office, are cancelled.

Baboo Nowrungi Lall, Sub-Deputy Collector, Jehanabad, Gya, is transferred to Durbhunga for employment on the land registration work of that district, with effect from the date on which he joined his appointment.

Baboo Nibarun Chunder Ghattack, Temporary Sub-Deputy Collector, Patna, is transferred to Jehanabad, in the district of Gya.

ECCLESIASTICAL.—*The 24th July* 1883.—The following gentlemen are appointed to be Registrars of Marriages for the town of Calcutta under Act III of 1872:—

Baboo Umesh Chandra Dutta. | Baboo Docory Ghose.

The following gentlemen, who are Registrars of Marriages for the Suburbs of Calcutta, are also appointed to be Registrars of Marriages under Act III of 1872 for the town of Calcutta and the district of 24-Pergunnahs:—

Baboo Sasipada Banerjee. | Baboo Bhubun Mohan Das.

EDUCATION.—*The 8th August* 1883.—Mr. Phani Bhusan Mukerji, B. Sc., who has been appointed by Her Majesty's Secretary of State for India to the fourth class of the Bengal Educational Service, is appointed to be an Assistant Professor in the Rajshahye College.

MEDICAL.—*The 9th August* 1883.—Surgeon-Major H. B. Purves, Civil Surgeon, Burdwan, is appointed to act as Civil Surgeon of Dacca, during the absence, on leave, of Dr. A. Crombie, or until further orders.

Surgeon-Major L. Cameron, Civil Surgeon, Chumparun, is appointed to act as Civil Surgeon of Burdwan, during the absence, on deputation, of Dr. H. B. Purves, or until further orders.

Surgeon G. Price, Civil Surgeon, Bankoora, is appointed to act as Civil Surgeon of Chumparun, during the absence, on deputation, of Dr. L. Cameron, or until further orders.

The 10th August 1883.—Surgeon-Major Henry Potter, M.D., of the 18th Regiment, Native Infantry, at Dinapore, is appointed to have civil medical charge of that station in addition to his own duties, with effect from the 23rd February last.

Surgeon-Major S. M. Shircore, Civil Surgeon, Moorshedabad, is allowed leave for three months, under section 71, chapter V of the Civil Leave Code, with effect from the 21st instant.

Surgeon-Major F. C. Nicholson, First Resident Surgeon, Presidency General Hospital, is appointed to act as Civil Surgeon of Moorshedabad, during the absence, on leave, of Surgeon-Major S. M. Shircore, or until further orders.

Surgeon E. G. Russell is appointed to act as First Resident Surgeon, Presidency General Hospital, during the absence, on deputation, of Surgeon-Major F. C. Nicholson, or until furthers orders.

VACCINATION.—*The 11th August* 1883.—Assistant Surgeon Kassee Chunder Dutt is appointed to be Deputy Superintendent of Vaccination, Metropolitan Circle, *vice* Assistant Surgeon Buddi Nath Burma, retired.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 10th August 1883.—In exercise of the powers conferred upon him by section 85 of Act VII of 1871 (the Indian Emigration Act, the Lieutenant-Governor is pleased to appoint the Joint Magistrate at head quarters of the Patna district, and in his absence the senior Covenanted Assistant Magistrate exercising first class powers, to perform the functions of a Magistrate under that Act.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

NOTIFICATION.

The 8th August 1883.—In exercise of the powers conferred on him by section 13 of Act V (B.C.) of 1876, and on the recommendation of the Commissioners of the Motihari Municipality, the Lieutenant-Governor intends to declare that, from the first day of October 1883, the villages of Belhunwa and Gopalpur, which are bounded on the north by the Motihari Lake; south by the old road to Gobindgunge, from Koorwa bridge, joining the Toorcowliah road; east by the road leading to Kesseriah and west by the Gobindgunge road, which runs round and to the west of the new jail, shall be united with the town of Motihar for the purpose of forming part of the Motihari Municipality.

It is further intended to declare that the lake which separates the town from these villages shall be deemed to form part of the municipality.

The modified boundaries of the entire municipality shall be as specified below:—

North.—Chakkar road, which joins the Adapur road.

West.—Adapur road, village road to Banjariah Tola and Toorcowliah road, passing round and to the west of the new jail leading to Gobindgunge.

South.—Old road to Gobindgunge from Koorwa bridge, joining the Toorcowliah road.

East.—The village Patowra, the lake, and the road leading to Kesseriah.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 10th August 1883.—Whereas a notification was published at page 339, Part I of the *Calcutta Gazette*, dated the 25th April last, declaring the intention of the Lieutenant-Governor to confirm certain bye-laws (numbered *a*, *b*, *c*, and *d*), which had been framed by the Commissioners of the Berhampore Municipality under section 313 of the Municipal Act, V (B.C.) of 1876, and whereas no valid objections have been raised to the bye-laws (*b*, *c*, and *d*), they are confirmed by the Lieutenant-Governor under section 314 of the Act, and are published for general information as bye-laws Nos. 24, 25, and 26 of the Berhampore Municipality:—

24. No person shall take bullock-carts along any road within the limits of what was previously known as the cantonment square, except to or from houses in the square, or when carrying materials for repairing the square roads. Penalty for infringement a fine which may extend to Rs. 5.

25. No person shall walk over the square field without a written permission previously obtained from the Chairman of the Municipality. Penalty for infringement a fine which may extend to Rs. 5.

26. Whoever allows, or does not prevent, his horse, cattle, pig, goat, sheep, or donkey to stray, or from straying, on the public roads, lanes, or pathways within municipal limits, shall be liable to a penalty which may extend to Rs. 50.

COLMAN MACAULAY,
Secretary to the Government of Bengal.

NOTIFICATION.

The 10th August 1883.—In exercise of the powers conferred by section 28 of the Indian Forest Act, 1878, the Lieutenant-Governor hereby declares (in continuation of the notification of the 7th December 1878, published at page 1298 of the *Calcutta Gazette* of the 11th idem) the tracts described in the schedule hereto annexed to be "protected forests" with effect from this date, and they are hereby removed from the jurisdiction of the Commissioner in the Sunderbuns and placed in charge of the Conservator of Forests in Bengal.

24-*Pergunnahs District.*

Name of Forest.—Lot No. 16 (portion).

Description of boundaries.

An addition to the Munjhoon Forest Reserve.	*North.*—A small stream running through Pingloo Tar to the Balasun river. *East.*—The Balasun river. *South.*—The Munjhoon Forest Reserve. *West.*—A demarcated line from the Munjhoon plateau to the small stream which forms the northern boundary.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

NOTIFICATION.

The 14th August 1883.—Mr. J. Bell, Accountant of the Calcutta Custom House, is vested with the powers of an Assistant Collector of Customs, under the provisions of Act VIII of 1878 (the Sea Customs Act), during the absence, on leave, of Mr. A. P. Bonnaud, or until further orders, with effect from the 1st August 1883.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

[Second Publicat on.]

NOTIFICATION.

The 3rd August 1883.—The following notice is published for general information.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

GOVERNMENT OF BENGAL, GENERAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 34.)

AUSTRALIA—SOUTH COAST.

SPENCER GULF.

APPROACHES TO PORT AUGUSTA.

Change in the Channel to the Port.

THE President, Marine Board, Port Adelaide, has given notice that a channel, one mile in length, having a width of 150 feet, and a depth of 18 feet at low water ordinary spring tides, has been cut through the reach leading from Brown's Point towards Port Augusta.

About two cables length of the southern portion of the reach it has been widened to 300 feet.

Also, that small *cask* buoys, painted *black*, have been placed to mark the port side of the channel.

Masters of vessels bound for Port Augusta should leave the *red* beacons on the starboard hand at a distance of from 75 feet to 100 feet.

By direction of the Government of Bengal,

J. MENTEITH BREBNER,
Offg. Port Officer, Calcutta.

PORT OFFICE, *Calcutta, the 30th July* 1883.

[Second Publication.]

NOTIFICATION.

The 3rd August 1883.—The following notice is published for general information.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

GOVERNMENT OF BENGAL, GENERAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 35.)

MALAY PENINSULA—WEST COAST.

MALACCA STRAIT.

FORMOSA BANK.

Temporary alteration of light during repairs to the Formosa lightship.

THE Government of the Straits Settlements has given notice that, owing to the light-ship *Formosa's* removal from her station off the Formosa Shoal or Bank, the revolving white light hitherto shown from that vessel will be discontinued, on and after the 15th day of August 1883.

While the *Formosa* is undergoing repairs the Government schooner *Horsburgh* will exhibit a *fixed* white light from her main masthead, and the light should be visible in clear weather at a distance of 7 to 8 miles.

The schooner, which has two masts, will be painted *black*. By day she will carry a *blue* ensign at the maintopmast head, and a ball painted *red* at her foremast head.

A gong will be sounded during thick or squally weather.

By direction of the Government of Bengal,

J. MENTEITH BREBNER,
Offg. Port Officer of Calcutta.

PORT OFFICE, *Calcutta, the 30th July* 1883.

[Third Publication.]

NOTIFICATION.

The 27th July 1883.—It is hereby notified for general information that the Lieutenant-Governor intends, if no valid objections shall have been raised within one month from the date of this publication, to submit to the Government of India for approval the following revised rules framed under the provisions of sections 130 and 133 of Act VIII of 1878 (the Sea Customs Act), to regulate the transhipment of goods. These rules will, when confirmed, take effect from the 1st October 1883, and will supersede those published in the *Calcutta Gazette* of the 30th March 1881 and the 26th October 1881.

1. Applications for the transhipment of free goods should be presented to the proper officer of Customs before 3 P. M., and such goods will be allowed transhipment under the pass issued, without any charge.

2. Applications for the transhipment of dutiable goods should be presented to the proper officer of Customs before 3 P. M. on the day prior to that on which the transhipment is required, accompanied by the fees payable, under section 133 of the Act, on the following scale for the port of Calcutta :—

For each transhipment between the hours of 8 A. M. and 5 P. M.—

	Rs.	A.	P.
On packages not exceeding 50 in number, each ...	0	4	0
On every ten or less than ten packages in excess of 50 ...	1	0	0

3. When transhipments of dutiable goods are not completed before 5 P. M., an additional fee of Rs. 4 will be charged.

4. *Chittagong.*—The transhipment fees payable on dutiable goods are as follow :—

	Rs.	A.	P.	
For single packages ...	0	8	0	per package.
For goods in bulk ...	6	4	0	per 100 maunds.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 30th July 1883.—The Lieutenant-Governor is pleased to order that, on and after the 1st September 1883, the following shall be the rates for forest produce in the Sunderbuns protected forests, in supersession of those published in Rule I of the Rules of the 17th August 1880, and of the notification dated 12th September 1880 :—

(1) Pussur and Amoor timber in pieces measuring 10 feet and upwards in length *or* 3′ 9″ and upwards in girth at the thick end, for every maund, one anna.

(2) Sundri, Pussur, and Amoor timber in pieces measuring 6 feet and under 10 feet in length *or* 2′ 3″ and under 3′ 9″ in girth at the thick end, for every maund, one-half anna.

(3) Keora timber in pieces measuring 6 feet and upwards in length *and* 2′ 3″ and over in girth at the thick end, for every maund, one-quarter anna.

(4) Any other forest produce, except honey and wax, for every maund, one-quarter anna.

(5) The right to collect honey and wax, for each man per month, one rupee eight annas.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

[Third Publication]

NOTIFICATION.

The 31st July 1883.—The Lieutenant-Governor sanctions the transfer of village Kayapat (No, 8410), of pergunnah Bogri, from the criminal and revenue jurisdiction of the district of Midnapore to that of Hooghly, with effect from the 1st April 1883.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 30th July 1883.—The following Notice to Mariners is published for general information.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

GOVERNMENT OF BENGAL, GENERAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 33).

BAY OF BENGAL—CHITTAGONG COAST.

KUTUBDEA BANKS.

Buoy off Dolphin Shoal.

TELEGRAPHIC information has been received from the Port Officer of Chittagong, that the *Black* buoy, with *staff and black ball*, which was placed on the western edge of the Dolphin Shoal, has broken adrift.

Caution.—Navigators are therefore warned to be careful when passing the Shoal Patches in this vicinity.

By direction of the Government of Bengal,

J. MENTEITH BREBNER,
Offg. Port Officer of Calcutta.

PORT OFFICE, *Calcutta, the 27th July* 1883.

[Third Publication.]

DECLARATION.

The 30th July 1883.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., or constructing a seventh class post office building in the village of Naldi, pergunnah Naldi, zillah Jessore, it is hereby declared that for the above purpose a piece of land measuring, more or less, 15 cottahs of standard measurement, bounded on the north by the ryoti land of Shuripara; on the east by that of Rajani Kanto Ghosh; on the south by the river Nabaganga; and on the west by the Naldi Bazar, is required within the aforesaid village of Naldi.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

JUDICIAL DEPARTMENT.

No. 2026A.

NOTIFICATION.

THE following rules are published for general information.

By order of the High Court,

C. A. WILKINS, *Offg. Registrar.*

FORT WILLIAM, *the* 13*th August* 1883.

Rules for regulating the fees payable in the Subordinate Civil Courts, by any party in respect of his adversary's Pleader or Mukhtyar—made by the High Court of Judicature at Fort William in Bengal under Section 27, Clause (c) of the Legal Practitioners' Act, XVIII of 1879.

FEES OF PLEADERS.

THE sums which shall be payable by an unsuccessful party in any suit or proceeding in the Subordinate Civil Courts in respect of the fees of his adversary's pleader shall be calculated at the rates specified in the following scale, that is to say:—

I.—In suits for the recovery of specific property or a share of specific property, whether immoveable or moveable, or for the breach of any contract, or for damages—

(*a*) If the amount or value of the property, debt, or damages decreed shall not exceed Rs. 5,000, at 5 per cent on the amount or value decreed.

(*b*) If the amount or value shall exceed Rs. 5,000, and not exceed Rs. 20,000, on Rs. 5,000 at 5 per cent, and on the remainder at 2 per cent.

(*c*) If the amount or value shall exceed Rs. 20,000, and not exceed Rs. 50,000, on Rs. 20,000 as above, and on the remainder at 1 per cent.

(*d*) If the amount or value shall exceed Rs. 50,000, on Rs. 50,000 as above, and on the remainder at ½ per cent.

Provided that in no case shall the amount of any fee exceed Rs. 3,000.

II (*a*).—In suits for injuries to the person or character of the plaintiff, such as suits for assaults or defamation, or for injuries to property, or to enforce rights where the pecuniary value of such injury or right cannot be exactly defined, as in suits for interference with a right to light or water, or to enforce a right of pre-emption, or suits for the partition of joint property, where partition is improperly resisted, and generally in all suits not included in Rule I, if the plaintiff succeed, the Court may order the fee of the pleader for the plaintiff to be calculated with reference either to the amount decreed or according to the valuation of the suit, or according to such a sum, not exceeding the valuation, as the Court shall think reasonable and shall fix with reference to the importance of the subject of the dispute. In any such case the amount of the pleader's fee shall be calculated according to the scale in Rule I.

(*b*) In this and in the following rules, cases under Part III of the Land Acquisition Act, X of 1870, shall be deemed to be suits, and the fees allowable therein shall not be calculated as fees in miscellaneous proceedings under Rule VIII.

III (*a*).—If the suit be dismissed upon the merits, or be decreed for the defendant, the defendant's pleader's fee shall be calculated according to the scale in Rule I on the whole value of the suit. If the suit be dismissed on the merits, and a decree awarded to the defendant for any matter not included in the plaint, the defendant's pleader's fee shall be calculated upon the amount involved in the plaint, *plus* the amount decreed, according to the scale in Rule I.

(*b*) If the suit be dismissed for default, the amount of the fee to be paid to the defendant's pleader shall be left to the discretion of the Court; provided that such fee shall not exceed the moiety of the fee calculated on the whole value of the suit under Rule 1.

IV.—If the suit shall be decreed for the plaintiff as to part only of his claim, and as to the remainder shall be dismissed or decreed for the defendant, the fees payable by any party in respect of the fees of his adversary's pleader shall be fixed with reference to the value of that part of the claim in respect of which such adversary shall succeed, and shall be calculated according to the scale in Rule I.

V.—If in any suit for unliquidated damages the plaintiff shall succeed as to the whole of his cause of action, but shall fail to recover the full amount of damages claimed, the defendant shall not be entitled to any allowance for a pleader's fee in respect of the difference between the amount of damages claimed and the amount recovered, unless the Court shall be of opinion that the amount claimed for damages was unreasonable or excessive, and shall for that or any other cause to be specified, direct that a fee for his pleader shall be allowed to the defendant.

If specially allowed, the amount of such fee shall be fixed with reference to the amount of damages disallowed to the plaintiff, and shall be calculated according to the scale in Rule I.

VI.—If several defendants who have a joint or common interest succeed upon a joint defence, or upon separate defences substantially the same, not more than one pleader's fee shall be allowed, unless the Court shall otherwise order for a reason which shall be recorded. If only one fee be allowed, the Court shall direct to which of the defendants it shall be paid, or shall apportion it among the several defendants in such manner as the Court shall think fit.

VII.—If several defendants who have separate interests set up separate and distinct defences and succeed thereon, a fee for one pleader for each of the defendants who shall appear by a separate pleader may be allowed in respect of his separate interest. Such fee, if allowed, shall be calculated with reference to the value of the separate interest of such defendant, according to the scale in Rule I.

VIII.—The amount in respect of the fee of an adversary's pleader, when allowed in any *miscellaneous proceeding*, or for any other matter than that of appearing, acting, or pleading in a suit prior to decree, shall be fixed by the Court according to the following scale, viz:—

(*a*) A fee not exceeding Rs. 80 in the Court of a Judge or Subordinate Judge.

(*b*) A fee not exceeding Rs. 16 in the Court of a Munsif in suits of amount or value exceeding Rs. 300.

(*c*) A fee not exceeding Rs. 4 in the Court of a Munsif in suits of amount or value not exceeding Rs. 300.

In *miscellaneous appeals*, except in cases where it may be ordered that each party shall pay his own costs, a specific sum shall be awarded as payable on account of the adversary's pleader's fee, and the award of such sum shall be distinctly recorded at the foot of the order, with the other costs, if any, incurred by the parties respectively.

IX.—In every suit in any Court of original jurisdiction which shall be undefended, the amount to be paid as the fee of the adversary's pleaders shall be calculated at one-half the sum at which it would have been charged had the suit been defended.

X.—If a review be rejected after summoning the opposite party, or if after the admission of a review, the former judgment be upheld, the pleader's fee, if allowed to

the successful party in the review, shall be fixed by the Court at an amount which shall not in any case exceed one-half of the amount allowed by these rules in case of an original decree.

XI.—If after the admission of a review the former judgment be reversed, the fee of the pleader in respect of the review, if allowed to the party who succeeds in the review, shall not exceed one-half the amount allowed by these rules in cases of an original decree. The fee allowed in respect of the review will be irrespective of any pleader's fee which may be included in any costs in respect of the original suit which may be adjudged to the successful party by the judgment in review.

XII.—The amount to be allowed on account of the fee of an adversary's pleader in *appeals* shall be calculated on the same scale as in original suits, and the principles of the above rules as to original suits shall be applied as nearly as may be to appeals.

XIII.—When the interest of several appellants is joint, not more than one pleader's fee shall be allowed, unless the Court shall otherwise order for a reason to be recorded. If one fee only be allowed, the Court shall direct to which of the appellants it shall be paid, or shall apportion it amongst the several appellants in such proportions as it shall think fit.

XIV.—If several respondents in *one appeal* appear by separate pleaders, in determining whether several pleaders' fee shall be allowed the Court shall be guided by the principles laid down in Rules VI and VII.

XV.—If in any instance the payment of fees according to the preceding rules shall not appear to the Court to be just and equitable, the Court may exercise its discretion in charging the fee of the adversary's pleader in such manner as may appear just and equitable; but in every case, when an allowance is made for a pleader's fee, the amount shall be calculated according to the scale in Rule I, or according to Rule VIII, as the case may be.

Provided that, if under the provisions of section 562, Act XIV of 1882, the decree of a Lower Court be reversed on appeal; and the case be *remanded* to the Lower Court to be tried upon the merits, the Lower Court on passing its decree may allow to the successful party such a sum as the Court shall consider to be reasonable, not exceeding half the amount calculated according to the scale in Rule I on account of his pleader's fee in respect of the re-hearing, in addition to the full amount of his pleader's fee calculated according to that scale.

Provided also that, if an appeal be preferred against the decree passed on remand, the fee, if any, allowed by the Appellate Court to the party succeeding in that appeal shall not, unless for a special reason to be recorded, be less than one-fourth nor more than half of the amount calculated at the rate mentioned in Rule I, if by the decree of the Appellate Court remanding the case the same party shall have been allowed a full pleader's fee in respect of the former appeal in the suit either absolutely or conditionally upon his succeeding upon the remand.

Provided also that, if under section 566, Act XIV of 1882, an issue be framed and referred by the Appellate Court for trial by the Lower Court, the Appellate Court may, if it think proper, allow to the party who shall succeed in the appeal such a sum as the Court shall consider reasonable, not exceeding half the amount calculated at the rate mentioned in Rule I for his pleader's fee in respect of the trial of the issue in the Lower Court, in addition to a full fee, in respect of the appeal, calculated at that rate.

FEES FOR MUKHTYARS.

XVI.—When a mukhtyar is employed, 15 per cent of the sum allowed as pleader's fee shall be allowed as such mukhtyar's fee; and the remaining 85 per cent only shall be allowed as the pleader's fee.

SMALL CAUSE COURTS.

XVII.—The above rules, so far as they are applicable, extend to Courts of Small Causes constituted under Act XI of 1865, with the exception of Rule VIII, in lieu of which the following special rule is prescribed :—

The amount in respect of the fee of an adversary's pleader, when allowed in any miscellaneous proceeding, or for any other matter than that of appearing, acting, or pleading in a suit prior to decree, shall be fixed by the Court according to the following scale, viz :—

One rupee to six rupees in proceedings connected with cases not exceeding Rs. 500 in value.

SENATE HOUSE,
The 27th April 1883.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 893B.

NOTICE IS hereby given that the Ninth Sale of Opium, the provision of 1881-82, will be held at the Government Opium Sale-room, No. 2, Bankshall-street, on Monday, the 3rd September 1883, at 11 A.M., and will comprise 4,450 chests, VIZ:—

	Chests.
Opium manufactured at the Patna Factory of 76° consistence ...	2,225
Do. do. do. Ghazipore Factory of 72° consistence ...	2,225
Total ...	4,450

2. The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 28th November 1882, and published in the *Government* and *Exchange Gazettes*, or on personal application at the office of the Board of Revenue.

3. The latest dates for deposit and clearance will be the 8th and 18th September 1883, respectively—that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 1-30 P.M. of Saturday, the 8th September 1883, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Tuesday, the 18th September 1883.

4. Including the quantity above advertised for sale, the following quantities, more or less, of the Opium manufactured at the Patna and Ghazipore Factories will be brought to sale up to December next about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so:—

DATES.	Manufactured at the Patna Factory, about chests.	Manufactured at the Ghazipore Factory, about chests.	Total, about chests.
On or about Monday, 3rd September 1883	2,225	2,225	4,450
Do. about Wednesday, 26th „ „ ...	2,225	2,225	4,450
Do. about Thursday, 1st November „ ...	2,225	2,225	4,450
Do. about Monday, 3rd December „ ...	2,225	2,225	4,450
Total ...	8,900	8,900	17,800

By order of the Board of Revenue, L.P.,
C. E. BUCKLAND, *Offg. Secretary.*

BOARD OF REVENUE, L.P., FORT WILLIAM, *the 31st July* 1883.

No. 926B.

STAMPS.
H. A. Cockerell, Esq., C.S.I.

THE following Resolution of the Government of India, No. 2153, dated 20th July 1883, in the Department of Finance and Commerce, is republished for general information.

RESOLUTION.

Simla, the 20th July 1883.—"The attention of the Board of Revenue, Lower Provinces, was recently directed to a case in which a bank had granted a duplicate receipt to another bank on unstamped paper, although the original receipt was stamped with a duty of 1 anna, and the money for which the original receipt was granted was required to be accounted for to a party other than the depositor. The case was referred to the Advocate-General for opinion as to whether the duplicate receipt was liable to stamp duty, and the following opinion was given by him":—

"A receipt for money is an instrument within the meaning of the Stamp Act (Act I of 1879). It follows that a duplicate receipt mentioned in this case is liable to a stamp of 1 anna under Article 23(*a*) of Schedule I."

2. "The Governor-General in Council is pleased to direct that steps may be taken to make the opinion of the Advocate-General known to the public."

By order of the Board of Revenue, L.P.,

C. E. BUCKLAND, *Offg. Secretary.*

CALCUTTA, *the 7th August* 1883.

No. 931B.

OPIUM.
H. A. Cockerell, Esq., C.S.I.

SEALED tenders will be received at this office up to noon of Wednesday, the 22nd August 1883, for removing all the chests of abkaree and provision opium which may be brought down to the Presidency from the Patna and Ghazipore opium factories by railway during the period of one year, from the 1st September 1883, from the East Indian Railway Company's wagons at Howrah and from the ferry steamer at Armenian Ghât (as may be necessary) to the Government godowns situated within the Custom House premises, and also to the new opium godowns at Coilah Ghât, and there stacking them as the intendant in charge shall from time to time direct.

2. The tenders should state the rate per 100 chests, all charges to be incurred to be included. The person whose tender may be accepted will have to deposit security to the amount of one thousand rupees, and supply seventy good English tarpaulins (15′ × 10′) for covering the chests during transit in case of rain.

3. The Board of Revenue does not bind itself to accept the lowest or any tender.

By order of the Board of Revenue, L. P.,

C. E. BUCKLAND, *Offg. Secretary.*

Calcutta, the 9th August 1883.

CUSTOM HOUSE NOTICE.

WITH reference to the Order in Council, dated the 22nd of May 1883, published at pages 318-319 of the *Gazette of India* of 28th July 1883, Part I, it is hereby notified for general information that the following dues will be levied from the dates specified, viz :—

Dues leviable in respect of the Great Basses Light-house and the Little Basses Light-house.

For every ship on every voyage in which she passes or derives benefit from the lights, per ton, of the burden of such ship ... ... 15 pies.	From the date of publishing of this notification.

Dues leviable in respect of Minicoy Light-house.

For every ship on every voyage in which she passes or derives benefit from the lights, per ton of the burden of such ship ... . 5 pies.	From and after the date of the first exhibition of a light from the Minicoy Light-house.

J. SCOBELL ARMSTRONG, *Collector of Customs.*

CUSTOM HOUSE, CALCUTTA, *the 9th August* 1883.

The Calcutta Gazette.

WEDNESDAY, AUGUST 15, 1883.

PART IA.

Orders and Notifications by the Government of India, &c.

[*Reprinted from the Gazette of India.*]

THE following orders issued by the Government of India, Home Department, are republished for general information :—

NOTIFICATIONS.—SANITARY.

Simla, the 8th August 1883.

No. 240.—The services of Deputy Surgeon-General A. J. Payne, M.D., are replaced at the disposal of the Government of Bengal, with effect from the afternoon of the 30th July 1883.

POLICE.

The 9th August 1883.

No. 225.—The services of Mr. L St. John Brodrick, Officiating Assistant Superintendent of Police, Sarun, are placed at the disposal of the Chief Commissioner of Assam.

EDUCATION.

The 7th August 1883.

No. 267.—Mr. A. W. Croft, M.A., Director of Public Instruction, Bengal, on special duty with the Education Commission, is granted privilege leave for three months, with effect from the 17th instant, or such subsequent date as he may avail himself of it.

The following order, issued by the Government of India, in the Department of Finance and Commerce, is republished for general information :—

The following Resolution is published for general information :—

No. 2599.

RESOLUTION— By the Government of India, Department of Finance and Commerce.

In the Financial statement for 1882-83 (paragraphs 258-264) it was stated that the question of whether it would not be possible to devise some means for borrowing from *bonâ fide* local investors the amount required annually for productive public works had for long occupied the attention of Government. Conflicting opinions, both official and non-official, had at various times been expressed as to the feasibility of adopting any such project. The Government was of opinion that the only satisfactory way of solving the question was to bring it to the test of actual experiment. Stock notes were, therefore, issued under conditions which were set forth in the Government Resolution of March 8th, 1882. Up to the present time, the sale of these notes has not been large; the people have not as a rule become familiar with them; they complain of the difficulty which they must experience in attempting to recover the value of lost notes; there is no ready sale when a holder of stock notes wishes to dispose of them; and they can only be got rid of at a sacrifice.

2. Since the introduction of the scheme, the Governor-General in Council has had under consideration, from time to time, various objections to and suggestions, regarding, stock notes (see Financial statement for 1883-84, paragraph 231). Some of these objections and suggestions of minor importance have already been dealt with. There are still several matters which require consideration.

3. One of the chief objections to stock notes is that the holder of them can only find a purchaser at a discount when he wishes to sell. This is admittedly a great drawback to their popularity, and it becomes necessary to consider whether anything can be done to enable the holder to obtain the full value of a stock note promptly when he requires money.

4. It has been suggested that stock notes should be receivable in payment of Government demands. This suggestion cannot, however, be adopted, as Government could not run the risk of having a large portion of the total issue of stock notes returned upon its hands at any moment, the cash balance of the public Treasury being proportionately reduced. If this course were adopted, stock notes would not essentially differ from savings banks deposits.

5. It is possible that in time stock notes will be freely bought and sold in the interior of the country, but for the present it has been suggested that a market might be created by authorising the sale of stock notes to the public at the presidency towns, and by making the interest payable there. Capitalists might then find it worth their while to deal in them, and in time of pressure the holder of a stock note would find a ready market for them at a trifling discount; and although it may be said that stock notes were intended for the people, and not for speculators, the course suggested would not impede in any way their circulation among the people, but would probably have a contrary effect.

6. If a market for stock notes were created at the presidency towns, it is possible that there might be interference with the ordinary promissory notes of Government. Stock notes, however, are at a considerable disadvantage as compared with promissory notes. The interest coupons cannot be enfaced for payment in England, the denominations of the notes are small, and the interest is payable only once a year. It is believed by some that these disadvantages are sufficient to prevent the competition of stock notes with the ordinary 4 per cent. stock of Government.

7. If, however, by authorising the sale of stock notes in presidency towns a market should be established, in anything approaching the same sense in which there is a market for Government promissory notes, it is possible that there would be interference with the ordinary stock of Government; there are many purposes of temporary investment which would then be served by stock notes equally as well as by promissory notes, and so long as Government offered to persons entrusted with the sale of stock notes a discount of one per cent., part at least of the demand for promissory notes would be removed. Any market thus established must necessarily be a market for buyers as well as for sellers; and as the selling price must always necessarily be below the Treasury price, the inevitable result would be that there would be fewer demands upon the public treasuries than if no such market were in existence. It would follow from these arguments that the creation of a market for stock notes at the presidency towns might not be desirable in the interest of Government loans or of the stock note scheme itself.

8. It has been also suggested that a limit might be placed on the total issue of stock notes from year to year. This suggestion is of doubtful value.

9. Another objection to stock notes is that the interest payable on a note of one circle is not payable in another circle; the Governor-General in Council is of opinion that this objection can be easily overcome by ruling that on payment of a trifling fee the holder of a note of circle A may obtain a note of circle B in exchange on presenting the A circle note at any treasury in circle B.

10. It has also been objected that stock notes are liable to be lost or destroyed, and that their value can then be obtained only with great difficulty, and after a long time has elapsed.

To meet this objection it has been suggested that Government might undertake the custody of the notes: thus, a note might be received from A B and registered as belonging to him, a *non-transferable* receipt being given in exchange. This procedure would, however, in all probability impose a considerable amount of additional work on treasury officers, and, so far as the holder of the note is concerned, it would be better for him to have recourse to the ordinary savings bank. It could, however, be ruled that notes aggregating less than Rs. 250 should not be deposited in this way, while the existing rules which govern the case of lost or destroyed stock notes might be somewhat relaxed in the case of notes of small value.

11. Stock notes are payable to bearer, and there are many objections to a relaxation in the case of stock notes of the rules regarding the repayment of lost or destroyed currency notes. It has, however, been urged that should Government be prepared to accept a small amount of risk, the rules might be relaxed, (1) when the amount at stake is small; and (2) when satisfactory evidence is given to show that the note has been destroyed. For instance, if the amount of the claim did not exceed Rs. 250, and the district officer and the Comptroller-General were satisfied from the evidence produced that the note had been destroyed, payment might be made at once, a bond being given by the claimant with two sureties. It has also been suggested that if the note were lost under circumstances which rendered it improbable that it would ever be presented for payment, and if its amount did not exceed Rs. 100, the value of the note might be paid after the lapse of one year; if the

amount of the claim exceeded Rs. 100, but did not exceed Rs. 250, the amount might be paid after the lapse of two or three years; and if the amount lay between Rs. 250 and Rs. 500, payment might be made after the lapse of three or five years. In all other cases the ordinary procedure would be followed. Appendix A to the resolution shews the rules now in force.

12. Government, however, cannot overlook the fact that there is considerable danger in relaxing the rules regarding the repayment of lost or destroyed stock notes. It has been urged that an indemnity is really worthless; that every attempt to realise it would cost ten times as much as allowing it to drop; and that there will not be in ordinary cases the least chance of recovering anything from the debtor. It is also said that the holder of a stock note who has lost it has no more moral claim against the State than the holder of a rupee who has lost it; that he is responsible for taking care of his own property, and should bear his own loss; and that the only ground on which the State undertakes to make good losses in some cases is that the holder of the lost note has borne the loss, while the State has made a gain, and can therefore afford to make up his loss, provided, of course, absolute or practical immunity can be secured. It is further argued that the people who will have to be chiefly dealt with in the matter of stock notes lost or destroyed are people to whom the holding of a small sum as a permanent investment is a matter of importance, and who presumably occupy a humble position in life,—people who cannot probably write, and who in all probability cannot keep anything in the way of accounts, and who can, therefore, never be in a position to produce satisfactory evidence to prove the absolute destruction of a particular stock note during the time it has been in their possession; that it is the tax-payer's not the loser's interest which the State should consult; and that no terms on which the State can offer to make good losses will be the slightest encouragement to purchasers, unless they are such as to lay it open to easy frauds, and involve it in losses which it ought not to bear.

13 The Governor-General in Council cannot but admit that a person who loses a stock note has no claim on Government; but the ultimate object of Government is not to remedy the effects of carelessness or accident by an individual holder, but to introduce such rules as, without causing loss to the State, will not prove a bar to persons who wish to invest money in stock notes. If Government can satisfy the public that they have a good chance of getting their money back in case of loss, it will have gained its object; and when it is said that the money could never be recovered from the sureties or the debtor, the great collateral advantage which Government obtains by insisting on sureties is apparently over-looked. The bond of the two sureties is the strongest possible evidence to the fact that the claim is made in good faith. What Government has to fear is fraud; and if two respectable men who know the claimant will put their names to a bond agreeing to pay in case the note said to have been lost is found, Government obtains a very good guarantee that the note has really been lost.

14. A fourth objection to stock notes is that interest is not payable on a divided note; the Governor-General in Council is of opinion that there could be no objection to pay interest on a divided note, provided that the pieces making up the whole note were produced.

15. It is also worth considering whether private individuals might not be licensed as vendors of stock notes.

16. Before arriving at any final decision on the various questions referred to in this Resolution, the Governor-General in Council would be glad to be favoured with the views of the several Local Governments and Administrations.

The Governments of Madras, Bombay, and Bengal are particularly requested, before submitting their final report, to consult the local Chambers of Commerce and the principal local Banks with reference to the points discussed in this Resolution.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

The Calcutta Gazette.

WEDNESDAY, AUGUST 15, 1883.

PART II.

Advertisements.

[N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

LAND SALE NOTICES.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate situate in the district of the Sonthal Pergunnahs will be put up to sale at the Dumka Collectorate on Friday, the 28th September 1883, corresponding with 13th Assin 1290 B.S.

The purchaser will be subject to the following conditions of sale :—

Conditions of Sale.

1*st*.—The estate to be sold revenue-free to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him.

2*nd*.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3*rd*.—If the amount of the purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Calcutta, the 11th August 1883. (1398—1) G. H. SIMMONS, for Vice-Chairman.

NOTICE.

PUBLIC WORKS DEPARTMENT, IRRIGATION BRANCH.

1. OFFERS are invited from private firms or companies desirous of taking over the steam transport service now kept up by Government on the Sone Canals.

2. Copies of the following documents relating to the service may be had on application to the Under-Secretary in this Department, Writers' Buildings, Calcutta, or to the Superintending Engineer, Sone Circle, Arrah, Shahabad :—

I.—Description of the steamers employed.

II.—General rules under which the service is now conducted, shewing also the fares charged and distances run.

III.—Detailed statement shewing the receipts and working expenses of the service during the year 1882-83.

3. The tolls leviable, under Act V (B.C.) of 1864, on boats or steamers plying in the Sone Canals are shewn in a notice published in the *Calcutta Gazette* for the 18th January 1882, Part I, page 59. They are in amount as follows :—

	Per 100 maunds of displacement. Rs. A. P.
Arrah Canal—	
Dehree to Arrah railway bridge	2 3 0
Buxar Canal—	
Bedadi to railway, Buxar	2 0 0
Patna Canal—	
Baroon to railway, Khagoul	2 15 0

4. The purchase of the steamers now employed on the canals must form an integral part of any tender. The descriptions of the steamers referred to in paragraph 2 of this notice are believed to be correct, but persons proposing to tender should examine the boats for themselves, as no errors of description will be admitted as a reason for cancelling a tender.

5. Reduced rates of tolls may, for a period not exceeding one year, be stipulated for; but in that case the fixed intervals at which the steamers will run must be mentioned in the tender, and the maintenance of an effective service will be required as a condition of the concession.

6. The Government will, so long as a service is regularly carried on, cease from carrying passengers by boat or steamer, or goods not required for Government works.

7. No exclusive concession can be granted, the canals being open to all boats, whatever the motive power, on payment of the tolls prescribed by law.

8. It is proposed to make over the service, should a tender be accepted, from the 1st of October next, but a later date may be named.

9. All tenders must be addressed to the Secretary to the Government of Bengal in the Public Works Department, and must be accompanied by a receipt from the officer in charge of the Third Calcutta Division, or from some Executive Engineer for Rs. 500 earnest-money, to be forfeited if the person tendering fails to carry out the offer made. Tenders will be received up to the 1st of September next.

10. The highest or any tender will not necessarily be accepted.

J. M. HEYWOOD,

Joint-Secy. to the Govt. of Bengal,
P. W. Dept.

Rajshahye Collectorate, the 11th August 1883.

Serampore Municipality.

DEBENTURE LOAN OF Rs. 20,000.

THE Commissioners have obtained the sanction of the Government of India, under section 7 of Act XI of 1879, "The Public Works Loan Act," to raise a loan of the above sum in the open market on the security of the rates, taxes, and fees levied by them under Act V of 1876 (B.C.), Regulation VI of 1879, Act I of 1871, Act V of 1866, Act V of 1861, Act II of 1867, Act IV of 1873, and Act VI of 1878.

Tenders are hereby invited and will be received up to 1st October 1883, for the whole or any part of the above-named sum.

Negotiable debentures will issued of Rs 500 each, and the loan will be repayable by equal half-yearly instalments with interest at 4½ per cent. on the 1st April and 1st October, commencing on the 1st April 1884.

Parties tendering are required to pay into the sub-divisional treasury, to the credit of the Commissioners, 2 per cent. of the amount tendered by way of security.

Tenders to be made in prescribed form which may be had on application at the office of the Commissioners, and to be enclosed in sealed covers marked, "Serampore Municipality Market Loan."

The amount of the accepted tender or tenders to be paid in one instalment within one month from date of acceptance of tender.

The time for opening tenders will be duly intimated in writing to the tenderers.

F. R. S. COLLIER, Chairman.

(FORM OF TENDER.)

I do hereby tender for rupees of the loan advertised for in the *Calcutta Gazette*, dated the 18th July 1883, and agree to pay for the same subject to the conditions specified at the rate of rupees for every hundred allowed to me.

I enclose a deposit receipt of the Sub-divisional Treasury Officer for Rs. by way of security, and do hereby bind myself, if my tender be accepted, to pay to the credit of the Commissioners at the sub-divisional treasury office the whole sum tendered for by me before the 31st October 1883.

(FORM OF DEBENTURE.)

SERAMPORE MUNICIPALITY.

No. , dated 1883.

By virtue of the authority given by the Government of India under section 7 of Act XI of 1879, "The Public Works Loan Act," we, the Commissioners of the Municipality of Serampore, in consideration of the sum of Rs. 500 paid to us by of promise to repay in equal half-yearly instalments to the said or his heirs or assigns the said sum of Rs 500 after the date hereof, together with interest thereon at the rate of 4½ per cent. per annum payable half-yearly on the 1st April and 1st October.

Chairman.

(1334—6) Commissioners.

Dehra Doon Tea Company, Limited.

NOTICE is hereby given that the 40th half-yearly ordinary general meeting of shareholders will be held at the Mussoorie Bank, Mussoorie, North-Western Provinces, on 3rd August 1883, at noon.

A. F. GIBSON, Secretary.

Octavius Steel & Co., Calcutta Agents. (1404—1)

Notice.

THE general Power-of-Attorney given by me to Baboo Russick Lal Banerjea of Mahestalah, pergunnah Balya, zillah 24-Pergunnahs, is hereby revoked. Anything to be done by him, such as collection of debts and rents due to me, drawing out money deposited in any court on my account, &c., from this date, on the strength of the said power, shall be utterly null and void, and shall have no binding force on me.

GOPAL CHUNDER BANERJEA.

The 14th August 1883. (1405—3)

Stolen.

BERHAMPORE, 13th August 1883.

The Indian Law Reports.

Published under Authority of the Governor-General in Council.

THE Reports appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series.

The Parts of each series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set.

Terms of subscription, payable annually in advance.

	Without postage.	With postage.
For the Calcutta Series...	Rs. 35	Rs. 40
,, Madras Series ...	,, 8	,, 9
,, Bombay Series...	,, 8	,, 9
,, Allahabad Series	,, 8	,, 9
Complete set	45	,, 50

The Price of each part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following:—

	Rs.	A.
For a part of the Calcutta Series ...	3	8
,, ,, Madras Series ...	1	0
,, ,, Bombay Series ...	1	0
,, ,, Allahabad Series ...	1	0
Complete set	4	0

Persons desiring to subscribe for or purchase the Reports, should apply to—

Messrs. Thacker, Spink and Co., Calcutta;
,, Thacker, Vining and Co.;
,, Higginbotham and Co., Madras;
The Government Central Book Depôt, Bombay;
The Government Book Depôt, Allahabad.

JOHN ELIOT, M.A., *Meteorological Reporter to the Govt. of Bengal.*

Calcutta, the 26th August 1875.

Notes on Forestry,

BY C. F. AMBEY,

Deputy Conservator, Forests, N.-W. Provinces

THIS little work, published with the approval of the Government of India, treats of the general principles of forest management in all its branches, and is recommended not only to forest officers, but to all who are interested in the progress of forest management in this country.

May be obtained of Messrs. King, King & Co., Bombay, and of Messrs. Wyman & Co., Calcutta. Price Rs. 3-8, or including postage, Rs. 4. Or of the publishers, Messrs. Trübner & Co., Ludgate Hill, London. Price five shillings.

Notice.

THE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:—

1*st*.—Bay of Bengal Daily Report giving observations taken at 17 stations on or near the coast of the Bay, with a chart and summary This is published in connection with the Calcutta Storm Signal Service. The report giving 10 A.M. observations of the day is distributed by peon in Calcutta after 4 P.M. Price to subscribers in Calcutta, Rs. 2 per mensem.

2*nd*.—Bengal Daily Report containing observations taken at 30 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, *i.e.* from May, 15th, to November, 15th. Price Rs. 2-3 per mensem, including postage.

3*rd*.—A Weekly and Monthly Statement of Meteorological Observations taken at 38 observing stations, and of rainfall recorded at 160 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

JOHN ELIOT,
Meteorological Reporter to the Govt. of Bengal.
Meteorological Office, Bengal, the 3rd July 1883.

RESOLUTION ON THE REPORT OF THE CHEMICAL EXAMINER FOR 1882-83.

MUNICIPAL DEPARTMENT—MEDICAL.

Calcutta, the 7th August 1883.

RESOLUTION.

READ—

A letter from the Surgeon-General, Bengal, No. 4122, dated the 20th June 1883, forwarding the Report of the Chemical Examiner for 1882-83.

Read also—

The Report for the year 1881-82, and the Government Resolution recorded on it.

The number of analyses performed in the Laboratory during the year is the largest on record. It was 2,133 against 1,900 in 1881-82, which was,

again, a larger number than was shown in any previous year. The following table shows the work done in each of the last three years:—

	1880-81.	1881-82.	1882-83.
Human viscera tested for poison	270	225	210
Animal ditto ditto	75	83	105
Substances suspected to be, or to contain, poison ...	572	652	663
Articles tested for blood stains	140	173	186
Ditto for seminal stains	32	24	28
Inflammable oils	33	43	162
Lime-juice	15	18	18
Potable water	11	54	77
Opium, confiscated	29	112	29
Ditto, quantitative, for Board of Revenue	4	4	8
Salt	2	2	2
Spirits for deleterious adulterations	11	50	6
Spirit determinations for the Collector of Customs ...	...	...	127
Articles tested for Purity and Quality.			
For Small Arms Ammunition Factory, Dum-Dum ...	184	191	312
„ Arsenal, Fort William	17	16	9
„ Medical Store Department	3	6	5
„ Commissariat ditto	10	134	158
Miscellaneous	62	113	28
Total ...	1,470	1,900	2,133

The increase in the analytical work is chiefly noticeable under the heads "Animal viscera for poison," "Inflammable oils," "Potable water," "Spirit determinations," and "Articles tested for the Small Arms Ammunition Factory, Dum-Dum;" while a considerable decrease is to be observed under "Confiscated opium," "Spirits for deleterious adulterations," and "Miscellaneous." The medico-legal analyses show an increase of 35 cases compared with the preceding year. The number of "Other cases" also exhibits an increase of 198 above that of 1881-82.

2. The number of specimens of human viscera sent for examination was 210. Altogether 31 examinations were made by the Police Surgeon, Calcutta. Apart from these, 106 of the bodies examined were of females and 70 were of males, while in three cases no sex was recorded. In 33 of the former death was attributed to the administration of drugs for the purpose of causing abortion, but in many cases the records shewed that mechanical rather than medicinal agents had been employed. The percentage of cases in which poison was detected was 46·6 per cent. against 41·3 in the previous year. The improvement is so far satisfactory, but it still shows that in more than 53 per cent. of the cases in which *post mortem* examinations were made, no cause could be assigned for death. The Chemical Examiner has again complained of the meagre character of the *post mortem* reports generally received by him, and of the want of care frequently shown by local officers in the packing of viscera and articles connected with medico-legal cases. An instance is given in which the stomach of a woman was forwarded to the Chemical Examiner for analysis. No information was furnished beyond the bare statement of the hospital assistant of the subdivision that "death was caused from the effects of some irritant poison." Neither the *post mortem* report, nor the description of the mode of packing with copies of label, accompanied the bottle. In another case in which aconite poisoning was suspected, the stomach only was sent, *the contents having been thrown away by the native doctor*, although the preservation of the contents was obviously of the utmost importance. The Surgeon-General is requested to ascertain and report, for the information of Government, the name of the officer concerned. In other cases there was reason to believe that the viscera, after removal, had not been immediately packed and despatched to the Chemical Examiner, but were "retained pending the final results of the police enquiry." Dr. Warden points out that an analysis conducted under these circumstances must lose a great part of its value. Clear instructions have been repeatedly issued regarding the method to be adopted in packing and preparing substances for analysis by the Chemical Examiner. The Lieutenant-Governor takes this opportunity of impressing upon local officers the necessity of strictly conforming to the rules that have been laid down by Government in this behalf, and he trusts that it will not be necessary for him to recur to the subject again.

3. Opium, arsenic, and aconite were, as in previous years, the three most important poisons detected in human viscera. Fifty-six cases were traced to opium, against 54 in the previous year. The cases in which arsenic and aconite were administered numbered 26 and 5, against 20 and 7 respectively. The number of specimens of animal viscera examined during the year was 105 against 83 in 1881-82. Poison was detected in 67 cases against 61 in the preceding year. Of the 67 cases in which poison was detected, 65 cases were traced to arsenic, and two cases were for the first time traced to aconite. Some interesting notes on *sui*-poisoning, or poisoning by means of *koonch* or *gountch* seeds, pounded and shaped into needles for insertion beneath the skin of animals, have been appended by Dr. Warden to his report. It is observed that in *sui*-poisoning the examination of the external and internal surfaces of the skin is of great importance, as in these cases chemical examination of the stomach and intestines cannot lead to any result. The following table compares the percentages of total cases in which each of the three chief poisons—arsenic, opium and aconite—was found :—

	Arsenic.			Opium.			Aconite.		
	1880-81.	1881-82.	1882-83	1880-81.	1881-82.	1882-83	1880-81	1881-82	1882-83.
Human viscera	18·7	21·5	26·5	69·7	58·06	57·1	2·8	7·5	5·1
Suspected substances	55	63·6	45·3	11·9	6·8	9·1	2·3	5·5	5·5
Animal viscera	100	100	97·0	Nil	Nil.	Nil.	Nil.	Nil.	3·0

4. There was a large increase in the number of samples of inflammable oils examined during the year, 162 samples having been tested against 43 in the previous year. This was due to the arrival of large shipments of kerosine oil, which had to be tested under the Petroleum Act of 1881. A series of elaborate experiments in connection with the testing of petroleum are being made, and will be separately considered by Government. In most of the samples examined during the year, the quality of the imported oils showed a marked improvement. Twenty-two samples flashed at 218° to 107° F., and 81 at 100° to 106° F., and in 59 cases only was a flash obtained at a lower temperature than 100° F.

5. Dr. Warden's remarks on the analyses of potable waters undertaken during the year are very interesting. Seventy-seven samples of potable water were examined against 54 in the previous year. Twenty-seven samples from the Eden Canal were analysed in connection with the proposed water-supply for the Howrah Municipality. The analyses were undertaken at the request of the Public Works Department, with a view to ascertain if the proposed water-supply could be drawn from the Surusuttee river. The results obtained have been unfavourable, and the Lieutenant-Governor has negatived the proposal to draw the supply from this source. Twenty-four samples of well and canal water were also examined at the request of the Board of Revenue. "The analyses," Dr. Warden writes, "were required in order to ascertain if there was any real difference between the well and canal water which would account for the preference shown by the ryots of Behar in using well water for irrigation of the poppy. As might have been anticipated, the well waters contained, as a rule, a far larger amount of dissolved mineral matter than the canal water, the average of 12 wells giving 13·7 grains of dissolved solids per gallon, and the 12 samples of canal water 10·8 grains per gallon—a fact quite sufficient to explain the reason of the Behar ryots' preference for well water." Dr. Warden has made some valuable and interesting experiments with water from a patent tube well sunk in his own compound, and has compared the analyses of the well-water and the water from a neighbouring tank. His remarks are well worthy of consideration. He observes—

"In Lower Bengal, I believe that Norton's patent tube wells are little known, and the following experiment with one is therefore worthy of record. With few exceptions, the tank water in Alipore is of indifferent quality. At my request Messrs. Jessop and Co., Phœnix Iron Works, sunk a tube well in my compound. Water was reached at 21 feet from the surface. The pump is calculated to discharge 400 gallons per hour, and the cost of the pump, tubing &c., was between 70 and 80 rupees. The water thus obtained at first was extremely turbid from finely divided sand; but this has diminished as the pump has

been worked, and I have no doubt that ultimately bright water will be obtained. On analysis the following results were yielded, and for comparison I have also included in the table the analysis of water from a tank situated about 200 yards from the pump, the water of which is largely used:—

	Dissolved solids.	Chlorine.	Free ammonia.	Albuminoid ammonia.	Nitrogen as nitrates and nitrites.	Hardness, Clark's Scale.			Remarks.
						Total.	Temporary.	Permanent.	
Pump water	49·70	·72	·0018	·0096	·0714	24·5	20·5	4	Solid residue white; not the least trace of blackening on ignition.
Tank water	16·16	1·94	·043	0·64	·051	7	4	3	Brown; considerable blackening on ignition.

"The point to which I would first draw attention is the purity of the well water. The water is hard, but the hardness is temporary, and 24 oz. of lime per 1,000 gallons would be sufficient to reduce the hardness about 70 per cent. The pump water represents the sub-soil water, in which the chlorine is under one part per 100,000, while in the tank waters the amount is nearly two parts. Again, as regards the 'free' and 'albuminoid ammonia,' the difference is most striking. These facts point most unmistakeably to pollution of the tank water by sewage. Ordinary tanks and wells, as is well known, are liable to numerous sources of pollution, both direct and indirect. Water obtained by means of a tube well cannot be subject to direct contamination. All polluting matter must first filter through a thick stratum of soil before reaching the water. * * * Before excavating tanks or wells, important information might be gained regarding the fitness of the water for potable purposes by sinking a tube well and having the water analysed; and if municipalities invested in a few tube wells and hired them out to persons desirous of sinking wells, &c., large sums of money might be saved, and cases would not occur in which, after a tank or well has been excavated, the water obtained has proved unfit for use owing to the soil being contaminated, with saline matter."

Speaking of the presence of weeds in water for potable purposes Dr. Warden is of opinion that they not only purify water indirectly by supplying oxygen, but they are also valuable as tending to remove excess of saline matter.

6. The Chemical Examiner has complained of the additional work thrown upon his office in analysing samples of drugs and other substances for the manufacturers or inventors, and he proposes to place certain restrictions on the practice. A reference was separately made to Government on this subject by the Surgeon-General, and the Lieutenant-Governor believes that the orders that have been passed will sufficiently meet the difficulty experienced by Dr. Warden.

7. The Lieutenant-Governor's thanks are again due to Dr. Warden for his good work, and to Baboo Tara Prosunno Roy, Additional Chemical Examiner, and Baboo Ram Chunder Dutt, First (late Second) Assistant, for the help afforded by them to the Chemical Examiner.

Order.—Ordered that a copy of the Resolution and of the Report be submitted to the Government of India in the Home Department for information.

Ordered also that copies of the Resolution be forwarded to the Surgeon-General, Bengal, for information and guidance, and for communication to the Chemical Examiner.

Ordered further that extract paragraph 2 be forwarded to all Commissioners of Divisions for information and communication to District and Sub-Divisional Officers.

By order of the Lieutenant-Governor of Bengal,

COLMAN MACAULAY,

Secretary to the Government of Bengal.

REPORT ON THE WORKING OF THE JUTE WAREHOUSE ACT DURING THE YEAR 1882-83.

The following Report is published for general information :—

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

No. 806M, dated Alipore, the 5th June 1883.

Memo. by—C. C. STEVENS, Esq., Magistrate of the 24-Pergunnahs.

COPY, together with the statements, submitted to the Commissioner of the Presidency Division.

Of the 29 warehouses for the year 1881-82, licenses for seven were not renewed, but in their stead 13 new warehouses were opened during the year 1882-83.

No. 3FB, dated Alipore, the 15th May 1883.

From—R. C. STERNDALE, Esq., Vice-Chairman of the Suburban Municipality,
To—The Magistrate of the 24-Pergunnahs.

UNDER section 27, Act V (B. C.) of 1879, I have the honour to submit, for transmission to Government, the annual report on the working of the Jute Act during the year 1882-83 in the Suburbs of Calcutta, together with a statement shewing the jute warehouses in the Suburbs, for which licenses were granted.

2. The number of warehouses licensed during the year was 98, and the amount of license fee realized on account of the said warehouses, as per accompanying statement, was Rs. 16,220, which, with the amount of fines, Rs. 95, as shewn in paragraph 4, makes up the sum of Rs. 16,315 shewn in the municipal accounts for the year.

3. The following amounts were charged against the Jute Fund, viz. inspection establishment, Rs. 1,884 ; contingencies, Rs. 1-9 ; proportion of executive charges at 10 per cent. on the collection, Rs 1,631-8 ; amount made over to the Commissioner of Calcutta Police for maintenance of fire-brigade, Rs. 9,538-14 as per bills submitted by him.

4. There were six cases instituted against as many persons before the Criminal Bench for breach of the Jute Act, viz. five under clause 1, section 6, Act V of 1879 (B. C.) for using tiled sheds for storing loose jute in contravention of the conditions of the licenses granted to them, and one under section 12, Act V of 1879 (B. C.), for using a tiled shed building and a plot of land as a jute warehouse without a license from the Municipal Commissioners, and an aggregate sum of Rs. 95 was levied as fines inflicted on the said six persons.

5. A statement shewing in debtor or creditor form the income and expenditure under the Jute Act V of 1879 (B. C.), as called for by paragraph 4 of the Government letter No. 723, dated 20th August 1881, is herewith submitted.

6. Twenty-three fires occurred in the Suburbs during the year under review ; a tabular statement shewing the property destroyed by fire and the estimated value thereof as furnished by the Deputy Commissioner of Police is also herewith submitted.

List of Jute and Cotton Warehouses licensed in the Suburbs of Calcutta during the year 1882-83.

No.	Name of the owner or occupier of the Warehouse.	Locality of the Warehouse.	Amount of license fee.	Total.

Extract from the Register of Fires and operation of the Calcutta Fire-Brigade.

Date.	Locality of fire with section letter.	Time of outbreak.	Time of alarm at fire station.	Time of arrival of fire-brigade.	Particulars as to numbers, description of buildings, or other property destroyed, with approximate value, and whether insured or not.	Cause of fire.	Remarks.
1882.							
April, 17th	24-Pergunnahs	11-15 P.M.	11-30 P.M.	12 P.M.	About 55 thatched huts and a small stock of straw just inside of the boundary of 24-Pergunnahs. Damage about Rs. 2,500.	Unknown	There was only a narrow road between the fire and the houses in the jurisdiction of the Suburbs, which would have caught fire if the engines had not been there. All out at 3-15 A.M.
,, 26th	B.—Suburbs, Chitpore.	8-10 A.M.	8-20 A.M.	8-40 A.M.	Two tiled huts, one containing jute and cotton for sale, the other occupied by a tailor. Shaikh Wooseer, the owner of the cotton shop, states that he saw fire suddenly blaze out of the cotton bag, but cannot account for it. Damage about Rs. 100.	Ditto	All out at 9-30 A.M.; steam engine was not required.
May, 5th	M.—Suburbs, Watgunge, Pacoortollah.	2 P.M.	2 P.M.	2-5 P.M.	Twenty two golepatta huts, valued at about Rs. 600. Not insured.	Unknown. Broke out in the house of Rahaman Ally, occupied at that time by his wife and family who can give no account of how it originated.	All out at 5 P.M.
,, 8th	B.—Suburbs, Chitpore.	12-30 P.M.	12-30 P.M.	12-40 P.M.	Two tiled huts, valued about Rs. 70. Not insured.	Unknown. Broke out in the mat wall of the hut occupied by Shaik Haidoo.	All out at 2-30 P.M.
,, 6th	M.—Suburbs, Watgunge.	8-30 P.M.	8-30 P.M.	8-30 P.M.	Four golepatta huts, valued at about Rs. 180. Not insured.	Broke out in the cook-room of Doobree Bewah who was cooking, but left the room for a short time, and when she returned, found the place in a blaze.	All out at 8-30 P.M.

Date.	Locality of fire with section letter.	Time of outbreak.	Time of alarm at fire station.	Time of arrival of fire brigade.	Particulars as to numbers, description of buildings or other property destroyed, with approximate value, and whether insured or not.	Cause of fire	Remarks.
1882.							
Nov., 10th	A.—Suburbs, Cossipore, Camperdown Press.	12 noon ...	12-25 P.M.	1 P.M.	Three large brick buildings used for storing jute, one ditto used as a spinning room, one ditto as press-house, seven presses and machinery, and the spinning room, machinery, jute, &c. Buildings insured; most, if not all, of the jute said to be insured. Value of building and machinery Rs 3,03,000. Value of jute about Rs. 1,84,225.	Unknown. Alleged to have been caused by a spark from the chimney falling upon some loose jute spread out to dry on godown No. 3. Mr. Johnson, the Manager, states that he had just left No. 4 godown at 11-50 A.M., when he heard an alarm of fire on the roof of No. 3, he ran and ordered the enginemen to put on the hose and to the people about to bring water. He got on the roof and thought he was putting the fire out when he chanced to look over the side and saw the press house had caught, ; at the same time one of the skylights of No. 3 seemed to burst, and the smoke poured out the same as from a furnace. He knew he could not save the jute there, so ordered the men to stand clear. He got to the telephone, and communicated with the office at two minutes to 13, and just had time to take the books out of the office, which took about five minutes, when the safe fell through the floor, and by the time he got to the other side of the works, great portions of the roof of No 3 had fallen in, and the flames were pouring into No. 4; there was a stiff blaze at the time, and in half an hour the whole of the godowns burnt were a total wreck. The durwans state that they were near the gate, and the first they knew of the fire was from the workmen's running out, then No. 3 godown was in a complete blaze. Buildings destroyed: Godowns Nos. 1, 3, and 4, value Rs. 1,50,000, press-house Rs. 45,000, presses and machinery Rs. 90,000, spinning room Rs. 7,000, machinery above Rs. 10,000, total Rs. 3,02,000 Buildings saved, engine-house, three godowns, store-godowns, boilers and engines, also chimney, valued at about Rs. 70,000, jute destroyed 3,117 screwed bales, value Rs. 59,225, about 20,000 maunds of loose jute, value Rs. 65,000; total Rs. 1,24,225. Jute saved only about 3,500 maunds, value Rs. 11,375. Buildings insured in the Queen and London and Lancashire for Rs. 3,07,000. Insurance on the jute not ascertained.	Information given by Mr. J. A. Kenison from the office in Wellesly Place, who had received the information by telephone. He arrived here at 12-35, and the engine reached the fire at 1 P.M. The whole range of buildings were then in a blaze, and all the brigade could do was to prevent it from burning the engine house and three small godowns to the north, one was full of jute, the other was not more than half full, t was adjoining the godown on fire, and the walls were very hot, endeavours were made to get the jute removed, which was stacked against the wall, but coolies could not be obtained. In a few minutes more the jute would have caught fire and probably would have communicated to the adjoining godown which was full. As no further time could be lost, the brigade had no alternative but to pour water upon the jute and wall and prevented the fire from spreading in that direction.
,, 27th	J.—Suburbs, Bangalparah.	12 P.M. ...	12-15 P.M.	12-30 P.M.	Twenty small thatched huts, valued at about Rs. 450.	Unknown. Originated in the hut of Anundi Raur who, after smoking, left her hut and soon after saw the roof in flames, which communicated to the adjoining houses.	No. 5 engine remained on the spot till 3 A.M., when all was out. Steam-engine proceeded to Tallygunge, and it was not required as the 20 huts were destroyed within half an hour
,, 28th	E.—Suburb,	10 P.M. ...	10 P.M. ...	10-30 P.M.	One boat containing about 700 maunds of jute, valued at about Rs. 2,500. Not insured; boat also much damaged.	Unknown. Supposed to have originated from fire kept in an earthen pot on board.	All out at 12 P.M.
,, 29th	M.—Suburbs, Tolly's Nullah.	11-30 A.M....	11-30 A.M.	12 Noon ...	Two country boats laden with straw. Damage about Rs. 200.	An empty boat belonging to Buddee Nath Jauna was lying alongside these boats, the men were cooking, and it is alleged that a spark from their fire set the straw on fire	The European Fire-Brigade exerted themselves in throwing the straw into the canal, by which means a quantity was saved; also the boats. All out at 2 P.M.
Dec. 14th	E.—Suburbs, Chitpore, Strand Bank Press.	9-10 P.M...	9-30 P.M....	10 P.M. ...	A large block of buildings about 300 by 150 feet, containing four presses, engines, jute, &c.; also one godown about 300 by 40 feet full of jute, all destroyed. Value of buildings destroyed insured for Rs 94,800, presses and machinery insured for Rs 3,19,000, jute destroyed, valued at Rs. 1,90,000, total loss Rs. 4,93,800. Buildings saved Rs. 45,700, boilers Rs. 12,000; total Rs 57,700. Two large godowns saved full of jute; value unknown, probably Rs. 1,00,000.	Unknown. Mr. Rekee, the Manager, was seated in his house and discovered a light in the jute room. He immediately gave the alarm and set his engine to pump water on the fire, but it spread very rapidly and the whole was in a blaze in a few minutes, work was going on in the mills by lamp-light, but the manager stated that the godown in which the fire originated had not been open for some days.	Arrived at 10 P.M. The buildings destroyed were then all on fire. A quantity of jute in bales and bundles of rope were lying at the north end of the godown destroyed; also between this and the main building which were in a blaze when the brigade arrived. Close to the door of an empty godown the door and door-posts were burnt, but the fire was put out without doing further damage. A number of bales were also lying at the south end of the same godown, which also caught fire, but it was quenched by the engine, and the bales removed which were lying nearest to the godown. It would have been useless for the brigade to attempt putting out the fire, as they only paid attention to the premises not on fire and prevented it from spreading any further. A double range of godowns, about 200 feet long and about 180 feet wide, full of jute, and an empty godown about 60 feet by 38, were entirely saved. Steam engine was left and kept at work till the morning of the 15th, and hand engine till the morning of the 17th.
,, 16th	B.—Suburbs, Chitpore Hydraulic Press.	9-15 A.M....	9-30 A.M....	10-10 A.M	Two large sorting godowns by west and south, valued at about Rs. 70,000, insured for Rs. 60,000. Value of jute destroyed about Rs. 1,50,000.	Unknown. The godowns were opened in presence of one of the managing agents about 8-30 A.M., when everything appeared all right. At about 9 15 flames were suddenly seen issuing from one of the godowns, and in a few minutes communicated to the west.	Steam engine *Ganges* had just returned from the fire at the Strand Bank Press, where it had worked very well, but on putting it to work found the tubes were leaking, and it would not work, had to be sent home. One hand engine still there, 18th December 1883.
,, 21st	E.—Suburbs.	12-30 A.M.	12-30 A.M.	3 A.M. ...	Fifteen golepatta huts, valued at about Rs. 50 Not insured.	Straw in cow-shed caught fire from some fire left in a chatti.	All out at 3 A.M.
30th	E.—Suburbs.	12-30 A.M.	12-30 A.M	1 A.M ...	Four golepatta huts, valued at about Rs 50. Not insured.	Originated in the hut of Troyluko Bewah, through the curtain coming in contact with some fire close to the bed.	All out at 2 A.M.

Date.	Locality of fire with section letter.	Time of outbreak.	Time of alarm at fire station.	Time of arrival of fire-brigade.	Particulars as to numbers, description of buildings, or other property destroyed, with approximate value, and whether insured or not.	Cause of fire.	Remarks.
1883.							
Jan. 17th	J.—Suburbs, Halsarparrah.	12 P.M. ...	12 P.M. ...	12-15 P.M.	Two small golepatta huts, valued at about Rs. 25.	Caused by fire kept in a pan by Thakoor Dass, said to be 100 years old, and his wife Bhyrub Dassie	All out at 1-15 A.M.
	said to be 80 years old, and who always keep fire in a pot in the house and often in their bed, both were burnt to death before assistance could be rendered.						
,, 22nd .	B.—Suburbs Chitpore.	11-45 P.M.	12 P.M.	12-10 P.M.	One hundred and fifty drums of jute stacked up against the pucca wall of a jute-godown	Unknown	All out at 3 A.M.
	belonging to Hurro Nath Biswas: owing to its late arrival had not time to stow it inside: damage about Rs. 80.						
,, 27th .	I.—Suburbs ,,	2-15 P.M.	2-15 P.M.	2-20 P.M.	Four golepatta huts, valued at about Rs. 170.	Originated in the house of Potit Pabonee Bewah, who after cooking left some fire on the hearth and placed some wood upon it to dry which blazed up and caught the mat-wall.	Engine on the spot immediately and prevented the fire spreading. If any delay had occurred, there would have been a large fire: all out at 3-30 P.M.
Feb. 6th .	F.—Suburbs ...	3-45 P.M.	3-45 P.M.	3-50 P.M.	A quantity of jute in drums, damage about Rs. 350.	Drums of jute were being conveyed to the Burranagore Jute Mills and, after being deposited in the compound, caught fire: cause unknown: probably the carters had been smoking on the road and dropped fire into one of the drums.	All out at 5-30 P.M.
,, 13th ..	J.—Suburbs ...	11-45 A.M.	11-45 A.M.	11-50 A.M.	Two golepatta huts, valued at about Rs. 50.	A boy, about five years old, during the absence of his mother, took some fire to some straw in adjoining room.	All out at 1 P.M.
,, 18th...	C.—Suburbs ...	2 A.M.	2-30 A.M.	2-45 A.M.	Nine tiled and golepatta huts; damage about Rs. 200. Not insured.	Fire took place in the house of one Shama, who after smoking left the chelum against the mat-wall, which took fire.	Fire not seen from the look-out owing to a very thick fog. Information sent to Tallah, from thence by telegraph to this office. Brigade proceeded to the spot, but was not required to work. Hose-cart drove over suction pipe of No. 2 engine, and was destroyed about 13 feet. All out at 4 A.M.
,, 22nd...	O.—Suburbs, Mattiaboorj, Dhanketti.	3 A.M.	3 A.M.	3-30 A.M.	Eight golepatta huts, valued at about Rs. 550. Not insured.	Broke out in the house of Binda Kahar from the light of a kerosine lamp catching the mat-wall.	All out at 4 A.M., after which it was discovered that a woman 55 years old, named Wozirun, was burnt to death supposed she was burnt while asleep. Fire not seen from Lall Bazar look-out, probably owing to the high buildings intervening.
March 8th	K.—Suburbs, Alipore.	10-20 P.M.	10-30 P.M.	11 P.M.	One pucca building used as Suburban Municipal Office, value Rs. 2,500	The fire broke out in an office in the upper floor occupied by Mr. Sterndale, Vice-Chairman. There were almirahs, papers, &c., in the office which were all burnt, as well as the beams, windows, and doors of the upper flat. The origin of the fire is not known. There can be no doubt, from enquiries subsequently made, that the fire was caused by lightning.	All out at 1 A.M. The jail engine worked well until it was stopped in order to shift the hose When started again it would not draw water, on examination found that a screw bolt inside the pump was loose. (Easily repaired).
,, 22nd	M.—Suburbs, Watgunge.	4-45 A.M.	4-45 P.M.	5 P.M.	Four tiled huts, valued at Rs. 108.	Fire left burning in chocolah by one Baney Madhub Das.	Fire seen from Watgunge fire station and extinguished by hand-engine. Not seen from police look-out.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 4th August 1883.

ALEXANDER PEDLER,
Offg. Meteorological Reporter to the Government of Bengal.

METEOROLOGICAL AND RAINFALL SUMMARY FOR THE MONTH OF JULY 1883.

JULY is one of the most important months in the year from a meteorological point of view; it is the month which usually brings the heaviest rainfall over the whole of the Lower Provinces, and it is remarkable that, if there are any considerable variations in the rainfall distribution during this month from the normal distribution, they are usually found to remain more or less persistent throughout the remainder of the rainy season. July is the first complete month of the actual monsoon period; for the two branches of the south-west monsoon—the one derived from the Bay of Bengal, and the other from the Arabian Sea—do not usually establish themselves with full force over the whole of the land area until quite the end of June. Considerable importance should therefore be attached to the rainfall for July from two points of view: *first*, as to the actual amounts of rain received during the month, and to its distribution; and *second*, to the indications which the rainfall of July affords as to the probable distribution of rain during the remaining portion of the south-west monsoon.

The circumstances and conditions of the establishment of the south-west monsoon currents in Bengal were fully referred to in the meteorological summary for the month of June; it was there pointed out that the monsoon rains of the Bengal Provinces are brought about by the combined action of the Bay of Bengal monsoon current and the Arabian Sea current. The Bay of Bengal current usually is established by the second or third week in June. The Arabian Sea current has, however, to advance itself slowly across Central India and the Central Provinces, and generally is not fully established until the end of June. In its forward progress it then meets the Bay of Bengal moonson current, and the interaction of the two currents gives rise to an eddying motion of the atmosphere over the area of interference. In normal years, with monsoon currents of average strength, the principal amount of interference of the two currents appears to take place over the North-West Provinces, though the extent and position of the interaction will probably mainly depend on the relative strengths of the two currents.

The Arabian Sea current is mainly westerly, but the character and direction of the Bay of Bengal current is considerably modified by the geographical or rather physical features of the country over which it is flowing. Over the sea area (that is in the Bay of Bengal), the current is probably mainly south-westerly in direction, but as it reaches the coast line and advances over the land area, the gradual deflection is clearly marked; it first changes to a south wind, then to south-east, and finally becomes an almost easterly wind flowing up the Gangetic valley along the base of the Himalayas. It will be evident that the extent of the interference between the two currents will vary according to the place of meeting, or rather according to the angles which the two branches of the monsoon winds make at their junction with each other.

In any case, however, the interaction or intermingling of two currents of moist winds blowing in somewhat different directions must necessarily cause a certain amount of ascensional movement of the air, which will inevitably result in the cooling of the air, and the consequent condensation of a certain proportion of the aqueous vapour in the form of rain; and further, it will probably be true that the greater the amount of interference between the currents, the larger will be the ascensional movement, and the greater the condensation. From these principles, then, it would appear tolerably certain that any marked inrush of westerly winds, brought by the Arabian Sea monsoon current, into Bengal, meeting with the Bengal current, would give rise to heavy rainfall. Further, it would appear that, as the Bay of Bengal current changes its direction, becoming more easterly in its advance over the land area, a greater amount of interaction between the Bengal and Bombay currents would take place in the northern and western divisions of the Province, such as in Behar, in the western districts of Bengal and in Chutia Nagpur, than in the southern districts, and, other things being equal, condensation would be heavier in these districts. With reference to this latter point, however, it must be remembered that, as the monsoon winds flow over the land area, they part with a certain portion of their moisture, and this to a proportional extent will reduce their power of producing heavy condensation in the districts further removed from the sea.

It must not, however, be forgotten that the rainfall during the south-west monsoon is not a steady and continuous action. As mentioned in the meteorological report for June, "it occurs rather as a series of pulsations or waves of aqueous vapour condensation or rainfall. The intervals between the bursts of general rainfall are extremely favourable to the formation of cyclonic vortices at the head of the Bay, which advance landwards towards the Bengal or Orissa coast, and give heavy and occasionally excessive local rainfall to the districts over which they pass." During the formation of these small storms over the sea area, there is generally a certain amount of indraught towards the centre of disturbance, and, as a consequence, the winds over the land area are light and dry, and give rise to little or no rain. Hence, in the discussion of the meteorological conditions of the past month, the two points which have to be kept in view are—*first*, the character and intensity of the two monsoon currents from the Bay of Bengal and Arabian Sea; and *second*, the occurrence, nature, and locality of the small cyclonic storms which are so characteristic of the rainy season.

The normal distribution of the rainfall in Bengal in the month of July would appear to be influenced by a combination of three effects. It is well known that the distribution of rainfall in any country is ordinarily affected by two causes—first, by proximity to sea areas;

and second, by the proximity to a range of hills or mountains. The districts nearest to a sea area, and those in the immediate neighbourhood of hills or mountain ranges, will receive from well understood natural causes a rainfall larger than the districts remote from the same natural features. The third cause acting in the case of the rainfall in Bengal is the intermingling of the two monsoon currents—the one from the Arabian Sea, and the other from the Bay of Bengal. The effect of this action has been explained previously. Two lines of maximum rainfall may then be traced in the normal rainfall in Bengal during July; there is the first line more or less parallel to the sea coast, and the second line of maximum rainfall more or less parallel to the ranges of the Assam and Nepaul Hills. The line of twenty inches average rainfall during July runs through the Eastern Bengal districts at some little distance from the coast line, the distance from the coast increasing as it moves to the eastward. A second line of twenty inches average rainfall is also found along the Darjeeling Hills, running here almost due east and west. The line of fifteen inches average rainfall starts from Saugor Island, and runs in an easterly direction parallel to the first-mentioned line till near the Tippe ah Hills, when it suddenly turns in a north-westerly direction, finally passing through Bogra and Dinagepore, when it is more or less parallel to the line of twenty inches in the Darjeeling Hills. The line of twelve inches average rainfall runs from Northern Behar almost due south-east parallel to the fifteen inch line, but on reaching South-West Bengal it doubles back, running almost parallel to the Chutiá Nagpur district, and finally passing through South Behar until it nearly returns to the point of starting so as to form a closed curve. It will be seen that this line therefore practically follows the line of the basin of the Ganges. Inside this area of average rainfall of less than twelve inches, there are two areas of considerable interest. The first is the area of minimum rainfall of the month, which embraces the Jessore district, some parts of the Nuddea and Burdwan districts, as well as the Rajshahye district, and the second is an area of somewhat increased condensation in parts of the Patna district. The Chutia Nagpur Division during the month receives a normal rainfall of between twelve and fifteen inches. This somewhat larger amount of rainfall is probably produced by the intermingling of the two branches of the monsoon currents as before explained.

The position of minimum *normal* rainfall during this month, as noted above, is certainly remarkable, but it is perhaps susceptible of explanation on the principles above laid down. The western and the north-western divisions of the Province are influenced by both the Arabian Sea and Bay of Bengal monsoon currents, which by their intermingling produce increased condensation or a larger amount of rainfall. This intermingling probably in normal years does not extend very far beyond the Chutia Nagpur districts. The southern districts of the Province receive somewhat increased rainfall owing to their proximity to the sea. The eastern and northern districts of the Province are influenced by the ranges of mountains or hills to which they are adjacent, and they also by well known physical laws will receive considerable rainfall under the action of moist winds. It is therefore only the central districts, such as mentioned above, which are uninfluenced by any of the causes which are calculated to produce additional rainfall, and they are consequently the districts in which the average rainfall is the smallest of the whole Province.

Meteorological summary of month.—The concluding days of June had witnessed the formation of a small cyclonic vortex of moderate intensity, accompanied by strong winds, on the neighbourhood of the Sandheads. This had moved slowly westwards across the Orissa Hills into the Central Provinces, and had caused considerable indraught of strong southerly winds across the Bengal coast. The southerly winds gradually died away on the 1st and 2nd of the month, and were feeble on the 3rd. On the 4th instant a second barometric depression commenced to form close to the coast of the Sunderbuns, probably near the Sandheads. This cyclonic vortex was, however, a feeble one, considerably more feeble than the former one, and after remaining stationary for two days, it gradually moved westwards and crossed the Balasore coast on the evening of the 7th instant. It advanced across the North Orissa hills into the Central Provinces, where apparently it broke up on the 9th. Southerly winds were again established over the Bengal coast with the passage of this vortex inland, and they continued to blow with moderate strength for some days.

These two cyclonic vortices caused considerable indraught towards the centres of disturbance from all sides, and thus their formation and advance westwards were accompanied by the setting in of more or less northerly winds in North Bengal, which, as well as in subsequent cases, it will be seen considerably affected the rainfall of Central Bengal for the month.

On the 10th instant a new cyclonic vortex began to be developed, but on this occasion it was formed much further south than in the previous instances, and also nearer to the Arrakan coast. The vortex developed slowly on the 11th, and commenced to move in a westerly direction on the morning of the 12th, and it apparently crossed the coast to the south of False Point near Gopalpore on the evening of the 13th. During the formation and passage of this vortex, the southerly winds in Bengal were to a great extent replaced by northerly winds of indraught towards the vortex, and it was only after the storm had passed inland that the southerly winds re-established themselves over the Province.

The Bombay monsoon current was at this period blowing strongly across the Bombay coast into the Central Provinces and Central India; on the 16th westerly winds set in at the Chutia Nagpur stations, and at the more southerly stations in South Behar. They gradually extended their area of action till they blew with moderate velocity over Orissa, Chutia Nagpur, South-West Bengal, Behar and the north-west angle of the Bay. Here

they met the Bengal currents of moderate intensity which were blowing, and the effect of the meeting of the two moist wind currents in Bengal was to produce a considerable amount of ascensional movement in the air, and therefore to diminish pressure till Bengal became a shallow, but large, area of barometric depression. This interaction of the two currents was of course attended by a large amount of vapour condensation, and the rain which fell during this period from the 17th to the 21st was heavier, more general, and more uniformly distributed than at any other period of the present monsoon. Both currents, however, rapidly decreased in strength, and by the 24th instant light unsteady winds prevailed over the greater part of the Province. Strong monsoon winds were, however, blowing in the south, and probably over the greater part of the Bay, and these conditions gave rise to the formation of an area of disturbance of rather wide extent over the head of the Bay. This, however, did not localise itself into the usual well-defined cyclonic vortex, but remained as a large shallow depression over the Sunderbuns, which was stationary up till the 27th, and then advanced westwards into the southern districts of Chutia Nagpur. With the advance of this large area of depression, a considerable inrush of moist monsoon winds took place into Bengal. This caused very heavy rainfall, especially in the Eastern Bengal districts, which continued for some days, and which was accompanied by a falling barometer. The continuance of these conditions gave rise to the formation of a new area of shallow barometric depression, which was so diffused that it was almost impossible to exactly localise the centre. The lowest barometer, however, was recorded in the neighbourhood of Dacca, and the depression after remaining stationary for one day advanced on 1st August in a north-westerly direction, and gradually filled up on the following day.

One of the noteworthy features in the meteorology of the second half of the month has been the persistence of a strongly marked westerly set in the winds of Chutia Nagpur, Orissa, Behar, and South-West Bengal. This appears clearly to be due to the Bombay branch of the monsoon currents forcing its way further to the east in Bengal than usual; while on the other hand, it would also appear to indicate that for the second half of the month the current for the Bay of Bengal has been somewhat weaker than usual.

The actual rainfall received in the Province during the month of July has, when the whole area only is considered, been of a fairly average character, but the distribution of the rainfall has varied from the normal to a very considerable extent. Thus when the average rainfall of each meteorological district is considered, it is found that South-West Bengal received a rainfall about 18 per cent. in excess of the normal amount; Chutia Nagpur received an average excess of 12 per cent. over the normal fall; Orissa an excess of 4 per cent., and South Behar and East Bengal an excess of 3 per cent. On the other hand rainfall in North Behar was on the average 18 per cent. in defect of the normal fall, and North Bengal 22 per cent. in defect of the normal. If, however, the various districts are considered to have an equal value in such a calculation, it will be found that the percentages in excess and defect of the normal exactly neutralize one another, and thus it may be fairly stated that, when the whole area of the Province is considered, the rainfall was about equal to the average. Taking, however, the distribution of the rainfall as roughly indicated by the above percentages, it will be found that the western, southern, and central districts received amounts in excess of the normal fall, while the northern divisions received a very deficient rainfall.

The area of excess rainfall varying from about +10 inches down to zero above the normal may be also said to include the districts between the mouth of the Hooghly on the west and Chittagong on the east, and to extend in a north-westerly direction nearly to Patna, a branch of the area of excess rainfall turning towards north-east, and including Eastern Bengal and Hill Tipperah. This area therefore includes practically the whole of South-West Bengal, East Bengal, the southern parts of South Behar, and the western districts of Chutia Nagpur, and it clearly includes that area of the country which has been principally subjected to the action of the cyclonic vortices described previously. A further area of excess rainfall starts from Orissa in a north-westerly direction through Chutia Nagpur, and includes the eastern districts of this division. This again is another area which has been affected by the passage of cyclonic vortices during the past month. Between these two areas of excess rainfall there is an area of diminished rainfall, the line of which appears to coincide very fairly with the direction of the Chutia Nagpur hills, and which runs along at their base. Northern Bengal and Behar are wholly in defect by amounts varying generally from zero up to 10 inches; the lines of maximum defect rainfall are nearly parallel to the line of the Himalayas, and the defect lessens with the distance from the hills. Two or three striking irregularities should, however, be mentioned, the first being the abnormally light rainfall received at Rungpore and some of the districts adjacent to it, and a somewhat similar case at Mymensing, and the abnormally heavy falls received in the Burdwan and Ranigunge districts, and at Satkhira, in the Khoolna district.

It would appear probable that the excess rainfall over the large areas noted above is due to the action of two of the causes mentioned in the meteorological summary. The first cause is the more extended action of the Bombay current during this month, causing an intermingling with the Bengal current further to the east than usual, thus producing increased condensation or rain, and carrying the lines of heavy rainfall more to the east; and second, to the passage in a north-westerly direction from the head of the Bay of Bengal of the various barometric depressions noticed above, each depression causing heavy rainfall over the districts through which it passed. But from the indraught from all sides

which these depressions always cause in their formation and advance, it is clear that somewhat northerly winds of indraught must have frequently obtained in the northern divisions, and thus the south-west monsoon winds have not been able to exert their full force on such divisions as North Bengal and North Behar, and it is possible that their deficient rainfall may be thus accounted for.

The deficiency in the rainfall during this month was then most marked in the following districts:—In the Darjeeling district the defect from the normal value was about 12 inches; in the Rungpore and Purneah districts the defect averaged 5 inches; in the Bogra, Dinagepore, Backergunge and Cooch Behar districts the defect was about 4 inches; and in the Mozufferpore district about 3 inches. Some parts also of the following divisions have suffered from deficiency of rain:—Noddea, Chittagong and Chittagong Hill Tracts, Mymensing and Durbhanga. The remainder of the Province, with these exceptions, has received ample rain, while in some cases as at Raniganje, Burdwan, &c., there have been centres of abnormally heavy rainfall.

The following table gives a summary of the rainfall and temperature data for the seven meteorological divisions of the Province:—

Meteorological District.	Temperature.						Rainfall.							
	Highest observed during month.	Lowest observed during month.	Average for month			Average mean of month above or below normal mean month.	Of month.			Rainy days.			Since 15th May.	
			Of highest of the month.	Of lowest of each day.	Of mean for each day.		Average.	Normal average.	Variation.	Average number in month.	Normal average number.	Variation.	Average.	Normal average.

Explanation Indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If some of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, 10TH AUGUST 1883.

THE meteorological history of the past week has been more or less uneventful, as the weather has been to a certain extent fairly normal in character in Bengal. There have been no cyclonic vortices generated at the head of the Bay, as had been the case in each previous week since the commencement of the monsoon rains, and thus there have not during the past week been the well marked and almost sudden changes of meteorological conditions, together with the heavy inrushes of moist winds over the land area, especially over the southern and western portions of the Province, which have been so characteristic of most of the earlier weeks of this monsoon. The variations then in the conditions for the week have resulted almost wholly from the variations in the effects, probably both simple and combined, of the two great monsoon currents, the more important are derived from the Bay of Bengal, and the other from the Arabian Sea. During normal monsoon weather in July in Bengal, it is probable that the effect of the Arabian Sea current is felt in the western districts of Chutia Nagpur as a more or less westerly wind, but that its effect cannot be distinctly traced even in the easterly parts of this division in ordinary years, while the Bay of Bengal current, as a southerly and even in some cases a south-easterly wind, supplies the greater part of the moist winds which give general rain over the whole of the Province of Bengal. As has been pointed out in previous reports, however, the two branches of the monsoon currents moving in different directions must, over the area where they meet, produce a certain amount of ascensional movement of the air, and thus cause precipitation of rain more or less heavy in amount.

At the close of the last weekly report, it was shown that the two branches of the monsoon current were more or less normal in character and force, and this state of affairs continued on the 4th instant. On the following day, however, the Bombay branch of the current increased in strength, and westerly winds prevailed in Chutia Nagpur and South Behar. With the advance of the westerly winds the Bay of Bengal current appeared to be forced towards Eastern and Northern Bengal, and the result of the combination of this effect with the intermingling of the two currents was to produce heavy and very general rain over the whole Province. The westerly winds over the greater part of the Province, and the heavy general rain continued on the 6th; and on the 7th, with the gradual retreat of this westerly current, the rainfall over the southern and central districts decreased, though in East and North Bengal the Bengal current was continuing to give a considerable amount of rain. At this time there was a very rapid increase of pressure, especially in North Behar; the winds began to fall off in velocity, and on the 8th instant a more or less pronounced break in the rains was established, which was distinctly marked in Behar and in Chutia Nagpur. The break in the rains continued on the 9th instant, and extended to a part of Central and South-West Bengal, though in Eastern and Northern Bengal rain still continued to fall. On the 9th instant the barometer commenced to fall rapidly, and on the 10th wind velocities were increasing, and the area of rainfall enlarging, though it had not extended fully to Behar and Chutia Nagpur. At the close of the week, the Bay of Bengal monsoon current still appeared to be somewhat weak, while from the strong westerly winds which prevailed in Behar and Chutia Nagpur, it would appear that the Bombay monsoon current was still affecting these districts somewhat strongly. At the close of the week also the tendency of the winds over Bengal was to set up a cyclonic circulation.

Pressure has been almost continuously above the normal throughout the week. The average excess has varied from 0·072″ at Calcutta to ·001," or practically a normal pressure at Purneah. In the middle of the week at North Behar (Durbhanga) the pressure was nearly two-tenths above the normal Temperature on the whole has been nearly normal, though if anything a little in defect. It has of course varied somewhat from day to day, but until the close of the week the variations were more or less alternating. With the establishment, however, of the break in the rains above referred to, temperature rose somewhat rapidly, and in Behar and South-West Bengal, particularly at the close of the week, temperature was above the normal by amounts varying from 5° down to about 2°. Patna has again registered the maximum temperature of the week (96°), and this station has reported the maximum daily temperature almost continuously every day. Westerly winds have again been a strongly pronounced feature in the wind directions of Behar, Chutia Nagpur, Orissa, and South-West Bengal, and, as pointed out above, they have materially influenced the meteorology and rainfall of the week.

The following table gives a summary of the temperature and rainfall data for the seven meteorological divisions of the Province:—

METEOROLOGICAL DISTRICT.	TEMPERATURE						RAINFALL.									
	Highest observed during week.	Lowest observed during week.	Average for week.			Average mean of week above or below normal mean week.	Of week.			Rainy days.			Since 1st of month.		Since May 15th.	
			Of highest of each day.	Of lowest of each day.	Of mean for each day.		Average.	Normal average.	Variation.	Average number in week.	Normal average number.	Variation.	Average.	Normal average.	Average.	Normal average.

The rainfall for the past week has been over the whole area of the province about equal in quantity to that of the previous week, but the distribution has been very different. While in the previous week, Orissa, East Bengal, and North Bengal were receiving a rainfall below the normal, in the past week the same divisions have received an excess fall. Again, in the previous week South-West Bengal, North and South Behar and Chutia Nagpur received an excess fall, while during the past week all these divisions, except North Behar, were in defect. The two weeks have therefore been more or less compensatory in their effects. Taking the whole area into consideration, the rainfall has been above the average, for while the excess rainfall in some areas has been large, the defect has in all cases been comparatively small.

The past week has been principally notable from the excess in rain received in Northern Bengal, for the excess amount over the normal fall in this district has been 184 per cent.; that is, Northern Bengal has received nearly three times its usual amount within the week. The excess in this division is principally in the districts of Rungpore, Julpigoree and Darjeeling.

The case of Rungpore is specially noticeable, for this station and the surrounding districts have been for the whole of the monsoon season up to the present week receiving rainfall far in defect of the normal, the amount recorded being generally about one-third to one-fourth of the average for the period. The rainfall for this week in the Rungpore district has, however, been between three and four times the average amount, while in the Julpigoree district it has been more than five times the normal. The other divisions do not show so large an excess, Eastern Bengal following next with an excess amount of 50 per cent.; in this division the principal excess was received in Chittagong, Chittagong Hill Tracts, Noakhally, and Mymensingh. Mymensingh again was a district which during the past month received deficient rainfall. Orissa and North Behar received a slight excess fall varying from 4 to 2 per cent., but the distribution was fairly general. South Behar reports a rainfall 35 per cent in defect, the defect being strikingly noticeable in Shahabad and Gya. In Chutia Nagpur and South-West Bengal there has been a deficient rainfall by about 12 or 13 per cent. of the normal, and in the former division the fall has been very irregular. Thus though the whole division on the average is in defect. Raneegunge and Berhampore districts have received a distinct excess. The Raneegunge district has in fact been a centre of heavy rainfall for some months past. In all divisions, even in those which have received deficient rainfall, the number of rainy days has been about equal to the average for the week, while in those districts which have received excessive rainfall the rainy days were above the normal. The whole Province has on the average received rain in 4·5 days during the past week.

The rainfall of the past week has brought up the averages of those districts which were previously deficient very considerably, and all the districts except East Bengal and North Bengal have received a rainfall during the present monsoon, *i.e.*, since 15th May, in excess of the average. Even in these two divisions the defect is comparatively small, amounting to not more than about 7 per cent. of the normal fall.

Saturday, 4th August.—Pressure gave way slightly over the whole of the Province, excepting in South Behar and Chutia Nagpur. The changes were everywhere small, and did not alter the distribution of pressure, which varied from the normal by amounts ranging from ·04″ in excess at Dacca to ·03″ in defect at Burdwan and Jessore. Temperature continued to increase, and was above the average in Orissa and Bengal, but below it in Behar and Chutia Nagpur. The variations from the normal were, however, small. Patna registered a maximum temperature of 96·0. The winds were slightly weaker. They were unchanged in direction, except at Gya and Hazaribagh, where they shifted from east to west and north-north-west, respectively. No change of importance occurred in the humidity. Sky was lightly clouded in Orissa and South-West Bengal. It was overcast in East Bengal, and thickly clouded or overcast at the majority of the stations in Behar and North Bengal. Light general rain fell over almost the whole Province; the rainfall was less general in Orissa, South-West Bengal, and in South Behar. The heaviest rainfalls occurred in Northern Bengal and in the Chumparun district. Mickligunge, in the Cooch Behar district, reported 5·0 inches, while Motihari, Sewan, Julpigoree and Bishenpore (in the Bankoora district) received amounts varying from 2 to 3 inches.

Sunday, 5th August.—Pressure decreased at the great majority of stations. The decrease was greatest in North Behar and in North Bengal, especially along the foot of the hills, where it amounted in some cases, as at Julpigoree, to nearly a tenth of an inch. Pressure was now below the normal in Eastern Bengal and in South Behar, being nearly ·06″ in defect at Jessore, ·04″ in defect at Dacca and ·03″ in defect at Patna. Temperature generally diminished, especially in Orissa and in the south-westerly districts of South Bengal. Elsewhere the changes were small, and temperature was still rather above the average at the majority of stations. Winds slightly diminished in intensity. They became strongly westerly in direction in South Behar and in Chutia Nagpur, and in other localities they also shifted round more towards the west. The air became much damper, and was at most stations abnormally moist, especially in North and East Bengal. The sky was heavily clouded in most divisions, particularly in North and East Bengal and in North Behar. Heavy and very general rainfall was reported from almost all districts. It was least general in some of the districts of South-West Bengal, but heavy local rainfalls were reported over this area. Rainfalls of over five inches were reported from Kaudi (Moorshedabad

district), Julpigoree, Mickligunge, Matabhanga (Cooch Behar), and Buxa. Rainfalls of from two to five inches were reported from Banpur (Orissa). False Point, Balasore. Midnapore, Ghatal, Bishenpore, Bhola (Backergunge), Baloorghat (Dinagepore), Rungpore, Bagdogra, Dinhatta, Cooch Behar, Siligoori, Sitamarhi, Godda, and Pachamba.

Monday, 6th August.—Pressure increased rapidly in all parts of the Province. The rise of the barometer was greatest in the western divisions and least in Eastern Bengal. At several stations the rise exceeded a tenth of an inch, so that pressure was generally above the average. Pressure was ·094 inches in excess at Durbhanga, and at the stations in Orissa, Chutia Nagpur, South-West Bengal, and South Behar, it was on the average about ·05″ in excess of the normal. Temperature had not varied much, but remained somewhat above the average at most stations. Temperature fell locally at a few stations in consequence of heavy rain. Westerly winds had again extended over a greater part of the Province, and embraced Chutia Nagpur, Orissa, South Behar, and South-West Bengal. Southerly winds still continued in East Bengal, but in North Bengal and North Behar they were variable. The wind velocities were in all cases very small. Humidity continued very high in all divisions, except South Behar. In North Bengal and North Behar the air was practically saturated with moisture. The sky was almost completely overcast in all divisions, except South Behar. General rain, moderate to heavy in amount, fell over the whole Province. The rainfall was heaviest in some of the districts in Northern Bengal, and which it should be noticed had previously been centres of much diminished rainfall. Rungpore in the two days, 5th and 6th instant, received 7·31 inches, while in the previous month it was at least seven inches in defect. Rainfalls in excess of five inches were to-day reported at the following stations:—Noakholly, Rungpore, Cooch Behar, Matabhanga, Buxa, and Bhagulpore.

Tuesday, 7th August.—Pressure increased very rapidly over all parts of the Province. In some cases, as at Purneah, the increase was reported to be nearly two-tenths of an inch. The increase of pressure was somewhat irregularly distributed, but on the whole it was largest in Northern Bengal and in North and South Behar. Pressure was uniformly above the normal for the day by amounts which varied from 0·175″ at Durbhanga to 0·083″ at Dacca. Temperature was still rather above the normal for the day at the stations in Orissa and South-West Bengal, but it was below the average in North Bengal, in Behar and in Chutia Nagpur. Westerly winds still remained more or less persistent, especially in North and South Behar, and in North Bengal. In South-West Bengal and Orissa, winds became rather more southerly again. Wind velocities had again diminished, and feeble winds were now blowing over the whole Province. The air had become very much drier, and humidity was now distinctly below the average for the time of year. Cloud proportions had also diminished generally, especially in North Bengal, and North and South Behar. Rainfall in South-West Bengal almost ceased on this day; elsewhere as a rule light showers only were reported. The largest amounts were still falling in North and East Bengal Chittagong received 3·9 inches, and Sitamarhi (Durbhanga) 2·5 inches, but there were only a few rainfalls of more than one inch reported.

Wednesday, 8th August. Pressure commenced to fall over the northern divisions of the Province, but scarcely altered in the eastern and southern divisions. The fall was greatest in Behar, where it amounted to about five-hundredths of an inch. Pressure was, however, still above the average for the day by amounts which varied from 0·126″ at Calcutta to 0·06″ at Gya. Temperature fell over the greater part of the Province, except in Behar, and locally in the southern districts. In South-West Bengal, temperature was still above the average for the day, but elsewhere temperature was lower than the normal. Winds still continued to be strongly westerly over the whole Province, except in Eastern Bengal. The westerly set was particularly well-marked in Behar, in Orissa and in Chutia Nagpur. This westerly set of the winds has been a very prominent abnormal characteristic of the present monsoon. Wind velocities continued small, though there was a distinct increase in intensity at most stations since the 7th. Humidity increased somewhat rapidly in Orissa, South-West and East Bengal; but in Behar the air was much drier. Cloud proportion had also increased in South-West Bengal, and over the greater part of Orissa, but in Behar the sky had cleared to such an extent that a large proportion of the stations reported almost cloudless weather. On this date, South-West Bengal began again to receive rain in small amounts, while rainfall continued to decrease in Behar and Chutia Nagpur. The rainfall in some parts of North Bengal was heavy, but in almost all other cases it was light, and did not average more than a few tenths of an inch; at Fenny, in the Noakhally district, an abnormally heavy fall of 6·26 inches was reported. Only a few stations received amounts in excess of one inch.

Thursday, 9th August.—Pressure continued to decrease briskly. The decrease was greatest in the North Behar and North Bengal districts, where it in some instances amounted to more than 0·1″. The fall was greatest at Durbhanga. Notwithstanding this rapid fall of the barometer, pressure was still above the average for the day at almost all stations. The excess pressure was well marked in South-West Bengal and in Orissa, where it varied from 0·076″ at Calcutta to 0·033″ at Burdwan. Temperature increased in the southerly and westerly districts, but decreased in North Bengal and in Behar. It was distinctly above the average for the day at most reporting stations, the largest excess amounts being 4° at Durbhanga, and 3° at Patna and Cuttack. Wind directions became a little more southerly than reported on the 8th, but the westerly

MEMORANDA.

The following table exhibits the mortuary statistics of the districts in Bengal for the month of June 1883. The leading features revealed by it are—

1. That the deaths of 83,360 persons were recorded in these districts, being at the rate of 15 per 1,000 of their population amounting to 66,162,926, against 16·32 per 1,000 in the preceding month, and 18·60 per 1,000 in the corresponding month of 1882.

2. That the highest death-rates were reported to have occurred in the following districts :—

	Ratio per mille.
Julpaiguri	31·32
Shahabad	29·76
Darjiling	24·00
Gya	23·64
Nuddea	21·48
Burdwan	21·36
Patna	21·00
Durbhanga	20·76

3. That the total mortality was distributed under the following specific heads of disease, and at the rates per 1,000 of population noted opposite them :—

Cholera	2·04
Small-pox	12
Fever	9·84
Bowel-complaints	·60
Injury	·48
Other causes	1·68

4. That while small-pox and bowel complaints prevailed with only normal severity generally, cholera and fever exhibited great activity in the following districts :—

Cholera.	Ratio per mille.	*Fever.*	Ratio per mille.
Julpaiguri ...	17·64	Burdwan ...	17·52
Shahabad ...	12·72	Nuddea ...	17·16
Darjiling ...	11·88	Bhagulpore ...	15·72
Gya ...	8·28	Rajshahye ...	15·12
Durbhanga ...	7·44		
Mozufferpore ...	5·52		

5. That the death-rates under the heads of *Sex, Class* and *Age* stood as follows :—

According to Sex.

	Ratio per mille.
Males ...	16·92
Females ...	13·20

According to Class.

	Ratio per mille.
Christians ...	12·00
Hindus ...	15·96
Mahomedans ...	13·32
Budhists ...	11·40
Other classes ...	14·64

According to Age.

	Ratio per mille.
Under 1 year ...	79·08
1 and under 5 years ...	16·44
5 and under 10 „ ...	8·40
10 and under 15 „ ...	7·44
15 and under 20 „ ...	10·92
20 and under 30 „ ...	11·76
30 and under 40 „ ...	12·72
40 and under 50 „ ...	15·84
50 and under 60 „ ...	21·48
60 years and upwards ...	30·48

F. W. A. DEFABECK,

Offg. Sanitary Commissioner for Bengal.

The 13th August 1883.

set continued to be strongly marked. In Chutia Nagpur, at Hazaribagh, and also at Buxar, a somewhat north-westerly wind was even reported. Wind velocities were decidedly increasing with the falling barometer. In South-West, East and North Bengal the sky remained very clouded; but in Behar the sky was clearing very rapidly. Humidity remained almost unchanged over the clouded area, but where the sky was clearing the air was becoming much drier. This was particularly the case in South Behar.

There was to-day a distinct break in the rains in South Behar and in most districts of North Behar, Chutia Nagpur, and South-West Bengal. The rainfall even in the remaining districts was very irregularly distributed, and seemed to consist principally of local showers which were, however, sometimes large in amount. Rainfall was most general in East and North Bengal. The following stations recorded amounts above four inches:—Cooch Behar, Matabhanga, and Rungamati, while Jaipore (Cuttack), Cox's Bazar, Chittagong, Serajgunge and Mickligunge received amounts between two and four inches.

Friday, 10th August.—Pressure again diminished slightly over the whole Province, with the exception of certain parts of North Bengal. The diminution of pressure was greatest in South Behar, where, at Bhagulpore, it amounted to 0·074". Pressure was now below the average of the day in Behar, but above the average in most of the other districts of the Province. Temperature increased decidedly in South-West Bengal, in Behar and in Chutia Nagpur; elsewhere the variation was small in amount. The temperature was now above the normal in Behar by amounts varing from 5° to 1°, while in South-West Bengal it was above the average by amounts which averaged about 2° to 3°. The winds in Eastern and Northern Bengal had become decidedly more easterly, while in Behar the westerly element has increased. The tendency was therefore towards setting up cyclonic circulation. Wind velocities were in most cases small, but at the southern stations velocities were somewhat increasing. Humidity had increased very rapidly in North Bengal, and less rapidly in East Bengal. Darjeeling reported this morning a perfectly saturated atmosphere. In Behar and Chutia Nagpur humidity was much below the average. In East and North Bengal the sky was almost completely overcast, but in Behar the cloud proportion was very small.

The break in the rains continued over the whole of Behar and also in most of the districts of Chutia Nagpur, of Orissa and of South-West Bengal, all of which were practically rainless on this day. The heaviest rainfall continued to occur in North and East Bengal, and it was particularly heavy along the line of the hills, especially in the Cooch Behar district. In this district Matabhanga reported 10·41 inches, Cooch Behar 9·04 inches, and Mickligunge 4·07 inches. Buxa also registered 7·73 inches, and Cox's Bazar 5·29 inches. Several stations in these two divisions also received amounts in excess of two inches.

METEOROLOGICAL OFFICE, BENGAL,
The 13th August 1883.

ALEXANDER PEDLER, F.C.S.,
Offg. Meteorological Reporter to the Govt. of India.

MEMORANDA.

THE following table exhibits the vital statistics of the first class Municipalities in Bengal for the week ending 28th July 1883. The following summary has been deduced from this table:—

(1) That births and deaths were registered in these Municipalities at the rates, respectively, of 22·9 and 31·1 per 1,000 of population, against 18·3 and 28·4 per 1,000, respectively, in the preceding week ending 21st July, indicating a considerable advance in the registration of both births and deaths.

(2) That the following Municipalities returned the highest proportions of births and deaths:—

Births.	Ratio per mille.	*Deaths.*	Ratio per mille.
Gya ..	94·3	Gya ..	88·1
Hughli ..	32·2	Poori ..	47·1
Poori ..	32·1	Monghyr ..	41·6
Bhagulpore ..	29 9	Bhagulpore ..	38 0
Chittagong ..	25·8	Patna ..	36·7
Serampore ..	25·5	Midnapore ..	35·6
Durbhanga ..	25·2	Santipore ..	34·5
		Burdwan ..	33·6
		Arrah ..	33·5
		Ranaghat ..	29·9
		Suburbs of Calcutta ..	29·6
		Mozufferpore ..	28 0
		Hughli ..	26·9

(3) That the rates at which the several death-causes proved fatal, in comparison with the rates of the preceding week, were:—

	Ratio per mille during the weeks ending—	
	28th July.	21st July.
Cholera	5·0	5·6
Small-pox	·4	·3
Fever	13·1	11·4
Bowel-complaints	5·0	4·3
Injury	·5	·4
Other causes	7·1	6·4

shewing that, with a decrease in the mortality from cholera, there was an increase in the fatal results from all the other diseases.

(4) That cholera and fever were noticeably fatal in the following Municipalities:—

Cholera.	Ratio per mille.	*Fever.*	Ratio per mille.
Gya ..	36 2	Santipore ..	32·3
Poori ..	17·1	Gya ..	28·0
Midnapore ..	17·0	Burdwan ..	24·4
Monghyr ..	12·7		
Arrah ..	8·4		
Hughli ..	6·7		
Mozufferpore ..	4·9		

(5) That the death-rates under the heads of *Sex*, *Class*, and *Age* stood as follows:—

According to Sex.	Ratio per mille.	*According to Class.*	Ratio per mille.	*According to Age.*	Ratio per mille.
Males ..	31·9	Christians ..	28·3	Under 1 year ..	266·6
Females ..	30·2	Hindus ..	32·6	1 and under 5 years ..	47·7
		Mahomedans ..	28·0	5 and under 10 years ..	26·1
				10 and under 15 „ ..	23·0
				15 and under 20 „ ..	20·9
				20 and under 30 „ ..	20·8
				30 and under 40 „ ..	15·8
				40 and under 50 „ ..	23·5
				50 and under 60 „ ..	25 4
				60 years and upwards ..	53·1

F. W. A. DEFABECK,

The 13th August 1883. *Officiating Sanitary Commissioner for Bengal.*

Statement showing the Results of the Registration of Births and Deaths in the First Class Municipalities in Bengal during the week ending 28th July 1883.

The mean presnre, temperature &c. are deducted from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers All the thermometers are varified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 86 formerly at the Surveyor-General's Office

The hpgrometic elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnaults modifications of August's formula.

The direction of the movement of the wind are taken from the trace of a Beckley's anemogragh.

Tha mouth of the rain-gauge is one foot above the ground.

o overcast, p passing temporary showers, g gloomy, d drizzling rain, lr lightning reflection, t thunder.

ALEXANDER PEDLER,
For Meteorological Reporter to the Government of India.

METEOROLOGICAL OFFICE, INDIA,
The 13th August 1883.

Abstract of the results of Meteorological Observations taken at the Alipore Observatory in the month of July 1883.

		Date.	hour
	Inches.		
The mean pressure of the month	29·509		
The average pressure of 24 years	29·537		
The highest pressure during the month	29·697	15th	10h.
The lowest pressure during the month	29·325	26th	16h.
The range of pressure during the month	0·372		
	Hours.		
The total number of hours of bright sunshine during the month	187		
	°		
The mean temperature during the month	82·8		
The average temperature of 24 years	83·5		
The highest temperature during the month	92·5	11th	
The lowest temperature during the month	74·9	18th

The greatest depression of nocturnal radiation thermometer below the minimum of air	4·4	17th	
	Miles.		
The mean movement of the wind per day	134·1		
The greatest movement of the wind in one day	283·0	7th	
The greatest movement of the wind in one hour	18·0	7th	9 to 10 A.M., noon to 1 P.M., 4 to 5 P.M.

The number of hours under each of the 8 points—

N. 10, NE. 21, E. 74, SE. 129, S. 158, SW. 230, W. 68, NW. 25, Calm 29.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park-street Observatory). The barometer is about 8 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0·6° greater; and finally, the thermometer, which has furnished the record of temperature at the Surveyor-General's Office during the last 20 years and upwards, is found to read 0·6° higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

METEOROLOGICAL OFFICE, INDIA,

The maximum temperature during the seven days		91·3
		%
The mean relative humidity during the seven days		88
		Inches
The total fall of rain from 5th to 11th August 1883		2·19

The mean temperature and humidity are obtained by applying to the mean of the 10h, 16h, and minimum readings a correction dependent on the range, and derived from the hourly observations at the Surveyor-General's Office, Chowringhee, in past years.

Meteorological Office, India.
The 13th August 1883.

Alexander Pedler,
For Meteorological Reporter to the Govt. of India.

Abstract of the results of the Thermometric Observations taken at the Meteorologica Office, Chowringhee, in the month of July 1883.

		°	Date.
The mean temperature during the month		82·4	
The highest temperature during the month		92·3	11th
The lowest temperature during the month		75·7	18th
The range of temperature during the month		16·6	
The mean daily range of temperature during the month ...		9 7	
The greatest range of temperature in one day during the month ...		12·5	10th
		%	
The mean humidity during the month		89	
		Inches.	
The mean vapour tension during the month		·986	
The total rainfall of the month		15·97	
The greatest fall in 24 hours		3·12	4th
		Days.	
The number of rainy days in the month		25	

Alexander Pedler,
For Meteorological Reporter to the Govt. of India.

Meteorological Office, India,
The 9th August 1883.

PUBLIC WORKS DEPARTMENT, IRRIGATION BRANCH, BENGAL.

Statements showing the total amount of traffic and tolls on the Circular and Eastern Canals and Nudden Rivers for the month of May 1883.

The 13th August 1883.

C. W. Odling,
Under-Secy. to the Govt. of Bengal, in the P. W. Dept.

Report on Traffic of the East Indian Railway during five weeks ending 30th June 1883.

The approximate figures for the period are as follow :—

	Coaching.		Goods.		Total.	Materials carried on Revenue account, including maintenance.	
	No.	Rs.	Mds.	Rs.	Rs.	Mds.	Rs.
1883	1,143,766	11,11,028	1,03,51,909	41,95,951	53,06,979	37,62,805	1,10,634
1882	896,919	9,82,889	84,29,616	29,87,125	39,70,014	27,04,590	1,10,635
Increase	251,847	1,28,139	19,22,293	12,08,826	13,36,965	9,58,715	8,819
Decrease	.....	.....	.....	.....	.....	.....	.....

Increases—

Number af passengers	28	per cent.
Coaching earnings ...	13	„
Weight carried ...	22	„
Goods earnings ...	40	„
Total „ ...	33	„

Coaching.

The only features worthy of note are the falling off in intermediate class passengers with double journey tickets, the cause for which has already been explained, and the large increase of 35 per cent. in the number of 3rd class passengers carried, and 19 per cent. in receipts from that source.

The reduction of the 3rd class fare, and the large number of passengers travelling short distances owing to local fairs and festivals, will explain the comparatively small increase in receipts for the improved traffic.

The following statements exhibit the audited coaching traffic for the period, and particulars of increases and decreases a stations.

Statement of audited Coaching Traffic during five weeks ending 30th June 1883 as compared with 1882.

Patna	.....	290	Passengers to Raneegunje for Juggernath pilgrimage, and reduction of 3rd class fare.
Dinapore	.....	680	3rd class passengers.
Allahabad	... ..	1,610	Troops traffic to O. & R. Railway.
Total Decrease ...	.....	5,360	
Net Increase ...	169,130	88,640	

Goods.

The following staples show where the principal fluctuations have occurred:—

	Mds.	Rs.
Increases.		
Commissariat beer	10,870	22,130
Coal, upwards	1,23,540	43,460
Do., downwards	1,96,460	26,850
Cotton	12,290	11,090
Wheat	18,26,970	8,97,200
Pulses	46,140	16,940
Gunny	44,610	44,490
Railway material (Foreign)	91,660	72,070
Seeds	3,58,150	1,79,110
Decreases.		
Government Ordnance stores	4,650	16,280
Rice	1,01,110	37,460
Piece-goods	11,330	21,250
Materials in Construction account	3,48,590	9,760
Saltpetre	17,350	10,540
Sugar	33,440	10,880

The train mileage for the period has been, excluding maintenance and locomotive coal train mileage—

	Coaching.	Goods.	Total.
	Rs.	Rs.	Rs.
1883	3,17,217	8,54,713	11,71,930
1882	2,45,896	4,91,483	7,37,379
Increase	71,321	3,63,230	4,34,551
Decrease	...	...	...

Earnings per train mile, excluding materials carried on Maintenance and Revenue account—

	Coaching	Goods.	Total.
	Rs. A. P.	Rs. A. P.	Rs. A. P.
1883	3 8 0	4 14 7	4 8 5
1882	3 15 11	6 1 3	5 6 2
Increase	.....	.....	.....
Decrease	0 7 11	1 2 8	0 13 9

Shunting mileage increase hours 2,027.
Necessitated by the increase in the traffic.

HALF-YEARLY FIGURES.

The approximate figures for the half-year ended 30th June are as follow:—

	Coaching.		Goods, excluding revenue, materials and minerals.		Total.
	No.	Rs.	Mds.	Rs.	Rs.
883	5,656,166	63,34,834	5,03,51,019	1,85,93,519	2,49,28,353
882	5,148 481	71,21,607	4,82,96,884	1,69,08,097	2,40,29,704
Increase	507,685	.....	20,54,135	16,85,422	8,98,649
Decrease	.....	7,86,773	.....	.....	.....

Showing as a general result an increase of 3·74 per cent in revenue.

The following is a statement shewing the increases and decreases of the principal staples during half-year ended 30th June 1883:—

The following is a statement showing the increases and decreases of principal staples during half-year ending 30th June 1883.

Report of Fluctuation of Traffic on the Eastern Bengal Railway for the month of May 1883.

EASTERN BENGAL RAILWAY COMPANY, TRAFFIC SUPERINTENDENT'S OFFICE, SEALDAH TERMINUS.

No. W44-138, dated Calcutta, the 25th July 1883.

From—C F. CHADBURN, Esq., Acting Traffic Superintendent, Eastern Bengal Railway Company,
To—The Agent, Eastern Bengal Railway Company.

I HAVE the honour to forward herewith the usual comparative statement of traffic for the month of May last, as compared with the corresponding period of last year, from which it will be observed that the gross weight carried over the line for the period under reference was 10,52,217 maunds, or an increase of 1,87,738 maunds, equal to about 22 per cent over that of 1882.

The principal items of fluctuations are as follow:—

INCREASES.

Jute, screwed ... ... 24,959 } = 1,64,838 Mds.
Do, unscrewed ... ... 1,39,879 }

This large increase is very satisfactory. Of the screwed jute 85 per cent. came from Narayangunge, and of the unscrewed jute by far the largest proportion has been carried by our own vessels, and that working in connection with the Serajgunge service.

Cotton, raw and manufactured ... ... 9,635 Mds.

There has been an increased demand since last report, which has resulted in shipments from Dacca and Narayangunge of the raw material

Gunny ... ... 5,118 Mds.

This is principally from the Northern Bengal State Railway, and is due to an increased demand to meet the influx of seeds into the market.

Seeds ... ... 11,161 Mds.

A rising market with good prices accounts for this increase, which is principally in linseed and mustard seed.

Salt ... ... 36,887 Mds.

The late large supply at up country stations having been exhausted, further stock has been sent up to meet demands.

Sugar ... ... 13,622 Mds.

This increase is due to increased cultivation, owing to less jute being grown this year, and is principally from Kissengunge, Choondanga, and Alamdanga, although all stations north of Choondanga, except Coomercolly, have in a small measure contributed towards the increase, there being no despatches from those stations during the corresponding period of last year.

Ginger ... ... 4,410 Mds.

Principally from the Northern Bengal State Railway. A good crop accounts for this.

Hides and skins ... ... 5,966 Mds.

Nearly the whole of this increase is from Dacca. A steady demand and fair prices for good hides for export is the reason.

Revenue stores ... ... 22,908 Mds.

Material for the Dacca and Mymensingh State, as also for the Bengal Central Railways, is still going steadily forward.

Miscellaneous ... ... 27,258 Mds.

This traffic is steadily on the increase, and is no doubt due to the increased facilities afforded the public for despatching goods to Darjeeling and adjacent districts.

DECREASES.

Coal and coke ... ... 60,611 Mds.

The same remarks apply as those mentioned in the comparative statement for April, viz., the opening of the Circular Canal.

Grain and pulses ... ... 86,720 Mds.

This decrease is due to up-country stock having run out, fair prices during the previous month having created a demand.

Tobacco ... ... 10,428 Mds.

This decrease may be accounted for in the same way as that for grain and pulses There has been a considerable falling off in the receipts from the Northern Bengal State Railway, and were it not for the increased traffic in this commodity from Goalundo the figures would be considerably higher.

EASTERN BENGAL RAILWAY.

Statement showing Increases and Decreases in Maundage of Staples carried over this Line for the month of May 1883, as compared with that of the corresponding period of 1882.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 13th August 1883.—It is notified for general information that, in the exercise of the power conferred on him by section 321 of Act V (B.C.) of 1876, the Lieutenant-Governor extends the limits of the Perozepore Union, in the Perozepore sub-division, in the district of Backergunge, so as to include within the said union the whole village of Perozepore and the villages of Masimpore and Krishnagar, with effect from the 1st October 1883.

The revised boundaries of the Perozepore Union will be as follows:—

North—Lakhakati Dhon, Tezkatti Dhon, Bharani khal, the villages of Chalisha, Juzkhola, and Rajarkati.
South—The villages of Nemozpur, Khankatti, and Sareektola.
West—Nimoor Bharani khal, chur Kodamtola, and river Balessar.
East—Domartola village, the rivers Damudar and Kaligunge.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 13th August 1883.—It is hereby notified for general information that the Lieutenant-Governor directs that the ferry over the river Soobunreka, at Kalikapore, in the district of Balasore, shall cease to be a public ferry, under the provisions of Regulation VI of 1819, with effect from the 1st September 1883.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 13th August 1883.—Whereas a notification dated the 14th May 1883, declaring the intention of the Lieutenant-Governor to extend the provisions of Part IX, chapter II, Act V (B. C.) of 1876 to the Burdwan Municipality was published at page 414, Part I of the *Calcutta Gazette* of the 23rd idem, and whereas no objection has been raised to the measure, the Lieutenant-Governor hereby extends, under section 299 of the Act, the provisions of Part IX, chapter II of the Act to the Burdwan Municipality, with effect from the 1st October 1883.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 13th August 1883.—It is hereby notified that, under section 3, Regulation VI of 1819, the Lieutenant-Governor declares the following lines of crossing over the rivers Kacha and Garta, on the road from Ghalokati to Perozepore, in the district of Backergunge, to be public ferries :—

(1)—Over the river Kacha from Suhidpore to Kewari and Denokhali.
(2)—Over the river Garta from Suhidpore to Kowkhali and Raghunathpore.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 13th August 1883.—The District Engineer of Nuddea is appointed to be a member, of the Drainage Commission appointed, under sections 4 and 5 of Act VI (B.C.) of 1880 in Government notification dated the 9th August 1882, for the purpose of carrying out the provisions of the Act in connection with the drainage and improvement of the Mahisgari and Kristopore *bheels*, otherwise known as the Osmanpore and Jalapara *bheels*, in the Kooshtea sub-division of the district of Nuddea.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 15th August 1883.—It is hereby notified for general information, under section V of Regulation VI of 1819, that the ferry over the river Chota Brahminee, at Patamoondee, on the Kendrapara and Chandbally road, in the district of Cuttack, which was declared to be a public ferry by the notification of the 6th May 1877, is closed, and that its name is struck out of the list of public ferries.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 15th August 1883.—Whereas a notification dated the 6th May 1883, declaring the Lieutenant-Governor's intention to extend the provisions of the Bengal Vaccination Act, V (B.C.) of 1880, to the Cuttack Cantonment was published in the *Calcutta Gazette* of the 16th idem, and whereas no objection to the proposal has been raised within six weeks from the date of such publication, the Lieutenant-Governor, in the exercise of the powers conferred on him by section 1 of the above Act, directs that the Act shall be in force within the cantonment with effect from the 15th September 1883.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 16th August 1883.—It is hereby notified that, in the exercise of the powers conferred on him by section 3, Act IV (B.C.) of 1865 (an Act for the prohibition of the practice of inoculation), the Lieutenant-Governor intends to extend the provisions of the said Act to the Jehanabad thana, in the district of Gya, with effect from the 1st October 1883, unless good reasons to the contrary are shown within one month from the date of this notification.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 15th August 1883.—It is hereby notified for general information that, under section 10 of Act V (B.C.) of 1883, the Lieutenant-Governor approves the rates of hire specified below, which have been fixed by the Commissioners of the Darjeeling Municipality, at a meeting, in respect of all coolies empowered to work by the job or for any period not exceeding 24 hours.

1. The above rates are for adults—men or women: children to receive half rates.
2. Carriage or haulage of machinery, or any package over 4 maunds in weight, to be arranged for by special contract.
3. Any person engaging coolies through a Mandal or Sirdar shall pay Sirdari at rate of 2 pice a coolie for one day only.
4. A sirdar engaged to accompany coolies on a march to receive 8 annas a day, and 2 pice a day for every coolie employed.
5. A dandywala may engage as a porter, but a porter shall not be compelled to serve as a dandywala.
6. By the Act the term 'coolie' is "limited to porters and to dandywalas, and other persons employed in carrying, drawing, or propelling any vehicle."
7. The above rates are for marches only. Halts must be arranged for separately, and travellers can take the daily rates as a guide.

COLMAN MACAULAY,

Secretary to the Government of Bengal.

NOTIFICATION.

The 13th August 1883.—It is hereby notified, for general information, that the Lieutenant-Governor intends to confirm, after one month from this date, the following bye-laws, which have been framed by the District Road Cess Committee of Chittagong under section 180 of the Cess Act, 1880:—

(1)—Whoever encroaches on any part of a district road by cultivating crops or otherwise, and the owner of any animal found grazing within the boundaries of any such road, shall be liable to a fine not exceeding Rs. 10.

(2)—Whoever, without the special permission of the Chairman or Vice-Chairman of the Road Cess Committee, causes an obstruction by cutting any part of a road, or by erecting any bank for the purposes of irrigation or drainage, shall be liable to a fine not exceeding Rs. 10.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 15th August 1883.—Under section 4 of Act VII of 1871 (the Indian Emigration Act), the Lieutenant-Governor approves the appointment of Dr. Rivers to act as Emigration Agent at Calcutta for the Colonies of St. Lucia and Grenada, during the ensuing season, in conjunction with Mr. O. W. Warner, the Agent for Trinidad.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 21st August 1883.—The following notice is published for general information.

A. P. MACDONNELL,
Offg. Secy. to the Govt. of Bengal.

GOVERNMENT OF BENGAL, GENERAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 36).

INDIA—EAST COAST.

BAY OF BENGAL—GODAVERY DISTRICT.

COCANADA.

Replacing of Red Buoy off Point Gordeware (Godavery).

WITH reference to this Departmental Notice to Mariners, No. 28 of the 4th July 1883, the Port Officer, Madras, has notified that the large *red* buoy, with pole and basket, which was laid in 6¼ fathoms, low water, to the northward of the Godavery shoals, has been replaced.

The bearing of the Hope Island light from the *red* buoy is S. by W. ¾ W.; the Vakalapudi light bears from the buoy N. W. by W. (magnetic).

Approaching Cocanada from the southward by night, a ship should not haul in for Vakalapudi light till it bears W. N. W.; by day, she should pass fully half a mile northward and eastward of the buoy.

By direction of the Government of Bengal,

J. MENTEITH BREBNER,
Offg. Port Officer of Calcutta.

PORT OFFICE, *Calcutta, the 17th August* 1883.

[Second Publication.]

NOTIFICATION.

The 10th August 1883.—It is hereby notified, under section 19 of the Indian Forest Act (VII of 1878), that the tract of land, in the district of Darjeeling, described below, which, in a notification dated the 18th February 1882, published at page 162 of the *Calcutta Gazette* of the 22nd February 1882, it was proposed to constitute a reserved forest, shall from the 1st September 1883 be a reserved forest under the said Act.

District.	Pergunnah or other sub-division.	Name of forest.	Boundaries.
Darjeeling ...	Hill territory ...	An addition to the Munjha Forest Reserve.	On all sides Government Forest Reserve.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 10th August 1883.—It is hereby notified, under section 19 of the Indian Forest Act (VII of 1878), that the tract of land, in the district of Darjeeling, described below, which, in a notification dated the 18th July 1882, published at page 642 of the *Calcutta Gazette* of the 26th July 1882, it was proposed to constitute a reserved forest, shall from the 1st September 1883 be a reserved forest under the said Act :—

District.	Pergunnah or other sub-division.	Name of forest.	Boundaries.
Darjeeling ...	Hill territory ...	An addition to the Munjhoa Forest Reserve.	*North.*—A small stream running through Pingloo Tar to the Balasun river. *East.*—The Balasun river. *South.*—The Munjhoa Forest Reserve. *West.*—A demarcated line from the Munjhoa plateau to the small stream which forms the northern boundary.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 3rd August 1883.—The following notice is published for general information.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

GOVERNMENT OF BENGAL, GENERAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 34.)

AUSTRALIA—SOUTH COAST.

SPENCER GULF.

APPROACHES TO PORT AUGUSTA.

Change in the Channel to the Port.

THE President, Marine Board, Port Adelaide, has given notice that a channel, one mile in length, having a width of 150 feet, and a depth of 18 feet at low water ordinary spring tides, has been cut through the reach leading from Brown's Point towards Port Augusta.

About two cables length of the southern portion of the reach it has been widened to 300 feet.

Also, that small *cask* buoys, painted *black*, have been placed to mark the port side of the channel.

Masters of vessels bound for Port Augusta should leave the *red* beacons on the starboard hand at a distance of from 75 feet to 100 feet.

By direction of the Government of Bengal,
J. MENTEITH BREBNER,
Offg. Port Officer, Calcutta.

PORT OFFICE, *Calcutta, the 30th July* 1883.

NOTICE TO MARINERS.—(No. 35.)

MALAY PENINSULA—WEST COAST.

MALACCA STRAIT.

FORMOSA BANK.

Temporary alteration of light during repairs to the Formosa lightship.

THE Government of the Straits Settlements has given notice that, owing to the light-ship *Formosa's* removal from her station off the Formosa Shoal or Bank, the revolving white light hitherto shown from that vessel will be discontinued, on and after the 15th day of August 1883.

While the *Formosa* is undergoing repairs the Government schooner *Horsburgh* will exhibit a *fixed* white light from her main masthead, and the light should be visible in clear weather at a distance of 7 to 8 miles.

The schooner, which has two masts, will be painted *black*. By day she will carry a *blue* ensign at the maintopmast head, and a ball painted *red* at her foremast head.

A gong will be sounded during thick or squally weather.

By direction of the Government of Bengal,
J. MENTEITH BREBNER,
Offg. Port Officer of Calcutta.

PORT OFFICE, *Calcutta, the 30th July* 1883.

DECLARATION.

The 14th August 1883.—Whereas it appears to the Lieutenant-Governor that land is required to be taken up by Government, at the expense of the Nuddea Municipality, for a public purpose, viz. for the site of a building for the office of the municipality of Nuddea, it is hereby declared that for the above purpose a piece of land measuring about 7 beeghas in extent, situate in the town of Nuddea, pergunnah Ukhura, district Nuddea, is required. It is bounded on the east by the mango garden of Baboo Raghu Nandan Banerji and the bamboo plantation of Baboo Jodu Nath Bhattacharji; on the south by the public road in Radhaballavamata; on the west by the tank of Baboo Durga Das Banerji; and on the north by the bamboo plantation of Baboo Kedar Nath Chakravarti and the lands of Baboos Koilas Chandra Bhattacharji and Gopal Chandra Pal.

The plan of the land required may be inspected at the office of the Nuddea Municipality.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

JUDICIAL DEPARTMENT.

No. 2030A.

The 7th August 1883.—The Lieutenant-Governor vests Mr. W. O'Reilly, Deputy Magistrate, Monghyr, with powers under section 110 of Act X of 1882.

The 9th August 1883.—Mr. R. W. Carlyle, Officiating Joint Magistrate and Deputy Collector, in charge of the Gopalgunge sub-division of the Sarun district, is vested with the powers of a Magistrate of the first class.

The 15th August 1883.—Baboo Jogendro Nath Deb, Additional Munsif of Monghyr, is appointed to be an Additional Munsif in the district of Gya, and to be ordinarily stationed at the sudder station of that district with effect from the date on which he joined his appointment.

Baboo Uma Churn Kar is appointed to act as a Munsif in the district of Gya, and to be ordinarily stationed at the sudder station, during the absence, on leave, of Moulvie Abdul Bari, or until further orders, with effect from the date on which he joined his appointment.

Baboo Girish Chundra Chowdhry, Second Subordinate Judge, Dacca, is appointed, under section 3 of Act X of 1870, to perform the functions of a Judge under that Act in that district.

Baboo Sham Lall Haldar, Munsif, is appointed to act as a Munsif in the district of Shahabad, and to be ordinarily stationed at Arrah as Additional Munsif, *vice* Moulvie Abdul Aziz, on leave, with effect from the date on which he joined his appointment.

The 17th August 1883.—Mr. A. E. Staley, Officiating Joint Magistrate and Deputy Collector, Dacca, is invested with the power to try summarily the offences mentioned in section 260 of the Code of Criminal Procedure.

In supersession of the order of the 25th June last, Baboo Purna Chunder Roy, Munsif of Basirhat, in the 24-Pergunnahs district, is appointed to be a Munsif in Chota Nagpore, and to be ordinarily stationed at Purulia.

Baboo Nilmadhub Banerjee, Munsif of Ranchi, in Chota Nagpore, is appointed to be a Munsif in the district of Chittagong, and to be ordinarily stationed at North Putteah.

In supersession of the order of the 25th June last, Baboo Gokul Chand, Munsif of Aurungabad, in Gya, is appointed to be a Munsif in Chota Nagpore, and to be ordinarily stationed at Ranchi.

GRANT OF LEAVE TO MUNSIFS.—*The 20th August* 1883.—The leave, for two months, granted to Baboo Janokey Nath Dutt, First Munsif of Comillah, in the district of Tipperah, under rule 1 (*a*), section 72, chapter V of the Civil Leave Code, and notified at page 620 of the *Calcutta Gazette* of the 18th July 1883, is commuted to privilege leave under rule 2, section 72 of the Code.

Baboo Syam Chand Roy, Munsif of Gurbetta, in the district of Midnapore, is allowed leave for three months, viz. one month on full pay under rule 2, section 72, chapter V of the Civil Leave Code, and two months on half pay under rule 1 (*a*), section 72 of the Code, with effect from the 3rd September 1883.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 7th August 1883.—It is hereby notified that the Sangoor outpost, subordinate to the police station of Barripore, in the district of the 24-Pergunnahs, will henceforth be called Protabnugore.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 13th August 1883.—The following amended notification is published in lieu of the notification dated 30th July 1883, which appeared in Part I, page 660 of the *Calcutta Gazette* of the 1st instant:—

It is hereby notified that, under the powers vested in him by section 3 of Regulation III of 1872, the Lieutenant-Governor directs that Act X of 1882 (the Code of Criminal Procedure) shall have force and effect in the whole of the Sonthal Pergunnahs.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT,—BENGAL.

The 20th August 1883.

No. 290.—*Transfer.*—Mr. J. C. Wyatt, Assistant Engineer, first grade, is transferred from the Chittagong Railway Surveys to the establishment under the control of the Engineer-in-Chief, Nagpore Railway Surveys, in the interests of the public service.

No. 291.—*Reversion.*—Mr W. B. Beatie, Executive Engineer, fourth grade (temporary rank), Darjeeling Division, to revert to Assistant Engineer, second grade, with effect from the 31st July 1883.

No. 292.—*Addendum.*—After the words "undermentioned villages" in this department notification No. 286 of the 13th August 1883, published in the *Calcutta Gazette* of the 15th idem, insert the words "in the Rangpore district."

LOCAL COMMUNICATIONS.

The 20th August 1883.

No. 293.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz. for bridges of Mirja and Hamjah, on the 3rd mile of Ramgurh road in the village of Salukbohor, Muradpur, and Sholoshohor, thana Town, zillah Chittagong, it is hereby declared that for the above purpose a piece of land measuring, more or less, 6 beeghas 14 cottahs 16 dhoors and 8 chittacks of standard measurement, bounded on the north by Kasim's land and road leading to burial ground, west by Hamidulla's hill and Manoo Sowdagur's tank and hasila land, south by Choonoo Constable's house and Assanullah's tank, east by Assanullah's tank, Abdallah Khan's land, and Manoo Sowdagur's ditch and land, is required within the aforesaid village of Salukbohor and Muradpur and Sholoshohor.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

No. 294.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz. for a roadway of the East Indian Railway in the village of Sagarbhanga, pergunnah Silampur, zillah Burdwan; it is hereby declared that for the above purpose a piece of land measuring, more or less, 11 beeghas 18 cottahs 11 chittacks of standard measurement, bounded on the north by Rama Garie, Ramdhan Naik, Taring Naik, and Doyal Pal's land, public tank, and Balaram Ker, Ram Bistoo Shain, Ramjeban Mondal, and Rama Garie's land; on the west by Rama Garie's land and public road; on the south by railway line; and on the east by railway land, is required within the aforesaid village of Sagarbhanga.

A copy of the land plan may be seen in the office of the Assistant Engineer, Chord Line, district Assensole.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

The 21st August 1883.

DACCA COMMR.'S OFFICE, *the 15th August* '

NOTIFICATIONS OF THI JARD OF REVENUE.

No. 926B.

STAMPS. H. A. Cockerell, Esq., C.S.I.

THE following Resolution of the Government of India, No. 2153, dated 20th July 1883, in the Department of Finance and Commerce, is republished for general information.

RESOLUTION.

Simla, the 20th July 1883.—"The attention of the Board of Revenue, Lower Provinces, was recently directed to a case in which a bank had granted a duplicate receipt to another bank on unstamped paper, although the original receipt was stamped with a duty of 1 anna, and the money for which the original receipt was granted was required to be accounted for to a party other than the depositor. The case was referred to the Advocate-General for opinion as to whether the duplicate receipt was liable to stamp duty, and the following opinion was given by him":—

"A receipt for money is an instrument within the meaning of the Stamp Act (Act I of 1879). It follows that a duplicate receipt mentioned in this case is liable to a stamp of 1 anna un[illegible] Article 23(*a*) of Schedule I."

2. "[illegible]Governor-General in Council is pleased to direct that steps may be taken to make the op[illegible]n of the Advocate-General known to the public."

By order of the Board of Revenue, L.P.,

C. E. BUCKLAND, *Offg. Secretary.*

CALCUTTA, *the 7th August* 1883.

No. 931B.

OPIUM. H. A. Cockerell, Esq., C.S.I.

SEALED tenders will be received at this office up to noon of Wednesday, the 22nd August 1883, for removing all the chests of abkaree and provision opium which may be brought down to the Presidency from the Patna and Ghazipore opium factories by railway during the period of one year, from the 1st September 1883, from the East Indian Railway Company's wagons at Howrah and from the ferry steamer at Armenian Ghât (as may be necessary) to the Government godowns situated within the Custom House premises, and also to

the new opium godowns at Coilah Ghât, and there stacking them as the intendant in charge shall from time to time direct.

2. The tenderer should state the rate per 100 chests, all charges to be incurred to be included. The person whose tender may be accepted will have to deposit security to the amount of one thousand rupees, and supply seventy good English tarpaulins (15′ × 10′) for covering the chests during transit in case of rain.

3. The Board of Revenue does not bind itself to accept the lowest or any tender.

By order of the Board of Revenue, L. P.,

C. E. BUCKLAND, *Offg. Secretary.*

Calcutta, the 9th August 1883.

No. 893B.

NOTICE is hereby given that the Ninth Sale of Opium, the provision of 1881-82, will be held at the Government Opium Sale-room, No. 2, Bankshall-street, on Monday, the 3rd September 1883, at 11 A.M., and will comprise 4,450 chests, viz:—

	Chests.
Opium manufactured at the Patna Factory of 76° consistence ...	2,225
Do. do. do. Ghazipore Factory of 72° consistence ...	2,225
Total ...	4,450

2. The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 28th November 1882, and published in the *Government* and *Exchange Gazettes*, or on personal application at the office of the Board of Revenue.

3. The latest dates for deposit and clearance will be the 8th and 18th September 1883, respectively—that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 1-30 P.M. of Saturday, the 8th September 1883, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Tuesday, the 18th September 1883.

4. Including the quantity above advertised for sale, the following quantities, more or less, of the Opium manufactured at the Patna and Ghazipore Factories will be brought to sale up to December next about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so:—

DATES.	Manufactured at the Patna Factory, about chests.	Manufactured at the Ghazipore Factory, about chests.	Total, about chests.
On or about Monday, 3rd September 1883	2,225	2,225	4,450

In the case of a Mate Leadsman and Leadsman Apprentice ..	50	„

No. 2748.—In exercise of the powers conferred by Sections 5 and 7 of the Local Authorities Loan Act, 1879, the Governor-General in Council has made the following Rules for the raising of loans by Local Authorities in the open market :—

1. These rules shall come into force on the 1st day of September 1883. On and from that date the rules published with Notification No 3715, dated 8th November 1879, in so far as they relate to the authorization of loans, shall be rescinded except as regards loans authorized before these rules come into force.

2. In these Rules (1) "The Act" means "The Local Authorities Loan Act, 1879 ;" (2) "Local Authority" and (3) "Funds" have the meanings assigned to them respectively in the Act ; (4) "The Local Authority" means "The Local Authority applying for permission to raise or, as the case may be, raising or having raised the loan" ; and (5) "Loan" means "A Loan under the Act"

3. A loan must be defined in rupees and not by the sterling or any other foreign standard.

4. No loan shall be raised except for the construction or repair of works of public utility within the local limits of the jurisdiction of the Local Authority, or for the benefit of the inhabitants within those limits.

5. Whenever it is desired to obtain the authorization of the Government to the raising of a loan under Section 7 of the Act, a statement shall be submitted to the Local Government showing—

1st, the work or works for the construction or repair of which the loan is required, and an estimate of the cost thereof :

2nd, the amount which it is proposed to borrow :

3rd, the fund or funds on the security of which it is proposed to borrow :

4th, the law or laws under which the said fund or funds is or are levied, received or held :

5th, the period for which the loan is required, the number and amount of the instalments, if any, in which it is proposed that the loan shall be taken, the dates proposed for receiving such instalments, and the instalments, if any, in which it is proposed to repay the loan :

6th, the yearly proceeds of each of the funds received or held by the Local Authority :

7th, all expenditure incurred by the local authority in each of the three last preceding years :

8th, all existing prior charges upon the funds of the Local Authority.

6. The Local Government shall cause such enquiry as it thinks necessary or expedient to be made into the statements contained in the application and into the use and value of the proposed work.

7. If it appears to the Local Government that the loan ought not to be raised, it shall reject the application.

8. If it appears to the Local Government probable that the loan ought to be raised it shall cause to be published in the local official Gazette, and otherwise, as it deems fit, within the local limits of the jurisdiction of the Local Authority, a copy of the application and such particulars in regard to any enquiry made under Rule 6 as it may think necessary.

9. After the expiry of one month from such publication, and after calling for any further information which it may require, and considering any objections which may be perferred, the Local Government may either reject the application, or refer it for the orders of the Governor-General in Council.

10. The Local Government shall make such provision as may seem to be necessary for the proper inspection of all works which are being carried out by means of a loan, and for ascertaining and securing that the loan is duly applied to the purposes for which it is raised. Every such work, and the accounts connected therewith, shall be open at all times to the inspection of the Superintending or Executive Engineer in whose division the work is situate, and of any person who may be authorized to inspect the accounts of the Local Authority, and of any other person specially authorized by the Local Government in this behalf.

11. The cost of any enquiry made under Rule 6, of advertisements published under Rule 8, of inspections made under Rule 10, and of any other proceedings by order of the Local Government or the Governor-General in Council under these rules, shall be determined by the Local Government, and shall be paid by the Local Authority.

12. The Local Authority shall give to the Accountant-General and the Local Government any information which they may require regarding the expenditure of the loan, and regarding its funds.

13. An attachment of any funds under section 6 of the Act shall be made by a notice to the Local Authority prohibiting the collection or management of such funds by the Local Authority, and vesting the administration thereof in such officer as the Local Government may appoint. Such notice shall be published in the local official Gazette, and otherwise, as may be directed by the Local Government, within the local limits of the Local Authority.

The moneys collected or received under such attachment shall be paid to the lender, and the accounts of moneys so collected, and of the cost of collection, shall be prepared in such form as the Local Government may from time to time direct. A copy of the accounts shall be delivered to the Local Authority, and published in the local official Gazette.

No. 2749.—In exercise of the power conferred by Section 5 of the Local Authorities Loan Act, 1879, the Governor-General in Council has made the following rules for the grant of loans to local authorities by the Government :—

1. These rules shall come into force on the 1st day of September 1883. On and from that date the rules published with Notification No. 3745, dated 8th November 1879, in so far as they relate to the granting of loans, shall be rescinded except as regards loan granted before these rules come into force.

2. In these rules (1) "The Act" means "The Local Authorities Loan Act, 1879," (2) "Local Authority" and (3) "Funds" have the meanings assigned to them respectively in the Act; (4) "The Local Authority" means "The Local Authority applying for or, as the case may be, receiving or having received the loan"; and (5) "Loan" means "A Loan under the Act"

3. A loan must be defined in rupees and not by the sterling or any other foreign standard.

4. No loan shall be granted except for the construction or repair of works of public utility within the local limits of the jurisdiction of the local authority, or for the benefit of the inhabitants within those limits

5. Without the consent of the Government of India, no loan shall be granted to any District Committee for the construction of any public work, unless it be estimated that a direct net revenue will be derived therefrom equal to at least Four per centum per annum on its capital cost. Provided, however, that the Local Government may make a loan, not exceeding Rs. 5,000, to a District Committee, for a work designed especially to employ labour for the purpose of relieving distress.

NOTE.—A District Committee does not include a municipal body.

6. An application for a loan shall state—

1st, the work, or works for the construction or repair of which the loan is required, and an estimate of the cost thereof:

2nd, the amount which it is proposed to borrow:

3rd, the fund or funds on the security of which it is proposed to borrow:

4th, the law or laws under which the said fund or funds is or are levied, received or held:

5th, the period for which the loan is required, the number and amount of the instalments, if any, in which it is proposed that the loan shall be taken, the dates proposed for receiving such instalments, and the instalments, if any, in which it is proposed to repay the loan:

6th, the yearly proceeds of each of the funds received or held by the local authority:

7th, all expenditure incurred by the local authority in each of the three last preceding years:

8th, all existing prior charges upon the funds of the local authority.

7. The Local Government shall cause such enquiry as it thinks necessary or expedient to be made into the statements contained in the application and into the use and value of the proposed work.

8. If it appears to the Local Government that the loan ought not to be granted, it shall reject the application.

9. If it appears to the Local Government probable that the loan ought to be granted, it shall cause to be published in the local official Gazette, and otherwise, as it deems fit, within the local limits of the jurisdiction of the local authority, a copy of the application and such particulars in regard to any enquiry made under rule 7, as it may think necessary.

10. After the expiry of one month from such publication and after calling for any further information which it may require, and considering any objections which may be preferred, the Local Government may either reject the application, or, subject to the provisions of Rule 11, grant the loan, or refer the application for the orders of the Governor-General in Council.

11. (*a*) Save as provided in clause (*b*) of this Rule, the Local Government may make a loan from any sums which the Governor-General in Council allots for the purpose.

(*b*) If the loan exceeds Rs. 5,000, the previous sanction of the Governor-General in Council is necessary.

12. The Local Government shall make such provision as may seem to be necessary for the proper inspection of all works which are being carried out by means of a loan, and for ascertaining and securing that the loan is duly applied to the purposes for which it is made. Every such work, and the accounts connected therewith, shall be open at all times to the inspection of the Superintending or Executive Engineer in whose division the work

is situate, and of any person who may be authorised to inspect the accounts of the local authority, and of any other person specially authorised by the Local Government in this behalf.

13. If the Local Government considers that the conditions on which a loan was granted have not been fulfilled, or that the local authority has failed to comply with any of the requirements of these Rules, it may, at any time order that no further payments shall be made on account of such loan, and recover the amount advanced, with interest thereon, in the manner prescribed by Section 6 of the Act.

14. Interest shall be charged half-yearly on each loan at the rate agreed upon; and shall be reckoned and paid on each instalment from the date on which it is received.

15. The local authority may, at any time with the previous consent of the Local Government, repay the whole or any part of a loan made from the public treasury in advance of the periods fixed by the conditions of the loan.

16. The cost of any enquiry made under Rule 7, of advertisements published under Rule 9, of inspections made under Rule 12, and of any other proceedings by order of the Local Government or the Governor-General in Council under these Rules, shall be determined by the Local Government, and shall be paid by the local authority.

17. (*a*) The accounts of every loan shall be kept by the Accountant-General of the Province in which it is made.

(*b*) The local authority shall give to the Accountant-General and the Local Government any information which they may require regarding the expenditure of the loan, and regarding its funds.

18. An annual statement of all loans granted under the Act, repayments due and made during the year, and balances outstanding at the beginning and end of the year in each province, or under each Local Government, shall be prepared by the Accountant-General and submitted to the Government of India through the Local Government, which shall add a report of the progress of the works. Such statement shall be published in the local official Gazette.

19. An attachment of any funds under Section 6 of the Act shall be made by a notice to the local authority prohibiting the collection or management of such funds by the local authority, and vesting the administration thereof in such officer as the Local Government may appoint. Such notice shall be published in the local official Gazette, and otherwise, as may be directed by the Local Government within the local limits of the Local Authority. The moneys collected or received under such attachment shall be paid into the Government treasury; and the accounts of moneys so collected, and of the cost of the collection shall be prepared in such form as the Local Government may from time to time direct. A copy of the accounts shall be delivered to the local authority, and published in the local official Gazette.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

Advertisements.

[N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

LAND SALE NOTICES.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate situate in the district of the Sonthal Pergunnahs will be put up to sale at the Dumka Collectorate on Friday, the 28th September 1883, corresponding with 13th Assin 1290 B.S.

The purchaser will be subject to the following conditions of sale :—

Conditions of Sale.

1*st*.—The estate to be sold revenue-free to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him.

2*nd*.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3*rd*.—If the amount of the purchase-money do not exceed Rs 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Calcutta, the 18th August 1883. (1438—1) G. H. SIMMONS, for Vice-Chairman.

NOTICE.

PUBLIC WORKS DEPARTMENT, IRRIGATION BRANCH.

1. OFFERS are invited from private firms or companies desirous of taking over the steam transport service now kept up by Government on the Sone Canals.

2. Copies of the following documents relating to the service may be had on application to the Under-Secretary in this Department, Writers' Buildings, Calcutta, or to the Superintending Engineer, Sone Circle, Arrah, Shahabad :—

I.—Description of the steamers employed.

II.—General rules under which the service is now conducted, shewing also the fares charged and distances run.

III.—Detailed statement shewing the receipts and working expenses of the service during the year 1882-83.

3. The tolls leviable, under Act V (B.C.) of 1864, on boats or steamers plying in the Sone Canals are shewn in a notice published in the *Calcutta Gazette* for the 18th January 1882, Part I, page 59. They are in amount as follows :—

	Per 100 maunds of displacement. Rs. A. P.
Arrah Canal—	
Dehree to Arrah railway bridge	2 3 0
Buxar Canal—	
Bedadi to railway, Buxar	2 0 0
Patna Canal—	
Baroon to railway, Khagoul	2 15 0

4. The purchase of the steamers now employed on the canals must form an integral part of any tender. The descriptions of the steamers referred to in paragraph 2 of this notice are believed to be correct, but persons proposing to tender should examine the boats for themselves, as no errors of description will be admitted as a reason for cancelling a tender.

5. Reduced rates of tolls may, for a period not exceeding one year, be stipulated for; but in that case the fixed intervals at which the steamers will run must be mentioned in the tender, and the maintenance of an effective service will be required as a condition of the concession.

6. The Government will, so long as a service is regularly carried on, cease from carrying passengers by boat or steamer, or goods not required for Government works.

7. No exclusive concession can be granted, the canals being open to all boats, whatever the motive power, on payment of the tolls prescribed by law.

8. It is proposed to make over the service, should a tender be accepted, from the 1st of October next, but a later date may be named.

9. All tenders must be addressed to the Secretary to the Government of Bengal in the Public Works Department, and must be accompanied by a receipt from the officer in charge of the Third Calcutta Division, or from some Executive Engineer for Rs. 500 earnest-money, to be forfeited if the person tendering fails to carry out the offer made. Tenders will be received up to the 1st of September next.

10. The highest or any tender will not necessarily be accepted.

J. M. HEYWOOD,

Joint-Secy. to the Govt. of Bengal,
P. W. Dept.

A thorough knowledge of English, with experience in revenue work and drafting letters, is essential. Application with copies of testimonials will be received till the 28th instant.

J. MONRO, Commissioner.

Commissioner's Office, Presidency Division, 14, Hare Street, Calcutta, the 13th August 1883.

BENGAL CIVIL FUND.

At the Half-yearly General Meeting of Subscribers held at the Town Hall on Wednesday, the 25th July 1883, at 10-15 A.M.

PRESENT —The Hon'ble W. F. McDonell, V.C.; H. A. Cockerell, Esq., C.S.I.; the Hon'ble L. R. Tottenham; J. Monro, Esq.; H. L. Harrison, Esq.; C. C. Stevens, Esq.; the Hon'ble J. O'Kinealy; J. Westland, Esq.; A. C. Tupp, Esq.; W. H. Grimley, Esq.; R. F. Rampini, Esq.; J. G. Charles, Esq.; J. Seobell Armstrong, Esq.; C. A. Wilkins, Esq.; C. E. Buckland, Esq.; C. W. Bolton, Esq.; F. E. Pargiter, Esq.; C. S. Dayley, Esq.

C. E. Buckland, Esq., in the Chair.

The following report was presented by the Managers:—

REPORT.

1. THE Managers submit the proceedings for the past half-year for the consideration and sanction of the meeting.

2. Subject to the approval of the Subscribers, they have admitted to the benefits of the Fund the following families.—

	£	
Mrs. Taylor	300	The widow and one daughter of the late Mr. T. Taylor (annuitant of 1852), who died in England on the 4th October 1882.
One daughter	100	
Total ...	400	
	£	
Mrs. Pears	300	The widow and three children (one daughter and two sons) of the late Mr. J. M. Pears, who died in India on the 4th January 1883.
Three children	240	
Total ...	540	
	£	
Miss Lang	150	The daughter of the late Mr. A. Lang (annuitant of 1852), who died in England on the 28th January 1883.
	£	
Mrs. Cochran	300	The widow of the late Mr. A. W. Cochran, who died at Dublin on the 16th February 1883.
	£	
Mrs. Tobin	300	The widow and three children (one son and two daughters) of the late Mr. H. M. Tobin, who died at Darjeeling on the 14th March 1883. The youngest child was a posthumous daughter born on the 18th April 1883.
Three children	90	
Total ...	390	
	£	
Mrs. Loch	300	The widow and one daughter of the late Mr. George Loch (annuitant of 1873), who died in England on the 19th March 1883.
One daughter	100	
Total ...	400	
	£	
Mrs. Dickens	300	The widow and one daughter of the late Mr. P. D. Dickens, who died in France on the 23rd March 1883.
One daughter	60	
Total ...	360	
	£	
Mrs. Robinson	300	The widow and four children (three daughters and one son) of the late Mr. H. C. T. Robinson, who died at Bannu on the 28th May 1883.
Four children	200	
Total .	500	
	£	
The Hon'ble Mrs. Forbes ...	300	The widow of the late Hon'ble R. Forbes, who died in England on the 2nd June 1883.
	£	
Mrs. Skipwith	300	The widow and one daughter of the late Mr. F. Skipwith (annuitant of 1857). The date of death cannot be stated in this instance, as the Agents of the Fund, who reported the occurrence by telegram, have omitted to furnish the date.
One daughter	100	
Total ...	400	

Admission has been granted with effect from the day after death.

3. Mr. A. Christie has incurred the penalty prescribed in Article XXXVII of the Rules by having neglected for more than one year to pay the necessary subscriptions to the Fund on his furlough allowance. Mr. Christie urges forgetfulness as his plea for the omission. As Mr. Christie has now paid up all arrears of subscription together with 8 per cent interest as required by the Rules, the Managers recommend his case to the favourable consideration of the meeting.

4. The votes of the Subscribers on the Resolution passed at the last General Meeting for the amendment of Article III of the Rules have been scrutinized with the following result:—

	For.	Against.
Amendment of Article III	122	1

5. In accordance with Article XXII of the Revised Rules, the Managers have to report that Mr. H. J. S. Cotton having obtained eight months' leave of absence tendered his resignation as an elected Manager, and that Mr. J. Monro was invited to join the Board of Managers in succession to Mr. Cotton.

6. The Managers will propose the following addition to, and amendment of, the rules:—

ARTICLE XXIX.

(*a.*)—In the second proviso for the words "continue the whole or any part of his pension," substitute the word "grant."

(*b.*)—In the same proviso, after the word "livelihood" insert "a pension not exceeding that to which he would be entitled if he had not passed the age of 21 years."

7. As regards the questions pending between the Secretary of State and the Civil Fund it will be remembered that the Secretary of State's decision on the question of the limit of the eight per cent fund, and his offer to take over the Fund were communicated in his despatch No. 16, dated 22nd December 1881. His calculations were based on a valuation of the Fund made by General Hannyngton for the date April 1st, 1875; and with his despatch he communicated General Hannyngton's report and a criticism of it by Mr. W. Sutton, the same Actuary who made for the Managers the valuations of 1878. The measure of benefits which he estimated that the Fund, on the conditions allowed by himself, could afford, and which he offered for the future to grant from it, was the unextended scale of the period before 1878, plus twenty-two lakhs worth (that is, two-thirds or three quarters) of the extensions made by the Fund with effect from 1878. The Managers replied on April 5th, 1882, comparing the hard terms which the Secretary of State desired to impose on the Bengal Fund with the great liberality shewn to Madras and Bombay, and claiming a concession in some remote degree approaching to that made to the last two Funds in accepting their *status quo* up to 1875. The Secretary of State answers in a despatch No. 12, dated 9th November 1882 (of which we have received a few paragraphs only) in which he admits that Bengal has received less assistance than Madras or Bombay, but denies any claim on our part to obtain equal terms now. He, however, so far advances the terms he offers as to consent not only to twenty-two lakhs worth, but to the whole of the extensions of benefits we made in 1880 (except Annuitant's "ordinary" subscriptions); but he considers that in doing so he is offering to take over a deficit of nine lakhs of rupees.

The Managers attach copy of that part of the despatch last quoted which they have received from the Government of India and also copy of the reply which they made to the Government upon the 20th March last.

Meantime Mr. Westland undertook a critical examination* of the valuations upon which the Secretary of State's case was based, and the conclusion he reaches is that the Fund is in a better position than the Secretary of State assumes, and that so far from there being a deficit of nine lakhs of rupees the assets of the Fund "even under the conditions imposed by the Secretary of State are quite equal to meeting all its liabilities. and it is upon this basis alone that any negotiations for its transfer to Government should be entered upon." The Managers have the matter still under consideration.

Proposed by *Mr. Stevens*, seconded by *Mr. Pargiter*, and carried unanimously—

That the Managers' proceedings in admitting the families of the late Messrs. T. Taylor J. M. Pears, A. Lang, A. W. Cochran, H. M. Tobin, Geo. Loch, P. D. Dickens, and H. C. T. Robinson, the Hon'ble R. Forbes, and Mr. F. Skipwith to the benefits of the Fund be confirmed.

Proposed by *Mr. Wilkins*, and seconded by *Mr. Stevens*, and carried unanimously, that Mr. A. Christie be restored to the full rights of a subscriber.

With reference to the proposed amendment of Article XXIX of the rules, *Mr. Westland* explained that the object of the alteration was merely to clear up an ambiguity in the wording of the article, and to enable the Managers to give effect to its real intention. Strictly speaking, the proviso which it was proposed to amend limited the power of the Managers to the *continuance* of the whole or a part of pension which an incumbent had drawn before he reached his majority. The rule, therefore, as it at present stood, did not allow the increase of the pension from £100 to £150, if the son became motherless after he was 21 years of age; whereas the limit would be £150, if the son had become motherless before attaining 21 years. Moreover, the practice of the Managers was to grant these pensions for a limited time only, so that the grant came up for reconsideration after the expiry of short periods. The Managers considered this practice a desirable one, on many grounds, and considered it advisable that the wording of the rule should more clearly cover it.

Proposed by the *Hon'ble W. E. McDonell*, seconded by *Mr. Westland*, and carried unanimously—

That the amendment to Article XXIX of the rules be confirmed, subject to the necessary sanction of the service.

The Chairman then read to the meeting paragraph 7 of the Managers' report, on which considerable discussion took place, and it was ultimately proposed by *Mr. Charles*, seconded by *Mr. Wilkins*, and carried unanimously—

"That the Managers be desired to take into early consideration the propriety of relieving annuitants of all their subscriptions according to pledges previously given by subscribers."

After a vote of thanks to the Chair the meeting dissolved.

CIVIL FUND OFFICE,
The 25th July 1883.

C. E. BUCKLAND,
Chairman.

* Mr. Westland's report has been printed and is available to any subscriber who may write to the Secretary for

Notice.

THE Public are hereby informed that the well-known Kartick Baruni Mêla, which is held every year on the banks of the Dhaleshwari, near Munshigunge, in the district of Dacca, will commence on the 11th November 1883 A.D., corresponding to the 29th Kartick 1290 B.S., and continue up to the 25th December 1883. Tradesmen, dealers, and others may buy and sell there during these six weeks.

A. W. PAUL, Magistrate of Dacca.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, Oudh Circle.

KANHYA LAL, in charge Byramghat Depôt.

The 22nd May 1878.

Serampore Municipality

DEBENTURE LOAN OF Rs. 20,000.

THE Commissioners have obtained the sanction of the Government of India, under section 7 of Act XI of 1879, "The Public Works Loan Act," to raise a loan of the above sum in the open market on the security of the rates, taxes, and fees levied by them under Act V of 1876 (B.C.), Regulation VI of 1879, Act I of 1871, Act V of 1866, Act V of 1861, Act II of 1867, Act IV of 1873, and Act VI of 1878.

Tenders are hereby invited, and will be received up to 1st October 1883, for the whole or any part of the above-named sum.

Negotiable debentures will issued of Rs 500 each, and the loan will be repayable by equal half-yearly instalments with interest at 4½ per cent. on the 1st April and 1st October, commencing on the 1st April 1884.

Parties tendering are required to pay into the sub-divisional treasury, to the credit of the Commissioners, 2 per cent. of the amount tendered by way of security.

Tenders to be made in prescribed form which may be had on application at the office of the Commissioners, and to be enclosed in sealed covers marked, "Serampore Municipality Market Loan."

The amount of the accepted tender or tenders to be paid in one instalment within one month from date of acceptance of tender.

The time for opening tenders will be duly intimated in writing to the tenderers.

F. R. S. COLLIER, Chairman.

(FORM OF TENDER.)

I do hereby tender for rupees of the loan advertised for in the *Calcutta Gazette*, dated the 18th July 1883, and agree to pay for the same subject to the conditions specified at the rate of rupees for every hundred allowed to me.

I enclose a deposit receipt of the Sub-divisional Treasury Officer for Rs. by way of security, and do hereby bind myself, if my tender be accepted, to pay to the credit of the Commissioners at the sub-divisional treasury office the whole sum tendered for by me before the 31st October 1883.

(FORM OF DEBENTURE.)

SERAMPORE MUNICIPALITY.

No. , dated 1883.

By virtue of the authority given by the Government of India under section 7 of Act XI of 1879, "The Public Works Loan Act," we, the Commissioners of the Municipality of Serampore, in consideration of the sum of Rs. 500 paid to us by of promise to repay in equal half-yearly instalments to the said or his heirs or assigns the said sum of Rs 500 after the date hereof, together with interest thereon at the rate of 4½ per cent. per annum payable half-yearly on the 1st April and 1st October.

Chairman.
(1334—6) Commissioners.

Notice

IS hereby given that the property described below will be held up for sale in the First Munsiff's Court at Barripore, 24-Pergunnahs, at 12 noon on the 3rd day of September 1883, in the execution case No. 143 of 1883, Dvaraka Nath Bidyabhushan *versus* Pantumoni Debi, heir and minor daughter of late Kedarnath Chakravartti, represented by her guardian Dakhyayani Debi. The said property, viz. taluk No. 300, together with taluk No. 293, was mortgaged, firstly, to Haranath Haldar of Barripore for Rs 1,000, and, secondly, to the decree-holder for Rs. 2,029, and that the said taluk No. 300 will be sold subject to those mortgage debts, together with interest at the rate specified in the mortgage deeds.

Description of Property.

Kismut Madhavpur in pergunnah Medanmalla, thana Barripore, district 24-Pergunnahs, registered in the touzi of the Collectorate of 24-Pergunnahs as No. 300, the annual revenue of which is Rs. 1 8 15-6.

(1133—1) A. K. SARVADHIKARI, First Munsiff.

Notification.

JOHN ELIOT, M.A., *Meteorological Reporter to the Govt. of Bengal.*

CALCUTTA, the 26th August 1875.

Notes on Forestry,

By C. F. AMERY,

Deputy Conservator, Forests, N.-W. Provinces.

THIS little work, published with the approval of the Government of India, treats of the general principles of forest management in all its branches, and is recommended not only to forest officers, but to all who are interested in the progress of forest management in this country.

May be obtained of Messrs. King, King & Co., Bombay, and of Messrs. Wyman & Co., Calcutta. Price Rs. 3-8, or including postage, Rs. 4. Or of the publishers, Messrs. Trübner & Co., Ludgate Hill, London. Price five shillings.

Notice.

THE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:—

1st.—Bay of Bengal Daily Report giving observations taken at 17 stations on or near the coast of the Bay, with a chart and summary This is published in connection with the Calcutta Storm Signal Service. The report giving 10 A.M. observations of the day is distributed by peon in Calcutta after 4 P.M. Price to subscribers in Calcutta, Rs. 2 per mensem.

2nd.—Bengal Daily Report containing observations taken at 30 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, *i.e.* from May, 15th, to November, 15th. Price Rs. 2-8 per mensem, including postage.

3rd.—A Weekly and Monthly Statement of Meteorological Observations taken at 38 observing stations, and of rainfall recorded at 160 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

JOHN ELIOT,
Meteorological Reporter to the Govt. of Bengal.
Meteorological Office, Bengal, the 3rd July 1883.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 18*th August* 1883.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.			
	Western Districts.		
BURDWAN DIVN. 1	Burdwan. Aug 18 '83	4·89	Weather—very rainy. Transplanting still going on. Prospects favourable. Public health fair.
	Culna ..	4·1	
	Cutwa ..	3·8	
	Raneegunge .	2·18	
2	Baykoora, „ 18 „	3·33	Weather—cloudy and sultry. Both early and late rice crops growing luxuriantly. Transplanting of late rice nearly at an end. Indigo being manufactured. Public health good.
	Bishenpore ...	3·46	
	Maliara .	2·06	
	Khatra ...	2·39	
3	Beerbhoom, „ 18 „	2·96	Weather—seasonable. Transplanting of *aman* crop approaching completion. Prospects of the crop generally good. Prices of food-grains moderate. Health of district satisfactory.
	Rampore Haut ..	0·64	
4	Midnapore ...	... ..	Report not received.
	Hooghly, „ 18 ..	1·39	Weather—hot and rainy. Prospects of crops good. There have been some cases of cholera in Hooghly, Mahesh and Boro. Otherwise public health good.
	Howrah „ 20 „	0·84	Heavy rain in south. *Aus* harvest commenced. *Aman* transplanting continues
	Oolooberia ...	5·05	Some loss from floods. Jute being cut. Sugarcane doing well.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date
BENGAL.—*concld.*			
	Central Districts.		
	6 24-Pergunnahs. Aug. 20 '83	1·3	Weather - hot and clear. Prospects of both early and late crops good. Transplanting of late rice going on. Public health good.
Presidency Divn.	7 Nuddea, „ 18 „	.....	Weather—cloudy, rainy, and sultry. State of crops fair. Harvesting of *aus* commenced. Mortality from fever decreased.
	Kooshtea ...	2·33	
	Meherpore ..	3·81	
	Choondanga ...	1·58	
	8 Khoolna, „ 18 „	1·79	Weather—hot, with occasional rain. Cutting of *aus* rice and transplanting of *amun* rice continue. Public health good.
	9 Jessore, „ 18 „	1·99	Weather—normal. Transplanting of *amun* continues. Harvesting of *aus* still in progress. Prospects favourable. Cases of fever reported from Magura and Bongong.
	Jhenida ...	2·30	
	Magura ...	0·10	
	Narail ..	2·08	
	Bongong ...	1·40	
	10 Moorshedabad, „ 18 „	2·80	Weather—cloudy and rainy. *Bhadoi* is being harvested. *Amun* is being still transplanted. Prospects of the crops are favourable. Public health is generally good.
Rajshahye and Cooch Behar Divn.	11 Dinagepore Aug. 17 '83	5·09	Weather—seasonable, with constant rain. The rain during the week has been of much use for the transplanting of *amun*. The cutting of *bhadoi* is going on. Rice selling at from 16 to 23 seers per rupee
	12 Rajshahye, „ 18 „	0·52	Weather showery. Crops benefited by rain and by rise in rivers. Fever bad in one or two police stations.
	Nattore ..	1·78	
	Nowgong ...	0·42	
	13 Rungpore „ 18 „	1·81	Weather—hot and cloudy, with occasional rain. Prospects of ginger, turmeric, and sugarcane continue good. *Amun* is being transplanted. *Aus* and jute being cut with fair outturn. Public health good. Only one case of cholera has been reported from Kaligunge station.
	Nilphamari ...	3·63	
	Kurigram ...	3·42	
	Gaibanda ...	3·27	
	14 Bogra „ 18 ...	1·14	Weather—sultry. Scanty rainfall on four days. Transplanting of *amun* continues. *Aus* and jute being harvested. A few cases of fever reported from police-stations and outposts.
	15 Pubna. „ 18 „	1·18	Weather—rather dry, with heavy showers occasionally. Crops progressing well. Rice good. Jute inferior
	16 Darjeeling, „ 18 „	5·92	Weather—brighter than usual for the season in the hills Harvest of Indian-corn and *choto murwa* has commenced with average outturns. Transplanting of *hoimanti* paddy continues. Public health good.
	17 Jalpigoree, „ 18 „	6·22	Weather—seasonable. Prospects of crops generally promising. Jute and *bhadoi* reported as backward from two stations. Public health improving,
	Cooch Behar „ 17 ... up to 15th.	14·93	After very heavy rain a partial break has now set in, and the weather is very hot, except when breezes bring up showers. The prospects of the late rice crop are generally good, though the area of cultivation may be somewhat restricted, and the transplanting being deferred owing to previous dry weather. Jute promises fairly well. Public health good.
	Dinhatta .. up to 12th.	8·72	
	Mathabhanga ... up to 11th.	29·66	
	Meckligunge .. up to 11th	18·39	
	Eastern Districts		
Dacca Divn.	18 Dacca Aug. 18 '83	1·53	Weather—seasonable. *Aus* paddy and jute are being cut. *Roachia* paddy, *moong*, and *mashkalai* are being sown. Prospects of crops food.
	Manickgunge ..	1·16	
	Munshigunge ...	2·35	
	Narainguage ...	1·42	
	19 Furreedpore, „ 18 „	0·69	Weather—very hot, and generally fine. Harvesting of *aus* rice continues. Cutting of jute going on, and some being steeped. Outturn fair. Sugarcane and *amun* rice doing well. Public health very fair.
	Goalundo ...	0·25	
	Madaripore ...	0·76	
	20 Backergunge, „ 16 „	0·57	Weather—seasonable. Prospects of crops good. Public health good. Cattle-disease still prevailing in the sub-division of Patuakhali.
	21 Mymensingh, „ 17 „	3·78	Weather—cloudy, with moist warm air and daily showers. *Aus* and jute being cut with only moderate outturn owing to previous draught Transplanting of *amun* now nearly completed. Fever prevalent in south-east.
	Jamalpore ...	2·90	
	Kishoregunge ...	5·56	
	Attea ...	2·96	
	Netrokona ...	6·03	
Chittagong Divn.	22 Chittagong, Aug. 21 '83	0·20	Weather—generally hot. Transplanting continues. Prospects fair. Prices steady. Cattle-disease not abated.
	23 Noakholly, „ 16 „	1·87	Weather—cloudy; rain at intervals. Reaping of *aus* paddy and transplanting of *amun* continue.
	24 Tipperah, „ 16 „	4·39	Weather—seasonable. Prospects of crops good. In some parts of the district blight is appearing. Transplanting of paddy still continues.
	Brahmunbaria ..	3·18	
	Chandpore ...	4·45	
	25 Chittagong Hill Tracts, „ 14 „	8·15	Heavy rain throughout the week at intervals. Harvesting of *joom* paddy begun. Plough paddy being rapidly transplanted. Prospects of all crops but cotton good.
	Hill Tipperah „ 16 „	3·68	Weather—rainy. *Amun* paddy still being transplanted. *Satya* paddy and *til* continue to be reaped. Sugarcane doing well. Public health good.
BEHAR.			
Patna Divn.	26 Patna. Aug 18 '83	2·69	Weather—hot. Transplanting of paddy is going on. Prospects of *bhadoi* crops good in Barh sub-division, but not so in Sudder and Behar sub-divisions, where damages have been caused by inundation. Cholera reported from Barh and Behar sub-divisions.
	Barh ...	0·7	
	Behar ...	0·63	
	27 Gya. „ 18 „	Nil	Weather—cloudy. Maximum reading of thermometer in shade 95·6°. Transplanting of rice going on. More rain wanted. *Bhadoi* doing well. Cholera abating.
	Nowada .	Nil	
	Aurungabad ...	Nil	
	28 Shahabad, „ 18 „	0·74	Weather—hot and clear. Transplanting of paddy seedlings in progress. Prospects of *bhadoi* crops fair. Cholera and fever reported from Bhabhooa sub-division.
	Buxar ...	0·08	
	Bhabooah ...	Nil	
	29 Durbhunga, „ 18 „	1·90	Weather—close and cloudy. State and prospects of crops generally favourable throughout the district, except where the inundation from the Kamla and Bagmati rivers overflowing their banks has submerged the country, and done some damages to the crops.

No.	District, and date of return				Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR—*concld.*						
Eastern Districts.—concld.						
Patna Divn.—*concld.*	30	Mozufferpore.	Aug.	18 '83	3·94	Weather—mostly hot and bright, occasionally cloudy with rain. The Gunduck, Bagmati, and other snow-fed rivers are in exceptionally high flood, and have inundated a large portion of the district. Immense damage both to the *bhadoi* and *aghani* crops is inevitable. Fortunately neither of the two river embankments which the district possesses has been breached. Many district roads and bridges have been destroyed or injured. Mozufferpore town is under water. The Gunduck and Bagmati are now falling, but the Little Gunduck is still rising.
		Hajeepore		...	2·22	
		Seetamurhee		...	2·72	
	31	Sarun,	„	18 „	0·91	Weather—very hot and sultry, with occasional drizzling rain. Prospects of *makai* and other *bhadoi* crops continue to be fair, but they have been somewhat injured by rain. About 8 annas of the paddy crop has been already transplanted. Public health on the whole good.
		Sewan		..	1·16	
		Gopalgunge		...	1·39	
	32	Chumparun	„	18 „	6·79	Weather—cloudy, with heavy showers. Owing to the Sikrehun and Gunduck being in very high flood—it is said the highest on record—their waters have spilled over a large area of country, and have caused very great damage to the standing crops. General health good
Bhagulpore Divn.	33	Monghyr	Aug.	18 '83	0·60	Weather—hot and sultry. A break in the rains. Prospects of crops favourable. Cholera abating in Monghyr town.
	34	Bhagulpore,	„	18 „	3·28	Weather—occasional showers of rain during the week. State and prospects of crops favourable. Low lands flooded, and some damage will be expected to crops, if waters do not subside soon.
	35	Purneah.	„	18 „	1·51	Weather—seasonable. *Bhadoi* crop good everywhere. *Aghani* crop doing well. Floods in several parts of the district, but no reports of serious damage.
		Kissengunge		..	8·47	
		Arrareah		...	6·11	
	36	Maldah,	„	18 „	1·16	Rainfall moderate; atmosphere humid. Reaping of *bhadoi* paddy has begun; an average outturn is expected. Late rice being transplanted. General health good.
	37	Sonthal Pergha.	„	18 „	4·40	Rainfall very uneven, in some places ample, in others scanty. Weather everywhere warm. Transplanting of rice nearly done. Prospects of this crop very promising. Health good.
		Deoghur		..	0·31	
		Rajmehal		...	1·07	
		Jamtara		..	3·88	
		Pakour		...	0·74	
ORISSA.						
Orissa Divn.	38	Cuttack	Aug.	17 '83	1·47	Weather—cool and cloudy *Sarad* being weeded. *Beali* promising well, and in some places in ears. Cotton being plucked. Sugarcane and turmeric doing well. Common rice selling at from 20 to 25 seers per rupee. Public health good.
	39	Pooree,	„	16 „	0·67	Weather—hot, with occasional showers. Weeding and transplanting of *sarad* paddy still going on. Miscellaneous crops thriving. Prices stationary. Cholera still reported from town and mofussil.
		Khoorda		...	2·23	
	40	Balasore.	„	17 „	3·49	Weather—rainy and close Transplanting of paddy progressing actively. Re-sowing going on in some places, where the young plants were destroyed by the late overflow of the Subornarekha river. Public health good.
CHOTA NAGPORE *South-West Frontier Agency.*						
	41	Hazaribagh,	Aug.	17 '83	0·03	Weather—warm and cloudy. Prospects of crops continue good, but a general want of rain preventing transplanting operations has been felt nearly all over the district. Cholera seems to be abating. General health good.
	42	Lohardugga,	„	18 „	Nil	Weather—cloudy. Rain wanted for transplanting and for upland paddy. Cholera apparently on the decrease in Palamow. No cattle disease
	43	Singbhoom,	„	17 „	2·40	Weather—very unsettled, high winds and thunder-storms. All crops doing well, and prospects everywhere favourable. Indian-corn and millet ripening with good promise. Public health good.
	44	Manbhoom,	„	18 ...	2·70	Weather—cool and rainy. Prospects of rice crop excellent. *Biri, moog*, cotton and sugarcane are growing. Their prospects reported to be favourable. Public health generally good. A few cases of simple fever reported from the Para outpost, and one death from small-pox from the Topechanci police-station on the Grand Trunk Road.
